

Hi,

I am a mother of special needs daughter 9 years old with complex care.

We have family overseas, Bolivia and Mexico.

We have no extended family here in Canada.

Reason for that, we travel to those countries to visit our family members quite frequently.

We always have several difficulties during those long journeys with a special need child.

I strongly support the One person One fare for International Flights.

As we have for domestic flights.

I hope this request can be considered.

Have yourself a wonderful day.

Regards,

Ericka Martinez
