

Drawing Conclusions

Name: _____ Date: _____

Discover the challenges your settlement group faced in early Canada.

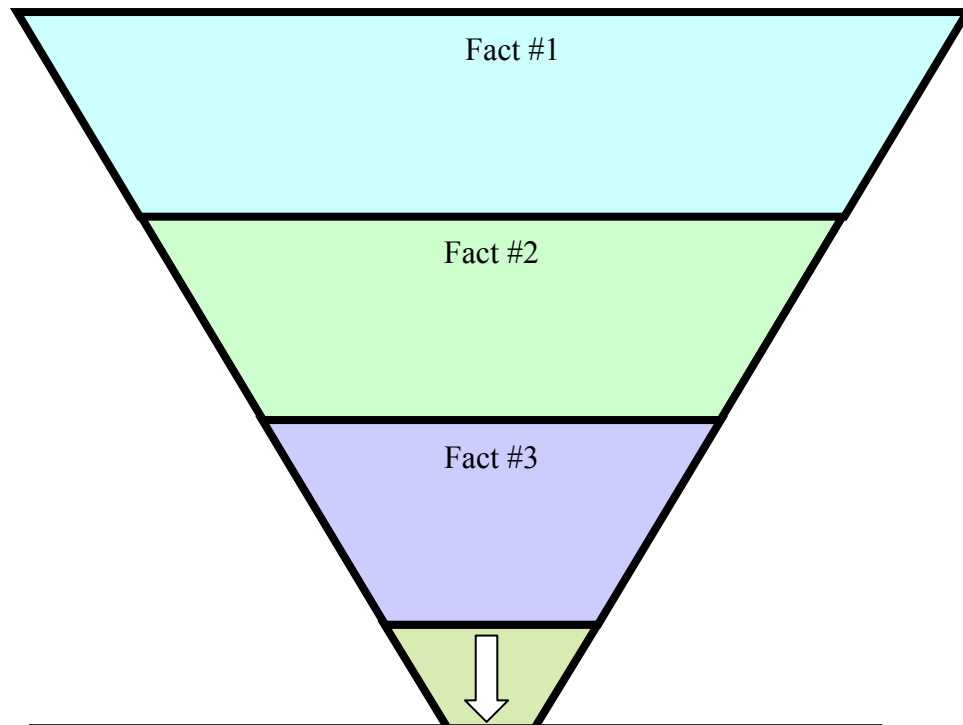

- Choose a challenge like finding food or transportation or building a home.
- Find facts from *The Kids' Site of Canadian Settlement* and primary sources that tell something about your challenge.
- Then draw a conclusion about the challenge (e.g.: The group ate a lot of different kinds of foods).

See how many challenges you can complete. If you need more pyramids you can draw them yourself on another sheet of paper.

Settlement Group: _____

Challenge: _____

Conclusion:

Drawing Conclusions

Name(s): _____ Date: _____

Settlement Group: _____ Number of Challenges Explored: _____

Instructions

Excellent	Good	Fair	Needs Improvement
			

Fill in the pyramid at the end of line to show your the level of success in this activity.

The challenge(s) chosen was/were the best ones to show what life was like in the settlement group.	
The facts chosen to describe the challenge(s) are accurate and tell a lot about the challenge(s).	
The conclusion(s) made sums/sum up how the challenge(s) affected the settlement group.	
If a group activity: All group members were highly involved and cooperative.
