

01 May 2013

Mr. Chris Seidl
Executive Director
Canadian Radio-television and
Telecommunications Commission
OTTAWA, Ontario
K1A 0N2

Dear Mr. Seidl:

Re: Northwestel Inc. - TN 901 - Price Caps Inflation and Recovery of Costs for Local Competition

Pursuant to Telecom Regulatory Policy 2011-771 (“the Decision”) *Price Caps Regulation for Northwestel Inc.*, and Telecom Decision CRTC 2008-74, *Approval mechanisms for retail and CLEC tariffs*, the Company submits its tariff changes which meet the Commission’s approved pricing regulation for Northwestel to reflect the annual inflation factor in the Business Basket and Other Capped Basket and to accommodate the Commission approved recovery of Northwestel’s local competition implementation costs in Telecom Decision CRTC 2013-135 *Northwestel Inc. – Recovery of local competition start-up costs*. Northwestel has included the impacts of that decision in its SBI Inflation Indices allowable for 2013 including the Residential Service Basket. The detailed calculation of the local competition exogenous factor by basket is provided in Attachment 2.

Rate changes are being made to the following:

Other Capped Basket.

- Voice Channel Mileage Charges CRTC 3001 General Tariff, Item 701.2.a increase by up to 10% per item.
- Private Branch Exchange Service CRTC 3001 General Tariff 3001 Item 806.2A Direct-In-Dial (DID) Service - PBX Trunk, monthly rate increase by 4%.
- Private Branch Exchange Service CRTC 3001 General Tariff 3001 Item 806.2B Direct-In-Dial (DID) Service - initial (block of 25) 7 digit number, monthly rental rate increase by 10%.
- Voice Grade Channels CRTC 3003 Private Wire service Items 202 B and C Local Mileage and Inter City Mileage rate increases of up to 10%.
- Satellite Service CRTC 3003 Private Wire service Items 903.7 Satellite Transport Rates and Digital Direct Community Satellite service Bandwidth rates increased by up to 10%.
- Data Network Services, CRTC 3003 Private Wire service, Item 1119.E.1 10 Mbps LAN Interconnection Service monthly, 1 year and 3 year contract rate decreases from 7 to 10%.
- Data Network Services CRTC 3003 Private Wire Service, Item 1120.E Fractional DS-1 Access, various rates increase by 10%.

Business Access Basket.

- Individual Business Primary Exchange and Multi-Line Business Primary Exchange Services, CRTC 3001 General Tariff Item 207 increase monthly rate by 3.7 and 3.9 % respectively.
- Non-fixed Business Manual Mobile Network Access and Fixed Station Network Access, Business, CRTC 3006 Manual Mobile Telephone Service, Items 201.7.a.i and a.ii increased by 10%.

Residential Basket

- Individual Residential Primary Exchange Services, CRTC 3001 General Tariff Item 207 increase monthly rate by 3.32 %.
- Manual Mobile Telephone Service - Fixed Station Network Access, Residential CRTC 3006 Manual Mobile Telephone Service, Items 201.7.a.ii increased by 4.89%.

UnCapped Basket

- Exchange Service Rates - Business - Centrex CRTC 3001 General Tariff Item 807 increase monthly rates by 3.9 %
- Centrex II Service - Small Business Centrex Month-to-Month, Package, and long term contract rates Items 807.7.a increased by 15%.
- Supplemental Service & Equipment, General Tariff 3001 item 1403 various items as shown in more detail in Table 1 below, monthly rates increased by approximately 15%.
- Special Services Tariff 3010, Item 727 CSU/DSU for DS1 Circuit (billed portion) - Single port, 1-year contract, increased by approximately 25%
- Special Services Tariff 3010, Item 733 MultiDrop Packet Network, monthly charge, increased by approximately 25%

Northwestel provides revised Price Caps Model attachments A to F to provide details on rate changes and the SBI and SBL Index (Attachment A) which shows that all price changes fall within the Price Caps permitted changes. All details regarding price changes can be seen in these attachments and the proposed revised tariff pages.

As explained above, in Telecom Decision CRTC 2013-135 *Northwestel Inc. – Recovery of local competition start-up costs*, the Commission approved recovery of Northwestel's local competition implementation costs. As a result, Northwestel has included the impacts of that decision in its SBI Inflation Indices allowable for 2013. The detailed calculation of the local competition exogenous factor by basket is provided in Attachment 2.

