2014–15 Estimates

CORRIGENDUM

Part I – Government Expenditure Plan

Page I–6 — Major Transfer Payments

The explanatory text should read:

“Excluding Employment Insurance, major transfer payments – significant transfers to other levels of government and transfers to persons – are expected to be \$109.5 billion, 76.5% of total estimated transfer payment expenditures. As presented in the table, transfers to other levels of government are projected to total \$62.5 billion in 2014–15.”

Annex – Items for inclusion in the Proposed Schedules to the Appropriation Bill

Page A–20 — Justice

The wording to Vote 5 under Justice should read:

“Justice – The grants listed in the Estimates and contributions”

2014–15 ESTIMATES

Part I – Government Expenditure Plan

Introduction

Purpose

Expenditures made by government require the authority of Parliament. That authority is provided in two ways: annual Appropriation Acts, or Supply Bills, that specify the amounts and broad purposes for which funds can be spent; and other specific statutes that authorize payments and set out the amounts and time periods for those payments. The amounts approved in Appropriation Acts are referred to as voted amounts, and the expenditure authorities provided through other statutes are called statutory authorities.

Estimates documents are prepared to support Appropriation Acts. As such, the Estimates provide additional information on voted amounts included in the Appropriation Act. Forecasts of statutory amounts are also presented to provide a broader context.

Links with the Budget

The Budget Plan is a key policy document of the Government, announcing tax changes, new or enhanced programs and anticipated revenues. It also provides an economic forecast. While the Budget, like a Supply Bill, is also a confidence measure, the Budget does not provide parliamentary expenditure authority.

Given the differences in timing of the preparation of the Main Estimates and the Budget, it is not always possible to include emerging priorities and items announced in the Government's Budget in the Main Estimates.

Therefore, to clarify the links between these Estimates and recent funding decisions, this document identifies items announced in a recent federal budget and which appear for the first time in the Estimates. Specifically, the following items were approved in the Economic Action Plan (Budget 2013) and are included in departmental reference levels in 2014–15:

- **Canada Mortgage and Housing Corporation** – Investment in Affordable Housing and housing in Nunavut
- **Employment and Social Development** – Homelessness Partnering Strategy
- **Federal Economic Development Agency for Southern Ontario** – Renewed mandate and funding to support the restoration and revitalization of Massey Hall
- **Industry** – Support for the aerospace sector, including the Technology Demonstration Program
- **International Development Research Centre** – Development Innovation Fund

Other items approved in Budget 2013 were identified in the 2013–14 Supplementary Estimates. Future Estimates documents will include other planned expenditures announced in 2013 and subsequent Budgets.

The Estimates and Budget use different accounting methodologies. Estimates, with the focus on authority for payments in a fiscal year, are prepared on a near-cash basis. The Budget's economic forecast is prepared on a full accrual basis. A more complete explanation of the differences in methodology and a reconciliation between the annual results and amounts included in Estimates are presented in the Notes to the Financial Statements of the Government of Canada included in the Public Accounts. Volume II of Public Accounts presents government expenditures on the same basis as the Estimates, while Volume I of Public Accounts provides financial information corresponding to the Budget.

The Estimates Documents

The Estimates are comprised of three parts:

Part I – Government Expenditure Plan – provides an overview of the Government’s requirements and changes in estimated expenditures from previous fiscal years.

Part II – Main Estimates – supports the appropriation acts with detailed information on the estimated spending and authorities being sought by each federal organization requesting appropriations.

Parts I and II are included in this volume and, in accordance with Standing Orders of the House of Commons, must be tabled on or before March 1.

Part III – Departmental Expenditure Plans – consists of two components:

Reports on Plans and Priorities (RPP) are individual expenditure plans for each department and agency which provide increased levels of detail over a three-year period on an organization’s main priorities by strategic outcomes, program and planned/expected results, including links to related resource requirements presented in the Main Estimates. The RPPs are typically tabled soon after the Main Estimates by the President of the Treasury Board.

Departmental Performance Reports (DPR) are individual department and agency accounts of results achieved against planned performance expectations as set out in respective RPPs. The DPRs for the most recently completed fiscal year are tabled in the fall by the President of the Treasury Board.

Supplementary Estimates support Appropriation Acts presented later in the fiscal year. Supplementary Estimates present information on spending requirements that were either not sufficiently developed in time for inclusion in the Main Estimates or have subsequently been refined to account for developments in particular programs and services.

Changes to the presentation of the 2014–15 Main Estimates

Departments and agencies are presented alphabetically in the Proposed Schedules to the Appropriation Bill, according to the legal name of the department or agency. This has led to a change in vote numbering. This presentation is consistent with Part II and other tables.

Forecast statutory expenditures for Employment Insurance benefits are no longer presented in the Main Estimates. The Employment Insurance Operating Account (a separate account in the accounts of Canada) was established to record all amounts received or paid out under the *Employment Insurance Act* since January 1, 2009. Financial information for the Employment Insurance Operating Account may be found in Section 4 of Volume 1 of the Public Accounts of Canada.

Estimates to Date now excludes any funding deemed to have been appropriated to a department following the transfer of a portion of the federal public administration.

Summary of Estimates

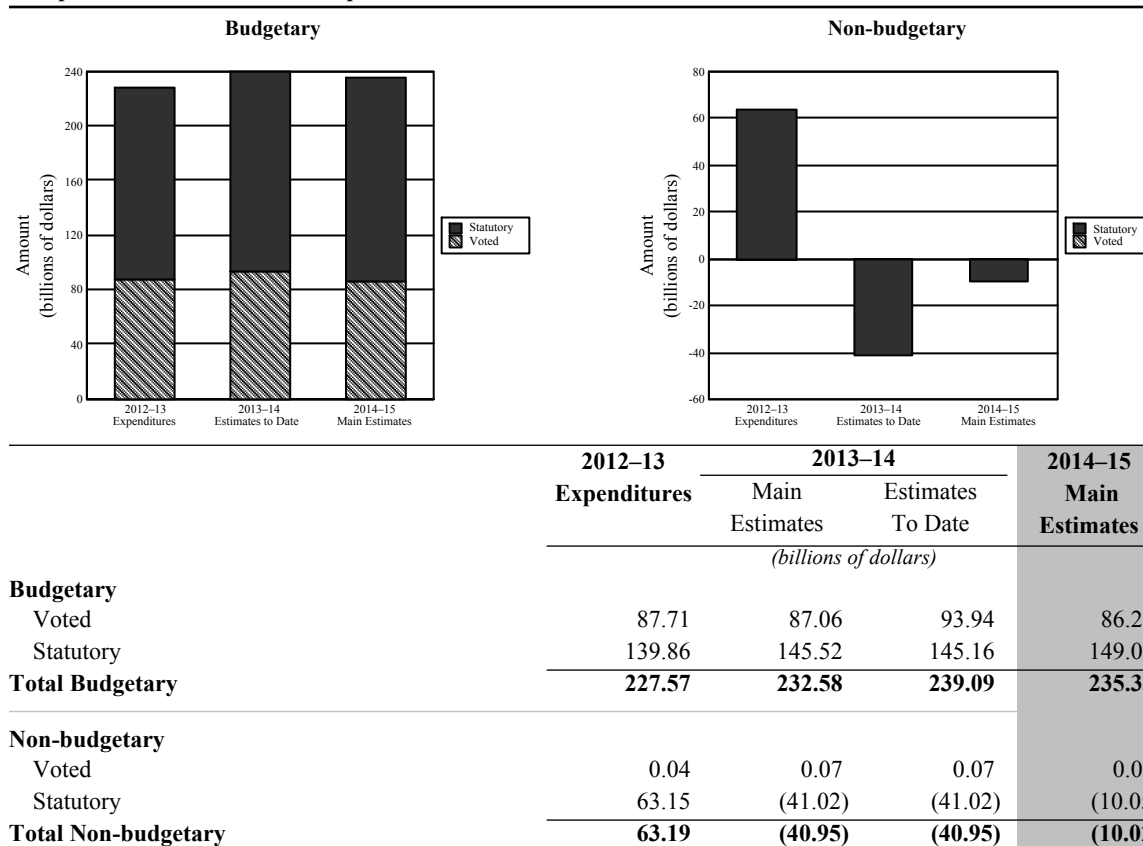

These Estimates support the government's request to Parliament for authority to expend through annual appropriations:

- \$86.3 billion for budgetary expenditures – operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations; and
- \$26.7 million for non-budgetary expenditures – net outlays and receipts related to loans, investments and advances, which change the composition of the financial assets of the Government of Canada.

These voted expenditures require annual approval from Parliament which is sought through an appropriation bill. The bill provides the specific wording that governs the purpose and conditions under which expenditures can be made and the funds subject to these terms and conditions.

Statutory forecasts represent payments to be made under legislation previously approved by Parliament. Statutory forecasts are included in these Estimates to provide a more complete picture of total estimated expenditures. Of these forecasts, \$149.1 billion is for budgetary expenditures including the cost of servicing the public debt. Recoveries on loans, investments and advances are expected to exceed expenditures by \$10.1 billion.

Comparison of Estimates and Expenditures

Note: Totals may not add and may not agree with details presented later in this document due to rounding.

The following graphs present the voted and statutory components of Main Estimates and a comparison of Main Estimates over the last ten years of Main Estimates.

Long-term comparison of Main Estimates

Note: Totals may not add and may not agree with details presented later in this document due to rounding.

Composition of Estimates and Expenditures

	2012-13	2013-14		2014-15
	Expenditures	Main Estimates	Estimates To Date	Main Estimates
	<i>(billions of dollars)</i>			
Budgetary				
Transfer Payments	135.12	140.33	143.26	143.17
Operating and capital	66.48	65.12	69.55	65.87
Public Debt	25.98	27.13	26.28	26.30
Total Budgetary	227.57	232.58	239.09	235.33
Non-budgetary				
Loans, Investments and Advances	63.19	(40.95)	(40.95)	(10.02)
Total Non-budgetary	63.19	(40.95)	(40.95)	(10.02)

Note: Totals may not add and may not agree with details presented later in this document due to rounding.

Composition of Estimates

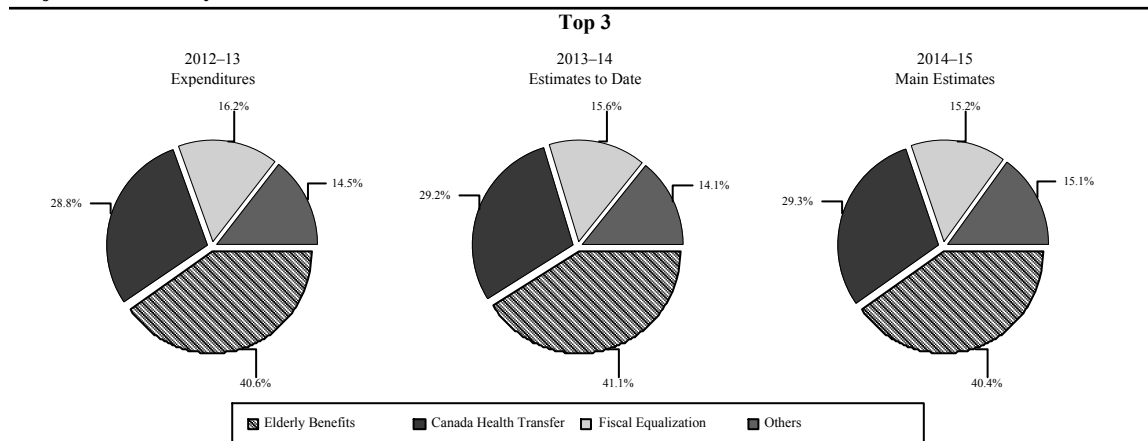

The majority of expenditures in 2014–15 will be transfer payments – payments made to other levels of government, individuals and other organizations. Transfer payments make up approximately 60.84% of expenditures or \$143.17 billion, operating and capital expenditures account for approximately 27.99% of expenditures or \$65.87 billion, while public debt charges are approximately 11.17% of expenditures or \$26.30 billion.

Public Debt Charges

Total interest costs are approximately 11.17% of expenditures or \$26.3 billion, a projected decrease of \$0.8 billion or 3.1% from previous Main Estimates and \$0.3 billion more than actual expenditures for 2012–13. The decrease in total interest costs relative to the previous Main Estimates is largely due to assets maturing under the Insured Mortgage Purchase Program in 2013–14, as well as a decrease in the average Government of Canada long-term bond rate that is used to calculate interest on the public sector pension obligations pertaining to service pre April 1, 2000. Total interest costs are comprised of interest on unmatured debt of \$18.1 billion and other interest costs of \$8.2 billion. Interest on unmatured debt represents the interest resulting from certificates of indebtedness issued by the Government of Canada that have not yet become due. Other interest costs include interest on liabilities for federal public service pension plans, deposit and trust accounts and other specified purpose accounts.

Major Transfer Payments

Major Transfer Payments

	2012–13	2013–14		2014–15
	Expenditures	Main Estimates	Estimates To Date	Main Estimates
	<i>(billions of dollars)</i>

Total Major Transfer Payments	99.35	103.63	103.67	109.53

Note: Totals may not add and may not agree with details presented later in this document due to rounding.

Major Transfer Payments

Excluding Employment Insurance, major transfer payments – significant transfers to other levels of government and transfers to persons – are expected to be \$107.6 billion, 75.1% of total estimated transfer payment expenditures.

As presented in the table, transfers to other levels of government are projected to total \$60.5 billion in 2014–15, an increase of \$2.3 billion over the previous year's Main Estimates and \$4.2 billion more than actual expenditures in 2012–13.

The Canada Health Transfer (CHT) is a federal transfer provided to provinces and territories in support of health care. Starting in 2014–15, the CHT will be distributed on an equal per capita cash basis. The CHT will increase by \$1.8 billion from the 2013–14 total to \$32.1 billion in 2014–15, primarily as a result of the 6% escalator (\$1.8 billion) but also due to the transition to an equal per capita cash allocation (\$13.9 million), as legislated in the *Jobs, Growth and Long-term Prosperity Act, 2012*. As legislated in the *Jobs, Growth and Long-term Prosperity Act, 2012* the CHT will continue to increase by 6% per year until 2016–17, after which it will grow based on a 3-year moving average of nominal gross domestic product, with funding guaranteed to increase by at least 3% per year. CHT support is subject to the five conditions of the *Canada Health Act* and the prohibitions against extra-billing and user fees.

