ACTION BY / DUE DATE	

You have requested responses from interested parties based on the complaint raised by Ontario Broiler Hatching Egg Chick Commission (OBHECC), dated July 21, 2015.

The Saskatchewan Broiler Hatching Egg Producers' Marketing Board is a signatory member of the Canadian Hatching Egg Producers (CHEP). We believe that each member of CHEP should have an active involvement in this issue, as each province has a stake in the outcome.

When Saskatchewan signed back into the national agency we understood that this national system included production controls through allocations and enforcement mechanisms to ensure provinces did not exceed their allocations. Without these enforcement mechanisms the ability to have a strong supply managed system fails to exist. This is deeply concerning to the Saskatchewan Broiler Hatching Egg Producers' Marketing Board.

As a member of CHEP we are committed to finding a solution to this issue.

Also would appreciate that email correspondence be used in the future to prevent time lags in responses to these important issues.

Thank you,

Mr. Henk van Steenbergen
Chair, Saskatchewan Broiler Hatching Egg Producers Marketing Board
