Introduction to Supplementary Estimates

Structure of these Supplementary Estimates

This Supplementary Estimates document is laid out in three distinct sections:

1. *Introduction to Supplementary Estimates;*
2. *Summary Tables;*
3. *Detail by Department, Agency and Crown corporation.*

The substance of these Supplementary Estimates is provided in the summary tables and the detail by department, agency and main Crown corporations. The introduction lays out the context for these Supplementary Estimates by providing an overview of its various elements.

Over the past few years, a number of changes have been made to the format of the Supplementary Estimates in order to improve the transparency of the information being presented and to ensure consistency with other Estimates documents. In particular, the presentation of individual departmental requirements provides more detail on the nature of the transaction as well as where funds are available within a department's existing spending authority that can be used to offset new spending requirements.

In addition, a number of new summary tables were added to facilitate the review of the Estimates by researchers, parliamentary committees, and Canadians. These new tables include: an overview of the major items being requested in these Supplementary Estimates; a standard object of expenditure summary; a summary of horizontal initiatives (where more than one organization is contributing to a shared outcome); a summary of \$1 items included in these Supplementary Estimates; a summary of transfers between organizations; and changes reflected in these Supplementary Estimates since the tabling of Main Estimates.

These Supplementary Estimates continue to build on these improvements by refining some of the information that was introduced in the 2005-2006 Supplementary Estimates.

Improvements to the Supplementary Estimates are an iterative process and in support of the overarching objective of government to enhance its accountability to Parliament through improved financial and performance information.

Purpose and General Information

Supplementary Estimates documents are tabled in Parliament approximately one month in advance of the related appropriation bill¹. This period is intended to provide Standing Committees of Parliament with sufficient time to review proposed spending before introduction of the Bill.

The purpose of Supplementary Estimates is to present to Parliament information on the Government of Canada's spending requirements, which were not sufficiently developed in time for inclusion in the Main Estimates. Supplementary Estimates also provide an update on significant changes to expenditure forecasts of major statutory items. In addition, they are used to seek parliamentary approval for such items as: transfers of money between votes; debt deletion; loan guarantees; new or increased grants; and changes to vote wording.

¹ Parliament's approval of an Appropriation Bill provides the necessary authority for the Government of Canada to spend monies from the Consolidated Revenue Fund. The Government of Canada uses these funds to carry out its programs and services.

Introduction to Supplementary Estimates

Normally there are two Supplementary Estimates documents tabled each year. Each document is identified sequentially by letter (A, B, C, etc.). The first regular Supplementary Estimates document is normally tabled in late October and the final document in February. Depending on the urgency and on timing requirements related to government spending priorities, additional Supplementary Estimates may be tabled.

Spending Authority

The Supplementary Estimates present information on budgetary and non-budgetary spending authorities which are displayed for both voted and statutory expenditures.

Budgetary expenditures include:

- Cost of servicing the public debt;
- Operating and capital expenditures;
- Transfer payments to other levels of government, organizations or individuals; and
- Payments to Crown corporations.

Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.

Voted expenditures are those for which parliamentary authority is sought through an annual appropriation bill.

Statutory expenditures are those authorized by Parliament through enabling legislation.

Overview of these Supplementary Estimates

Table 1 provides a financial overview of these Supplementary Estimates.

Table 1 – Total Supplementary Estimates (\$ billions)

	Budgetary	Non-Budgetary	Total
Voted Appropriations	\$5.0	\$0.0	\$5.0
Statutory Authorities	\$4.2	\$0.0	\$4.2
Total	\$9.2	\$0.0	\$9.2

Spending in the Supplementary Estimates is consistent with the planned expenses framework established in the Minister of Finance's most recent Budget or Economic and Fiscal Update. For the purposes of these Supplementary Estimates, the most recent reference is the May 2006 Budget.

Introduction to Supplementary Estimates

Where differences exist between the to-date total budgetary Estimates and planned budgetary expenses for 2006-2007, these differences are attributable largely to the following:

- a net adjustment, to account for major components of budgetary expenses that are affected by the move in Budget 2006 from a net basis to a gross basis of presentation (the Canada Child Tax Benefit, departmental revenues levied for specific services and revenues of consolidated Crown corporations);
- expenditures which, for Budget and accounting purposes, have been charged to prior years to coincide with the timing of when the obligations were incurred;
- accrual accounting adjustments, as well as the recognition of 2006-2007 liabilities, for items that, while being recognized, do not require appropriations (i.e., cash) this year; and,
- program expenses, identified in a Budget or an Economic and Fiscal Update, that have yet to be allocated to a department.

Table 2 provides a reconciliation of these differences.

Table 2 – Budgetary Expenditures (\$ billions)

Budget – May 2006				\$223.6
<i>Estimates to-date:</i>				
2006-2007 Main Estimates*	\$198.7			
Supplementary Estimates (A), 2006-2007	\$9.2	\$207.9		
<i>Adjustments:</i>				
Net adjustment, from net to gross basis of Budget presentation	\$14.0			
Other adjustments**	\$1.7	\$15.7		\$223.6
Variance				\$0

* Includes \$100.7 million for Canada Revenue Agency and \$42.8 million for Parks Canada Agency from 2005-2006 non-lapsing appropriations.

** Other adjustments, consisting of cash disbursements for capital acquisition, expenditures charged to prior years and program expenses not yet allocated.

Overview of 2006-2007 to-date (Supply issues)

Parliament returned on April 3, 2006 following the general election held on January 23, 2006. The timing is notable in a number of respects:

- Since the government was unable to table its 2006-2007 Main Estimates before March 1st, 2006 in accordance with House of Commons Standing Orders, interim supply was not approved in time for the commencement of the 2006-2007 fiscal year. As a consequence, a Governor General Special Warrant for \$11.5 billion was issued on April 1, 2006 to ensure that the core operations of government could continue until the government could table the 2006-2007 Main Estimates and obtain approval for interim supply. The Special Warrant covered a 45-day period from April 1, 2006 to May 15, 2006.

Introduction to Supplementary Estimates

- In order to deal with the supply requirements outside of the normal supply calendar, a Special Order was required and introduced on April 4, 2006. The concurrence of the motion by Parliament allowed the government to do the following:
 - Table the 2006-2007 Main Estimates on April 25, 2006;
 - Table an interim supply bill for the 2006-2007 Main Estimates on May 3, 2006 for 9/12ths of the total supply requirements. As a result, full supply was deferred until December 2006;
 - Have Committees report back (or be deemed to report back) on November 10, 2006; and,
 - Defer the tabling of the 2006-2007 departmental Reports on Plans and Priorities until the fall (September 26, 2006).
- The government tabled the 2006 Budget on May 2, 2006. With this Budget, the government moved from the practice of netting revenues and expenses and, for the first time, presented the Budget on a gross basis. The three major components that are affected by the change are the Canada Child Tax Benefit (previously netted against personal income tax revenues); departmental revenues that are levied for specific services such as contract policing in certain provinces (which were netted against expenses) and the revenues of consolidated Crown corporations (which were previously netted against their total expenses). In addition, a number of organizations (for example, foundations) were consolidated within the government reporting entity, from a budgetary perspective.

The deferral of full supply to December 2006 has an impact on many of the transactions reflected in these Supplementary Estimates, primarily transactions relating to machinery of government changes. As Parliament has only approved roughly 75 percent of departmental spending, departments affected by the machinery changes (i.e., Foreign Affairs and International Trade, the Royal Canadian Mounted Police and the Canadian Firearms Centre) and requiring a transfer of spending authority from one organization to another cannot complete the transactions through these Supplementary Estimates. At this time, and respecting parliamentary privilege, only that portion that has Parliament's approval for 2006-2007 can be transferred with the balance to be transferred once full supply of the Main Estimates has been approved. Therefore, the transactions for 2006-2007 will be completed through Supplementary Estimates (B). In the interim (and pending approval of full supply and, subsequently, Supplementary Estimates (B)), the resources for the affected organizations will be presented under the old and new structures. While this is an awkward solution, there are a number of precedents, most recently in 2004, and is consistent with Parliament's prerogative in approving supply.

Finally, the timing of the Budget on the heels of the 2006-2007 Main Estimates precluded the government from requesting spending authority for any of the newly announced measures until these Supplementary Estimates. As well as including requests for spending authority relating to new Budget measures, these Supplementary Estimates reflect certain spending restraint initiatives announced recently.

Introduction to Supplementary Estimates

Overview of Major changes to Budgetary Spending

The following provides an overview of the major items in **total budgetary spending** (voted and statutory) affecting the increase of \$9.2 billion presented in these Supplementary Estimates.

1. *Voted budgetary spending is forecast to increase by \$5.0 billion and is largely attributable to the following key initiatives:*

a. *Major initiatives affecting more than one organization:*

Operating budget carry forward (\$1,003.2 million)

These Supplementary Estimates include a total request of \$1,003.2 million from 80 departments and agencies to include an operating budget carry forward in their Supplementary Estimates.

With the introduction of the Operating Budget regime in April 1993, all appropriation-dependent departments and agencies became eligible to apply for a two percent carry forward of qualifying lapsed operating budget funds, subject to Treasury Board control. In February 1994, the Treasury Board authorized an increase to five percent in the limit on the amount of the carry forward; this was subsequently announced in the 1994 Budget.

The presentation of these operating budget carry forwards in the Supplementary Estimates provides increased transparency on the use of this mechanism by departments.

Compensation for salary adjustment (\$478.4 million)

Funding to compensate departments, agencies and appropriation-dependent Crown corporations for the impact of collective bargaining agreements, and other related adjustments to terms and conditions of service or employment. The costs result from signed collective agreements and other related adjustments to terms and conditions of service or employment made between August 1, 2005 and July 31, 2006.

Funding for the Canada Strategic Infrastructure Fund relating to investments in public infrastructure projects designed to improve the quality of life in both urban and rural communities (\$218.2 million)

Budgets 2001 and 2003 earmarked a total of \$4 billion towards the Canada Strategic Infrastructure Fund (CSIF) for large-scale strategic infrastructure projects to improve the quality of life of Canadians and further economic growth in Canada. Budget 2006 committed an additional \$2 billion for infrastructure investments, bringing the total to \$6 billion. The program outcomes of the CSIF will result in safe and efficient highways and rail; increased tourism; improved access to clean and safe water in targeted communities; and increased online access to key services in recipient communities.

The funding requested in these Supplementary Estimates for CSIF will allow the continuation of projects that are already underway as well as the implementation of several new projects in the areas of highway construction, public infrastructure systems, public transportation and the redevelopment of industrial sites. The Office of Infrastructure of Canada is requesting most of the funding, with a small amount being requested by Western Economic Diversification. The Office of Infrastructure of Canada also transfers small amounts of funds to other departments to cover the management of certain projects that they deliver.

Introduction to Supplementary Estimates

Public security initiatives (\$153 million)

Since Budget 2001, the Government has announced incremental funding of approximately \$9.4 billion for public security and anti-terrorism initiatives. This includes initiatives announced as part of the 2004 National Security Policy, the Security and Prosperity Partnership in North America and the Western Hemisphere Travel Initiative. Specific levels of investment announced since Budget 2001 are as follows:

- Budget 2001: \$7.7 billion
- Budget 2003: \$0.1 billion
- Budget 2004: \$0.6 billion
- Budget 2005: \$1.0 billion
- Budget 2006: \$3.1 billion
\$12.5 billion

Public security investments support three core national security interests:

- the protection of Canada and Canadians at home and abroad;
- ensuring Canada is not a base for threats to allies, and;
- contributing to international security.

Five departments are seeking a total of \$153 million through these Supplementary Estimates to implement initiatives designed to strengthen public security. These initiatives support the integrity of Canada's border, customs and transportation programs.

Funding for existing climate change programs pending the finalization of a new environmental agenda (\$82.8 million)

Pending the development of a new environmental agenda for Canada, interim funding is being sought in these Supplementary Estimates to limit disruption in programming, to complete work on research projects that are already underway, to respect contractual obligations and to honour commitments..

Funding to improve the capacity to detect and the readiness to respond to a potential avian or pandemic influenza outbreak including emergency preparedness, research, antiviral stockpiling and rapid vaccine development technology (\$52.9 million)

Budget 2006 committed \$1 billion over the next five years to improve Canada's preparedness to deal with a potential pandemic. Funding sought in these Supplementary Estimates will allow the implementation of a suite of program enhancements and the purchase of antiviral drugs, protective equipment for first responders and the strengthening of the Government's response capacity in consultation with other levels of government.