Fiscal Equalization refers to unconditional transfer payments to provinces so that they can provide their residents with public services that are reasonably comparable to those in other provinces, at reasonably comparable levels of taxation. The formula was recently reviewed; changes to the Act were included in the *Economic Action Plan 2013 Act, No. 1*, and changes to the regulations governing this program came into force in December 2013. These payments will be \$16.7 billion in 2014–15, an increase of \$0.6 billion from the Main Estimates 2013–14 and \$0.6 billion more than 2012–13 actual expenditures. The July 2012 Total Transfer Protection (TTP) payments of \$679.7 million are included in the 2012–13 expenditures. The July 2013 TTP payments of \$55.8 million are included in the 2013–14 Estimates to date. Provided in fiscal years 2010–11 to 2013–14, TTP protected individual provinces against year-over-year declines in their total major cash transfers, including prior year TTP amounts.

The Canada Social Transfer (CST) is a federal transfer to provinces and territories in support of social assistance and social services, post-secondary education, and programs for children. For 2014–15, the 3% increase of \$366.5 million to \$12.6 billion is a result of the 3% annual growth rate legislated in the *Jobs, Growth and Long-term Prosperity Act, 2012* for 2014–15 and subsequent years.

Territorial Financing payments, provided through the Territorial Formula Financing (TFF) Program, are unconditional federal transfers to the three territorial governments that allow territories to provide their residents a range of public services comparable to those offered by provincial governments, at comparable levels of taxation. The transfers are based on a formula that fills the gap between a proxy of the expenditure requirements and revenue-raising capacity of the territories. The formula was recently reviewed; changes to the Act were included in the *Economic Action Plan 2013 Act, No. 1* and changes to the regulations governing this program came into force in December 2013. Applying the new formula, these payments are forecast to be \$3.5 billion in 2014–15, \$180.9 million higher than the 2013–14 Main Estimates.

Additional Fiscal Equalization Payments to Nova Scotia are payments related to its 2005 Offshore Accord. Following the introduction of a new formula for Equalization in 2007, Nova Scotia was guaranteed that, on a cumulative basis beginning in 2008–09 over the lifetime of the Accord, the new formula would not reduce its Equalization payments and 2005 Offshore Accord payments when compared with what the province would have received under the formula that was in place when it signed its 2005 Offshore Accord. Based on the first calculation of 2014–15, Nova Scotia is entitled to an advance payment of \$138.3 million in 2014–15, a decrease of \$107.5 million when compared to Main Estimates 2013–14. However, the December 2013 official determination of 2013–14 (upon which payments will be made), is \$260.3 million, which is reflected in the Supplementary Estimates (C), 2013–14.

Wait Times Reduction Funding was part of the 2004 10-Year Plan to Strengthen Health Care in which First Ministers committed to achieving reductions in wait times in priority areas such as cancer, heart, diagnostic imaging, joint replacements and sight restoration. Budget 2005 committed to a transfer of \$5.5 billion for wait times reduction. Of this amount, \$4.25 billion was provided to provinces and territories by way of third-party trusts. The remaining \$1.25 billion was paid in bi-monthly installments totaling \$250 million per year between 2009–10 and 2013–14.

The Additional Fiscal Equalization Offset Payment to Nova Scotia is a payment related to its 2005 Offshore Accord. This Accord guaranteed the province that its Equalization payments would not be reduced due to offshore oil and gas

revenues that entered the Equalization formula. This is derived by applying the Equalization formula with and without offshore oil and gas revenues and comparing the resulting Equalization payments. For the 2004–05 to 2011–12 period, an upfront payment of \$830 million was provided to Nova Scotia in July 2005. This ensured that the province would receive at least that much in Accord compensation over the period. Offset amounts are calculated each year providing 100 percent protection from the inclusion of offshore revenues. In 2011–12, the cumulative draw down exceeded the advance payment. The province is expected to receive \$64.5 million for 2014–15, a decrease of \$25 million compared with the amount for 2013–14.

The Payment to Ontario Related to the Canada Health Transfer provided for separate payments to Ontario outside of the Canada Health Transfer (CHT) cash envelope for 2009–10 and 2010–11 to ensure its per capita cash entitlements in relation to the CHT are the same as for other Equalization-receiving provinces. The payment for 2009–10 of \$489 million was a legislated fixed amount, whereas the payment for 2010–11 was formula-based, and payments were re-calculated along with each new CHT estimate. In all there were five calculations. Each recalculation was based on updated personal income tax data received from the Fiscal Policy Division of Finance Canada and the Canada Revenue Agency. The final calculation for this program was made in September 2013. The payment for 2010–11, including all adjustments, was \$246.2 million. Amounts shown in 2012–13 and 2013–14 represent the impacts of the official recalculations.

The Youth Allowance Recovery relates to tax points transferred to the province of Quebec for the Youth Allowance program, which has since expired. The equivalent value of the tax point reduction is recovered each year from the province of Quebec. The change in recoveries for the Youth Allowances Recovery Program is entirely due to year-over-year changes to the value of federal personal income taxes, the recovery being a percentage of these taxes. For 2014–15, the forecast recovery of \$815.9 million is \$45.6 million higher than the initial 2013–14 forecast in Main Estimates and \$38.3 million higher than the forecast in the 2013–14 Supplementary Estimates (C) due to higher forecast levels of federal personal income taxes.

Alternative Payments for Standing Programs represent recoveries from Quebec of an additional tax point transfer above and beyond the tax point transfer traditionally computed under the Canada Health Transfer (CHT), the Canada Social Transfer (CST) and the Youth Allowances Recovery. The change in recoveries for the Alternative Payments for Standing Programs is entirely due to year-over-year changes to the value of federal personal income taxes, the recovery being a percentage of these taxes. For 2014–15, the forecast recovery of \$3.7 billion is \$203.0 million higher than the forecast in the 2013–14 Main Estimates and \$166.6 million higher than that in 2013–14 Supplementary Estimates (C) due to higher forecast levels of federal personal income taxes.

Transfers to Persons

Excluding Employment Insurance, transfers to persons are projected to be \$47.0 billion in 2014–15, an increase of \$1.6 billion over the 2013–14 Main Estimates and \$4.0 billion more than actual expenditures in 2012–13.

Elderly benefits include Old Age Security, Guaranteed Income Supplement, and Allowance payments. Elderly benefit payments are expected to be \$44.2 billion in 2014–15, an increase of \$1.6 billion over the 2013–14 Main Estimates and \$3.9 billion more than actual expenditures in 2012–13.

Universal Child Care benefits provide families with resources to support childcare choices, and are paid to families in monthly instalments of \$100 per child under the age of six. Universal child care benefit payments are forecast to be \$2.8 billion in 2014–15, an increase of \$31.0 million over the 2013–14 Main Estimates and \$94.3 million more than actual expenditures in 2012–13.

Estimates by Organization

One hundred thirty-three organizations are represented in the 2014–15 Estimates. More information about each organization can be found in Part II – Main Estimates.

Structure of these Estimates

Votes

The basic structural units of the Estimates are the Votes. The following kinds of Votes appear in the Estimates:

A program expenditures vote is used when there is no requirement for either a separate “capital expenditures” vote or a “grants and contributions” vote because neither equals or exceeds \$5 million. In this case, all expenditures are charged to the one vote.

An operating expenditures vote is used when there is also a requirement for either a “capital expenditures” vote or a “grants and contributions” vote or both; that is, when expenditures of either type equal or exceed \$5 million. Where they do not, the appropriate expenditures are included in the “program expenditures” vote.

A capital expenditures vote is used when capital expenditures equal or exceed \$5 million. Expenditure items in a “capital expenditures” vote would include items expected to exceed \$10,000 for the acquisition of land, buildings and works, as well as the acquisition of machinery and equipment, or for purposes of constructing or creating assets, where a department expects to draw upon its own labour and materials, or employs consultants or other services or goods. Reduced thresholds may be applied for different capital expenditure classes at the departmental level.

A grants and contributions vote is used when grants and/or contributions expenditures equal or exceed \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in the Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the vote wording, the meaning of the word “contributions” is considered to include “other transfer payments” because of the similar characteristics of each.

A non-budgetary vote, identified by the letter “L”, provides authority for spending in the form of loans or advances to, and investments in, Crown corporations; and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.

Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity that is part of a larger program, a separate vote is established. Where this is the case, a separate vote structure is established for each. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and responsible directly to a Minister.

To support the Treasury Board in performing its statutory responsibilities for managing the government’s financial, human and materiel resources, a number of special authorities are required. These authorities are described in the vote wording found in the Proposed Schedules to the Appropriation Bill.

Presentation by Organization

The individual organizational presentation is made up of various sections, as explained below. Where a section is not appropriate, it does not appear in the presentation.

Raison d’être – This section provides a brief explanation of why the organization exists and the benefits it provides to Canadians.

Organizational Estimate – This section shows, by Vote, the amounts included in the organization’s Main Estimates. For information purposes, the section also includes a summary of statutory forecasts. Abbreviated Vote wordings are used in this section. Complete vote wording is shown in the Proposed Schedules to the Appropriation Bill following Part II, and detailed statutory forecasts are found in the on-line annex.

Information on 2012–13 actual expenditures and 2013–14 Estimates to Date are included to provide context for the 2014–15 amounts. The 2012–13 actual expenditures are taken from the 2012–13 Public Accounts of Canada. 2013–14 Estimates to Date is the sum of the amounts presented in the 2013–14 Main Estimates and increases sought through the

2013–14 Supplementary Estimates A, B and C. Estimates to date also excludes any funding deemed to have been appropriated to a department following the transfer of a portion of the federal administration. Allocations from Treasury Board Central Votes are made through-out the year and the expenditure authority provided by these allocations is not included in Estimates to Date.

The 2014–15 Program Alignment Architecture is used for the tables presenting information by Strategic Outcome and Program. If there has been a change in the Architecture, amounts for previous years have not been reclassified to the new structure and are reported as “Funds not allocated to the 2014–15 Program Alignment Architecture”.

Highlights – In this section, the department, agency or Crown Corporation provides an explanation of the major item or items that give rise to a year-over-year financial change in Main Estimates, or, where there has not been a material year-over-year change, the department or agency may reference priorities in the Report on Plans and Priorities or Corporate Plan.

Expenditures by Strategic Outcome and Program – This table shows budgetary expenditures at the Strategic Outcome and Program levels of the department’s 2014–15 Program Alignment Architecture. Additional information on nature of expenditure by Program is provided in the on-line annex.

Transfer Payments – If applicable, this table provides a listing of transfer payments for the upcoming year. A transfer payment is a grant, contribution or other payment made for the purpose of furthering program objectives but for which no goods or services are received. Details on transfer payments made in a previous year can be found in Volumes 2 and 3 of the Public Accounts of Canada.

In-year information on expenditure authorities is available in departmental Quarterly Financial Reports, and final expenditure authority and actual expenditures for a fiscal year are reported in the Public Accounts of Canada.

Changes to these Estimates

The purpose of this section is to provide the reconciliation of these Estimates with the previous year’s Main Estimates in the following areas:

- Changes to government organization and structure; and
- Changes in authorities (Votes and Statutory Items).

Changes to Government Organization and Structure

Following the tabling of the 2013–14 Main Estimates on February 25, 2013 and pursuant to the *Public Service Rearrangement and Transfer of Duties Act*, these changes were made.

Supplementary Estimates (A), 2013–14:

- Order in Council P.C. 2013-0340 impacts Health and Hazardous Materials Information Review Commission.

Supplementary Estimates (B), 2013–14:

- Order in Council P.C. 2013-0341 impacts Public Health Agency of Canada and Health.
- Order in Council P.C. 2013-0343 impacts Canadian Food Inspection Agency and Public Health Agency of Canada.
- Order in Council P.C. 2013-0540 impacts Citizenship and Immigration, Employment and Social Development, Foreign Affairs, Trade and Development.
- Order in Council P.C. 2013-0639 impacts Federal Economic Development Agency for Southern Ontario and Industry.
- Order in Council P.C. 2013-1052 impacts Agriculture and Agri-Food and Health.
- Pursuant to a decision by "The Executive" to position the Office of Infrastructure of Canada in a separate Infrastructure, Communities and Intergovernmental Affairs portfolio, Order in Council P.C. 2013-0869 transfers to the President of the Queen’s Privy Council for Canada the control and supervision of the portion of the federal public administration known as the Office of Infrastructure of Canada.
- The *Economic Action Plan 2013 Act, No. 1* states that the Canadian International Development Agency is amalgamated

with the Department of Foreign Affairs and International Trade and will continue as the Department of Foreign Affairs, Trade and Development.

Supplementary Estimates (C), 2013–14:

- Order in Council P.C. 2013-0366 impacts Shared Services Canada and Public Works and Government Services.
- Order in Council P.C. 2013-0872 impacts Health and the Canadian Northern Economic Development Agency.
- The *Economic Action Plan 2013 Act, No. 2* states that the Department of Human Resources and Skills Development is continued under the name of the Department of Employment and Social Development.

These Main Estimates:

- Order in Council P.C. 2012-1583 impacts Canada Lands Company Limited and Old Port of Montreal Corporation Inc.
- The *Safe Street and Communities Act* states that the National Parole Board is continued as the Parole Board of Canada.
- The *Strengthening Military Justice in the Defence of Canada Act* states that the Canadian Forces Grievance Board is continued as the Military Grievance External Review Committee.
- The *Canadian Museum of History Act* state that the Canadian Museum of Civilization is continued as the Canadian Museum of History.

Changes in Voted Authorities

This sub-section lists Votes which contain specific authorities that differ from those included in the previous year's Main Estimates as well as new expenditure authorities appearing for the first time. In light of the House of Commons Speaker's rulings in 1981, the government has made a commitment that the only legislation that will be enacted through the Estimates process, other than cases specifically authorized by Statute, will be previous Appropriation Acts. Proposed changes to existing wording are underlined for ease of reference.

Canadian Heritage

Vote 1 wording was modified by adding "and the Capital Experience Program".

Canadian Radio-television and Telecommunications Commission

Vote 1 wording was modified by adding "*Unsolicited Telecommunications Fees Regulations*".

Citizenship and Immigration

Vote 1 wording was modified by adding "and, pursuant to paragraph 29.1(2)(a) of the *Financial Administration Act*, authority to expend revenues received in a fiscal year from, and to offset related expenditures incurred in the fiscal year arising from the provision of services related to International Experience Canada,".

