1. **Haldimand County, Ontario**
Application No. 2009-0381-6

Application by **Bel-Roc Communications Inc.** to amend the broadcasting licence for the commercial radio programming undertaking CKJN-FM Haldimand County, Ontario.

The licensee proposes to amend the condition of licence stating that it shall devote 60% or more of its musical selections from content category 2 throughout the broadcast week and between 6 a.m. and 6 p.m. Monday to Friday to Canadian selections broadcast in their entirety. The applicant requests to reduce the percentage to 35%.

In its application, Bel-Roc Communications Inc. stated that the station has failed to attract enough advertiser and listener support to maintain its 60% Canadian content level.

Application No. 2009-0450-0

Application by **Newcap Inc.** relating to the broadcasting licence for the English-language commercial radio programming undertaking CJUK-FM Thunder Bay, Ontario.

The licensee proposes to change the authorized contours of CJUK-FM by increasing the effective radiated power from 37 to 250 watts (non-directional antenna with an effective height of antenna above average terrain of 36.8 metres). All other technical parameters remain unchanged.

The Commission notes that the increase in power would result in a change in CJUK-FM's status from that of a low-power unprotected service to that of a regular Class A1 FM station.

The licensee wishes to increase the quality of the signal of the transmitter.