Introduction to Supplementary Estimates

b. Major Specific Initiatives:

Funding for the Department of National Defence to generate and sustain relevant and responsive Canadian Forces, and to conduct operations in order to carry out defence objectives (\$955.9 million)

Budget 2005 committed to inject up to \$12.8 billion into the Defence budget over five years. Building on and enhancing that commitment, Budget 2006 committed a further \$5.3 billion over five years. In these Supplementary Estimates, the Department of National Defence (DND) is seeking supplementary funding for the following major items:

- Funding to strengthen the Canadian Forces' independent capacity to defend Canada's national sovereignty and security (Canada First) (\$418.1 million)

The Canadian Forces have responded to a significant number of operational demands over recent years and this high demand is expected to continue due to increasing global instability. As a result, National Defence is facing critical gaps in sustaining Canadian Forces operations in order to meet current and future domestic objectives for defence and security.

This funding is intended to address the following gaps:

- training and operational readiness;
- repairs and maintenance of vehicles and equipment;
- rising fuel and utility costs; and,
- aging infrastructure

These funds will also support initiatives to attract and enrol quality recruits to reach expansion targets of 70,000 regular force personnel and 30,000 reservists; the Canadian Forces want to ensure a presence in major urban centres across Canada and establish a Canadian military presence in the Arctic region.

- Support for the Canadian Forces' role in Afghanistan (\$202.6 million)

The additional funding will go towards two key initiatives relating to the Afghanistan mission:

1) Continued leadership role in Afghanistan for the Canadian Forces (\$89 million)

This initiative is in response to the commitment to extend the Canadian Forces mission to 2009. These funds will be used primarily for: the Kandahar Provincial Reconstruction Team to assist in extending the Afghan government's authority to areas outside Kabul, the command, support and advisory functions necessary for day-to-day military leadership, the repair and upgrading of force protection measures for existing facilities, the replacement of temporary accommodations with semi-permanent accommodations that meet Canadian health and safety standards, and the provision of additional equipment and vehicles.

Introduction to Supplementary Estimates

2) Enhancements to the Canadian Forces mission in Afghanistan (\$113.6 million)

With the decision to continue the leadership role in Afghanistan, the threat posed by enemy forces has evolved and increased, putting the safety of Canadian military and civilian personnel working in the region at high risk. These funds will carry through on the commitment to provide additional protection for Canadian military and civilian personnel working in Afghanistan by enabling the transportation of heavy armoured tanks to the region, providing a counter-mortar system to protect Canadian Forces installations that are being targeted with indirect mortar fire and providing the necessary vehicles that can identify and dispose of explosive devices without harm to Canadian personnel tasked with this activity.

- *Increases to pay and allowances for Canadian Forces members (\$177.1 million)*

This funding will cover general pay and benefit increases to Canadian Forces members. Of the total, \$172 million is for Canadian Forces non-commissioned members, general service officers, including pilots, ranked Lieutenant Colonel and below, and medical and dental officers in the rank of Lieutenant and Second Lieutenant. An additional \$5.1 million will go towards specific pay and benefit increases to medical and dental officers.

It should be noted that Canadian Forces pay increases are based on Public Service pay rate comparability models designed in 1971 and that a new methodology to simplify these models and create new benchmarks is underway.

- *Funding to address major capital acquisitions (\$158.1 million)*

The incremental funding is intended to address initiatives such as the following:

- To acquire a strategic airlift capability that will move large numbers of troops and equipment over long distances (\$132.3 million);
- To acquire new medium sized military trucks to transport troops and supplies (\$12 million);
- To acquire medium-to-heavy lift helicopters to move troops and equipment into remote areas (\$8.5 million); and,
- To acquire a tactical airlift capability that will provide planes to transport troops and equipment over short distances within a region (\$5.3 million).

Funding to the Department of Agriculture and Agri-Food for the Canadian Farm Families Options Program (\$240 million)

As part of the Action Plan for the Agricultural Sector announced in Budget 2006, this two-year pilot program will provide support to eligible producers in all provinces while they participate in farm business advisory and skills services intended to improve business management skills and increase profitability.

Increased funding to Foreign Affairs and International Trade to provide relief to several heavily indebted poor countries through the forgiveness of certain principal and interest amounts of sovereign debts due to the Crown (\$122.2 million)

The Department of Foreign Affairs and International Trade is seeking the Canadian equivalent of US\$110.1 million (approximately CDN\$122.2 million) in these Supplementary Estimates to forgive the debt of six countries (Cameroon, Republic of Congo, Madagascar, Rwanda, Tanzania and Zambia) that met the criteria of the Heavily Indebted Poor Countries Initiative.

Introduction to Supplementary Estimates

Funding to the Department of Agriculture and Agri-Food to support the implementation of the Agricultural Policy Framework (\$100.3 million)

Agriculture and Agri-Food launched the Agricultural Policy Framework in 2002. The Agricultural Policy Framework brings together five key elements: Business Risk Management, Environment, Food Safety and Quality, Renewal, and Science and Innovation, with the goal to help Canadian agriculture maximize its opportunities in world markets. Agriculture and Agri-Food has signed Framework Agreements with all provinces and territories to deliver on the objectives of the framework.

These Supplementary Estimates include \$100.3 million in additional funding to support the implementation of the Agricultural Policy Framework.

Funding to the Department of Fisheries and Oceans to sustain the delivery of programs and services and to ensure an appropriate level of funding to stabilize core operations (\$97.5 million)

Budget 2006 announced an ongoing increase in funding to offset rising costs that have been faced by Fisheries and Oceans for fuel, legal costs, and human resources as well as for the restoration of its aging capital asset base. This funding will also support the modernization of the delivery of core programs and services provided by the department.

Funding for Public Works and Government Services to support a suite of secure channel infrastructure services to allow federal departments, Canadian citizens and businesses, and public servants to conduct electronic transactions in a secure environment and access government of Canada information and services (\$94.2 million)

The Secure Channel provides the suite of services that allows federal departments to implement programs enabling Canadian citizens and businesses, as well as public servants, to conduct electronic transactions in a secure and trusted environment as well as the ability to access Government of Canada information and services in the manner that best meets their needs. The most commonly used informational (63) and transactional (67) services are now on-line (130 in total). These services complement the more traditional service delivery channels (in-person, telephone, mail).

Funding to Veterans Affairs for grants relating to disability and death pensions for veterans and their survivors (\$79.5 million)

This additional funding is related primarily to a higher than expected inflation adjustment effective January 1, 2006 (\$69.5 million) and an increase in the forecast for client numbers and average payments per client (\$10 million).

Funding to Industry Canada to support strategic investments in innovation under the Technology Partnerships Canada program (\$76.2 million)

This program was designed to fill a gap in the innovation continuum by providing assistance to Canadian companies so that they can perform the research and development needed to take new technologies closer to the marketplace. Assistance is provided via repayable contributions that are to be recycled to help fund additional investments and related operations. The funds sought in these Supplementary Estimates represent repayments made by recipients in 2005-2006.

Introduction to Supplementary Estimates

Funding to Indian Affairs and Northern Development to address extraordinary demands and associated evacuation costs as a result of fires and flooding and to address the high fuel costs in First Nations communities that are served by diesel generating plants (\$67.5 million)

Under its Emergency Management Assistance policy and program, Indian Affairs and Northern Development fulfills its legal obligation to refund provinces and municipalities for extraordinary emergency assistance costs related to emergency situations, such as floods and forest fires in Ontario, Quebec, Manitoba, Saskatchewan, Alberta and British Columbia. The funds sought in these Supplementary Estimates will cover emergency assistance costs including transportation, shelter, food and basic needs, municipal emergency management support, and emergency recovery/repair costs in order to allow repatriation of residents back into their community. Funds are also being sought to fund incremental costs associated with the operation of critical community assets (such as water plants and schools), emergency vehicles and more than 60 First Nation diesel generation sites.

Funding to Natural Resources for activities related to the safe decommissioning of shutdown buildings and contaminated lands in order to meet federal regulatory requirements, and for long-term strategy needed for the disposal of nuclear wastes (Nuclear Legacy Liabilities Program) (\$65.9 million)

The Nuclear Legacy Liabilities Program represents the five-year \$520 million start-up phase of a 70-year strategy to manage Canada's nuclear liabilities. Natural Resources and Atomic Energy of Canada Limited will jointly manage clean-up activities at a number of sites managed by Atomic Energy of Canada Limited in Ontario, Manitoba and Quebec.

Additional funding to the Department of Transport to address issues relating to increasing passenger volumes at airports (\$65.6 million)

Pending the finalization of a review of air transport security legislation pursuant to Section 33 of the *Canadian Air Transport Security Authority Act*, Budget 2006 committed funding for two years to deal with the budgetary pressures facing the Canadian Air Transport Security Authority. The funding sought in these Supplementary Estimates is related to the increasing passenger volumes, airport expansion/renovation projects at Halifax, Calgary, Winnipeg and Montreal, capital and equipment requirements, and increased maintenance.

Funding to Foreign Affairs and International Trade for the cost of evacuating Canadian citizens from Lebanon (\$63.1 million)

The Department of Foreign Affairs and International Trade is seeking \$63.1 million for costs incurred to provide vessel and air transportation for Canadian citizens evacuated from Lebanon during the Israel-Lebanon conflict in July 2006, as well as for ground transportation, water, food and a place to rest provided to evacuees at operations and staging areas in Lebanon, Cyprus and Turkey.

Introduction to Supplementary Estimates

Additional funding for the Canadian International Development Agency (CIDA) for international assistance (\$55 million)

This funding will allow CIDA to continue to fund programs such as the Afghanistan Reconstruction Trust Fund, which is managed by the World Bank and coordinates donor financing for reconstruction activities, and to organizations such as the United Nations High Commission for Refugees in Afghanistan; the United Nations Mine Action Service for awareness, prevention and destruction of landmines; and the various projects led by the United Nations Development Program, including elections support and development.

The balance of voted budgetary spending, some \$0.9 billion, is spread among the remaining departments and agencies seeking funding in these Supplementary Estimates.

2. *Statutory budgetary spending is expected to increase by some \$4.2 billion and is mainly attributable to the following forecast changes:*

Funding for the payments under the Universal Child Care Benefit to Canadian families with young children (\$1.6 billion)

Budget 2006 announced the introduction of a new universal childcare benefit designed to provide choice in childcare. The *Universal Child Care Benefit Act* came into force on July 1, 2006, and provides families with a \$100 a month benefit for each child under the age of six who is a qualified dependant. Payments to Canadians began on July 20, 2006.

A further amount of \$27.1 million will be sought by four departments (Canada Revenue Agency, Human Resources and Skills Development (Social Development), Justice and Public Works and Government Services) in voted appropriations for the administration costs related to the delivery of this program.

Funding to support amendments to the inventory valuation under the Canadian Agricultural Income Stabilization Program (\$873 million)

Agriculture and Agri-food Canada is seeking to make additional payments of \$873 million under its Canadian Income Stabilization (CAIS) program. This funding is in support of amendments to inventory valuation under the CAIS program which will revise the way inventories are treated in the calculation of income stabilization payments; the revised calculations will increase stabilization payments to producers for 2003, 2004 and 2005.

Funding to provinces and territories in respect of early learning and child care (\$650 million)

This funding is sought to carry through on the Government's announcement in February 2006 that existing Early Learning and Child Care agreements with the provinces and territories would continue through to the end of March 2007. These agreements allow for termination upon one year's notice by either party. The \$650 million in 2006-2007 will be provided to all provinces and territories, to be distributed on a per capita basis.

Introduction to Supplementary Estimates

Revised forecast of transfer payments to provincial and territorial governments (\$495.5 million)

Consistent with Budget 2006, the Department of Finance is forecasting a net increase of \$495.5 million in federal-provincial-territorial transfers for 2006-2007 (from a Main Estimates amount of \$38.3 billion to \$38.8 billion). The transfer payments to provincial and territorial governments fall under different categories, such as Fiscal Equalization, Territorial Financing, Canada Health Transfer, Territorial Payments, Alternative Payments for Standing Programs, and Youth Allowances Recovery. The breakdown of the changes is as follows:

- ***Territorial Financing (\$47.9 million)***

This program ensures that territorial governments can provide services to their residents while recognizing the higher costs in the North. Budget 2006 announced increases to the program. Part of the increase is to address the impact of data revisions under the new framework approved through Bill C-43.