Attachment 3 provides the details on rate changes for specific tariffed items within the Uncapped Basket and shows that Northwestel's rate increases fall within the permitted amount reflected in Attachment 2.

The Company certifies that this tariff filing is made up entirely of Group A tariff changes which correspond to price caps and price regulation requirements as required for Group A tariff filings as defined by the Commission in Decision 2008-74.

The rates will be effective June 1, 2013, unless otherwise directed by the Commission.

The Company files disaggregate revenue and demand information contained in the Price Caps model, Attachments 1A to 1F and Attachments 2 and 3, in confidence with the Commission. Pursuant to section 39 of the Telecommunications Act and the directions provided by the Commission in the Appendix to Broadcasting and Telecom Information Bulletin CRTC 2010-61, *Procedures for filing confidential information and requesting its disclosure in Commission proceedings*, 23 December 2010, as amended in Telecom Information Bulletin CRTC 2010-961-1, 26 October 2013 (collectively, Bulletin 2010-961). In particular, the information which the Company has provided in confidence is of a type which the Commission has indicated in those bulletins should be treated as confidential. Release of this information on the public record would allow existing and potential competitors to formulate more effective business plans and marketing strategies based on the disaggregated revenue and demand information provided. Such disclosure would therefore prejudice the

Company's competitive position and cause specific direct harm to the Company. Abridged versions of the Attachments are provided for the public record.

Yours truly,

Dallas Yeulett
Senior Manager, Regulatory Compliance

GENERAL TARIFF
EXCHANGE SERVICE

Item
207 EXCHANGE RATES

- A. The following table specifies the monthly recurring rate for each primary exchange service with touch-tone access for all rate groups.
- B. The initial service period for all primary exchange service is one month except as stated elsewhere in this tariff. Monthly surcharges of \$0.10 per residential access line, \$0.20 per business individual access line and \$0.60 per multi-line trunk as directed in Telecom Order CRTC 95-886 are included in the rates set out below.

BUSINESS

Rate Group	Ind	Multi-Line	Centrex
1	66.10 (A)	75.85 (A)	
2	66.10 (A)	75.85 (A)	
3	66.10 (A)	75.85 (A)	
4	66.10 (A)	75.85 (A)	(Item 807.13)

- C. Additional charges as specified in the Company's tariffs apply for telephones or other equipment provided by the Company.
- D. Multi-line hunt/directory number hunt service provides for sequential hunting over two or more central office lines. The multi-line hunt/directory number hunt charge applies to all lines within the Hunting Group. The multi-line hunt/directory number hunt charge is not applied to multi-line service.
- E. Multi-line hunt/directory number charge at additional \$4.00 per line per month, in addition to the rates specified in Item 207.C.

GENERAL TARIFF
MILEAGE CHARGES

Item
701 VOICE CHANNEL MILEAGE

1. General

The regulations and charges herein apply to circuits that are provided to meet special requirements of customers. Such charges are in addition to the other rates and charges applicable to the service.

Extension Line Mileage applies to the extension circuits serving off-premise extension stations or private branch exchange stations.

A tie trunk is a circuit providing intercommunication between private branch exchanges of the same or separate customer and over which central office service may be extended at either end but not at both ends simultaneously.

Full period private line telephone service consists of the provision of facilities (on a twenty-four hour basis) for telephone communications between two or more terminals located within the same rate centre and is not connected to facilities of another rate centre or to any facilities through which public telephone service is provided.

2. Rates

Applicable to the airline measurement via the serving central office involved.

- a) Where the terminals of the line are different or unconnected buildings in the same exchange and are on the same continuous or different properties of the customer:

	<u>Monthly Rental</u>	
First one quarter mile or fraction thereof	\$33.30	(A)
Each additional one quarter mile or fraction thereof.....	\$9.45	(A)

- b) Where the terminals of the line are in separate exchanges.

For voice channel service between two or more cities (where inter-city circuitry is required) the rates for the inter-city circuit and associated local channels, applicable to this type of service are covered in Tariff CRTC 3003, Item 701.

3. Conditions

- a) The above charges shall apply in addition to any other charges for equipment and all other service.
- b) When it is necessary to provide additional equipment or incur any unusual expense in providing the service, an additional charge is assessed to the customer based on the actual cost to provide the service.
- c) Where circuits are routed via any means other than those stipulated by the Company, an additional charge may be assessed to the customer.