Correctional Service of Canada

Vote 1 wording was modified by adding "(c) the Correctional Service of Canada (CSC) National Infrastructure Contribution program".

Employment and Social Development

Vote 1 wording was modified by removing "and the Specified Purpose Account for the administration of the Millennium Excellence Awards".

Foreign Affairs, Trade and Development

Votes 1 and 10 wording were extensively modified following the amalgamation with the Canadian International Development Agency. Vote L20 wording was modified with the following "may not exceed \$245,000,000 for the purpose of contributions to the international financial institutions over a period commencing on April 1, 2014 and ending on March 31, 2015".

Health

Vote 10 wording was modified by adding "in the form of monetary payments or the provision of goods or services.

Library and Archives of Canada

Vote 1 wording was modified by removing “and contributions” and named “Program expenditures”. Votes 1 and 5 were amalgamated.

National Energy Board (Vote 1);

Northern Pipeline Agency (Vote 1);

Offices of the Information and Privacy Commissioners of Canada (Vote 5); and

Office of the Public Sector Integrity Commission (Vote 1).

Vote wording was modified by adding “and contributions”.

National Film Board

Vote 1 wording was modified by removing “the grants listed in the Estimates”.

Natural Sciences and Engineering Research Council

Vote 1 wording was modified by adding “and, pursuant to paragraph 29.1(2)(a) of the *Financial Administration Act*, authority to expend revenues received during the fiscal year, to offset expenditures incurred in the fiscal year, arising from the provision of internal support services to other organizations”.

Social Sciences and Humanities Research Council

Vote 1 wording was modified by adding “and, pursuant to paragraph 29.1(2)(a) of the *Financial Administration Act*, authority to expend revenues received during the fiscal year, to offset expenditures incurred in the fiscal year, arising from the provision of internal support services to other organizations”.

Agriculture and Agri-Food

Raison d'être

The Department of Agriculture and Agri-Food Canada (AAFC) was created in 1868 — one year after Confederation — because of the importance of agriculture to the economic, social and cultural development of Canada. Today, the Department helps create the conditions for the long-term profitability, sustainability and adaptability of the Canadian agricultural sector. AAFC supports the sector through initiatives that promote innovation and competitiveness, and that proactively manage risk. The Department's goal is to position agriculture, agri-food and agri-based product industries to realize their full potential by seizing new opportunities in the growing domestic and global marketplace. The Minister of Agriculture and Agri-Food is responsible for this organization.

Highlights

The 2014-15 Main Estimates have increased by \$61.6 million, compared to the 2013-14 Main Estimates. The 2014-15 fiscal year is the second year of Growing Forward 2, a federal, provincial, territorial five-year agriculture policy framework. This framework supports a shift in focus towards strategic investments that promote innovation, competitiveness and market development initiatives to help producers meet rising demand, both in Canada and internationally, while continuing to proactively manage risk. AAFC has also realigned its business in order to achieve the full annual savings by 2014-15 as announced in Budget 2012. These measures help position the Department to meet its future goals and priorities while contributing to the government's return to a balanced budget. In addition, the Department is undergoing transformational change to ensure the Department is well positioned to continue to deliver excellence in policy development and advice, program delivery and scientific expertise to Canada's agricultural sector.

The Department has examined its operations in support of government-wide efforts to find more efficient ways of doing business.

Major changes include:

- An increase of \$207.0 million for the Growing Forward 2 provincial and territorial cost-shared initiatives, which were still being finalized and were therefore not included in the 2013–14 Main Estimates, but rather added through Supplementary Estimates in 2013–14;
- An increase of \$33.9 million for the renewal of support for statutory Business Risk Management programs, which were still being finalized and were therefore not included in the 2013–14 Main Estimates, but rather added through Supplementary Estimates in 2013–14;
- An increase of \$7.5 million for the AgriRisk Initiatives program;
- A decrease of \$70.1 million related to recent savings initiatives;
- A decrease of \$63.5 million related to the completion of initiatives under the Agricultural Flexibility Fund;
- A decrease of \$28.1 million related to an updated forecast for the Advance Payments program under the *Agricultural Marketing Programs Act*; and
- A decrease of \$23.6 million related to the Canadian Wheat Board Transition Costs program.

The number of Strategic Outcomes has changed from three to two and programs have been reduced and merged to reflect the focus of Growing Forward 2 on competitiveness, innovation and market development. The new Program Alignment Architecture also reflects the transformational change underway at AAFC as well as machinery of government changes. As a result, the Department's 2014–15 Main Estimates reflect these changes to the Department's Program Alignment Architecture. Due to the significance of these changes, the 2012–13 expenditures and the 2013–14 Main Estimates have not been fully allocated to the new Program Alignment Architecture.

AAFC will focus on advancing the following priorities in 2014–15:

- Support and improve the competitiveness and adaptability of the agriculture, agri-food and agri-based product sector;
- Maintain and improve access to targeted, key international markets;
- Generate new knowledge, foster innovation and increase adoption and commercialization of agricultural, agri-food and agri-based products, processes or practices;
- Continue to improve program and service delivery to respond to client expectations; and
- Support and engage our workforce to meet current and future work objectives and opportunities.

Please refer to the Department's 2014–15 Report on Plans and Priorities for further information.

Atlantic Canada Opportunities Agency

Raison d'être

Established in 1987 (Part I of the *Government Organization Act, Atlantic Canada 1987*, R.S.C., 1985, c.41 (4th Supp.)), also known as the *Atlantic Canada Opportunities Agency Act*, the Atlantic Canada Opportunities Agency (ACOA) is the federal department responsible for the Government of Canada's economic development efforts in the provinces of New Brunswick, Prince Edward Island, Nova Scotia, and Newfoundland and Labrador.

The Minister of State (Atlantic Canada Opportunities Agency) is responsible for this organization.

ACOA works to create opportunities for economic growth in Atlantic Canada by helping businesses become more competitive, innovative and productive, by working with diverse communities to develop and diversify local economies, and by championing the strengths of Atlantic Canada. Together, with Atlantic Canadians, we are building a stronger economy.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

ACOA is estimating budgetary expenditures of \$288.5 million in 2014–15. Of this amount, \$280.2 million requires approval by Parliament. The remaining \$8.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

ACOA's decrease in spending of \$22.2 million from 2013–14 Estimates to date to 2014–15 is due to a decrease in operating costs of \$3.1 million, a decrease in contributions and other transfer payments of \$20.5 million, and an increase of \$1.4 million in statutory costs. Factors contributing to the net decrease include:

Impacts of program realignment and efficiencies of \$3.4 million resulting from savings identified as part of the Budget 2012 Spending Review.

Impact of annual in-year authority:

- A decrease of \$1.2 million related to the collection of repayable contributions. An adjustment is required yearly to account for collections in excess of the base amount included in the Main Estimates.

Impacts of funding initiatives and agreements totalling to \$17.6 million in 2013–14:

- A \$12.7 million decrease through the final instalment of special funding in support of the Community Infrastructure Improvement Fund;
- A \$6.0 million decrease through the final instalment of special funding to support community economic development priorities in New Brunswick, relating to community projects such as the establishment of multifunctional facilities and new recreational infrastructure; and
- A \$1.1 million increase due to the new funding provided for the Economic Development Initiative of the 2013–2018 Federal Strategy for Official Languages.

In 2014–15, the Agency will continue to act as the key federal catalyst for economic development in the Atlantic region. The Agency will continue to support the region's small- and medium-sized enterprises (SMEs) in their efforts to become more innovative, productive and competitive, while helping rural and urban communities create and seize opportunities for economic growth and diversification. ACOA will also continue to help Atlantic Canada's SMEs explore opportunities for international business development generated by Canada's Global Markets Action Plan and the newly announced Canada-European Union Comprehensive Economic and Trade Agreement. ACOA will ensure that SMEs are prepared to maximize growth opportunities – including those that will flow from such major projects as our Government's \$38.3 billion shipbuilding strategy and the development of clean and renewable energy at Muskrat Falls.

For further details on ACOA's planned spending, refer to the 2014–15 Report on Plans and Priorities.

Atomic Energy of Canada Limited

Raison d'être

Atomic Energy Canada Limited (AECL) uses its unique scientific expertise and facilities to ensure that:

- The Canadian nuclear sector is innovative and productive;
- Canada's security and prosperity are supported by nuclear science and innovation;
- Canadians have a reliable supply of isotopes; and
- Canada's federal nuclear sites are clean and healthy environments.

The current mandate for the AECL Nuclear Laboratories flows from the powers given to the Minister of Natural Resources under the *Nuclear Energy Act*:

- To undertake research with respect to nuclear energy;
- To cause nuclear energy to be utilized; and
- To license, sell or otherwise dispose of discoveries and inventions relating to nuclear energy and collect payments for them.

Highlights

AECL's Main Estimates funding of \$102.1 million will be used to fund laboratory operations and research and development at Chalk River and to ensure the safe and reliable operation of its nuclear facilities and supporting infrastructure.

Laboratory operations consist of:

- Laboratory Facilities: The specialized facilities operated under a license issued by the Canadian Nuclear Safety Commission;
- Site Support and Municipal Services: Site Support Services: facilities and teams, including engineering, procurement; and
- maintenance that enable the industrial and scientific activities of the site. Municipal Services: the basic services required for the campus to operate, including landlord functions and water, heat and electricity.

Auditor General

Raison d'être

The Auditor General is an Officer of Parliament, who is independent from the government and reports directly to Parliament. The Office of the Auditor General is the legislative audit office of the federal government and of the three northern territories. The main legislative auditing duties are financial audits, performance audits, special examinations, and sustainable development monitoring activities and environmental petitions. Our audits and studies provide objective information, advice and assurance to Parliament, territorial legislatures, governments and Canadians. With our reports and testimony, we assist parliamentarians and territorial legislators in their work on the authorization and oversight of government spending and operations. The Minister of Finance is responsible for tabling the Auditor General's administrative reports in Parliament, including the Report on Plans and Priorities and Departmental Performance Report.

Highlights

The Office of the Auditor General is estimating budgetary expenditures of \$77.7 million in 2014-15. Of this amount, \$67.9 million requires approval by Parliament. The remaining \$9.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

In total, the Office is estimating a decrease of \$6.6 million or 7.8% from the previous Main Estimates primarily due to savings as a result of Budget 2012 Spending Review. Additional information can be found in the Office of the Auditor General's 2014-15 Report on Plans and Priorities.

Canada Border Services Agency

Raison d'être

The Minister of Public Safety and Emergency Preparedness is responsible for the Canada Border Services Agency (CBSA).

The CBSA provides integrated border services that support national security priorities and facilitate the flow of people and goods across the border. Responsibilities include:

- administering legislation that governs the admissibility of people and goods into and out of Canada;
- identifying, detaining, and removing people who are inadmissible to Canada;
- interdicting illegal goods at Canada's border;
- protecting food safety, plant and animal health, and Canada's resource base;
- administering trade legislation and agreements, including the enforcement of trade remedies that protect Canadian industry;
- administering a fair and impartial redress mechanism; and
- collecting duties and taxes on imported goods.

Highlights

CBSA is estimating budgetary expenditures \$1.7 billion in 2014–15. Of this amount, \$1.6 billion requires approval by Parliament. The remaining \$176.6 million represents statutory forecasts related to the Employee Benefit Plan (EBP) that do not require additional approval and are provided for information purposes.

CBSA increase in net spending of \$56.2 million or 3.35% is due to an increase in Operating expenditures of \$1.3 million, an increase in Capital costs of \$57.5 million and a decrease of \$2.6 million in Statutory expenditures (EBP).

Major items contributing to changes in year-over-year funding levels include increases of:

- \$116.3 million in reprofiles from 2013–14 to 2014–15 to realign project funding such as Refugee Reform, E-Manifest and Arming;
- \$91.4 million of funding for initiatives included in the Beyond the Border Action Plan such as for the modernization of Border Infrastructure, development of a Single Window approach and the Entry/Exit initiative that will enable the Government of Canada to know that an individual has entered or left the country;
- \$6.9 million of Top-up funding for the Temporary Resident and Citizenship programs to keep up with increased volume demands;
- \$2.6 million increase for the eligible funding for all new collective bargaining agreements; and
- \$1.4 million to fund the Toronto 2015 Pan and Parapan American Games

The increases in the 2014–15 Main Estimates are offset by the following decreases:

- \$70.6 million related to the Budget 2012 spending review (last phase);
- \$23.0 million as a result of a transfer to Shared Services Canada (SSC) for expenditures related to End User Devices (software) and the Shared Infrastructure Platform. These costs have been centralized with SSC for all departments and the CBSA's portion is \$3.5 million for the End User Devices and \$19.5 million for the Shared Infrastructure Platform;
- \$21.9 million due to decrease in funding requirement for detection equipment;
- \$15.3 million which was received in 2013–14 to complete the definition phase of CBSA Assessment and Revenue Management project;
- \$11.8 million due to an adjustment of the EBP rate decrease from 17.4% to 16.5%;
- \$9.1 million decrease of project funding requirements for the Postal Modernization Initiative;
- \$3.1 million of the project funding requirements reflecting the need in 2014–15 for the Electronic Applications for Enhanced Trusted Trader and Traveler Programs;
- \$2.0 million decrease of project funding requirement to expand the commercial processing facilities at St-Bernard de Lacolle in 2013–14;
- \$1.9 million decrease in funding for the Federal Contaminated Sites Action Plan;
- \$1.9 million transfer from CBSA to Foreign Affairs, Trade and Development and International Trade Canada to provide support to departmental staff located at missions abroad;
- \$1.6 million reduction of Travel Costs under the government-wide reduction initiative (Budget 2013).

CBSA is currently reviewing its recording and reporting of expenditures to ensure that program expenditures are not included in internal Services.

Canada Council for the Arts

Raison d'être

The Canada Council for the Arts (CCA) is a Crown corporation created in 1957 “to foster and promote the study and enjoyment of, and the production of works in, the arts.” Its grants to artists and arts organizations contribute to a vibrant arts scene in Canada. Its awards celebrate creativity by recognizing exceptional Canadians in the arts, humanities and sciences. The Canada Council Art Bank is a national collection of over 17,000 Canadian contemporary artworks, accessible to the public through rental, loan and outreach programs. The Canadian Commission for UNESCO operates under the general authority of the Canada Council.