- ***Fiscal Equalization (\$253.6 million)***

The October 2004 New Framework for Equalization and Territorial Formula Financing established annual increases of 3.5 percent per year until 2013-2014, taking the Equalization program to \$11.282 billion in 2006-2007.

As announced in Budget 2006, six provinces will receive higher payments based on updated economic and fiscal data from February 2006. In addition, British Columbia and Newfoundland and Labrador, whose payments are reduced as a result of using updated data, will receive one-time adjustments totalling \$253.6 million.

- ***Alternative Payments for Standing Programs (\$125 million)***

This is a recovery from the Province of Quebec for an additional tax point transfer above and beyond the Canada Health Transfer and Canada Social Transfer. This adjustment of \$125 million represents a decrease in the amount to be recovered from Quebec and is related to a decrease in the value of personal income tax points compared with the data used for Main Estimates 2006-2007. Note that the Quebec Abatement is the sum of the Youth Allowances Recovery and the Alternative Payments for Standing Programs.

- ***Youth Allowances Recovery (\$69.0 million)***

As is the case for the Alternative Payments for Standing Programs this decrease in the recovery is related to a decrease in the value of personal income tax points compared with the data used for Main Estimates 2006-2007. In the 1970s, Quebec agreed to allow the federal government to transfer the benefit directly to parents, but the value of its 3 percent abatement was to be reimbursed annually.

Forecast for public debt charges (\$393.0 million)

The Department of Finance is anticipating that the forecast of public debt charges will increase by approximately \$393 million due to an increase in expected short-term interest rates.

The balance of increased statutory budgetary spending, some \$0.2 billion, is spread among the remaining departments and agencies seeking funding in these Supplementary Estimates.

3. *There are no significant changes to non-budgetary voted spending and no adjustment for non-budgetary statutory spending in these Supplementary Estimates.*

Introduction to Supplementary Estimates

Major Changes in these Supplementary Estimates

The purpose of this section is to describe changes to government organization and structure and changes in authorities (votes and statutory items), since the tabling of the 2006-2007 Main Estimates.

Changes to Government Organization and Structure:

General – During 2006-2007, pursuant to the *Public Service Rearrangement and Transfer of Duties Act*, the Government announced a series of reorganizations to the structure of certain ministries. The reorganizations resulted in the following changes to these Supplementary Estimates:

- 1) On **February 6, 2006** the Prime Minister announced a number of machinery of government changes. However the changes involved moving a piece of a program from one organization to another and, in the case of the Office of the Registrar of Lobbyists (a program in Industry that was transferred to the Treasury Board portfolio), it was also designated as a Department. These changes required the re-writing of program activity structures, the creation of new votes and vote wording, obtaining Treasury Board approvals and possibly legislative amendments. Given the complexity of the changes, and the timing required to produce the Main Estimates document, the following changes were deferred to these Supplementary Estimates:

Program/Organization	Moved From	Moved To
Aboriginal Affairs Secretariat	Privy Council	Indian Affairs and Northern Development
Crown Corporation Secretariat relating to the Royal Canadian Mint and the Canada Post Corporation	Canada Revenue Agency	Transport
Crown Corporation Secretariat relating to the Canada Lands Company Limited and the Queens Quay West Land Corporation	Office of Infrastructure of Canada	Transport
Foreign Affairs and International Trade (International Trade)	Foreign Affairs and International Trade (International Trade)	Foreign Affairs and International Trade
Office of the Registrar of Lobbyists	Industry	Treasury Board
Official Languages Secretariat	Privy Council	Canadian Heritage
Toronto Waterfront Revitalization Initiative	Citizenship and Immigration	Treasury Board Secretariat

Introduction to Supplementary Estimates

The following Orders in Council approved those changes:

- Effective April 1, 2006 P.C. 2006-0119 transfers the control and supervision of the Aboriginal Affairs Secretariat from the Privy Council Office to the Department of Indian Affairs and Northern Development.
- Effective February 6, 2006 P.C. 2006-0069 transfers the control and supervision of the Crown Corporation Secretariat relating to the Royal Canadian Mint and the Canada Post Corporation from Canada Revenue Agency to the Department of Transport.
- Effective February 6, 2006 P.C. 2006-0070 transfers the control and supervision of the Crown Corporation Secretariat relating to Canada Lands Company Limited and Queens Quay West Land Corporation from the Office of Infrastructure of Canada to the Department of Transport.
- Effective February 6, 2006 P.C. 2006-0040 transfers the control and supervision of the Department of International Trade to the Department of Foreign Affairs and International Trade and combined the two under the Minister of Foreign Affairs
- Effective February 6, 2006 P.C. 2006-0049 amends schedule I.1 of the *Financial Administration Act* by designating the Office of the Registrar of Lobbyists as a department and P.C. 2006-0050 transfers the control and supervision of the Office of the Registrar of Lobbyists from the Minister of Industry to the President of the Treasury Board. As a result the Registrar has been moved to the Treasury Board portfolio.
- Effective February 6, 2006 P.C. 2006-0086 transfers the control and supervision of the Official Languages Secretariat from the Privy Council Office to the Department of Canadian Heritage.
- Effective February 6, 2006 P.C. 2006-0076 transfers the control and supervision of the Toronto Waterfront Revitalization Initiative from the Department of Citizenship and Immigration to the Treasury Board Secretariat.

2) The following changes were announced subsequent to February 6, 2006 and incorporated into these Supplementary Estimates:

Program/Organization	Moved From	Moved To
Borders Task Force	Privy Council	Public Safety and Emergency Preparedness
Canadian Firearms Centre	Separate Department within Public Safety and Emergency Preparedness portfolio	Royal Canadian Mounted Police within Public Safety and Emergency Preparedness portfolio
National Collection Services and Collections Litigation and Advisory Services	Human Resources and Skills Development	Canada Revenue Agency
National Science Advisor Secretariat	Privy Council	Industry
Office of Indian Residential Schools Resolution of Canada	Canadian Heritage	Indian Affairs and Northern Development

Introduction to Supplementary Estimates

Program/Organization	Moved From	Moved To
Office of the Senior Advisor responsible for Diversity and Special Projects	Privy Council	Public Service Human Resources Management Agency of Canada
Policy Research Initiative	Privy Council	Human Resources and Skills Development
Regional Offices in the Communications and Consultations Secretariat	Privy Council	Treasury Board
Regulatory Affairs and Orders in Council Secretariat (Except OIC Division)	Privy Council	Treasury Board

The following Orders in Council approved the above-mentioned changes:

- Effective June 1, 2006 P.C. 2006-0360 transfers the control and supervision of the Borders Task Force from the Privy Council Office to Public Safety and Emergency Preparedness.
- Effective May 27, 2006 P.C. 2006-0388 transfers the control and supervision of the P.C. 2006-695 transfers the control and supervision of the Canadian Firearms Centre to Royal Canadian Mounted Police.
- Effective July 28, 2005 P.C. 2005-1354 applies subsection 37.3(1) of the *Public Service Employment Act* to the Canada Customs and Revenue Agency Regulations 2005, for the purposes of transferring the National Collection Services and Collections Litigation and Advisory Services. Effective August 1, 2005 P.C. 2005-1355 transfers the control and supervision of the National Collection Services and Collections Litigation and Advisory Services from the Minister of Human Resources and Skills Development to the Minister of National Revenue.
- Effective May 8, 2006 P.C. 2006-0354 transfers the control and supervision of the National Science Advisor Secretariat from the Privy Council Office to the Department of Industry.
- Effective May 19, 2006 P.C. 2006-0399 transfers the control and supervision of the Office of Indian Residential Schools Resolution of Canada from the Minister of Canadian Heritage to the Minister of Indian Affairs and Northern Development.
- Effective August 1, 2006 P.C. 2006-0695 transfers the control and supervision of the Office of the Senior Advisor responsible for Diversity and Special Projects from the Privy Council Office to Public Service Human Resources Management Agency of Canada.
- Effective June 1, 2006 P.C. 2006-0361 transfers the control and supervision of the Policy Research Initiative from the Privy Council Office to Human Resources and Skills Development.
- Effective July 1, 2006 P.C. 2006-0363 transfers the control and supervision of the Regional Offices in the Communications and Consultations Secretariat from the Privy Council Office to Treasury Board.
- Effective July 1, 2006 P.C. 2006-0362 transfers the control and supervision of the Regulatory Affairs and Orders in Council Secretariat (with the exception of the Orders in Council Division) from the Privy Council Office to Treasury Board.

Introduction to Supplementary Estimates

In accordance with Order in Council P.C. 2005-1716, fixing October 3, 2005 as the day on which Part 13 (*Canada Emission Reduction Incentives Agency Act*) of the *Budget Implementation Act, 2005*, being chapter 30 of the Statutes of Canada, 2005, comes into force. The provisions of the *Canada Emission Reduction Incentives Agency Act* included the establishment of the Canada Emission Reduction Incentives Agency. However, the government announced that it would no longer purchase gas emission credits and as a result this Agency is not operational.

In accordance with P.C. 2003-2081, which transferred the control and supervision of Parks Canada Agency from the Minister of Canadian Heritage to the Minister of Environment, residual funding related to policy activities was transferred from Canadian Heritage to Parks Canada.

Changes to Votes and Statutory Items

Changes in authorities include votes and statutory items that contain specific authorities that differ from those included in the 2006-2007 Main Estimates, as well as new expenditure authorities appearing for the first time. In light of the 1981 House of Commons Speaker's ruling, the Government has made a commitment that the only legislation that will be amended through the Estimates process, other than cases specifically authorized by Statute, will be previous Appropriation Acts.

The following new votes have been added since the 2006-2007 Main Estimates:

Citizenship and Immigration – Department

Vote 2a – Pursuant to section 25(2) of the *Financial Administration Act*, to write off from the Accounts of Canada 3,164 debts due to Her Majesty in Right of Canada amounting to \$986,871 related to immigration loans issued pursuant to section 88 of the *Immigration and Refugee Protection Act* – To authorize the transfer of \$41,349 from Citizenship and Immigration Vote 1, *Appropriation Act No. 1, 2006-2007* for the purposes of this Vote and to provide a further amount of

Foreign Affairs and International Trade – Department

Vote 12a – Pursuant to section 24.1 of the *Financial Administration Act*, to forgive certain debts and obligations due to Her Majesty in Right of Canada in an aggregate amount of US\$110,100,000 (equal to approximately CDN\$122,201,000) at a nominal rate of exchange of US\$1 equals CDN\$1.11) and representing a decrease equal to the respective amount indicated below to the principal balances otherwise owed by the following respective debtors:

Republic of Cameroon.....	\$2,981,000
Republic of Congo.....	\$1,559,000
Republic of Madagascar.....	\$29,408,000
Republic of Rwanda.....	\$4,072,000
United Republic of Tanzania	\$58,603,000
Republic of Zambia.....	\$25,578,000

Human Resources and Skills Development – Department (Human Resources and Skills Development)

Vote 7a – Pursuant to subsection 25(2) of the *Financial Administration Act*, to write off from the Accounts of Canada 33,401 debts due to Her Majesty in Right of Canada amounting to \$362,040 related to unrecoverable Canada Student Loans and 228 debts due to Her Majesty in right of Canada amounting to \$61,562 related to the overpayment from the Government Annuities Account – To authorize the transfer of \$61,562 from Human Resources and Skills Development Vote 1, *Appropriation Act No. 1, 2006-2007*, for the purposes of this Vote

Introduction to Supplementary Estimates

Human Resources and Skills Development – Canada Mortgage and Housing Corporation

Vote 27a – To increase from \$300,000,000,000 to \$350,000,000,000 the limit of the aggregate outstanding insured amount of all insured loans by Canada Mortgage and Housing Corporation, pursuant to paragraph 11(b) of the *National Housing Act*

Indian Affairs and Northern Development – Office of Indian Residential Schools Resolution of Canada