GENERAL TARIFF
MILEAGE CHARGES

Item
701 VOICE CHANNEL MILEAGE (cont'd)

3. Conditions (cont'd)

- d) When a customer has a group of 10 or more off-premises PBX station lines at the same location, a mileage charge of \$10.15 per circuit may be applied in lieu of standard mileage charges for distances up to one-mile airline measurement via the central office. (A)
- e) Voice Channel service is furnished when facilities are available using methods best suited to meet plant and operation requirements.
- f) Customer equipment attached to the Company's facilities must be in accordance with Northwestel's Connection of Customer-Provided Equipment Tariff CRTC 3001, Items 1301, 1302 and 1303.

Item

Item
705 FOREIGN EXCHANGE SERVICE

1. General

Foreign exchange service is a primary exchange service furnished from an exchange, which does not normally serve the area in which the customer to such service is located. It is provided at the discretion of the Company and is subject to the availability of suitable facilities and to the requirements of exchange service and message toll telephone service. Central office service may be extended at either end but not at both ends simultaneously.

2. Rates

The rates for foreign exchange service and miscellaneous service and equipment in connection therewith, shall be the rates applicable in the foreign exchange plus an additional mileage charge as specified in Tariff CRTC 3003, Item 202.D "Inter-City Mileage". These rates apply also when service is provided to a customer in an area not normally serviced by any central office.

GENERAL TARIFF
PRIVATE BRANCH EXCHANGE SERVICE

Item
806 DIRECT-IN-DIAL SERVICE (DID)

1. General

DID Service provides access to individual Computerized Private Branch Service (CPBX) Stations, with a seven (7) digit number from the exchange network, without attendant assistance. The rates and charges herein are in addition to other rates and charges applicable to this service. The minimum purchase of this service is 25 numbers.

PRIVATE WIRE SERVICE
MILEAGE CHARGES

Item
202 VOICE GRADE CHANNELS (cont'd)

B. Local Mileages (cont'd)

2. All service points or stations in same city:

a) General
When a four-wire channel is required, the customer shall pay double the local channel mileage rates.

b) Channels between buildings on different properties:

i) A monthly mileage charge applies for each two-point circuit based on the airline distance between the centres of the buildings in which the circuit terminates except in cases where a Private Line Service terminates in the Company's central office and the customer does not require a local loop to the premises.

	<u>Monthly Rental</u>	<u>Service Charge</u>	
First quarter mile	\$33.30	Item 503	(A)
Ea. additional quarter mile or fraction thereof	9.45	Item 503	(A)
Minimum	33.30	Item 503	(A)

ii) For a multi-point channel the chargeable distance for each of the combinations of service points is determined separately. The total chargeable distance is the combination of distances connecting all service points that produce the lowest charge. The higher initial quarter mile charge applies only once.

c) Channel between buildings or points on continuous property:

i) When a channel is provided between buildings on continuous property, rates, rentals and charges apply as follows:

	<u>Monthly Rental</u>	<u>Service Charge</u>	
First quarter mile	\$33.30	Item 503	(A)
Ea. additional quarter mile.....	9.45	Item 503	(A)

ii) When a channel is provided between service points in more than two buildings, the mileage charge applies to the portion of the channel between each pair of buildings.

d) Channel in a building:

i) A monthly rate of \$9.45 applies for a channel entirely within one building.

ii) When a channel is extended to one or more service points outside the building, a charge applies only for the part outside the building (paragraphs b) and c) preceding); for a channel under these conditions a non-recurring service charge applies for each service point in the building in excess of one as per Item 503

Final Approval in Telecom Order CRTC 2013-181, 09 April 2013

Effective: 19 February 2013

GENERAL TARIFF
MILEAGE CHARGES

Item
701 VOICE CHANNEL MILEAGE

1. General

The regulations and charges herein apply to circuits that are provided to meet special requirements of customers. Such charges are in addition to the other rates and charges applicable to the service.

Extension Line Mileage applies to the extension circuits serving off-premise extension stations or private branch exchange stations.

A tie trunk is a circuit providing intercommunication between private branch exchanges of the same or separate customer and over which central office service may be extended at either end but not at both ends simultaneously.

Full period private line telephone service consists of the provision of facilities (on a twenty-four hour basis) for telephone communications between two or more terminals located within the same rate centre and is not connected to facilities of another rate centre or to any facilities through which public telephone service is provided.