The CCA reports to Parliament through the Minister of Canadian Heritage and Official Languages.

Total budgetary	181,367,816	180,260,816	181,437,817	182,092,916

Highlights

CCA's planned expenditures for 2014-15 remain the same as for 2013-14. The CCA is continuing to implement its 2011-2016 Corporate Plan "Strengthening Connections" which has five directions (individual artists, arts organizations, equity, partnership and internal capacity) as well as three cross-cutting themes (public engagement in the arts, synergy and new technologies). Main areas of activity include:

- Major program reviews, most notably of operating grants, which represent the Council's largest investment;
- Continuing work on cross-cutting priorities, including public engagement in the arts, national and international market access and Deaf and Disability Arts; and
- Improving the Council's internal capacity, including systems modernization and improved performance measurement.

Canada Industrial Relations Board

Raison d'être

The Canada Industrial Relations Board (the CIRB or the Board) contributes to and promotes a harmonious industrial relations climate in federally regulated sectors and seeks to provide effective and appropriate dispute resolution services for its client community in a fair and timely manner. Established in 1999 to replace the previous Canada Labour Relations Board, the CIRB is an independent, representative, quasi-judicial tribunal, responsible for the interpretation and application of Part I of the *Canada Labour Code* (the *Code*), which establishes the framework for collective bargaining, the acquisition and termination of bargaining rights, determination of unfair labour practices and protection of public health and safety in the event of work stoppages affecting essential services. The Board also administers certain provisions of Part II of the *Code* related to Occupational Health and Safety. Since April 1, 2013, the Board is also responsible for the interpretation and application of Part II of the *Status of the Artist Act*.

The Minister of Labour is responsible for the Canada Industrial Relations Board.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

In pursuing its mandate, the CIRB seeks to achieve the following strategic outcome: Effective dispute resolution services that support constructive labour management relations in sectors regulated by the *Canada Labour Code* and professional relations in sectors regulated by Part II of the *Status of the Artist Act*. In order to achieve this objective, the Board will continue to focus its efforts on maintaining its current rate of disposition of new cases so as to ensure that a backlog does not recur. This will be achieved through effective case management and proactive mediation assistance at all stages of a case. The CIRB will also proactively seek resolution of matters that best meets the needs of the parties to a dispute through mediation assistance by regional staff and Board members.

The Board will focus on two initiatives in 2014–15:

- In Budget 2012, the CIRB was assigned the responsibility of administering the *Status of the Artist Act*. The CIRB implemented the transition during 2013–14 and has undertaken a full review of the procedural regulations to ensure policies and procedures under the Act are aligned with the Board’s practices. It is expected that this work will continue into 2014–15 as the new regulations are drafted and implemented, and steps are taken to inform the client community.
- It is essential to the CIRB’s ability to deliver on its mandate economically, efficiently and effectively, that it embrace and maximise new technologies with a view to improving document and information management and delivery of services. The CIRB actively participated in the Treasury Board Secretariat-led initiative aimed at identifying and contracting for a common case management system. In the year ahead, the CIRB will focus its efforts on a transition to the new common system that will build on synergies between similar organizations and mitigate the pressures associated with an aging system and its costly renewal.

The decrease in the Board’s Estimates is mainly due to the transitional funding provided in 2013–14 to compensate the Board for its planned additional responsibilities related to the *Status of the Artist Act* that is not being renewed in 2014–15. The variance between 2012–13 expenditures and 2013–14 Estimates is directly related to the transitional funding received in 2013–14 to compensate the Board for its planned additional responsibilities related to the *Status of the Artist Act*.

More information on the Board’s plans and priorities can be found in the Board’s 2014–15 Report on Plans and Priorities, available on CIRB’s Website.

Canada Mortgage and Housing Corporation

Raison d'être

Canada Mortgage and Housing Corporation (CMHC) is Canada's national housing agency. Established as a federal Crown corporation in 1946 to help address post-war housing shortages, its role has evolved as Canadians' needs have changed. Today, CMHC works closely with provinces, territories and the private and not-for-profit sectors to help lower-income Canadians access affordable, better quality housing. CMHC also helps Aboriginal Canadians meet their distinct housing needs.

CMHC's role in housing finance — providing mortgage loan insurance and securitization guarantee products — contributes to the health and stability of Canada's housing finance system and facilitates access to financing for housing across the country. This includes loans for housing in small and rural communities, rental housing and for nursing and retirement homes.

CMHC also promotes the efficiency of the Canadian housing system through research, market analysis and information transfer.

CMHC is accountable to Parliament through the Minister of Employment and Social Development.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

CMHC is estimating budgetary expenditures of \$2.1 billion in 2014–15 and non-budgetary net repayments of \$10.9 billion. Included in the budgetary expenditures is \$253.1 million related to the first year of the five-year extension of funding under the Investment in Affordable Housing and \$70 million in funding for housing in Nunavut, as announced in the Economic Action Plan 2013. Major changes are summarized below.

A net budgetary decrease of \$3.2 million from the 2013–14 Main Estimates is due primarily to the following:

- A decrease of \$78.1 million due to the results of the Budget 2012 spending review;
- An increase of \$70.0 million in funding for housing in Nunavut;
- An increase of \$4.0 million for additional housing construction and rehabilitation On-Reserve. This funding allows for new commitment activity to assist First Nations in the construction, purchase and rehabilitation of suitable, adequate and affordable rental housing as well as providing financial assistance to repair substandard homes to a minimum level of health and safety.

A non-budgetary increase of \$31.0 billion is due to lower net repayments under the Crown Borrowing Program resulting from lower loan repayments under the Insured Mortgage Purchase Program (IMPP). The majority of the IMPP repayments took place in 2013–14. The 2014–15 repayments represent the final obligations under this program.

As Canada's national housing agency, CMHC plays a significant role in administering federal investments in social housing through agreements with provinces and territories and First Nation communities. CMHC also provides federal funding towards renovation programs so that needed repairs or rehabilitation could be undertaken for seniors, persons with disabilities, victims of family violence and others who could otherwise not afford adequate and suitable housing.

CMHC is the only source of comprehensive market analysis information serving both industry and consumers. Its research and information transfer activities on key housing issues have been instrumental in helping Canadians make more informed housing choices. These activities also support industry in the planning, designing, construction operation and maintenance of housing, and assist the public policy decision-making process. Better information contributes to the stability, effectiveness and efficiency of housing markets.

Once tabled in the House of Commons, additional information will be available in CMHC's Summary of the Corporate Plan, available on its website.

Canada Post Corporation

Raison d'être

Canada Post Corporation has a mandate to provide an efficient, effective and quality-driven postal service to Canadians, to be profitable, and to maintain and increase the value of the Corporation for Canadians.

The Minister of Transport is responsible for this organization.

Under the terms of the *Canada Post Corporation Act*, the Corporation is mandated to operate the postal service on a financially self-sustaining basis. In addition to core postal service, Canada Post also delivers certain public policy programs for the Government.

Organizational Estimates

Budgetary

Total budgetary	22,210,000	22,210,000	22,210,000	22,210,000

Highlights

Canada Post Corporation receives an annual appropriation of \$22.2 million from the Government for the delivery of Parliamentary mail and materials for the use of the blind, which are sent free of postage under the Act. This appropriation helps to offset the financial impact of these programs on the corporation.

Parliamentary Mail

The *Canada Post Corporation Act* allows for the free mailing of letters between Canadians and the Governor General, Members of Parliament, the Speakers of the Senate and House of Commons, the Parliamentary Librarian and the Ethics Commissioner. Under the Act members of the House of Commons are also allowed up to four free householder (Unaddressed Admail) mailings to their constituents in any calendar year.

Materials for the Use of the Blind

The *Canada Post Corporation Act* provides for free mailing of materials for the blind. Today, thousands of visually impaired Canadians and many libraries across the country, including that of the Canadian National Institute for the Blind, send talking books and other materials free of charge.

Canada Revenue Agency

Raison d'être

The Minister of National Revenue is responsible for the Canada Revenue Agency (CRA). The CRA is responsible for administering, assessing, and collecting hundreds of billions of dollars in taxes annually. The tax revenue it collects is used by federal, provincial, territorial and First Nations governments to fund the programs and services that contribute to the quality of life of Canadians. The CRA also uses its federal infrastructure to deliver billions of dollars in benefits, tax credits, and other services that support the economic and social well-being of Canadian families, children and persons with disabilities. In carrying out its mandate, the CRA strives to ensure that Canadians:

- pay their required share of taxes;
- receive their rightful share of entitlements; and
- are provided with an impartial and responsive review of contested decisions.

Highlights

CRA is estimating budgetary expenditures of \$3.9 billion in 2014-2015. Of this amount, \$3.0 billion requires approval by Parliament. The remaining \$0.9 billion represents statutory forecasts that do not require additional approval and are provided for information purposes.

In total the Agency is expecting a decrease of \$415.6 million or 9.7% from previous Main Estimates, which is the net result of various increases offset by certain planned decreases.

The CRA budgets will be increasing by \$53.7 million due to the following:

- \$22.3 million for collective agreements;
- \$17.0 million for the upgrade of the personal income tax processing system;
- \$8.0 million in payments under the *Children's Special Allowance Act* for eligible children in the care of agencies and foster parents;
- \$5.4 million for the implementation and administration of various tax measures announced in the 2012 Federal Budget; and
- \$1.0 million for government advertising programs.

The above mentioned increases are offset by the following decreases totalling \$469.3 million due to the following:

- \$203.0 million related to the disbursements to provinces under the *Softwood Lumber Products Export Charge Act*;
- \$119.0 million in savings identified as part of the Budget 2012 Spending Review;
- \$57.6 million in savings identified as part of the Budget 2013 Targeted Review;
- \$20.0 million decrease related to contributions to employee benefit plans;
- \$19.7 million related to adjustments to accommodation and real property services provided by Public Works and Government Services Canada;
- \$18.7 million related to the transfer of the end-user device software budget as well as adjustments to funding previously transferred to Shared Services Canada;
- \$12.4 million in the spending of revenues received through the conduct of its operations primarily attributable to reductions in initiatives administered on behalf of Canada Border Services Agency and the province of Ontario;
- \$9.2 million related to the planned decrease in funding for the administration of the Harmonized Sales Tax for Ontario, British Columbia and the Affordable Living Tax Credit for Nova Scotia;
- \$6.9 million related to the return of funding previously provided for the ongoing administration of the Harmonized Sales Tax in British Columbia;
- \$2.1 million in savings identified as part of the Budget 2013 to reduce travel costs; and
- \$0.7 million for various initiatives announced in the 2010 and 2011 Federal Budgets.

Canada School of Public Service

Raison d'être

The Canada School of Public Service (CSPS) is the common learning service provider for the Public Service of Canada. CSPS has a legislative mandate to provide a range of learning activities to build individual and organizational capacity and management excellence within the Public Service. It has one strategic goal, to ensure public servants have the common knowledge and leadership and management competencies required to effectively serve Canada and Canadians.

The President of the Treasury Board is responsible for this organization.

Highlights

CSPS is estimating budgetary expenditures of \$85.5 million in 2014-15. Of this amount, \$39.9 million requires approval by Parliament. The remaining \$45.6 million represents statutory authority that does not require additional approval and is provided for information purposes.

A decrease of \$13 million in spending is expected in 2014-15 primarily due to the reduction of expenditures for salaries and professional and special services.

Once tabled in the House of Commons, additional information will be available in the departmental Report on Plans and Priorities available at: http://www.cspc-efpc.gc.ca/about_us/currentreport/index-eng.aspx.

Canadian Air Transport Security Authority

Raison d'être

The Canadian Air Transport Security Authority (CATSA) is a Crown corporation with the mandate to protect the public by securing critical elements of the air transportation system as assigned by the Government of Canada. CATSA's goal is to provide a professional, effective, efficient and consistent level of security screening services, at or above the standards set by Transport Canada, its regulator. Fully funded by parliamentary appropriations, CATSA is accountable to Parliament through the Minister of Transport. CATSA's vision is to excel as a world leader in air transportation security through its service to passengers, its people and its partnerships.

1 Payments to the Canadian Air Transport Security Authority for operating and capital expenditures	513,369,000	598,286,200	598,286,200	591,626,313
Total voted	513,369,000	598,286,200	598,286,200	591,626,313
Total budgetary	513,369,000	598,286,200	598,286,200	591,626,313

Highlights

CATSA is estimating budgetary expenditures of \$591.6 million in 2014-15, which requires approval by Parliament. The planned expenditures are \$6.7 million, or approximately 1.1% lower compared to \$598.3 million in the 2013-14 Main Estimates.

The CATSA's planned operating expenditures for 2014-15 of \$473.5 million are \$16.5 million or approximately 3.6% higher compared to \$457.0 million in the 2013-14 Main Estimates. The increase in the operating budget is mainly a result of CATSA being granted financial flexibilities over the past few years to reallocate funds to better align with its cash flow requirements. This will allow CATSA to partially accommodate annual contractual increases in 2014-15.

The CATSA's planned capital expenditures for 2014-15 of \$118.2 million are \$23.2 million or approximately 16.4% lower compared to \$141.3 million in the 2013-14 Main Estimates. The year-over-year variance is attributable to capital spending associated with the deployment of CATSA's new Hold Baggage Screening system which is based on a 10-year deployment schedule. Deployment of the new Hold Baggage Screening system remains on target to be completed in fiscal year 2019-20.

As set out in its 2013–14 to 2017–18 Corporate Plan Summary, CATSA’s funding priorities for 2014–15 will continue to focus on the delivery of its screening services and the ongoing implementation of its Hold Baggage Screening capital deployment plan.

Canadian Broadcasting Corporation

Raison d'être

As defined by the 1991 *Broadcasting Act*, the Canadian Broadcasting Corporation (the Corporation), as the national public broadcaster, should provide radio and television services incorporating a wide range of programming that informs, enlightens and entertains. The programming provided by the Corporation should:

- be predominantly and distinctively Canadian;
- reflect Canada and its regions to national and regional audiences, while serving the special needs of those regions;
- actively contribute to the flow and exchange of cultural expression;
- be in English and in French, reflecting the different needs and circumstances of each official language community, including the particular needs and circumstances of English and French linguistic minorities;
- strive to be of equivalent quality in English and French;
- contribute to shared national consciousness and identity;
- be made available throughout Canada by the most appropriate and efficient means and as resources become available for the purpose; and
- reflect the multicultural and multiracial nature of Canada.

