

ASSET CONDITION REPORTING SYSTEM (ACRS) PROJECTS ANNUAL REPORT

DCI Number/Fiscal Year: 460649.GCIMS (2015-2016)

Purpose: As part of the 3 year ACRS inspections, ACRS projects to protect the health and safety of asset users and either prolong the life or maintain the operation of the assets are identified. The purpose of this report is to follow up on these important tasks.

Reporting Period: For the previous fiscal year ending March 31st.
Exception(s): BC – For project funding in current year.

Due Date: Contact your AANDC regional office.

Exception(s):

BC – November 15th or 6 months following the receipt of funding, whichever is the soonest. This report is required only from First Nations who have completed a triennial ACRS inspection cycle.

ON – October 15th, and for certain First Nations, this process is triennial.

Communities who are scheduled to complete the Triennial ACRS Inspection are not required to complete the annual ACRS Projects report.

QC – April 30th

SK – October 15th

Field Definitions: The information in the grayed out fields comes from the Integrated Capital Management System (ICMS).
