

Hurricane Season Travel Tips

The hurricane season extends from May 15 to November 30. Tropical depressions and storms that may develop into hurricanes occur in the North Atlantic and northeast Pacific oceans. Catastrophic storms can cause extreme damage to infrastructure, cutting off communications and access to transportation, emergency assistance, medical care, and food and water.

The ability of consular officials to assist Canadian citizens may be limited during catastrophic storms. Mexico, Central America, Caribbean islands and the east and Gulf coasts of the United States are among the most threatened areas. If you plan to travel during hurricane season, we encourage you to:

- ▶ Consult our [Travel Advice and Advisories](http://travel.gc.ca/advice) at travel.gc.ca/advice at least twice: while planning your trip and just before you go, to verify that it is safe to travel to your destination.
- ▶ Purchase [travel insurance](http://travel.gc.ca/insurance) and ensure your insurance allows for trip cancellation or interruption in the event of a hurricane. Learn more at travel.gc.ca/insurance.