Vote 52a – Operating expenditures – To authorize the transfer of \$147,153,750 from Canadian Heritage Vote 85, *Appropriation Act No. 1, 2006-2007* for the purposes of this Vote and to provide a further amount of

Vote 54a – Contributions – To authorize the transfer of \$4,500,000 from Canadian Heritage Vote 90, *Appropriation Act No. 1, 2006-2007* for the purposes of this Vote

National Defence – Department

Vote 11a – Pursuant to section 24.1 of the *Financial Administration Act*, to forgive a debt due by Mr. R.P. Thompson to Her Majesty in Right of Canada amounting to \$1,766.11 – To authorize the transfer of \$1,766 from National Defence Vote 1, *Appropriation Act No. 1, 2006-2007*, for the purposes of this Vote

Vote 12a – Pursuant to section 24.1(1)(b) of the *Financial Administration Act*, to forgive a debt due by Parc Downsview Park Inc. to Her Majesty in Right of Canada amounting to \$15,059,000

Public Safety and Emergency Preparedness – Royal Canadian Mounted Police

Vote 61a – Canadian Firearms Centre – Operating expenditures, excluding those for registration activities and functions – To authorize the transfer of \$38,052,750 from Public Safety and Emergency Preparedness Vote 20, *Appropriation Act No. 1, 2006-2007* for the purposes of this Vote

Vote 62a – Canadian Firearms Centre – Operating expenditures for registration activities and functions – To authorize the transfer of \$10,990,500 from Public Safety and Emergency Preparedness Vote 25, *Appropriation Act No. 1, 2006-2007* for the purposes of this Vote

Transport – Department

Vote 33a – Payments to the Federal Bridge Corporation Limited to replace the deteriorating North Channel span of the Seaway International Bridge and related infrastructure improvements

Treasury Board – Secretariat

Vote 2a – Contributions – To authorize the transfer of \$230,000 from Treasury Board Vote 1 and \$86,039,000 from Citizenship and Immigration Vote 5, *Appropriation Act No. 1, 2006-2007* for the purposes of this Vote

Vote 15a – Compensation Adjustments – Subject to the approval of the Treasury Board, to supplement other appropriations, that may need to be partially or fully funded, as a result of adjustments made to terms and conditions of service or employment of the public service including members of the RCMP and the Canadian Forces

Introduction to Supplementary Estimates

Treasury Board – Office of the Registrar of Lobbyists

Vote 27a – Program expenditures – To authorize the transfer of \$13,000 from Industry Vote 1, *Appropriation Act No. 1, 2006-2007* for the purposes of this Vote and to provide a further amount of

The following vote wording (underscored) has been amended from that printed in the 2006-2007 Main Estimates:

Agriculture and Agri-Food – Department

Vote 15a – Pursuant to section 29 of the *Financial Administration Act*, to authorize the Minister of Agriculture and Agri-Food, on behalf of Her Majesty in right of Canada, in accordance with terms and conditions approved by the Minister of Finance, to guarantee payments of an amount not exceeding, at any one time, in aggregate the sum of \$1,500,000,000 payable in respect of cash advances provided by producer organizations, the Canadian Wheat Board and other lenders under the Spring Credit Advance Program and \$1,500,000,000 payable in respect of cash advances provided by producer organizations, the Canadian Wheat Board and other lenders under the Enhanced Spring Credit Advance Program

Foreign Affairs and International Trade – Department

Vote 1a – Operating expenditures, including the payment of remuneration and other expenditures subject to the approval of the Governor in Council in connection with the assignment by the Canadian Government of Canadians to the staffs of international organizations and authority to make recoverable advances in amounts not exceeding the amounts of the shares of such organizations of such expenses; authority for the appointment and fixing of salaries by the Governor in Council of High Commissioners, Ambassadors, Ministers Plenipotentiary, Consuls, Representatives on International Commissions, the staff of such officials and other persons to represent Canada in another country; expenditures in respect of the provision of office accommodation for the International Civil Aviation Organization; recoverable expenditures for assistance to and repatriation of distressed Canadian citizens and persons of Canadian domicile abroad, including their dependants; cultural relations and academic exchange programs with other countries; and, pursuant to paragraph 29.1(2)(a) of the *Financial Administration Act*, authority to expend revenues received in a fiscal year from, and to offset related expenditures incurred in the fiscal year arising from the provision of services related to: Canadian Business Centres and Canadian Education Centres; training services provided by the Canadian Foreign Service Institute; trade fairs, missions and other international business development services; investment development services; international telecommunication services; departmental publications; other services provided abroad to other government departments, agencies, Crown corporations and other non-federal organizations; specialized consular services; and international youth employment exchange programs

Vote 10a – The grants listed in the Estimates, contributions, which may include with respect to Canada's Global Partnership Program (under the *G8 Global Partnership*),² cash payments or the provision of goods, equipment and services for the purpose of assistance to countries of the former Soviet Union; with respect to Canada's Counter-Terrorism Capacity Building Program, cash payments or the provision of goods, services, equipment and technology for the purpose of counter-terrorism assistance to states and government entities; and, with respect to the Global Peace and Security Program, Human Security Program, and Global Peace Operations Program, cash payments or the provision of goods, services, equipment and technology for the purpose of global peace and security assistance, authority to make commitments for the current fiscal year not exceeding \$30,000,000, in respect of contributions to persons, groups of persons, councils and associations to promote the development of Canadian export sales and authority to pay assessments in the amounts and in the currencies in which they are levied; and authority to pay other amounts specified in the currencies of the countries indicated, notwithstanding that the total of such payments may exceed the equivalent in Canadian dollars, estimated as of October 2005 which is \$718,744,000

Introduction to Supplementary Estimates

Foreign Affairs and International Trade – Canadian International Development Agency

Vote L40a The issuance and payment of non-interest bearing, non-negotiable demand notes in an amount not to exceed \$189,921,644 (\$215,032,000 - \$25,110,356) in accordance with the *International Development (Financial Institutions) Assistance Act*, for the purpose of contributions to the International Financial Institution Fund Accounts

Treasury Board – Secretariat

Vote 1a – Operating expenditures and authority to expend revenues received during the fiscal year arising from activities of the Treasury Board Secretariat – To authorize the transfer of \$6,092,432 from Privy Council Vote 1 and \$1,084,000 from Citizenship and Immigration Vote 1, *Appropriation Act No. 1, 2006-2007* for the purposes of this Vote and to provide a further amount of

The following new statutory items have been added since the 2006-2007 Main Estimates:

Agriculture and Agri-Food – Department

Grants and contributions in support of amendments to inventory valuation under the Canadian Agricultural Income Stabilization Program

Canada Revenue Agency

Payments to private collection agencies pursuant to Section 17.1 of the Financial Administration Act as a result of the transfer of the National Collection Services from Human Resources and Skills Development (Social Development)

Foreign Affairs and International Trade – Department

Payments to Export Development Canada to discharge obligations incurred pursuant to Section 23 of the *Export Development Act* (Canada Account) for the purpose of facilitating and developing trade between Canada and other countries (budgetary)

Minister of International Trade – Salary and motor car allowance

Payments to Export Development Canada to discharge obligations incurred pursuant to Section 23 of the *Export Development Act* (Canada Account) for the purpose of facilitating and developing trade between Canada and other countries (non-budgetary)

Indian Affairs and Northern Development – Office of Indian Residential Schools Resolution of Canada

Contributions to employee benefit plans

Transport – Office of Infrastructure of Canada

Public Transit Fund

Introduction to Supplementary Estimates

Overview of Summary Tables

This section provides an overview of the following summary tables provided in the Supplementary Estimates.

1. Summary of these Supplementary Estimates
2. Summary of Estimates to Date for 2006-2007
3. Proposed Schedules to the Appropriation Bill
4. Statutory Items in these Supplementary Estimates
5. Summary of Changes to Voted Appropriations
6. Supplementary Estimates by Standard Object of Expenditure
7. Treasury Board Contingencies Vote – Items included in these Supplementary Estimates
8. Horizontal Items included in these Supplementary Estimates
9. Transfers between organizations included in these Supplementary Estimates
10. \$1 Items included in these Supplementary Estimates

1. Summary of these Supplementary Estimates

This table identifies Budgetary² and Non-Budgetary³ Supplementary Estimates by department, agency and Crown corporation, and by type of parliamentary authority (annual Vote and Statutory requirements).

The first two columns entitled “Previous Estimates” represent the funding to date as presented in the Main Estimates.

The next six columns entitled “These Supplementary Estimates” are the current requirements as provided in the Supplementary Estimates (A). These requirements are split into two categories Voted⁴ and Statutory⁵.

The last two columns entitled “Total Estimates to Date” provides the reader with an update of total Budgetary and Non-Budgetary requirements for 2006-2007.

2. Summary of Estimates to Date for 2006-2007

This table displays Main Estimates together with the Supplementary Estimates (A) and contains a breakdown of funding by Budgetary and Non-Budgetary/Voted and Statutory requirements.

3. Proposed Schedules to the Appropriation Bill

This table provides the reader with a preview of the appropriation bill. As noted previously, Supplementary Estimates directly support the bill. This table provides a list of vote numbers, vote wording and the requested funds that will be proposed to Parliament for approval. There are two schedules to the appropriation bill in Supplementary Estimates: the first identifies those items for the financial year ending March 31, 2007 whereas the second identifies those items for the financial year ending March 31, 2008, specifically, multi-year appropriations for the Canada Revenue Agency, and Parks Canada Agency (Parks).

² Budgetary expenditures encompass the cost of servicing the public debt; operating and capital expenditures; transfer payments and subsidies to other levels of government, organizations and individuals; and payments to Crown corporations and separate legal entities.

³ Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.

⁴ Voted requirements are those for which the government must seek Parliamentary approval through an *Appropriation Act*. For additional information on votes and vote wording, see the Proposed Schedule to the Appropriation Bill.

⁵ Statutory authorities are those that Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is included in the Supplementary Estimates for information only.

Introduction to Supplementary Estimates

Only positive adjustments to departmental appropriations are included in the proposed schedules to the appropriation bill. Where an organization has a net zero or negative amount displayed in these Supplementary Estimates, no change to existing spending authority is requested of Parliament.

Once the appropriation bill is approved, the vote wording becomes the governing conditions under which expenditures may be made. As a result, the following kinds of Votes can appear in Supplementary Estimates:

- a) *Program Expenditures Votes* – This type of Vote is used when there is no requirement for either a separate “Capital Expenditures” Vote or a “Grants and Contributions” Vote because neither equals or exceeds \$5 million. In this case, all program expenditures are charged to the one vote.
- b) *Operating Expenditures Votes* – This type of vote is used when there is a requirement for either a “Capital Expenditures” Vote or a “Grants and Contributions” Vote or both; that is, when expenditures of either type equals or exceeds \$5 million. Where they do not, the appropriate expenditures are included in the “Program Expenditures” Vote.
- c) *Capital Expenditures Votes* – This type of vote is used when the capital expenditures in a program equal or exceed \$5 million. Expenditure items in a capital vote would include items expected to exceed \$10,000 for the acquisition of land, buildings and works (Standard Object 08), as well as the acquisition of machinery and equipment (Standard Object 09), or for purposes of constructing or creating assets, where a department expects to draw upon its own labour and materials, or employs consultants or other services or goods (Standard objects 01 to 09). Different threshold limits may be applied for different capital expenditure classes at the departmental level.
- d) *Grants and Contributions Votes* – This type of vote is used when the grants and contributions expenditures in a program equal or exceed \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in Supplementary Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the vote wording, the meaning of the word “contributions” is considered to include “other transfer payments” because of the similar characteristics of each.
- e) *Non-Budgetary Votes* – This type of vote, identified by the letter “L”, provides authority for spending in the form of loans or advances to, and investments in, Crown Corporations and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.
- f) *Special Votes: Crown Corporation Deficits and Separate Legal Entities* – Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity that is part of a larger program, a separate vote is established. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and responsible directly to a Minister.