2. Rates

Applicable to the airline measurement via the serving central office involved.

- a) Where the terminals of the line are different or unconnected buildings in the same exchange and are on the same continuous or different properties of the customer:

	<u>Monthly Rental</u>	
First one quarter mile or fraction thereof	\$30.30	(A)
Each additional one quarter mile or fraction thereof.....	\$8.60	(A)

- b) Where the terminals of the line are in separate exchanges.

For voice channel service between two or more cities (where inter-city circuitry is required) the rates for the inter-city circuit and associated local channels, applicable to this type of service are covered in Tariff CRTC 3003, Item 701.

3. Conditions

- a) The above charges shall apply in addition to any other charges for equipment and all other service.
- b) When it is necessary to provide additional equipment or incur any unusual expense in providing the service, an additional charge is assessed to the customer based on the actual cost to provide the service.
- c) Where circuits are routed via any means other than those stipulated by the Company, an additional charge may be assessed to the customer.

**GENERAL TARIFF
MILEAGE CHARGES**

- Item 701 VOICE CHANNEL MILEAGE (cont'd) (C)**
- 3. Conditions (cont'd) (M) (D)**
- d) When a customer has a group of 10 or more off-premises PBX station lines at the same location, a mileage charge of \$9.45 per circuit may be applied in lieu of standard mileage charges for distances up to one-mile airline measurement via the central office.
 - e) Voice Channel service is furnished when facilities are available using methods best suited to meet plant and operation requirements. (M₁)
 - f) Customer equipment attached to the Company's facilities must be in accordance with Northwestel's Connection of Customer-Provided Equipment Tariff CRTC 3001, Items 1301, 1302 and 1303. (M₂)

Item 702 (Reserved for future use.)

Item 703 (Reserved for future use.)

Item 704 (Reserved for future use.) (D)

Item 705 FOREIGN EXCHANGE SERVICE (M₃)

1. General

Foreign exchange service is a primary exchange service furnished from an exchange, which does not normally serve the area in which the customer to such service is located. It is provided at the discretion of the Company and is subject to the availability of suitable facilities and to the requirements of exchange service and message toll telephone service. Central office service may be extended at either end but not at both ends simultaneously.

2. Rates

The rates for foreign exchange service and miscellaneous service and equipment in connection therewith, shall be the rates applicable in the foreign exchange plus an additional mileage charge as specified in Tariff CRTC 3003, Item 202.D "Inter-City Mileage". These rates apply also when service is provided to a customer in an area not normally serviced by any central office.

(M) – Moved to CRTC 3001, 5th Revised Page 95

PRIVATE WIRE SERVICE
MILEAGE CHARGES

Item
202 VOICE GRADE CHANNELS (cont'd)

B. Local Mileages (cont'd)

2. All service points or stations in same city:

a) General

When a four-wire channel is required, the customer shall pay double the local channel mileage rates.

b) Channels between buildings on different properties:

i) A monthly mileage charge applies for each two-point circuit based on the airline distance between the centres of the buildings in which the circuit terminates except in cases where a Private Line Service terminates in the Company's central office and the customer does not require a local loop to the premises.

	<u>Monthly Rental</u>	<u>Service Charge</u>	
First quarter mile	\$30.30	Item 503	(A)
Ea. additional quarter mile or fraction thereof	8.60	Item 503	(A)
Minimum	30.30	Item 503	(A)

ii) For a multi-point channel the chargeable distance for each of the combinations of service points is determined separately. The total chargeable distance is the combination of distances connecting all service points that produce the lowest charge. The higher initial quarter mile charge applies only once.

c) Channel between buildings or points on continuous property:

i) When a channel is provided between buildings on continuous property, rates, rentals and charges apply as follows:

	<u>Monthly Rental</u>	<u>Service Charge</u>	
First quarter mile	\$30.30	Item 503	(A)
Ea. additional quarter mile.....	8.60	Item 503	(A)

ii) When a channel is provided between service points in more than two buildings, the mileage charge applies to the portion of the channel between each pair of buildings.

d) Channel in a building:

i) A monthly rate of \$8.60 applies for a channel entirely within one building.

ii) When a channel is extended to one or more service points outside the building, a charge applies only for the part outside the building (paragraphs b) and c) preceding); for a channel under these conditions a non-recurring service charge applies for each service point in the building in excess of one as per Item 503