The Corporation reports to Parliament through the Minister of Canadian Heritage and Official Languages.

Organizational Estimates

1 Payments to the Canadian Broadcasting Corporation for operating expenditures	999,484,060	956,913,060	956,913,060	929,278,212
5 Payments to the Canadian Broadcasting Corporation for working capital	4,000,000	4,000,000	4,000,000	4,000,000
10 Payments to the Canadian Broadcasting Corporation for capital expenditures	103,035,000	103,856,000	103,856,000	104,740,000
Total voted	1,106,519,060	1,064,769,060	1,064,769,060	1,038,018,212
Total budgetary	1,106,519,060	1,064,769,060	1,064,769,060	1,038,018,212

Highlights

The Corporation's 2014–15 Main Estimates are \$1,038.0 million versus the 2013–14 Main Estimates of \$1,064.8 million. The reduction of \$26.8 million for 2014–15 is due to Budget 2012 spending review of \$45.5 million, offset by salary inflation funding of \$18.7 million.

Following results of the Departmental Spending Review included in Budget 2012, the Federal Government reduced the Corporation's appropriation by \$115 million over three years. The Corporation's operating funding was reduced by \$27.8 million in 2012–13 (deducted from the supplementary funds of \$60.0 million received since 2001–02). In 2013–14, the operating appropriation was reduced by \$69.6 million (annual supplementary funds of \$60.0 million were eliminated completely and the difference of \$9.6 million was reduced from the base operating appropriation). For 2014–15 and ongoing years, the Corporation's operating appropriation will be reduced by an additional \$45.5 million to finally arrive at a total reduction of \$115.0 million per Budget 2012.

2014–15 will mark Year 4 of the Corporation's five-year strategic plan, Strategy 2015: Everyone, Every way. The vision at the heart of the strategy is to be the recognized leader in expressing Canadian culture and to enrich democratic life of all Canadians.

Four guiding principles support the Corporation's vision:

- The creation and delivery of original, innovative, high-quality Canadian content.
- That reflects and draws together all Canadians.
- Actively engaging audiences.
- While being cost-effective and accountable.

Three strategic thrusts drive our performance:

- More Distinctly Canadian: Network programming and national public spaces;
- More Regional: Regional presence and community spaces; and
- More Digital: New platforms and digital spaces.

Despite ongoing challenges, the Corporation continues to implement its 2015 objectives. Further details of the Corporation's performance and progress since the launch of Strategy 2015 can be found in the Corporation's Annual Reports and Corporate Plans.

Canadian Centre for Occupational Health and Safety

Raison d'être

The Canadian Centre for Occupational Health and Safety (CCOHS) was founded by an Act of Parliament in 1978 with a mandate to promote health and safety in the workplace and to enhance the physical and mental health of working Canadians. CCOHS operates under the legislative authority of the *Canadian Centre for Occupational Health and Safety Act* S.C., 1977–78, c. 29 which was passed by unanimous vote in the Canadian Parliament. The purpose of this Act is to promote the fundamental right of Canadians to a healthy and safe working environment by creating a national institute (CCOHS) concerned with the study, encouragement and co-operative advancement of occupational health and safety. CCOHS functions as an independent departmental corporation under Schedule II of the *Financial Administration Act* and is accountable to Parliament through the Minister of Labour. Its funding is derived from a combination of appropriations, cost recoveries and collaboration with the provinces. It is expected that a portion of the budget will be funded through cost recoveries from the creation, production, and worldwide sales of fee-for-service and revenue generating occupational health and safety products and services.

Highlights

CCOHS's planned expenditures remain the same as last year. CCOHS will focus its efforts on providing a wide range of needed, relevant and practical information, resources and training that assist Canadians to improve health and safety. CCOHS will work with Canadian and global partners to develop the resources and tools that will improve health and safety and contribute to making Canada's workplaces safe and more productive.

Canadian Commercial Corporation

Raison d'être

The Canadian Commercial Corporation (CCC) is governed by its enacting legislation, the 1946 *Canadian Commercial Corporation Act*. The Act outlines CCC's broad mandate, which is to assist in the development of trade by helping Canadian exporters access markets abroad and by helping foreign buyers obtain goods from Canada. The legislation also provides CCC with a range of powers, including the ability to export goods from Canada either as principal or as agent in such a manner and to such an extent as it deems appropriate. As a result, CCC negotiates and executes bilateral government-to-government procurement arrangements, facilitating export transactions on behalf of Canadian exporters.

CCC reports to Parliament through the Minister of International Trade.

Canadian Dairy Commission

Raison d'être

The Canadian Dairy Commission (CDC) is a federal Crown corporation created in 1966 through the *Canadian Dairy Commission Act*. It reports to Parliament through the Minister of Agriculture and Agri-Food. Its legislated objectives are twofold: to provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment; and to provide consumers of dairy products with a continuous and adequate supply of dairy products of high quality.

The CDC plays a central facilitating role for the multi-billion dollar Canadian dairy industry. Federal-provincial agreements now provide the authority for many of the programs and activities that the CDC employees administer and facilitate on a day-to-day basis. The CDC strives to balance and serve the interests of all dairy stakeholders — producers, processors, further processors, exporters, consumers and governments.

Highlights

The Canadian milk supply management system rests on three pillars: production management, price setting and import controls. The CDC is directly involved in the administration of two of the three pillars (production management and price setting) via the establishment of industrial milk quota and support prices.

The CDC administers the three revenue pooling and market sharing pools that exist among milk producers. Monthly, the CDC receives data from provincial milk marketing boards and calculates the payment transfers between provinces

to equalize returns and adjusts quota allocations to provinces to account for the sharing of markets.

To ensure a steady supply of dairy products on the Canadian market, the CDC operates the Domestic Seasonality Programs. To ensure that milk components for which there is no outlet on the domestic market are removed in a timely fashion, the CDC operates the Surplus Removal Program. Furthermore, in order to promote the use of dairy products and ingredients in processed foods, the CDC operates the Dairy Marketing Program.

In addition, the CDC, on the industry's behalf, administers the Special Milk Class Permit Program (SMCPP) and the Dairy Innovation Program. The parameters of these programs are decided by the industry.

The CDC imports the tariff rate quota of butter and sells this butter to participants in the SMCPP through butter manufacturers. Profits that the CDC generates by this activity are used to finance initiatives that provide benefits to the industry. Examples of these initiatives are graduate scholarships in Canadian establishments and the validation of dairy farms under the Canadian Quality Milk Program, an on-farm quality assurance program.

The CDC also controls the subsidized exports of Canadian dairy products through the issuance of export permits. This permit system has been put in place to ensure that Canadian exports of dairy products do not exceed the limits imposed on Canada by the World Trade Organization (WTO) for subsidized exports.

No significant changes are expected in the programs that the CDC administers in fiscal year 2014–15. Further details can be found in the Canadian Dairy Commission's Corporate Plan.

Canadian Environmental Assessment Agency

Raison d'être

The Minister of the Environment is responsible for this organization.

Environmental assessment contributes to informed decision making in support of sustainable development. The Canadian Environmental Assessment Agency delivers high-quality environmental assessments and serves as the centre of expertise within the federal government on environmental assessment.

Additional information can be found in the Agency's Report on Plans and Priorities.

Highlights

The Canadian Environmental Assessment Agency's 2014-15 Main Estimates of \$31.0 million are similar to the Agency's 2013-14 Main Estimates.

The Agency's 2012-13 actual expenditures of \$27.9 million are \$3.0 million less than the 2014-15 Main Estimates. The difference is mainly attributable to the Agency's operating budget lapse and to lower than expected payments under the Participant Funding Program due to transition from the former *Canadian Environmental Assessment Act* to the *Canadian Environmental Assessment Act, 2012*.

The renewal of funding programs that are sunsetting at the end of 2014-15 will be subject to government decision and will be reflected in future Main Estimates.

Canadian Food Inspection Agency

Raison d'être

The Minister of Health is responsible for this organization.

The Canadian Food Inspection Agency (CFIA) is Canada's largest science-based regulatory agency. It has approximately 7,120 employees working across Canada, in the National Capital Region (NCR) and in four operational areas (Atlantic, Quebec, Ontario and Western).

The CFIA is dedicated to safeguarding food, animal and plant health, which enhances the health and well-being of Canada's people, environment, and economy.

CFIA develops and delivers inspection and other services to:

- prevent and manage food safety risks;
- protect plant resources from pests, diseases and invasive species;
- prevent and manage animal and zoonotic diseases;
- contribute to consumer protection; and
- contribute to market access for Canada's food, plants, and animals.

CFIA bases its activities on science, effective management of risk, commitment to service and efficiency, and collaboration with domestic and international organizations that share its objectives.

Highlights

The Government is committed to ensuring that Canadian families have confidence in the food they buy and eat. As announced on October 9th, 2013, the three bodies of the Canadian food safety regime - the CFIA, Health Canada, and the Public Health Agency of Canada (PHAC) fall under the responsibility of the Minister of Health. This reporting change brings all federal food safety authorities under one Minister with the goal of creating a stronger system with better collaboration and communication.

The Minister of Agriculture and Agri-Food will continue to be responsible for the CFIA's non-food safety agricultural activities, including economic and trade issues, as well as important animal health and plant protection work. As such, the Minister of Agriculture and Agri-Food will continue to oversee the CFIA in exercising these responsibilities.

The 2014–15 Main Estimates for the CFIA total \$619.3 million, a decrease of \$68.6 million from the 2013–14 Main Estimates of \$687.9 million. The major items included in this decrease are:

- A decrease of \$45.8 million due to implementation of savings measures announced in Budget 2012;
- A decrease of \$41.5 million related to sunsetting of program funding in 2014–15 for which the CFIA plans to seek renewal: \$36.9 million related to resources received to continue a comprehensive strategy for managing Bovine Spongiform Encephalopathy (BSE) in Canada and \$4.6 million related to resources to support the implementation of measures to enhance international pork marketing; and,
- A decrease of \$3.0 million related to the sunsetting of resources transferred from Health Canada to fund the cost of enforcement of the proposed regulatory amendments related to enhanced allergen labelling.

These decreases are offset by:

- An increase of \$14.7 million related to the renewal of resources to enhance the CFIA's ability to prevent, detect and respond to food-borne illness outbreaks. These resources were first approved in Budget 2009 for three years and were renewed in Budget 2012 for an additional four years;
- An increase of \$5.2 million to establish inspection verification teams to oversee the performance of the food safety system; and,
- An increase of \$2.9 million related to the Canada Border Services Agency led Single Window Initiative and Trusted Traders and Trusted Travellers program initiative, as outlined in the Beyond the Border Action Plan.

The 2013–14 Estimates to Date are approximately \$37.4 million higher than the 2013–14 Main Estimates. This increase can be explained by resources received via Supplementary Estimates (B), which were approved by Parliament.

Once tabled in the House of Commons, additional information will be available in the departmental Report on Plans and Priorities available at

<http://www.inspection.gc.ca/about-the-cfia/accountability/reports-to-parliament/eng/1299845094675/1299845189161>

Canadian Grain Commission

Raison d'être

The Canadian Grain Commission (CGC) is a federal government agency that administers the provisions of the *Canada Grain Act* (CGA). The CGC's mandate as set out in the CGA is to, in the interests of the grain producers, establish and maintain standards of quality for Canadian grain and regulate grain handling in Canada, to ensure a dependable commodity for domestic and export markets. CGC's vision is to be "A leader in delivering excellence and innovation in grain quality and quantity assurance, research, and producer protection". The Minister of Agriculture and Agri-Food is responsible for the CGC.

Highlights

The CGC is estimating budgetary expenditures of \$16.4 million in 2014–15. Of this amount, \$7.5 million requires approval by Parliament. The remaining \$8.9 million represents statutory forecasts that do not require additional approval and are provided for information purposes. \$6.4 million of the statutory amount is to support severance payments. The remaining \$2.5 million is to support employee benefit plan obligations.

The decrease in net authority of \$5.8 million from 2013–14 Main Estimates is due to:

- The decrease of \$16.8 million to transition the CGC to a sustainable funding model as identified in Budget 2012;
- The increase of \$3.1 million to support employees affected by work force adjustment; and
- The increase in access to the CGC Revolving Fund surplus of \$7.9 million for severance obligations.

The current CGC funding structure is based on budgetary authorities that are comprised of both statutory and voted authorities. The statutory authorities include employee benefit plan authority for appropriation funded positions and the CGC revolving fund authority which allows the CGC to re-spend fees that it has collected. The voted authority is Vote 1 – Program Expenditures which includes annual appropriation authority and any ad hoc appropriation authority for the fiscal year.

A revolving fund was set up for the CGC in 1995 with the expectation that the CGC would be largely self-funded through fees for service. The CGC updated its user fee structure on August 1, 2013 to become self-funded. The CGC transitioned to its new fee structure in 2013–14 and revenues are expected to increase to \$54.1 million in 2014–15.

Additional information can be found in the CGC's Reports on Plans and Priorities.

Canadian Heritage

Raison d'être

The Minister of Canadian Heritage and Official Languages is responsible for this organization.

The Department of Canadian Heritage and Canada's major national cultural institutions play a vital role in the cultural, civic and economic life of Canadians. We work together to support culture, arts, heritage, official languages, citizenship and participation, in addition to Aboriginal, youth, and sport initiatives.

Highlights

The Department of Canadian Heritage is estimating budgetary expenditures of \$1.39 billion in 2014–15. Of this amount, \$1.37 billion requires approval by Parliament. The remaining \$24.0 million represents statutory forecasts that do not require additional approval and are provided for information purposes. This is an increase of \$72.8 million when compared to the 2013–14 Main Estimates.

The net increase is a combination of an increase of \$15.4 million in Vote 1 (Operating expenditures), an increase of \$56.1 million in Vote 5 (Grants and contributions) and an increase of \$1.3 million in statutory forecasts. The increase of \$15.4 million in Vote 1 is mainly due to:

- An increase of \$14.2 million for the transfer of the Capital Experience Program from the National Capital Commission; and
- An increase of \$1.8 million for the transfer from Public Works and Government Services Canada for a reduction in accommodation requirements.