Introduction to Supplementary Estimates

- g) *Special Votes: Treasury Board Centrally Financed Votes* – To support the Treasury Board in performing its statutory responsibilities for managing the government's financial, human and materiel resources, a number of special authorities are required and these are outlined below.
- (i) *Government Contingencies Vote* – This vote serves to supplement other appropriations to provide the Government with sufficient flexibility to meet urgent or unforeseen expenditures where a valid cash requirement exists due to the timing of the payment or where specific authority is required to make the payment, such as for the payment of grants not listed in the Estimates. This authority to supplement other appropriations is provided until Parliamentary approval can be obtained and as long as the expenditures are within the legal mandate of the organization. In addition, this Vote serves to supplement other appropriations to meet additional payroll costs such as severance pay and parental benefits which are not provided for in departmental estimates.
 - (ii) *Government-Wide Initiatives Vote* – This vote supplements other appropriations in support of the implementation of strategic management initiatives in the Public Service of Canada.
 - (iii) *Compensation Adjustments Vote* – This vote supplements other appropriations to provide funding for the increased personnel costs of collective agreements between the Treasury Board and collective bargaining units representing public servants, as well as collective agreements signed by separate employers.
 - (iv) *Public Service Insurance Vote* – This vote provides for the payment of the employer's share of health, income maintenance and life insurance premiums; for payments to or in respect of provincial health insurance plans; provincial payroll taxes; pension, benefit and insurance plans for employees engaged locally outside Canada; and to return to certain employees their share of the unemployment insurance premium reduction.

4. Statutory Items in these Supplementary Estimates

This table provides Parliament with an update on significant changes to expenditure forecasts of major statutory items. Statutory items are those that Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is displayed in the Supplementary Estimates for information only.

5. Summary of Changes to Voted Appropriations

This table displays all voted information in Ministry order.

The first section (column 1, Vote Number) indicates the vote that is to be augmented through these Supplementary Estimates. The letter accompanying the vote indicates that Supplementary Estimates (A) was used to augment the vote.

The second section (column 2, Gross Amount) displays the total amount of funding being sought in these Supplementary Estimates by the respective department.

The third section (columns 3 through 6, Spending authorities available) represents unused spending authority being used by organizations to minimize the amount of additional spending authority being requested in these Supplementary Estimates. Additional information on these amounts is provided for in the respective departmental detail and also includes funding available due to the recently announced spending restraint initiatives and savings relating to the expenditure review exercise.

Introduction to Supplementary Estimates

The final section (column 7, Net Amount) displays the net amount of incremental funding being reflected in these Supplementary Estimates. However, it should be noted that the proposed schedules to the appropriation bill do not reflect funding for organizations where the net amount is zero or negative.

6. Supplementary Estimates by Standard Object of Expenditure

To determine and report more accurately the impact of government revenues and expenditures on the rest of the economy, the net amount of government purchases and sales by standard object must be determined. All departments, including those that use revolving funds, must charge their expenditures for purchases to standard object expense categories. Standard objects are the highest level of object classification used for Parliamentary and executive purposes, and are reported in the Main and Supplementary Estimates and the Public Accounts. The standard objects of expenditure are as follows:

1. Personnel
2. Transportation and Communications
3. Information
4. Professional and Special Services
5. Rentals
6. Purchased Repair and Maintenance
7. Utilities, Materials and Supplies
8. Acquisition of Land, Buildings, and Works
9. Acquisition of Machinery and Equipment
10. Transfer Payments
11. Public Debt Charges
12. Other Subsidies and Payments

A brief explanation of each Standard Object is provided at the end of the introduction section.

7. Treasury Board Contingencies Vote – Items included in these Supplementary Estimates

This summary table provides a comprehensive list of organizations that have received temporary Treasury Board Contingency Vote (TB Vote 5) funding.

There are two types of TB Vote 5 funding: permanent and temporary. Permanent funding is provided for payroll shortfalls such as severance pay and parental benefits, which cannot be predetermined and are, therefore, paid centrally throughout the year. Temporary funding is provided for urgent miscellaneous, minor and unforeseen expenditures, which were not provided for in the Main Estimates and which are required before Supplementary Estimates are tabled. Once Parliament approves the appropriation bill for Supplementary Estimates and the Governor General provides Royal Assent, the temporary funding is reimbursed to TB Vote 5.

Introduction to Supplementary Estimates

There are a number of criteria that a department must meet in order for Treasury Board to approve access to TB Vote 5:

- As the authority for payments out of the contingencies fund is contained in the TB Vote 5 wording, all such payments must be fully consistent with that wording.
- Generally, permanent charges will not be made to the Vote for requirements other than payroll shortfalls or awards under the *Public Service Inventions Act*. All other advances from the Contingencies Vote should be considered temporary advances to be covered by items included in subsequent Supplementary Estimates and reimbursed when the associated appropriation act is passed.
- When cash advances are requested to meet a financial requirement, the Treasury Board must be assured that the payment is within the legal mandate of the department.
- When making a transfer to provide authority for a payment, the Treasury Board must be satisfied that there is valid and sufficient reason why the payment must be made before normal parliamentary approval is received.
- Sufficient funds must be available within Vote 5.
- The department's existing appropriated authority must be insufficient to cover existing requirements and those of the new initiative (excluding grant items) until the end of the current Supply period.
- There must be a valid, legally incorporated recipient in existence to whom the payment is to be paid.

8. Horizontal Items included in these Supplementary Estimates

This table provides a summary of those items for which funding is sought by more than one organization in these Supplementary Estimates. While the list is not exhaustive, it does provide an overview of issues related to these Supplementary Estimates where more than one organization is implicated.

9. Transfers between organizations included in these Supplementary Estimates

Departments often request the authority to transfer monies between organizations for various purposes. This table provides a summary of these transactions.

10. \$1 Items included in these Supplementary Estimates

Supplementary Estimates often include what are known as “one dollar items”, which seek an alteration in the existing allocation of funds or to existing vote wording (as in the case of loan guarantees) as authorized in the Main Estimates. The purpose of a one dollar item is not to seek new or additional funds, but rather to re-allocate existing spending authorities between votes and/or to provide appropriate authorities. Therefore, since no new funds are requested, the “one-dollar” amount is merely symbolic.

For example, one-dollar items may be used to:

- Transfer funds from one Vote to another;
- Write off debts;
- Adjust loan guarantees;
- Authorize grants; or
- Amend previous appropriation acts.

Introduction to Supplementary Estimates

Detail by Department, Agency and Crown Corporation

Departments and agencies for which a Minister is responsible, or reports to Parliament, are grouped together to provide a total ministry presentation.

Each organization is divided into six distinct sections:

1. Ministry Summary;
2. Explanation of Requirements;
3. Transfers;
4. Explanation of Funds Available;
5. Transfer Payments (if applicable); and
6. New Major Capital Projects (if applicable)

1. Ministry Summary

This table displays all voted and statutory information in Ministry order, including:

- The wording that the vote or statutory item will be governed by;
- The previous estimates amount – Main Estimates plus any prior Supplementary Estimates funding;
- Transfers between votes and between organizations;
- Net new funding requests in these Supplementary Estimates; and
- Total Estimates to date.

Where the total program supplement results in a net zero or negative amount for an organization, this will not form part of the appropriation bill for these Supplementary Estimates. Under section 31 of the *Financial Administration Act*, once spending authority is provided by Parliament, the Treasury Board Secretariat manages and controls the funding levels of appropriated organizations through its allotment control system. Net zero or negative amounts are being displayed for information purposes only.

2. Explanation of Requirements

This section provides a description of the individual items or initiatives for which spending authority is being requested. In the event the initiative affects more than one organization, it is flagged as a horizontal item and will be captured in the summary table of horizontal items presented in the front end of these Supplementary Estimates.

3. Transfers

This is a new section designed to identify all transfers between organizations, whether they relate to: a transfer of monies between organizations to accomplish a particular objective; the transfer of responsibility for the delivery of a program; or for realignments flowing from machinery changes announced by the government. Transfers do not have an impact on new appropriations being request by organizations. Transfers will be displayed in the Ministry Summary separate from new appropriations and will also be displayed in the summary table dealing with transfers between organizations (at the front end of these Supplementary Estimates).

Introduction to Supplementary Estimates

4. Explanation of Funds Available

This section provides information about funds that are used to offset or reduce new spending requirements included in Supplementary Estimates. To keep the amount of new appropriation authorities requested from Parliament to a minimum, surplus spending authority available in one vote can be redirected to another vote to reduce the overall amount of supplementary spending authority required. As well, surplus spending authority available in a number of frozen and/or special purpose allotments can be used with Treasury Board authority to reduce the amount of new appropriations required.

While the use of offsets is not new, the display of all offsets being used and an explanation of their nature is now being displayed in the Supplementary Estimates in order to provide greater transparency and increased information. Some examples of surplus spending authority used for offsets include: funds transferred from one vote to another vote in the same organization; funds moved from one fiscal year to another fiscal year in the same organization; and funds available for reinvestment in the federal government's priorities as a result of the process for review and reallocation undertaken by the Government's Expenditure Review Committee and the reductions relating to 2006 expenditure restraint initiatives.

5. Transfer Payments

This table provides a listing of transfer payments by program activity.

A transfer payment is a grant, contribution or other payment made for the purpose of furthering an organization's objectives but for which no goods or services are received.

Grants, contributions and other transfer payments differ in several respects:

- i) Contributions are conditional payments and subject to audit whereas grants are neither;
- ii) Contributions require an arrangement between the recipient and the donor identifying the terms and conditions governing their payment while grants do not;
- iii) Other transfer payments are payments based on legislation or an arrangement which normally includes a formula or schedule of payments as one element used to determine the annual amount; and
- iv) The wording used in the Estimates to describe a grant has a legislative character, while that used for contributions and other transfer payments is informational.

6. New Major Capital Projects

This section provides a listing of new major capital projects not shown in previous Estimates and which each have a total estimated cost of \$1 million or more. The information is presented by program activity and by region (from east to west), and provides total Estimates costs, as well as the amount expected to be spent during the current fiscal year.

Introduction to Supplementary Estimates

Explanation of the Standard Object of Expenditures

1. *Personnel*

- Salaries and wages, overtime, severance pay, retroactive pay and other special pay of civilian continuing (full-time) or term (part-time, seasonal and casual) employees except those of agency and proprietary Crown corporations, as well as members of the military and the Royal Canadian Mounted Police.
- Judges' salaries, those of the Governor General, the Lieutenant-Governors and the indemnities to Members of both Houses of Parliament, and all types of allowances paid to or in respect of continuing and term employees (such as living, terminable, foreign service, isolated post, board and subsistence allowances, shift differential allowances for assistants, and other such allowances).
- Ministers' motor car allowances, and the expense allowances to Senators and Members of the House of Commons.
- The government's contribution to various employee benefit plans (the Public Service Superannuation Account, the Supplementary Retirement Benefits Account, the Canada Pension Plan Account, the Quebec Pension Plan, the Public Service Death Benefit Account and the Employment Insurance Account).
- The Royal Canadian Mounted Police Superannuation Account, the Canadian Forces Superannuation Account and the Members of Parliament Retiring Allowances Account, and the Government's contribution to provincial and other medical and hospital insurance plans and supplementary personnel costs for various purposes.

2. *Transportation and Communications*

- Traveling and transportation expenses of government employees, members of the Canadian Forces and the Royal Canadian Mounted Police, removal expenses of those persons and their dependants, and living and other expenses of such persons on travel status, judges' traveling expenses, and traveling expenses and allowances payable to Senators and Members of the House of Commons.
- Transportation of persons by contract and chartered facilities or by other means (including traveling expenses of persons engaged in field survey work, inspections and investigations), and traveling and transportation of non-Government employees such as travel costs of veterans who are applicants for treatment or pensions.
- Ordinary postage, airmail, registered mail, parcel post special delivery mail, post office box rentals, and any other postal charges.
- Expenditures relating to the transportation of goods other than initial delivery cost on a purchase (which is included in the Standard Object covering the cost of the purchase itself) including charges for courier services provided by outside carriers.
- All costs of telecommunication services by telephone, telegram, cable, teletype, radio and wireless communication (tolls, rates, etc.) and other communication costs such as courier services provided by outside agencies and communication services performed under contract or agreement.

