STAKEHOLDER ENGAGEMENT (cont'd)			
<p>G4-26 EDC engages with stakeholders on a continual basis. In addition to responding to stakeholder enquiries (2015 CSR Report, Taking Responsibility – Listening to Our Stakeholders), our stakeholders are in contact with us throughout the year. Their inquiries and our discussions with them help us understand where we can improve our performance. Our disclosure practices have improved stakeholders' understanding of what we do, and how we analyze issues prior to deciding to support Canadian exporters and investors. We explain our processes and practices related to environmental, social and human rights practices, in order to provide the insight stakeholders are seeking.</p> <p>The full list of key stakeholder engagements can be found in our 2015 CSR Report – Taking Responsibility – Listening to Our stakeholders</p> <p>For the purpose of preparing this report, specific outreach was undertaken to our Government of Canada stakeholder and the key non-governmental organization. We also reviewed customer feedback on transactions. These three represent the key stakeholder groups for EDC and their input was invaluable in helping us identify material issues to be covered in this report.</p> <p>On an ongoing basis, EDC has two external bodies that it consults. EDC's Advisory Council on CSR, a nine-member body of eminent persons that meets twice a year, was created to serve as a sounding board and provides advice to help EDC achieve best practices in CSR. A Board member regularly attends as a participant.</p> <p>The Industry Stakeholder Panel, whose members are drawn from leading Canadian industry associations, meet on a yearly basis. Members identify common priorities, competitive issues and market developments. We use the panel as a tool to understand the concerns of our customers.</p>	No	Approach adopted for the activity of involving stakeholders

EDC's website - Operational Footprint		No	
G4-EN30	As an international corporation doing business around the world, our business travel will always be an integral part of our business. Since 2011, vehicle travel has greatly decreased over time, with 534,603 k in 2011 to 154,000 km reported in 2015 for vehicle travel. Total km was reduced from 16,215,000 in 2014 to 15,312,000 in 2015. This is attributed to the use of technology such as video conference calling being encouraged to connect regional offices to head office as well as employees to clients.		No	Significant environmental impacts of transporting products and other goods and materials for the organization's operations, and transporting members of the workforce
Material Aspect: Overall				
G4-DMA	We consider the impact that our own operations have on the environment and have taken steps to reduce our operational footprint, which we report publicly. Data includes electricity, natural gas and paper usage, water consumption and business travel and has been converted greenhouse gas equivalents using the Greenhouse Gas Protocol. Since we began reporting our footprint data in 2008, the results indicate that our efforts to reduce, reuse and recycle have had some impact. These efforts are spearheaded by our Green Team, a cross-corporate, volunteer employee advocacy group which provides a forum to develop new ideas. We have undertaken many environmental initiatives as a direct response. 2015 CSR Report – Being a Good Corporate Citizen - Operational Footprint For projects that EDC supports, impact on the environment and people is reviewed under IFC Performance Standards – 2015 CSR Report – Protecting the Environment and People - Environmental and Social Risk Review.