The increase of \$56.1 million in Vote 5 is mainly due to:

- An increase of \$71.6 million for the 2015 Pan-Am Games;
- An increase of \$3.9 million for the renewal of the Roadmap for Canada's Linguistic Duality;
- A decrease of \$4.7 million for the Aboriginal Peoples' Program;
- A decrease of \$4.0 million for the Hosting Program due to the reprofile for the 2013 Canada Games Travel;
- A decrease of \$3.7 million for the bicentennial commemoration of the War of 1812;
- A decrease of \$3.0 million for the Sport Support Program - ParticipAction and Le Grand défi Pierre Lavoie due to the program funding that was scheduled to sunset at the end of fiscal year 2013–14; and
- A decrease of \$2.0 million for TV5 due to a portion of the program funding that was scheduled to sunset at the end of fiscal year 2013–14.

Canadian Human Rights Commission

Raison d'être

The Minister of Justice and Attorney General of Canada is responsible for this organization.

The Canadian Human Rights Commission was established in 1977 under Schedule II of the *Financial Administration Act* in accordance with the *Canadian Human Rights Act* (CHRA). The Commission leads the administration of the CHRA and ensures compliance with the *Employment Equity Act* (EEA). The CHRA prohibits discrimination and the EEA promotes equality in the workplace. Both laws apply the principles of equal opportunity and non-discrimination to federal government departments and agencies, Crown corporations, and federally regulated private sector organizations.

Highlights

The Canadian Human Rights Commission is estimating budgetary expenditures of \$22.1 million in 2014–15. Of this amount, \$19.6 million requires approval by Parliament. The remaining \$2.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The variance between 2012–13 expenditures and 2013–14 Main Estimates and the variance between 2013–14 and 2014–15 Main Estimates is mainly due to funding received for the repeal of section 67 of the Canadian Human Rights Act (CHRA). This funding decreased and will sunset in March 2014.

Over the next year, the Commission will focus on:

- Identifying the cases involving Aboriginal women, prioritizing those cases and targeting litigation activities, where it is in the public interest to do so;
- Fostering dialogue and understanding among stakeholders to identify strategies to help overcome barriers that limit access to human rights justice for the most vulnerable, especially Aboriginal women;

- Leading collaboration with key partners to advance progress on systemic human rights issues; and,
- Reviewing the Management Results and Resources Structure to better reflect the Commission's focus on promotion and protection;

Further detail can be found in the Commission's Report on Plans and Priorities.

Canadian Human Rights Tribunal

Raison d'être

The Canadian Human Rights Tribunal is an administrative tribunal that hears complaints of discrimination referred by the Canadian Human Rights Commission and determines whether the activities complained of violate the *Canadian Human Rights Act* (CHRA). The purpose of the CHRA is to protect individuals from discrimination and to promote equal opportunity. The Tribunal also decides cases brought under the *Employment Equity Act* (EEA) and, pursuant to section 11 of the CHRA, determines allegations of wage disparity between men and women doing work of equal value in the same establishment.

The Minister of Justice and Attorney General of Canada is responsible for this organization.

Highlights

The Canadian Human Rights Tribunal is a small, permanent administrative tribunal comprising a full-time Chairperson and Vice-Chairperson, and up to 13 full- or part-time members. The Chairperson is the chief executive officer of the Tribunal and is supported by the Executive Director and Registrar who is responsible for registry operations and internal services.

As a key mechanism of human rights protection in Canada, the Tribunal gives effect to the Canadian ideals of pluralism, equity, diversity and social inclusion. It provides a forum where human rights complaints can be scrutinized and resolved and provides definitive interpretations on important issues of discrimination. The primary result of the Tribunal's program is that complainants can air their grievances and achieve closure in a respectful, impartial forum. Moreover, respondents are able to test the validity of allegations made in a quasi-judicial setting. In the longer term, Tribunal decisions create meaningful legal precedents for use by employers, service providers and Canadians at large.

The Tribunal has an ongoing planning challenge in that the Tribunal's sole function is to inquire into matters referred to it under the *Employment Equity Act* (EEA) and matters referred by the Canadian Human Rights Commission under the *Canadian Human Rights Act* (CHRA). As such, the Tribunal's operational activities are driven by external demands that it can only react to rather than anticipate. Legislative changes to the CHRA and other enabling legislations, increase in complexity of cases, increase in number of unrepresented parties and being a demand-driven organization all have an impact on the Tribunal's ability to predict its workload.

Complaints alleging discriminatory funding by the Federal Government of various services on-reserve are starting to be referred to the Tribunal. These cases can pose unique challenges such as: the need to respect cultural practices and beliefs; access to justice challenges; the possible involvement of inter-jurisdictional agreements and other instruments; and the characterization of "funding" in the context of the *Canadian Human Rights Act*.

Another identifiable factor contributing to the Tribunal's unpredictable workload is the effect of the repeal of section 67 of the CHRA. The Tribunal is only now starting to deal with discrimination claims in respect of decisions made pursuant to the *Indian Act*. It is too soon to see what the volume of these cases will be, however, it is possible that they will present the Tribunal with novel statutory interpretation challenges in giving due regard to First Nations legal traditions and customary laws.

A third factor contributing to the Tribunal's unpredictable workload is that more and more complainants and respondents are representing themselves or designating individuals who are not lawyers to represent them. These individuals or their representatives may not be familiar with the issue identification procedures and disclosure rules, or be able to comply with them in a timely fashion. The logistics and procedural complexities associated with non-represented parties, including trying to navigate a quasi-judicial process, leads to increased numbers of motions and rulings, cancelling or rescheduling hearing dates, all of which has an effect on the scheduling of other cases.

All of these factors contribute to the increase in pressures on the Tribunal's financial and human resources levels and will most likely continue to affect its backlog of cases.

Internal services make a critical contribution to the achievement of the Tribunal's singular primary program. Like small departments and other micro-agencies, the Tribunal continually faces pressure to respond to, or implement various government-wide management initiatives while managing its operating and salary budget in line with government-wide budget restraints, which are likely to remain in place for some time. The Tribunal will continue to actively seek horizontal opportunities and interdepartmental partnerships to achieve efficiencies.

Financially, approximately 60% of its \$4.5 million operating budget is for salaries and benefits, 82% of which is directly attributable to our core program. Of the remaining \$1.8 million in Operations and Maintenance, 50% is directly related to the adjudicative process such as per diem costs for part-time members, travel, facility rentals for hearings and mediation activities, translation of decisions and rulings and legal support for members.

Canadian Institutes of Health Research

Raison d'être

Canadian Institutes of Health Research (CIHR) is the Government of Canada's health research funding agency. The Minister of Health is responsible for this organization. It was created in June 2000 by the *Canadian Institutes of Health Research Act* (Bill C-13) with a mandate "to excel, according to internationally accepted standards of scientific excellence, in the creation of new knowledge and its translation into improved health for Canadians, more effective health services and products and a strengthened Canadian health care system."

CIHR's mandate seeks to transform health research in Canada by:

- Funding both investigator-initiated research, as well as research on targeted priority areas;
- Building research capacity in under-developed areas and training the next generation of health researchers; and
- Focusing on knowledge translation that facilitates the application of the results of research and their transformation into new policies, practices, procedures, products and services.

Highlights

CIHR is implementing, in 2014–15, a new Program Alignment Architecture (PAA), consisting of one Strategic Outcome along with three Programs.

CIHR's new Strategic Outcome "Canada is a world leader in the creation, dissemination and application of health research knowledge" aligns with its mandate and vision of long-term, enduring benefits to the lives of Canadians and health care system, and is also linked to priorities of the Government of Canada. The three Programs, "Investigator-Initiated Health Research", "Priority-Driven Health Research" and "Internal Services", highlight CIHR's

priority to fund both the best ideas from health researchers, as well as targeted research to address challenges facing Canadians and the health care system.

CIHR is estimating budgeting expenditures of \$985.0 million in 2014–15. Of this amount, \$979.3 million requires approval by Parliament. The remaining \$5.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The budgeting expenditures of \$985.0 million in 2014–15 represent a variance of \$12.5 million, or 1.3%, from the 2013–14 Estimates-to-date (including Main and Supplementary Estimates) of \$997.5 million. This variance is temporary, and is due to the following:

- A decrease of \$10.2 million in the Tri-Agency Centres of Excellence for Commercialization and Research (CECR) program. Funding for this program is allocated to the Natural Sciences and Engineering Research Council (NSERC), the Social Sciences and Humanities Research Council (SSHRC) and CIHR after each competition and varies depending on the recipients' alignment with the research mandate and priorities of the respective agencies. In 2013–14, CIHR was allocated a total of \$12.1 million for both the fourth and fifth competitions, and a minimum of \$1.9 million in 2014–15 for the fifth and upcoming competition;
- A decrease of \$1.2 million in the Tri-Agency Business-Led Networks of Centres of Excellence program. As for CECR, funding is allocated after each competition. Funding for this program in 2013–14 was \$4.3 million and temporarily decreases to a minimum of \$3.1 million in 2014–15; and
- A net decrease of \$0.8 million due to funding received from other departments for partnerships activities ending in 2013–14.

The remaining variance of \$0.3 million is due to various other program funding adjustments.

It should be noted that both the 2013–14 Estimates-to-date and 2014–15 budgeting expenditures include the \$15 million resulting from Budget 2013 for the Strategy for Patient-Oriented Research.

CIHR's spending for 2014–15 is expected to increase as new funding will be allocated to CIHR for Tri-Agency programs once the results of future competitions are available, and as new and/or renewal of existing partnership activities materialize.

Further details on CIHR's 2014–15 planned spending is available in CIHR's 2014–15 Report on Plans and Priorities.

Canadian Intergovernmental Conference Secretariat

Raison d'être

The President of the Queen's Privy Council for Canada is responsible for this organization. The Canadian Intergovernmental Conference Secretariat (CICS), established pursuant to an agreement reached at the May 1973 First Ministers' Conference, is an agency of the federal, provincial and territorial governments. Its mandate is to provide administrative support and planning services for intergovernmental conferences of First Ministers, Ministers and Deputy Ministers.

These intergovernmental conferences are a key instrument for consultation and negotiation among the different orders of governments and assist in the development of national and/or provincial/territorial policies. They are a critical component of the workings of the Canadian federation and represent a core principle of our democratic society.

By skilfully executing the logistical planning and delivery of these meetings, CICS not only relieves governments of the administrative process burden but also allows them to greatly benefit from significant cost efficiencies and economies of scale.

Highlights

The CICS's 2014–15 expenditures remain approximately the same as the previous year. The 2014–15 funding will be utilized to address the following priorities:

- Implement the necessary initiatives to enhance and expand strategic partnerships;
- Adopt the appropriate tools to transform our service delivery model;
- Review and adapt management practices to increase efficiencies; and
- Continue to build a capable, confident and high performing workforce.

Our 2014–15 Report on Plans and Priorities will contain more details regarding our priorities.

Canadian International Trade Tribunal

Raison d'être

The Canadian International Trade Tribunal (the Tribunal) provides Canadian and international businesses with access to fair, transparent and timely resolution of trade remedy cases, customs and excise tax appeals and inquiries into federal procurement complaints. At the request of the Government of Canada, the Tribunal provides advice on tariff, trade and general economic matters.

The Minister of Finance is responsible for this organization.

Highlights

The Tribunal's overriding priority for 2014-15 is to deliver on its various mandates by hearing cases and making sound decisions on matters that fall within its jurisdiction. In so doing, the Tribunal supports a fair marketplace in Canada, maintains its strong reputation both in Canada and throughout the world as a fair and independent decision maker and complies with its legislative requirements.

The Tribunal will also continue to pursue initiatives aimed at further improving its capacity to deliver on its legislative mandates in order to provide efficient and reliable services to its stakeholders.

The decreasing trend in the Tribunal's spending from 2012-13 to 2014-15 can be explained by a few key events. First, in 2012-13, the Tribunal received additional funding of \$1.3 million to retrofit its accommodation. Second, the Tribunal has gone through a very busy case schedule that required additional resources for part of 2012-13 and for all of 2013-14. Lastly, in 2014-15 and for future years, the Tribunal's budget will be reduced by \$0.5 million as part of the Budget 2012 Spending Review. Please refer to the Tribunal's Web site for further details on its 2014-15 Report on Plans and Priorities at <http://www.citt-tcce.gc.ca>.

Canadian Museum for Human Rights

Raison d'être

The Canadian Museum for Human Rights (CMHR) was created in 2008 through an amendment to the *Museums Act*, which established the Museum as the first national museum to be created since 1967 and the first to be located outside of the National Capital Region. The Museum's mandate is "to explore the subject of human rights, with special but not exclusive reference to Canada, in order to enhance the public's understanding of human rights, to promote respect for others and to encourage reflection and dialogue."

The Minister of Canadian Heritage and Official Languages is responsible for this organization.

Organizational Estimates

Budgetary

	2012-13	2013-14		2014-15
	Expenditures	Main Estimates	Estimates To Date	Main Estimates
		<i>(dollars)</i>

1 Payments to the Canadian Museum for Human Rights for operating and capital expenditures	56,935,796	31,700,000	31,700,000	21,700,000
Total voted	56,935,796	31,700,000	31,700,000	21,700,000
Total budgetary	56,935,796	31,700,000	31,700,000	21,700,000

Highlights

The operating appropriations for 2014-15 are \$21.7 million, the same amount that was received in 2013-14. In 2013-14 \$10 million in capital appropriations were also received representing the final payment of the \$35 million advance of appropriations that was approved in 2012-13. Accordingly no further capital appropriations will be received in 2014-15.

The 2014-15 fiscal year marks a period of significant transition for the Museum as it begins full-time operations and welcomes its first visitors from across Canada and abroad.

The Museum is forecasting a balanced budget for 2014-15. The Museum will open on September 20, 2014 and is projected to receive 100,000 visitors. Membership sales will be launched in April 2014 with 4,556 individual, family and corporate memberships projected to be sold. Public programming will begin upon opening with education programming beginning in January 2015. The 2014-15 fiscal year will be a challenging year due to the overlap of costs

related to the completion of operational readiness initiatives with costs to operate the Museum and therefore there are no contingencies budgeted in the 2014–15 operating budget.