3. *Information*

- Advertising services acquired for publicity and general purposes from advertising agencies or directly for time on broadcast media or for space in print media or on outdoor posters or billboards. It includes advertising and creative work services such as graphic artwork.
- Publishing services for commissioning, marketing, distribution and sales of publications sponsored by the department, and for the acquisition of related government publications. Also included are services for printing, duplicating, photocopying, text editing, design of graphics, art work, technical and advisory services such as computerized text processing and mass transmission of printed material. In addition, it includes exposition services such as exhibits and associated audio-visual services related to exhibitions and displays.
- Public relations and public affairs services for attitude and service assessment surveys, sales promotion, marketing, export marketing, public relations and publicity, opinion polls, and contracts to organize and operate

Introduction to Supplementary Estimates

focus groups and media monitoring services. It also includes services for speech writing, press releases, briefing, press conferences and special events.

4. *Professional and Special Services*

- Provision for all professional services performed by individuals or organizations such as payments (in the nature of fees, commissions, etc.) for the services of accountants, lawyers, architects, engineers, scientific analysts, reporters, and translators; for teachers at various levels of educational institutions; for doctors, nurses and other medical personnel; for management, data processing and other research consultants; and for other outside technical, professional and other expert assistance.
- Payments for hospital treatment, care of veterans and welfare services, payments for the provision of services at computer service bureaus, payment of tuition for Indians at non-federal schools, purchase of training services under the *Adult Occupational Training Act*, and payments made to the Public Service Commission for training.
- Payments for Corps of Commissionaires services and for other operational and maintenance services performed under contract, such as armoured cars, laundry and dry cleaning, cleaning of buildings, temporary help, hospitality, storage and warehousing, and other business services, as well as payments made to Public Works and Government Services for contract administration.

5. *Rentals*

- Rental of properties required for special purposes by the various departments and for the accommodation of government offices and services by the Department of Public Works and Government Services.
- Hire and charter – with or without crew – of vessels, aircraft, motor vehicles and other equipment, and rental of telecommunication and office equipment including computers.

Storage and warehousing services is, however, in Standard Object 4 even though it involves the rental of space.

6. *Purchased Repair and Maintenance*

- The repair and upkeep under contract of the durable physical assets provided for in Standard Object 8 and of equipment provided for in Standard Object 9.
- Payments to the Department of Public Works and Government Services for tenant services.
- Materials, supplies and other charges for repairs undertaken by a department directly are coded to other objects, according to the nature of the purchase.

7. *Utilities, Materials and Supplies*

- The provision for all payments for services of a type normally provided by a municipality, or public utility service such as the supply of water, electricity, gas, etc., and includes water, light, power and gas services, and payment for such services whether obtained from the municipality or elsewhere.
- The provision for materials and supplies required for normal operation and maintenance of government services such as:
 - gasoline and oil purchased in bulk; fuel for ships, planes, transport and heating
 - feed for livestock
 - food and other supplies for ships and other establishments
 - livestock purchased for ultimate consumption or resale
 - seed for farming operations
 - books and other publications purchased for outside distribution
 - uniforms and kits
 - photographs, maps and charts purchased for administrative and operational purposes
 - laboratory and scientific supplies, including samples for testing
 - drafting, blueprinting and artists' supplies; supplies for surveys and investigations;
 - chemicals

Introduction to Supplementary Estimates

- hospital, surgical and medical supplies
- works of art for exhibits, and historical material for galleries, museums and archives
- char service supplies
- coal and wood
- electrical supplies
- repair parts other than parts normally acquired with equipment at the time of purchase for aircraft, ships, road vehicles, and for communication and other equipment; and all other materials and supplies.

8. *Acquisition of Land, Buildings, and Works*

- All expenditures for the acquisition of buildings, roads, irrigation works, canals, airports, wharves, bridges and other such types of fixed assets.
- Improvements involving additions or changes of a structural nature, and for installing fixed equipment which is essentially a part of the work or structure such as elevators, heating and ventilating equipment.
- All reconstruction of such types of physical assets and such projects performed under contract or agreement.
- The purchase of land.

Expenditures pursuant to contracts for new construction for casual employees hired or continuing employees assigned to work full- or part-time on specified projects, travel, professional services, equipment rentals, equipment maintenance and of materials purchased directly for use on such projects are charged to the relevant standard objects (Standard Object 1 to 9).

9. *Acquisition of Machinery and Equipment*

- Expenditures for the acquisition of all machinery, equipment, office furniture and furnishings, EDP and electronic or other office equipment.
- Microfilming equipment and supplies, inter-office communication equipment, postal meter machines, machine records and all other office equipment.
- Motor vehicles, aeroplanes, tractors, road equipment, telecommunications and related equipment, laboratory and other scientific equipment, vessels, icebreakers and other aids to navigation and all other types of light and heavy equipment; includes ammunition and various types of equipment for National Defence, such as ships, aircraft, mechanical equipment, fighting vehicles, weapons, engines and such spare parts and supplies as are normally acquired with that equipment at the time of purchase.

10. *Transfer Payments*

- Grants, contributions, subsidies and all other transfer payments made by government.
- Major social assistance payments made to persons such as Old Age Security benefits and related allowances, Veterans' pensions and allowances.
- Subsidies and payments to the provinces and territories under the *Constitution Acts*, the *Federal-Provincial Fiscal Arrangements Act*, the Canada Health and Social Transfers and for official languages.
- Payments to Indians and Inuit in support of self-government initiatives, health, educational, social and community development programming and in respect of native claims.
- Payments to the territorial governments pursuant to financing agreements entered into between the Minister of Finance and the respective territorial Minister of Finance.
- Subsidies and capital assistance to industry; research grants and other assistance towards research carried on by nongovernmental organizations; scholarships.
- Sustaining grants to many national and international non-profit organizations.
- Contributions to international organizations and assessments for membership in such organizations, such as the contribution to the International Food Aid Program and Canada's assessment for membership in the United Nations.

Introduction to Supplementary Estimates

Most of the payments in this standard object category are identified in the Estimates as “Grants” or “Contributions”. The former are not subject to audit and are therefore restricted by Parliament as to amount and recipient and often as to purpose through the approval of the supply bill which specifies “grants listed in the Estimates”; the latter are conditional and subject to audit and are not so restricted.

11. *Public Debt Charges*

- Interest on the unmatured debt of Canada (including Treasury Bills) and on other liabilities such as trust and other special funds.
- The cost of issuing new loans, amortization of bond discount, premiums and commissions.
- The cost of servicing and administering the Public Debt.

12. *Other Subsidies and Payments*

- Payments to Crown corporations that include those made to provide for operating deficits as well as other transfers paid to Crown corporations.
- Payments to certain non-budgetary accounts (such as the government contributions to agricultural commodities stabilization accounts, as well as benefits under the *Veterans Land Act*), as well as the write-offs of various types of losses, the annual adjustment of reserves for financial claims and some other miscellaneous items referred to as “Sundries”.

Miscellaneous expenditures include licences, permits and payments for dockage, towage, wharfage and mooring privileges; bonding of government employees, loss of personal effects, and expenditures for small miscellaneous articles and services. Also included are many small items and services that do not lend themselves to identification under specific headings detailed in this summary.

* The amounts shown for procurement savings do not reflect certain initiatives in Human Resources and Skills Development (\$8,254) and in Social Development (\$339) that do not result in reductions to voted appropriations. The adjusted total, taking these savings into account, is \$202,730.

** The balance of the two-year Expenditure Restraint exercise totalling \$777.3 million will be reflected in future Estimates or in reductions to planned spending not in departmental reference levels.

*** A negative amount is for information only and will not be included in the proposed schedules to the appropriation bill.

Treasury Board Contingencies Vote – Items Included in these Supplementary Estimates

This summary table provides a comprehensive list of organizations that have received temporary Treasury Board Contingency Vote (TB Vote 5) funding.

There are two types of TB Vote 5 funding: permanent and temporary. Permanent funding is provided for payroll shortfalls such as severance pay and parental benefits, which cannot be predetermined and are, therefore, paid centrally. Temporary funding is provided for urgent miscellaneous, minor and unforeseen expenditures, which were not provided for in the Main Estimates and which are required before Supplementary Estimates are tabled. Once Parliament approves the appropriation bill for Supplementary Estimates and the Governor General provides Royal Assent, the temporary funding is reimbursed to TB Vote 5.

Initial Level (represents amount provided through interim supply)	\$687,500,000
--	----------------------

Less: Items which received temporary funding from Treasury Board Vote 5 and are included in these Supplementary Estimates:

Department or Agency	(dollars)

AGRICULTURE AND AGRI-FOOD

Department

Funding for the Canadian Farm Families Options Program

The Canadian Farm Families Options Program is a two-year pilot program that will provide financial assistance to low-income farm families and individual farmers while they participate in specified farm business improvement and skills development services.

The objective is to assist participants as they transition toward more stable incomes. There are two aspects to the program: income support and business improvement and skills development services. Failure to provide low-income farm families and farm operators with payments on an urgent basis would only exacerbate an already existing poor financial situation. Accordingly, access to the Government Contingencies Vote was granted in order to provide financial assistance in advance of spending authority through these Supplementary Estimates. At the time of tabling these Supplementary Estimates, \$157.5 million has already been advanced. Allocating the remaining \$32.5 million is conditional upon evidence that the \$157.5 million has been spent and that there is a demonstrated cash requirement for further payments prior to full supply being granted in December 2006.

190,000,000

Treasury Board Contingencies Vote – Items Included in these Supplementary Estimates

Department or Agency

(dollars)

AGRICULTURE AND AGRI-FOOD

Department (*continued*)

Funding in support of the Cover Crop Protection Program in response to flood damage in 2005 and 2006

This program will provide funding to producers unable to seed commercial crops because of flood damage in 2005 and 2006. It will cover some of the costs of protecting the soil using a cover crop. A cover crop is any crop grown primarily to provide ground cover to improve soil rather than providing a harvestable yield in order to prevent erosion and improve the stability of the soil.

Commitments have been made by the government to provide the majority of payments in late summer/early fall of 2006. To date, over 20,000 applications have been received from flood-affected producers. Many farm operators are facing financial hardship. Failure to provide them with assistance on a timely basis in response to spring flooding will exacerbate the situation. These payments are going to farmers who lost income due to lands that are temporarily unavailable for farming and need assistance to meet ongoing financial obligations. As the spending authority for this class grant will only be received through these Supplementary Estimates in December 2006, access to Government Contingencies Vote was required to ensure that these urgently required payments are made as quickly as possible.

37,279,700

CITIZENSHIP AND IMMIGRATION

Department

Grant for the Institute for Canadian Citizenship

The Institute for Canadian Citizenship (ICC) is an independent not-for-profit organization that was announced in September 2005 as a legacy project in honour of former Governor General Adrienne Clarkson. It will operate beyond the existing scope of federal programming to engage citizens and groups, particularly grassroots organizations, encourage national dialogue and help identify and build national networks and models so that awareness regarding Canadian citizenship is increased and social cohesion is strengthened. A grant in the amount of \$3 million was included in the 2005-2006 Supplementary Estimates (A) but was not approved by Parliament due to the dissolution of Parliament for an election prior to the tabling of the related supply legislation. Since this is a one-time grant payment, it was not included in the 2006-2007 Main Estimates.

To capitalize on the tradition of legacy projects and the connections the former Governor General has made during her time in office, it is imperative the ICC be given the financial support it needs as early as possible. Due to the significant delay (14 months) from the initial announcement and the granting of spending authority through these Supplementary Estimates, the ICC will face increased difficulties in raising public awareness and initiating public activities more than a year after the change in office for the Governor General. Access to the Government Contingencies Vote was considered urgent in order to provide a grant of up to \$1 million before December 2006, when full spending authority for the \$3 million will be requested through these Supplementary Estimates.

FINANCE

Financial Transactions and Reports Analysis Centre of Canada

Funding to bolster the combat against the laundering of proceeds of crime and the financing of terrorist activities in accordance with the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act*

This organization is undertaking increased activities to align Canada's anti-money laundering and anti-terrorist financing regime with the recommendations of the Financial Action Task Force (FATF) against Money Laundering. The FATF is an intergovernmental body whose purpose is the development and promotion of national and international policies to combat money laundering and terrorist financing. In early 2007, the FATF will be conducting an on-site assessment of the effectiveness of Canada's anti-money laundering and anti-terrorist financing regime.

