

\$120 BILLION INFRASTRUCTURE PLAN

The Government of Canada is building strong, inclusive and sustainable communities by increasing infrastructure funding over the next ten years. The first phase includes new funding for public transit, social infrastructure and green infrastructure that aims to create economic growth, encourage social inclusion and reduce greenhouse gas emissions. In the coming months, we will work with provinces, territories, municipalities, Indigenous communities and other stakeholders to develop the second phase of the infrastructure plan.

PHASE 1 INFRASTRUCTURE FUNDING

GREEN

Supporting a resilient and strong Canadian economy by creating jobs and business opportunities, promoting sustainable development and reducing greenhouse gas emissions.

\$5 BILLION

- Modernize water and wastewater infrastructure, including First Nations communities
- Improve alternative transportation fuel infrastructure
- Foster regional electricity cooperation

SOCIAL

Investing in Canada's communities by funding social infrastructure to promote inclusive growth and lift more Canadians, including children and seniors, out of poverty.

\$3.4 BILLION

- Affordable housing
- Early learning and childcare
- Cultural and recreation infrastructure
- Community healthcare facilities on reserves
- \$1.2 B tailored for First Nations communities

PUBLIC TRANSIT

Connecting people and supporting strong and sustainable communities by improving reliability, efficiency, safety and accessibility of public transit systems.

\$3.4 BILLION

- Refurbish or purchase transit vehicles
- Replace or enhance transit stations
- Support designs and plans to improve public transit systems

STREAMLINE AND IMPROVE EXISTING PROGRAMS

- Create flexibility for highway and road projects across Canada
- Expand funding categories to include: culture, recreation, tourism, civic assets, passenger ferries
- Commit all remaining funding within the next two years
- Reduce administrative burden through removal of P3 screen