CMHR will continue to experience significant change over the planning period as it transitions from a construction project to a fully operational museum. The focus for 2014–15 will be to:

- Complete the capital project including gallery fit-up and exhibit fabrication and installation;
- Complete the development of the infrastructure, content, and programs for inauguration;
- Implement marketing strategies and continue awareness campaigns, including the Museum's web presence and online experience;
- Hire and train the operational front-line staff;
- Test all aspects of the visitor experience during soft opening to ensure operational readiness to open the Museum to the public;
- Begin to generate earned revenue through admission, membership fees, programming, rental of facilities and retail sales;
- Begin to deliver the public and education programs;
- Transition from being under development to operating a Museum;
- Deliver a memorable and successful inaugural opening; and
- Welcome the public to the Museum beginning September 20, 2014 and deliver a visitor experience that inspires reflection and dialogue and encourages repeat visitation to the Museum.

To support the realization of the long-term corporate objectives, an increase in staffing numbers is planned over the next two years to fully staff Museum operations for the inaugural opening and beyond.

A thorough review of the staffing plan was completed during 2013–14 to align the organizational structure with the Museum's mandate and metanarrative. The review included benchmarking and expert consultation. There are still many unknowns for this Museum – the first new national museum in over 40 years and the first newly built national museum outside of the National Capital Region. The number of visitors, the level of interpretation visitors may want, the demand for tours and other programming could vary significantly from the assumptions in the budget. A variable staffing plan incorporating a significant number of part-time positions is being implemented that will provide the flexibility to increase or decrease the number of visitor facing staff as required.

Leading up to opening, project related staff has been hired on term assignments and these positions will drop off as the capital project is completed. Project related staff includes researcher assistants, interpretive planners, writers, editors, exhibit project managers, and new media project coordinators.

The forecasted increase in operations staff in 2013–14 is largely in the areas of Earned Revenue, Visitor Services, Security, and Learning and Programming in order to deliver on the following:

- Install and test the technology required to market and sell general admission, group tours, memberships, retail point of sale system, and facility rentals;
- Develop policies and procedures for all aspects of earned revenue and visitor services;
- Book facility rentals;
- Develop and implement a complete volunteer program including recruitment of volunteers for inauguration;
- Security for the new building after takeover from the Construction Manager; and
- Education and public programs.

Staffing will increase in 2014–15 due to the requirements of operating the Museum including full-time and part-time Program Interpreters who will provide in-gallery interpretation as well as deliver education and public programs, part-time Hosts, IT and exhibit staff.

Staffing costs make up 46% of the budget in 2014–15. This compares favourably with the other national museums where the staffing costs range from 43% to 55%.

Canadian Museum of History

Raison d'être

The Canadian Museum of History is a Crown corporation established by the *Museums Act* (Statutes of Canada 2013, Chapter 38) which came into force on December 12, 2013. The Act states that the role of the corporation is “to enhance Canadians’ knowledge, understanding and appreciation of events, experiences, people and objects that reflect and have shaped Canada’s history and identity, and also to enhance their awareness of world history and cultures.”

The Minister of Canadian Heritage and Official Languages is responsible for this organization.

Total budgetary	64,364,831	57,418,730	58,918,730	63,430,033

Highlights

On December 12, 2013, federal legislation was enacted which transformed the Canadian Museum of Civilization into the Canadian Museum of History.

Under its revised mandate, the Museum will tell the story of Canada and its people more comprehensively, inclusively and candidly than ever before. It will do so by focusing greater attention on the people, events and experiences that have shaped our country’s development, define the Canadian experience and underpin our national identity. The Museum will also continue to present special exhibitions exploring world history and cultures, and permanent exhibitions illuminating the historical achievements and continuing contributions of Canada’s First Peoples.

The museum’s Main Estimates for 2014-15 is \$63.4 million, an increase of \$6.0 million from the 2013-14 Main Estimates. The increase is due to:

- An increase of \$5.5 million for the creation of the Canadian Museum of History;
- An increase of \$681 thousand for the impact of collective agreements signed in 2013-14; and
- A decrease of \$170 thousand in funding for the British Columbia treaty negotiations process.

Canadian Museum of Immigration at Pier 21

Raison d'être

The Canadian Museum of Immigration at Pier 21 was established in 2010 through an amendment to the *Museums Act*.

The mandate of the Canadian Museum of Immigration at Pier 21 is “to explore the theme of immigration to Canada in order to enhance public understanding of the experiences of immigrants as they arrived in Canada, of the vital role immigration has played in the building of Canada and of the contributions of immigrants to Canada’s culture, economy and way of life.”

The Minister of Canadian Heritage and Official Languages is responsible for this organization.

Organizational Estimates

Total budgetary	9,976,473	18,450,000	18,450,000	9,900,000

Highlights

The Canadian Museum of Immigration at Pier 21 is estimating budgetary expenditures of \$9.9 million in 2014–15 which require approval by Parliament.

This represents a decrease in capital expenditures of \$8.55 million from the 2013–14 Main Estimates due to the partial completion of the expansion capital projects including the refit of current and new exhibition spaces, the fabrication and installation of new exhibits and the preparations for the launch of the new museum in May 2015 which will tangibly showcase the national mandate of the Museum.

For further details on the Museum’s plan and priorities, please refer to our 2014–15 to 2018–19 Corporate Plan.

Canadian Museum of Nature

Raison d'être

The Minister of Canadian Heritage and Official Languages is responsible for this organization.

The Canadian Museum of Nature (the Museum) became a Crown corporation on July 1, 1990 through the *Museums Act* with the mandate to increase, throughout Canada and internationally, interest in, knowledge of and appreciation and respect for the natural world by establishing, maintaining and developing for research and posterity, a collection of natural history objects, with special but not exclusive reference to Canada, and by demonstrating the natural world, the knowledge derived from it and the understanding it represents.

Organizational Estimates

Budgetary

	2012-13	2013-14		2014-15
	Expenditures	Main Estimates	Estimates To Date	Main Estimates
		<i>(dollars)</i>		
Budgetary Voted				
1 Payments to the Canadian Museum of Nature for operating and capital expenditures	34,370,062	25,834,904	25,834,904	26,127,096
Total voted	34,370,062	25,834,904	25,834,904	26,127,096
Total budgetary	34,370,062	25,834,904	25,834,904	26,127,096

Highlights

In 2014-15, the Museum will begin to advance a new strategic plan that leverages its research and collections strengths in arctic knowledge and species discovery. New approaches to the design and delivery of visitor experiences will enable the Museum to attract and inspire new audiences. These new engaging experiences will lead to higher memberships, higher membership renewal and will provide a foundation for enhanced fundraising. Overall higher levels of engagement will lead to a better understanding of and connection with Canada's natural world.

Strategic Objective #1:

Create a Centre for Arctic Knowledge and Exploration that transforms people's understanding of Canada's arctic and its relationship with Canada as a country in a 21st century global context.

- Launch new arctic alliances and content that position the Museum nationally and internationally;
- Launch the newly formulated Centre for Arctic Knowledge and Exploration;

- Unveil an Arctic sculpture and associated programming; and
- Launch the Arctic gallery and associated programming and research.

Strategic Objective #2:

Create a Centre for Species Discovery and Change that transforms peoples understanding of the relevance of species diversity to their lives now and in the future.

- Lead Canada's membership and participation in the Global Biodiversity Information Facility (GBIF);
- Launch the newly formulated Centre for Species Discovery and Change;
- Unveil the regions of Canada gardens at the Victoria Memorial Museum Building;
- Position the Museum leadership in species discovery at national and international conferences such as International Union for Conservation of Nature world congress; and
- Launch a national media campaign profiling research expertise.

Strategic Objective #3:

Create a Centre for Nature Inspiration and Engagement that transforms people's expectations of the Museum as a destination for discussion, connection and exploration with nature's past, present and future that advances understanding and respect for Canada's natural world.

- Launch an annual award recognizing excellence in nature inspiration;
- Launch the global summit on nature inspiration to share new approaches to inspiring engagement with nature and our natural future;
- Launch commercial products piloted in the Centre for Nature Inspiration and Engagement in markets across Canada; and
- Launch a national salon series in collaboration with a major partner – giving nature a voice across Canada.

Strategic Objective #4:

Position the Natural Heritage Campus as a centre of excellence in collections management and knowledge creation, advancement and sharing by becoming a collections collaborator with institutions around the world seeking to collect, preserve, digitize and disseminate specimens that document the nature of Canada.

- Launch a public awareness campaign highlighting the role and achievements of Museum scientists and collection management staff in promoting the understanding and respect of Canada's natural world;
- Launch the collections digitization and access project aligned with the Museum's role with GBIF thus leveraging its technology in providing greater online access to its collections and knowledge;
- Launch a digital /IT network upgrade to increase the Museum's capacity and improve access to support new digital nature experiences;
- Attract and house signature collections from public and private sources;
- Participate in, and collaborate with national and international research and collections management organizations; and
- Animate the Campus through public programmes.

Strategic Objective #5:

Create a sustainable business enterprise model of operation that leverages the Museum's strategic imperatives: knowledge and discovery, inspiration and engagement, presence, performance and advancement.

- Position the Museum as a fundamental element of the national capital experience;
- Launch a collaborative national museums positioning campaign leading up to 2017;
- Launch a fundraising program in support of the arctic and species discovery initiatives;

- Systematize the contribution margin model for enterprise management; and
- Launch a program to develop the skills/competencies and human capacity needed to advance and maintain a sustainable museum enterprise.

These five strategic objectives will be managed through the five program activities of the Museum: Public Education, Collections Management and Research, Internal Services, and Accommodation which includes the ongoing operations and maintenance of the Museum's two facilities.

An increase of \$292,192 or 1% from previous Main Estimates is due to compensation adjustments.

Canadian Northern Economic Development Agency

Raison d'être

Contributing to jobs and growth in Canada, the Canadian Northern Economic Development Agency (CanNor) works to develop a diversified, sustainable and dynamic economy across Canada's three territories. It does this by delivering funding programs to Northerners and Aboriginal people, guiding resource development and major projects across the North through the Northern Projects Management Office, undertaking research to support the development of evidence-based policies, advocating for Northern economic prosperity and diversification, and collaborating with and aligning the efforts of other federal departments, territorial governments, Aboriginal organizations, and industry.

The Minister of the Canadian Northern Economic Development Agency is responsible for this organization.

Highlights

CanNor is estimating budgetary expenditures of \$30.9 million in 2014–15. Of this amount, \$29.8 million requires approval by Parliament. The remaining \$1.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

In 2014–15, Aboriginal economic development programming will continue to focus on supporting business development and the opportunities before communities today; this will be complemented by the Northern Adult Basic Education Program.

Responsible resource development is critical to the success of Canada's North. CanNor's Northern Projects Management Office is expanding its work with communities and industry to position Canada's North as a world-class resource development destination where prosperity for Northerners and benefits for Canadians are a single goal. This is highlighted by new 3-year funding for this program starting in 2013–14.

Compared to the previous year, the Strategic Investments in Northern Economic Development program (\$20 million) and the Community Infrastructure Improvement Fund (\$3.2 million in 2013–14) sunset in 2013–14. Sunsetting programs are subject to government decisions to extend or enhance funding.

Canadian Nuclear Safety Commission

Raison d'être

The Minister of Natural Resources is responsible for this organization.

In 1946, Parliament passed the *Atomic Energy Control Act* and established the Atomic Energy Control Board, providing it with the power to regulate all nuclear activities related to the development and use of atomic energy in Canada.

More than half a century later, in May 2000, the *Nuclear Safety and Control Act* (NSCA) came into effect and established the Canadian Nuclear Safety Commission (CNSC) as the successor to the Atomic Energy Control Board, with responsibilities and authorities to regulate an industry that spans all segments of the nuclear fuel cycle and a wide range of industrial, medical and academic uses of nuclear substances.

Additional information can be found in the CNSC's Report on Plans and Priorities.

Total budgetary	139,699,154	132,901,485	135,737,179	131,637,295

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

CNSC is estimating budgetary expenditures of \$131.6 million in 2014–15. Of this amount, \$36.6 million requires approval by Parliament. The remaining \$95.0 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

In *Economic Action Plan 2013 Act, No. 1*, the CNSC received statutory authority – pursuant to paragraph 21(3) of the NSCA – to spend during a fiscal year any revenues that it receives in the current or previous fiscal year through the conduct of its operations. The CNSC receives its revenues from regulatory fees for licences and applications charged in accordance with the CNSC Cost Recovery Fees Regulations.

In addition to the statutory authority, the CNSC is also funded through the voted budgetary authority from Parliament – Vote 1 – Program expenditures. Voted authority provides funding for activities exempt from paying fees under the CNSC Cost Recovery Fees Regulations (i.e., hospitals and universities), as these entities exist for the public good. Additionally, fees are not charged for activities that result from Canada's obligations that do not provide a direct benefit to identifiable licensees. These include activities with respect to Canada's international obligations (including non-proliferation activities), public responsibilities such as emergency management and public information programs, and the updating of the NSCA and its associated regulations.

Contributions to the employee benefit plans are statutory budgetary authorities.

In 2014–15, the CNSC's Main Estimates show a decrease in net spending of \$1.3 million or 1.0% when compared to 2013–14 Main Estimates. The decrease is the result of a decrease in statutory expenditures of \$2.9 million or 2.9% partially offset by an increase in voted expenditures in the amount of \$1.6 million or 4.6%.

The decrease in statutory expenditures is due to reduced regulatory demands related to the decommissioning of the Hydro-Québec's Gentilly – 2 nuclear generating station facility as well as a reduction in the employee benefit contribution.

The increase in voted expenditures is mainly due to the termination of management reserve repayments to the Treasury Board Secretariat for investments made in the CNSC's facilities infrastructure as well as funding received to support the Single Window Initiative – the horizontal initiative to streamline government import regulations and border processes for commercial trade. The increase is offset by an additional transfer to Shared Services Canada for workplace technology device software and a transfer to Foreign Affairs, Trade and Development to support CNSC personnel on missions abroad.

Additional information can be found in the CNSC's Report on Plans and Priorities.

Canadian Polar Commission

Raison d'être

The Canadian Polar Commission (CPC) is responsible for monitoring, promoting and disseminating knowledge of the polar regions; contributing to public awareness of the importance of polar science to Canada; enhancing Canada's international profile as a circumpolar nation; and recommending polar science policy direction to government. The Minister of Aboriginal Affairs and Northern Development is responsible for this organization.

Highlights

CPC is estimating budgetary expenditures of \$2.6 million in 2014-15. Of this amount, \$2.4 million requires approval by Parliament. The remaining \$137 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

CPC continues to manage its grant programs: the Northern Scientific Training Program including the funding to the Association of Canadian Universities for Northern Studies, the Centenary Medal Commemorating the International Polar year 1882-1883 also known as the Northern Scientific Award and the Canadian Polar Commission Scholarship Award.