Although announced in Budget 2006, the additional funding to address operational pressures for this organization was not included in the 2006-2007 Main Estimates. Because the FATF evaluation is critical in terms of maintaining Canada's relationship with its global partners to combat money laundering and terrorist financing, access to the Government Contingencies Vote was approved to provide sufficient funds to address the operational pressures in time for the on-site assessment, until additional spending authority could be requested through Supplementary Estimates. This approval was conditional on the Treasury Board Secretariat receiving confirmation of the actual requirements before funds would be advanced. At the time of tabling these Supplementary Estimates, no funds have been advanced.

3,500,000

FOREIGN AFFAIRS AND INTERNATIONAL TRADE

Department

Funding for the cost of evacuating Canadian citizens from Lebanon

Faced with the growing conflict and the escalation of hostilities last July, the Government of Canada initiated a large-scale evacuation of Canadians from Lebanon. Foreign Affairs and International Trade's (DFAIT) estimated costs include activities such as leasing of ships and airplanes for the repatriation of Canadians to Canada, deployment of staff to the region and to the Emergency Operations Crisis Centre at headquarters.

The urgency and severity of the crisis, coupled with the high costs, prevented DFAIT from seeking advance Parliamentary approval for the expenditures. Vessel contracts, air transport contracts, operational costs (local transportation, location rental, protection, communications, miscellaneous, etc) and Temporary Duty travel costs for DFAIT staff were incurred at the time of the crisis.

Access to the Government Contingencies Vote was approved on the condition that funding be made available in installments on an as needed basis, as demonstrated by updated cashflow analyses. At the time of tabling these Supplementary Estimates, no funds have been advanced.

29,000,000

Treasury Board Contingencies Vote – Items Included in these Supplementary Estimates

Department or Agency (dollars)

HEALTH

Patented Medicine Prices Review Board

Additional funding to conduct public hearings to determine if certain patented medicines sold in Canada are priced appropriately and to review the Excessive Price Guidelines that serve as a tool in the establishment of non-excessive prices for patented medicines sold in Canada

The Patented Medicine Prices Review Board, a quasi-judicial body established under the *Patent Act*, is required to hold an unexpectedly high number of hearings in 2006-2007 to determine whether certain patented medicine manufacturers are charging excessive prices to wholesalers, hospitals and pharmacies. Unfortunately, these hearings were not confirmed in time for additional funding to be included in the 2006-2007 Main Estimates. Because the conduct of hearings is critical to the Board being able to deliver on its mandate, access to the Government Contingencies Vote was approved to provide sufficient funds to cover the costs of the hearings until additional spending authority could be requested through Supplementary Estimates. This approval was conditional on an updated cash forecast reflecting the costs associated with these hearings being provided. At the time of tabling these Supplementary Estimates, no funds have been advanced.

2,400,000

INDIAN AFFAIRS AND NORTHERN DEVELOPMENT

Department

Funding to increase the grant to the Sechelt Indian Band pursuant to the *Sechelt Indian Band Self-Government Act*

A two-year extension of the funding agreement with the Sechelt Indian Band, which included an increase in the grant payment, was agreed to in March 2006. However, the agreement was not reached in time for the grant to be listed at the higher amount in the 2006-2007 Main Estimates. Section 5 of the Agreement between the Government of Canada and the Sechelt Indian Band stipulates that the grant payment shall be made on the first banking day in April of each grant year. Payments to self-governing bands are made as lump sums to allow the Band greater flexibility in planning its annual expenditures. Since the Government, through Indian Affairs and Northern Development, was legally obligated to make payment of the grant at the higher amount, but in advance of receiving spending authority for the increase through these Supplementary Estimates in December 2006, access to the Government Contingencies Vote was approved.

INDUSTRY	
National Research Council of Canada	
Program to Enhance Canadian Science and Technology Capacity	
<p>Payments under this class grant program are made to graduate students to assist them with their living expenses while they are studying. With the school year commencing in September, it was imperative that payments could be made as soon as possible.</p> <p>The consequences of delaying the issuance of the grants until Parliamentary approval of these Supplementary Estimates, expected in December 2006, could have caused major financial hardships for the students, who have budgeted their living and academic expenses based on receiving a grant installment in September 2006. Another consequence of the delay would be that the new student grant recipients cannot make use of National Research Council of Canada facilities for their research until grant agreements are in place.</p> <p>National Research Council of Canada has sought and received temporary access to the Government Contingencies Vote in order to make grant payments under the “Program to Enhance Canadian Science and Technology Capacity” by September 2006, prior to receiving spending authority for these Supplementary Estimates in December 2006.</p>

2005 Expenditure Review Committee Savings – Procurement

(These savings will be achieved by using the government's buying power to get better prices, modernizing government travel procurement and through administrative savings.)

For departmental breakdown refer to the the Summary of Changes to Voted Appropriations.

2006 Expenditure Restraint

(These savings result from the identification of programs that were not providing good value for money, from unused funds for programs that were already achieving their objectives or had lower than expected take-up, from efficiencies due to the streamlining or consolidation of operations, and from non-core programs or programs that are not a priority for Canadians.)

For departmental breakdown refer to the the Summary of Changes to Voted Appropriations.

Compensation for salary adjustments

(This funding reflects recently negotiated and concluded agreements, between August 1, 2005 and July 31, 2006, with various bargaining and excluded groups such as the Computer Systems Administration Group, the Law Group, the Executive Group, the Veterinary Medicine Group, the Architecture, Land Survey and Engineering Group; Canada Revenue Agency, the Royal Canadian Mounted Police, certain Crown corporations and other separate employers/organizations.)

\$000s

Funding for existing climate change programs pending the finalization of a new environmental agenda

(This funding will maintain capacity to deliver certain existing climate change programs, limit disruption and preserve stability in environmental programming. Approximately one half of this funding will be used for post-retrofit evaluations and grants under the EnerGuide for Houses program that, although applications were no longer accepted as of May 12, 2006, provides grants to homeowners for renovations that improve the overall energy efficiency of their homes if an initial evaluation had already been completed before May 12, 2006. Funds will also be used: to support activities in developing countries to address the causes and effects of climate change, while also contributing to sustainable development and poverty reduction; to complete work on research projects already underway; and to meet legally binding commitments for terminated programs.)

Total	82,781

Funding for international police peacekeeping and peace operations in countries experiencing or threatened by conflict and in failed or fragile states

(This funding will be used to provide dedicated resources to establish a formal program within the Royal Canadian Mounted Police to support international police peacekeeping and peace operations that have been carried out since 1989. The capacity that will be created with this funding relieves the pressure to divert resources from other police activities in Canada. The program, which will be undertaken in partnership with participating Canadian police services, will provide the capacity to readily deploy officers abroad as needed to further foreign policy objectives. International police peacekeeping and peace operations represent the civilian police component of overall peacekeeping and peace operations; the roles of the officers in this program are to assist in establishing public security, monitor and advise local police forces abroad, and reform and train these local police organizations. International police training is not only provided in failed and fragile states but may include, if foreign policy objectives require it, training of foreign police officers in areas such as investigative techniques, drug interdiction, the use of force, administration, and forensic procedures.)

Foreign Affairs and International Trade	214
Royal Canadian Mounted Police	36,223

Western Economic Diversification	26
Total	218,757

Horizontal Items included in these Supplementary Estimates

Department, Agency or Crown Corporation \$000s

Funding for the costs of Canadian disaster relief activities in the United States in the wake of Hurricane Katrina
(This funding will allow the reimbursement of costs incurred by the province of British Columbia to deploy its Heavy Urban Search and Rescue Team to New Orleans, by the province of Quebec for supplying roughly 20,000 cots and 40,000 blankets in support of relief operations and by the Canadian Red Cross for the costs of shipping the cots and blankets from Quebec to the areas affected by the hurricane. This funding will also reimburse National Defence for the incremental costs incurred to deploy a naval task group comprised of one destroyer, two frigates, an oil replenishment vessel, and 950 personnel, helicopters, divers, and other expertise and consumables.)

Foreign Affairs and International Trade	2,350
National Defence	6,678
Total	9,028

Funding for the delivery of federal programs and services, including health, to the O-Pipon-Na-Piwin Cree Nation
(This funding will allow the upgrading of community facilities and other capital assets, including the construction of a new nursing facility. It will also allow ongoing programming and services to the Band pending the finalization in 2011 of the process of creating a reserve at South Indian Lake in Manitoba.)

Health	1,490
Indian Affairs and Northern Development	6,133
Total	7,623

Funding for the Universal Child Care Benefit

(This funding will be used for costs related to the design, delivery, promotion and administration of this new social benefit introduced on July 1, 2006. Resources are required for policy analysis and program delivery activities, which include the modification of systems to integrate the Universal Child Care Benefit (UCCB) program into existing processes used to deliver benefit programs, the processing of applications for the UCCB, the issuance of initial notices and monthly payments, the development of promotional materials and the delivery of public outreach activities to maximize understanding and take-up of the UCCB, and client services that are needed most at the introductory stage of a new benefit.)

Payments (statutory):

Human Resources and Skills Development (Social Development)	1,610,000
---	-----------

Administration and delivery (voted):

Canada Revenue Agency	16,416
Human Resources and Skills Development (Social Development)	1,987
Justice	258
Public Works and Government Services	8,437
Total	1,637,098

Horizontal Items included in these Supplementary Estimates

Department, Agency or Crown Corporation \$000s

Funding in support of activities to advance the creation of cultural content on-line and other digitization projects (Canadian Culture On-line Program)

(This funding includes support for digitization projects that will protect and preserve historically significant items such as: the Canadian Broadcasting Corporation's broadcasts; key bibliographic and archival collections of the Library and Archives of Canada; and approximately 220 films of the National Film Board.)

Canadian Broadcasting Corporation	2,000
Canadian Museum of Civilization	1,554
Library and Archives of Canada	2,535
National Arts Centre Corporation	600
National Film Board	2,470
National Museum of Science and Technology	324
Parks Canada Agency	474
Statistics Canada	356
Veterans Affairs	1,705
Total	12,018

Funding in support of initiatives associated with the 2010 Olympic and Paralympic Winter Games in Vancouver and Whistler, British Columbia

(This funding will be used to deliver weather services and provide technical, regulatory and scientific input to environmental assessments and to develop and implement sustainability benchmarking for the Games, and to begin to plan for the visa processing services that will be required to meet the expected higher level of demand for visas that is associated with international events such as the Olympics.)

Citizenship and Immigration	249
Environment	582
Total	831

Funding related to government advertising programs

(These resources are for advertising campaigns and initiatives intended to: increase recruitment in the Canadian Armed Forces; provide consumers and businesses with information related to the GST reduction as well as other measures announced in Budget 2006; promote electronic tax services to small and medium-sized businesses and tax professionals; raise public awareness among Canadian travelers, visitors and importers of their responsibility to help protect Canada from foreign pests, viruses and animal diseases which they may unintentionally bring into the country through food, plants, animals and related products; and to encourage Canadians to act and drive in a manner that keeps them safe.)

Canada Revenue Agency	3,100
Canadian Food Inspection Agency	2,000
Finance	4,100
National Defence	7,500
Transport	2,000
Total	18,700

Horizontal Items included in these Supplementary Estimates

Department, Agency or Crown Corporation \$000s

Funding related to the assessment, management and remediation of federal contaminated sites

(This funding will support such projects as: the remediation, care and maintenance of abandoned mines, including the Faro mine in the Yukon, and the Colomac and Giant Mines in the Northwest Territories; the remediation, care and maintenance of contaminated soil at the Byron Bay Distant Early Warning (DEW) Line in Nunavut; and the remediation of contaminated soil at the small craft harbour in Grand Banks, Newfoundland.)

Agriculture and Agri-Food	296
Correctional Service	40

Total	3,626

Horizontal Items included in these Supplementary Estimates

Department, Agency or Crown Corporation

\$000s

Funding to bolster the combat against the laundering of proceeds of crime and the financing of terrorist activities in accordance with the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act*

(This funding will allow: investments in new and updated information technology and the related physical infrastructure that will facilitate the enhancement of analytical capacity required in response to the use of increasingly sophisticated techniques by criminals; increased compliance activities, primarily in the unregulated sector of financial intermediaries; more comprehensive coverage at Canada's principal airports and at additional high-risk border sites; and increased gathering of intelligence and investigative capacity in an effort to increase seizures, forfeitures, charges laid and eventual prosecutions.)

Canada Border Services Agency	2,968
Financial Transactions and Reports Analysis Centre of Canada	8,037
Justice	955
Royal Canadian Mounted Police	9,902
Total	21,862

Funding to improve the capacity to detect and the readiness to respond to a potential avian or pandemic influenza outbreak including emergency preparedness, research, antiviral stockpiling and rapid vaccine development technology

(This funding will be used to: purchase specialized equipment to protect front-line responders and to dispose of infected animals; implement biosecurity practices on farms to prevent the spread of avian flu in domestic poultry; establish a national network of shared laboratories to diagnose avian flu; purchase additional antiviral drugs for the national stockpile; and design a streamlined pre-market regulatory process and post-market assessment capacity to support rapid vaccine development and widespread anti-viral use in the event of a pandemic.)

Canadian Food Inspection Agency	28,785
Canadian Institutes of Health Research	2,477
Health	1,327
Public Health Agency of Canada	20,328
Total	52,917

Funding to prepare for Canada's participation in International Polar Year 2007-2008, an extensive international research program in the Arctic and Antarctic

(This funding will support the establishment of management structures for the International Polar Year Program, including a federal program office that will oversee the administration of the program; make recommendations on strategic direction, programming and projects; oversee financial management and reporting systems; and liaise with provincial and territorial governments. In addition, northern organizations will be funded to coordinate activities and to act as points of contact for the Program. Funds will also be used for the development and testing of ice and weather information products.)

Environment	250
Fisheries and Oceans	400
Indian Affairs and Northern Development	7,253
Natural Sciences and Engineering Research Council	700
Total	8,603

Horizontal Items included in these Supplementary Estimates

Department, Agency or Crown Corporation \$000s

Funding to support a joint learning program with the Public Service Alliance of Canada to improve labour-management relations

(This funding will support a joint learning program for management and the Public Service Alliance of Canada that will focus on a shared understanding of labour-management issues. Under this program, line managers, staff relations professionals and Public Service employees would receive training in labour relations, conflict resolution and people-management skills in order to improve the work environment and to enhance the ability to resolve issues and address problems in a cooperative manner.)

Public Service Human Resources Management Agency of Canada	747
Treasury Board Secretariat	3,046
Total	3,793

Funding to support the commemoration of the 400th anniversary of the founding of Quebec City in 2008

(This funding will support projects such as: capital investments in three St Lawrence River shoreline sites (Beauport Bay, Pointe-à-Carcy, and Brown Basin); the expansion of the Old Port of Quebec City interpretation centre; and improvements to infrastructures around the Louise Basin. The funding will also be used to support the expansion and modernization of the Jean Lesage International Airport in Quebec City and to support programming and production activities as well as the development of exhibits.)

Royal Canadian Mounted Police	2,105
Transport	22,564
Total	157,623

Support to build a more effective and professional public health workforce in Canada by funding graduate training, including masters and doctoral scholarships, additional community medicine residencies and in-service professional development resources

(Investments in public health education will strengthen Canada's public health capacity by ensuring that the number of students in masters, doctoral and post-doctoral programs relevant to public health increases, that the number of community medicine residents moving into practice increases and that better curricula and training resources are developed so that ultimately, Canada will have an improved readiness capacity to respond to national emergencies such as SARS or a potential pandemic outbreak of influenza. Though the program would be administered by the Public Health Agency of Canada, the existing peer-reviewed selection process of the Canadian Institutes of Health Research would be used for final award decisions.)

Transfers between organizations included in these Supplementary Estimates

Departments often request the authority to transfer monies between organizations for various purposes. This table provides a summary of these transactions. Positive amounts reflect organizations that are receiving funds, while negative amounts indicate the reductions to organizations transferring funds out.

The following table reflects transfers displayed in these Supplementary Estimates.

Department/Agency	Vote	\$ Amount
For a contribution to the Inter-American Development Bank's Multilateral Investment Fund		
Canadian International Development Agency	Vote 35 (Grants and contributions)	\$5,594,558
Finance	Vote 5 (Grants and contributions)	(\$5,594,558)
For a contribution to the Mounted Police Heritage Centre in Regina, Saskatchewan		
Western Economic Diversification	Vote 5 (Grants and contributions)	\$2,500,000
Royal Canadian Mounted Police	Vote 65 (Capital expenditures)	(\$2,500,000)
For additional responsibilities in the areas of border management, enforcement and immigration intelligence		
Canada Border Services Agency	Vote 10 (Operating expenditures)	\$373,500
Citizenship and Immigration	Vote 1 (Operating expenditures)	(\$373,500)
For administrative support		
National Parole Board	Vote 50 (Program expenditures)	\$39,040
Correctional Service	Vote 40 (Operating expenditures)	(\$39,040)
For Canadian broadcast programming that reflects Canadian culture, stories and themes through the Canadian Television Fund		
Canadian Heritage	Vote 1 (Grants and contributions)	\$20,400,000
Telefilm Canada	Vote 120 (Payments to Telefilm Canada)	(\$20,400,000)
For government advertising programs		
Health	Vote 1 (Operating expenditures)	\$1,500,000

	Vote 5 (Grants and contributions)	(\$86,039,000)

\$ 1 Items included in these Supplementary Estimates

Supplementary Estimates often include what are known as "one dollar items", which seek an alteration in the existing allocation of funds as authorized in the Main Estimates. The purpose of a one dollar item is not to seek new or additional funds, but rather to re-allocate existing spending authorities between votes or provide appropriate authorities. Therefore, when no new funds are requested by an organization, the one dollar item listed under "Adjustments to Appropriations" in the Supplementary Estimates is a notional amount indicating that the organization is seeking parliamentary authority through the supply legislation.

The authority associated with each \$1 item relates to either: the approval of grants; the transfers between votes, both within and between organizations; and/or, the modification to an authority embedded in the vote wording. Each is described below:

Approval of grants – the wording used in the Estimates to describe a grant has a legislative character and, therefore, any changes to the grants listed must be approved by Parliament. There is one exception to this requirement: the Canadian International Development Agency must list both its grants and contributions for approval by Parliament.

Vote transfers within an organization – The transfers between votes within an organization are used to redirect surplus spending authority from one vote to another vote in order to reduce the overall amount of spending authority required in the Supplementary Estimates or to realign approved funding due to changes in delivery mechanisms within departmental priorities.

Transfers between organizations – Transfers between organizations are used for a variety of reasons such as: to redirect funding from one organization to another in order to manage or to implement more efficiently an initiative or project; and/or to reflect new organizational responsibilities.

Modify authority embedded in existing vote wording – The Supplementary Estimates can be used to amend an existing authority that is embedded in the vote wording of an organization. Most of these authorities can be found in the non-budgetary vote wording of organizations and are related to limits or ceilings on loans and investments. Such non-budgetary votes are preceded by the letter "L".

\$1 Items included in these Supplementary Estimates

For these Supplementary Estimates:

Organization	Vote Number	Explanation
Agriculture and Agri-Food - Department	15a	To amend the Vote wording to reduce the ceiling for cash advances under the existing Spring Credit Advance Program (from \$1,700,000,000 to \$1,500,000,000) and to establish a ceiling (of \$1,500,000,000) for cash advances under the Enhanced Spring Credit Advance Program.
Canadian Heritage – Canadian Broadcasting Corporation	20a	To authorize the transfer of \$2,000,000 from Canadian Heritage Vote 1 in support of activities to advance the creation of cultural content on-line and other digitization projects (Canadian Culture On-line Program).
	30a	To authorize the transfer of \$33,730,000 from Canadian Heritage Vote 20 for capital projects related to English and French language radio and televisions services.
Canadian Heritage – Canadian Museum of Civilization	35a	To authorize the transfer of \$1,554,250 from Canadian Heritage Vote 1 in support of activities to advance the creation of cultural content on-line and other digitization projects (Canadian Culture On-line Program).
Canadian Heritage – National Arts Centre Corporation	55a	To authorize the transfer of \$600,000 from Canadian Heritage Vote 1 in support of activities to advance the creation of cultural content on-line and other digitization projects (Canadian Culture On-line Program) and \$1,518,323 from Canadian Heritage Vote 5 to support the development of the Quebec Scene Festival, for the development of Official Language Minority Communities (Interdepartmental Partnership with the Official Language Communities), and to support the Governor General Performing Arts Awards.
Canadian Heritage – National Museum of Science and Technology	80a	To authorize the transfer of \$323,620 from Canadian Heritage Vote 1 in support of activities to advance the creation of cultural content on-line and other digitization projects (Canadian Culture On-line Program).
Canadian Heritage – Status of Women - Office of the Co-ordinator	115a	To authorize the transfer of \$115,815 from Canadian Heritage Vote 5 for the development of Official Language Minority Communities (Interdepartmental Partnership with the Official Language Communities).

\$ 1 Items included in these Supplementary Estimates

Organization	Vote Number	Explanation
Canadian Heritage – Telefilm Canada	120a	To authorize the transfer of \$550,000 from Canadian Heritage Vote 5 for the development of Official Language Minority Communities (Interdepartmental Partnership with the Official Language Communities).

35a	The grants listed in the Estimates – To authorize the transfer of \$1,380,000 from Industry Vote 25, <i>Appropriation Act No. 1, 2006-2007</i> for the purposes of this Vote	54,326,000	1,380,000	1	55,706,001
(S)	Contributions to employee benefit plans	10,652,000	10,652,000
	Total Agency	374,093,000	150,000	8,772,556	383,015,556

Notes:

Order in Council P.C. 2006-0354 transferred the control and supervision of the National Science Advisor Secretariat from the Privy Council Office to the Department of Industry (\$474,763).

Orders in Council P.C. 2006-0049 and P.C. 2006-0050 designated the Office of the Registrar of Lobbyists as a department for the purposes of the *Financial Administration Act* and transferred the control and supervision of the Office of the Registrar of Lobbyists from the Minister of Industry to the President of the Treasury Board (\$13,000).

Through these Supplementary Estimates, the “Previous Estimates” column has been adjusted to reflect the \$300,000 provided through the 2006-2007 Special Warrants to the Office of the Registrar of Lobbyists.

(S) Contributions to employee benefit plans	6,544,000	6,544,000
(S) Spending of revenues pursuant to subsection 18(2) of the <i>Canada School of Public Service Act</i>	20,000,000	20,000,000
Total Agency.....	111,185,000	(260,889)	110,924,111
Office of the Registrar of Lobbyists				
27a Program expenditures – To authorize the transfer of \$13,000 from Industry Vote 1, <i>Appropriation Act No. 1, 2006-2007</i> for the purposes of this Vote and to provide a further amount of	300,000	13,000	2,838,666	3,151,666
Total Agency.....	300,000	13,000	2,838,666	3,151,666
Public Service Human Resources Management Agency of Canada				
30a Program expenditures – To authorize the transfer of \$166,898 from Privy Council Vote 1, <i>Appropriation Act No. 1, 2006-2007</i> for the purposes of this Vote and to provide a further amount of	97,675,000	166,898	788,237	98,630,135
(S) Contributions to employee benefit plans	9,205,000	9,205,000
Total Agency.....	106,880,000	166,898	788,237	107,835,135
Total Ministry	2,845,267,922	92,644,330	413,442,979	3,351,355,231

Notes:

Orders in Council P.C. 2006-0049 and P.C. 2006-0050 designated the Office of the Registrar of Lobbyists as a department for the purposes of the *Financial Administration Act* and transferred the control and supervision of the Office of the Registrar of Lobbyists from the Minister of Industry to the President of the Treasury Board (\$13,000).

In the Statement on the Use of Governor General Special Warrants (Special Warrants), a vote number was assigned for sequencing and ease of reference, but this number did not constitute the creation of a Vote and had no legal significance. Through these Supplementary Estimates, the Office of the Registrar of Lobbyists is seeking to establish Vote 27a, and the “Previous Estimates” column has been adjusted to reflect the \$300,000 provided through the 2006-2007 Special Warrants.

Order in Council P.C. 2006-0695 transferred the control and supervision of the Office of the Senior Advisor Responsible for Diversity and Special Projects from the Privy Council Office to the Public Service Human Resources Management Agency of Canada (\$166,898).

Negative voted amounts in the “Adjustments to Appropriations” column are presented for information purposes only and will not be included in the Proposed Schedules to the Appropriation Bill.