The CPC will continue to host conferences and workshops, to publish information on subjects of relevance to polar research, to build and maintain polar knowledge networks and to work closely with other governmental and non-governmental agencies to promote and support Canadian study of the polar regions.

Canadian Radio-television and Telecommunications Commission

Raison d'être

The Canadian Radio-television and Telecommunications Commission (CRTC) is an administrative tribunal that regulates and supervises Canadian broadcasting, and telecommunications in the public interest, as well as contributes to protecting Canadians from unsolicited communications.

The CRTC reports to Parliament through the Minister of Canadian Heritage and Official Languages.

Highlights

CRTC is estimating net budgetary expenditures of \$10.6 million in 2014–15. Of this amount, \$3.9 million requires approval by Parliament. The remaining \$6.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

In total, the CRTC is estimating a decrease in net spending of \$0.6 million from the previous Main Estimates. Factors contributing to the net decrease include:

- A decrease of \$0.4 million in program spending for activities related to Canada's anti-spam legislation. This amount relates to re-profiled funding that ended in 2013–14; and
- A decrease of \$0.2 million for statutory budgetary expenditures related to employee benefits plans.

Once tabled in the House of Commons, additional information will be available in the departmental Report on Plans and Priorities.

Canadian Security Intelligence Service

Raison d'être

As per the *Canadian Security Intelligence Service (CSIS) Act*, the mandate of CSIS is to collect, analyze and retain information and intelligence on activities suspected of constituting threats to the security of Canada, and to report to and advise the government. CSIS is responsible for the collection of national security intelligence inside and outside Canada; the collection of foreign intelligence within Canada; and for security screening assessments for federal government employees, refugees, immigration and citizenship applicants, and some other sectors such as the Canadian nuclear industry.

The Minister of Public Safety and Emergency Preparedness is responsible for CSIS.

Highlights

The 2014-15 Main Estimates for CSIS are \$516.2 million, a net increase of \$3.2 million from 2013-14. The major changes are as follows:

- An increase of \$11.4 million in support of Canada's national security and the safety of Canadians;
- A decrease of \$4.3 million due to Budget 2012 spending review;
- A decrease of \$3.4 million due to collective bargaining adjustments; and
- A decrease of \$0.5 million due to the return of funding received for maintenance of parking facilities.

Canadian Space Agency

Raison d'être

The mandate of the Canadian Space Agency (CSA) is "to promote the peaceful use and development of space, to advance the knowledge of space through science and to ensure that space science and technology provide social and economic benefits for Canadians".

The CSA is carrying out its mandate in collaboration with Canadian industry, academia, Government of Canada organizations and other international space agencies or organizations.

The founding legislation voted in 1990 attributed four main functions to the CSA:

- Assisting the Minister in the coordination of the space policies and programs;
- Planning and implementing programs and projects related to scientific or industrial space research and development, and application of space technology;
- Promoting the transfer and diffusion of space technology to and throughout Canadian industry; and,
- Encouraging commercial exploitation of space capabilities, technology, facilities and systems.

Highlights

The Canadian Space Agency is estimating budgetary expenditures of \$462.4 million in 2014–15. Of this amount, \$452.5 million requires approval by Parliament. The remaining \$9.9 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The variation in total authorities available between fiscal years 2013–14 and 2014–15 represents a net decrease of \$26.2 million. This variation is mainly due to:

- A decrease of \$25.3 million mainly related to the RADARSAT Constellation Mission (RCM). The current year over year decrease reflects different cash flow requirements and previous years' reprofiling of funds as well as the reduction of the additional funding provided for RCM.
- A decrease of \$4.8 million due to the savings measures related to Budget 2012 spending review;
- A decrease of \$0.4 million related to a transfer to Shared Services Canada for Workplace Technology Devices (WTD) formerly End User Devices; and
- An increase of \$2.4 million related to the forecasted cash flow requirements for the Contributions to the Canada/European Space Agency Cooperation Agreement. In previous years, funds for this activity have been reprofiled to account for different cash flow requirements, resulting in the current year over year increase.
- An increase of \$3.3 million related to the forecasted cash flow requirements for the Class Contribution Program to Support research, awareness and learning in space science and technology;
- A decrease of \$0.8 million related to the Employee benefit rate adjustments;
- A decrease of \$0.4 million related to the forecasted cash flow requirements for the James Webb Space Telescope (JWST) project and the Cassiope Program. In previous years funds for some activities have been reprofiled to account for different cash flow requirements resulting in the current year over year decrease; and
- A decrease of \$0.2 million related to the Economic Action Plan 2013 "Reducing travel costs through the use of technology".

Once tabled in the House of Commons, additional information will be available in the departmental Report on Plans and Priorities available at: <http://www.asc-csa.gc.ca/eng/publication/rp.asp#rp>

Canadian Tourism Commission

Raison d'être

The Canadian Tourism Commission (CTC) is Canada's national tourism marketing organization. A Crown corporation wholly owned by the Government of Canada, the CTC's purpose is to sustain a vibrant and profitable tourism industry by marketing Canada as an internationally competitive, premier four-season tourism destination where travelers can indulge in extraordinary experiences. Reporting to Parliament through the Minister of Industry, the CTC's legislative requirements are outlined in the *Canadian Tourism Commission Act*. Through collaboration and partnerships with the private sector, as well as with the governments of Canada, the provinces and territories, the CTC works with the tourism sector to maintain Canada's competitiveness and generate wealth for Canadians by stimulating demand for Canada's visitor economy. Additional information can be found in the CTC's 2014-2018 Corporate Plan.

Organizational Estimates

Budgetary

	2012-13	2013-14		2014-15
	Expenditures	Main Estimates	Estimates To Date	Main Estimates
		<i>(dollars)</i>

1 Payments to the Canadian Tourism Commission	71,495,802	57,832,802	57,832,802	57,972,388
Total voted	71,495,802	57,832,802	57,832,802	57,972,388
Total budgetary	71,495,802	57,832,802	57,832,802	57,972,388

Highlights

The CTC was created in 1995, as a Special Operating Agency within Industry Canada, and in 2001, became a Crown corporation pursuant to the Canadian Tourism Commission Act. The CTC reports to Parliament via the Minister of Industry. The CTC is Canada's national tourism marketing organization mandated to sustain a vibrant and profitable Canadian tourism industry; market Canada as a desirable tourist destination; support a cooperative relationship between the private sector and the governments of Canada, the provinces and the territories with respect to Canadian tourism; and provide information about Canadian tourism to the private sector and to the governments of Canada, the provinces and the territories.

In 2012, the CTC took part in the comprehensive review by the Government of Canada as outlined in Budget 2012, to return to balanced budgets over the medium-term. Budget 2012 mandated a reduction on the CTC's appropriations by \$14.2 million starting in 2013-14 (Canada's Action Plan 2012). This adjustment resulted in the CTC's core appropriations (i.e. excluding one-time funding for special programs) of \$57.8 million starting in 2013-14. Since the CTC's budget is organized by calendar year, this appropriation will translate into an annual appropriation \$57.8 million

for 2014. Consistent with this decision, the CTC's activities are aligned to focus resources on markets of strategic importance to Canada's tourism industry.

The CTC's corporate strategy as outlined in the 2014–2018 Corporate Plan is:

Goal:

- To grow tourism export revenue for Canada in markets offering the highest return and where the Canada brand leads.

Strategic Themes:

- Generate demand for Canada's visitor economy;
- Deliver branded platforms to help Canadian tourism businesses sell Canada; and
- Advance corporate excellence and efficiency.

Operational Objectives:

- Seed the 2017 Youth Program;
- Explore options for broader business events consistent with Canada's trade agenda;
- Further develop branded platforms for industry in the interest of both immediate and potential returns;
- Work to more holistically define the value of the CTC to industry beyond traditional return on investment measures; and
- Continue ongoing work on efficiencies.

Canadian Transportation Accident Investigation and Safety Board

Raison d'être

The Canadian Transportation Accident Investigation and Safety Board is referred to as the Transportation Safety Board of Canada (TSB) in its day-to-day activities. The TSB is an independent agency created in 1990 by an Act of Parliament. It operates at arm's length from other government departments and agencies to ensure that there are no real or perceived conflicts of interest. TSB's sole objective is to advance air, marine, rail and pipeline transportation safety. This mandate is fulfilled by conducting independent investigations into selected transportation occurrences to identify the causes and contributing factors and the safety deficiencies evidenced by an occurrence. TSB then makes recommendations to reduce or eliminate any such safety deficiencies and reports publicly on its investigations.

The Leader of the Government in the House of Commons is the designated minister for the purposes of tabling the TSB's administrative reports in Parliament, such as the Report on Plans and Priorities and Departmental Performance Report. The TSB forms part of the Privy Council portfolio of departments and agencies.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

The TSB is estimating budgetary expenditures of \$29.0 million in 2014-15. Of this amount, \$25.7 million requires approval by Parliament. The remaining \$3.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes. The organization's funding through Main Estimates has decreased from 2013-14 by \$0.5 million, due to savings of \$1.3 million identified as part of the Budget 2012 spending review and offset by an increase in funding for collective bargaining adjustments.

The TSB operational activities have remained consistent over the last few years and for the planning horizon. Significant variances between the TSB's funding in Main Estimates and actual year-end expenditures are explained by additional sources of funding. The department receives additional funding through transfers from Treasury Board votes

for the carry-forward of unused funds from the previous year, for collective bargaining adjustments, and for severance and parental benefits paid during the year. The TSB may also receive additional funding from Parliament through Supplementary Estimates for funding pressures created by the investigation of a significant transportation occurrence (e.g. Lac-Mégantic, Quebec).

In 2014–15, the TSB will continue to strive to be a world leader in influencing changes that advance transportation safety. This vision statement will be achieved by focusing on four strategic objectives: responding, managing, communicating and advocating. This four-pronged approach provides a clear framework to guide investments and activities for the planning horizon. Details on the TSB's priorities will be available in its 2014–15 Report on Plans and Priorities.

Canadian Transportation Agency

Raison d'être

The Canadian Transportation Agency (CTA) is an independent, quasi-judicial tribunal and economic regulator. It makes decisions and determinations on a wide range of matters within the federal transportation system under the authority of Parliament, as set out in the *Canada Transportation Act* and other legislation.

Our mandate includes:

- economic regulation, to provide approvals, issue licences, permits and certificates of fitness, and make decisions on a wide range of matters involving federal air, rail and marine transportation;
- dispute resolution, to resolve complaints about federal transportation services, rates, fees and charges; and
- accessibility, to ensure Canada's national transportation system is accessible to all persons, particularly those with disabilities.

Additional information can be found in the Agency's Report on Plans and Priorities.

The Minister of Transport is responsible for this organization.

Highlights

The CTA is estimating budgetary expenditures of \$27.7 million in 2014–15. Of this amount, \$24.3 million requires approval by Parliament. The remaining \$3.4 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

CTA's planned expenditures remain approximately the same as the previous year. In 2014–15, CTA will launch its third strategic plan and will carry out the activities related to the priorities below:

Service Excellence: The Agency is recognized for its service innovation and excellence.

Regulatory Effectiveness: The regulatory regime meets the needs of Canadians and enhances the competitiveness and accessibility of the national transportation system.

High-Performing Organization: The Agency has engaged, skilled and knowledgeable employees who are supported by effective and efficient systems and services.

Chief Electoral Officer

Raison d'être

The Office of the Chief Electoral Officer, commonly known as Elections Canada, is an independent, non-partisan agency that reports directly to Parliament. Its mandate is to be prepared to conduct a federal general election, by-election or referendum; to administer the political financing provisions of the *Canada Elections Act*; to monitor compliance with and enforce electoral legislation; and to carry out investigations into allegations that would amount to offences under the Act. The agency is also mandated to conduct voter education and information programs, and to provide support to the independent commissions in charge of adjusting the boundaries of federal electoral districts following each decennial census. As well, the agency may carry out studies on alternative voting methods and, with the approval of parliamentarians, test online voting processes for future use during electoral events.

The Leader of the Government in the House of Commons is the designated minister for the purpose of tabling the Chief Electoral Officer's administrative reports in Parliament, including the Report on Plans and Priorities and Departmental Performance Report.

Highlights

Elections Canada is estimating budgetary expenditures of \$97.1 million in 2014–15. Of this amount, \$30.5 million requires approval by Parliament. The remaining \$66.6 million represents statutory forecasts and is provided for information purposes.

Overall for 2014–15, the agency is estimating a net decrease of \$18.7 million, or 16.2%, from the 2013–14 Estimates to Date. This decrease is explained as follows:

- a \$9.3 million decrease in statutory authority as a result of the agency completing in 2013–14 the office consolidation project (part of Internal Services);

- a \$7.4 million decrease in statutory authority as the quarterly allowances to political parties are being phased out (part of the Regulation of Electoral Activities program);
- a \$2.5 million decrease in statutory authority as a result of the agency concluding in 2013–14 the redistribution of electoral districts and prior years' elections (part of the Electoral Operations program); and
- a \$0.5 million increase in program expenditures (voted) as a result of the recently ratified collective agreements (impacts all programs).

Additional information can be found in the agency's Report on Plans and Priorities.

The 2013–14 Main Estimates and Estimates to Date exclude funding for the following statutory items:

- the conduct of the by-elections in Labrador (Newfoundland and Labrador), Bourassa (Quebec), Brandon–Souris (Manitoba), Provencher (Manitoba) and Toronto Centre (Ontario) (part of the Electoral Operations program); and
- the implementation of the redistribution of electoral districts (part of the Electoral Operations program).

The disposition of all authorities will be available in the agency's 2013–14 Departmental Performance Report and the Public Accounts.

Citizenship and Immigration

Raison d'être

In the first years after Confederation, Canada's leaders had a powerful vision: to connect Canada by rail and make the West the world's breadbasket as a foundation for the country's economic prosperity. This vision meant quickly populating the Prairies, leading the Government of Canada to establish its first national immigration policies. Immigrants have been a driving force in Canada's nationhood and its economic prosperity – as farmers settling lands, as workers in factories fuelling industrial growth, as entrepreneurs and as innovators helping Canada to compete in the global, knowledge-based economy.

Citizenship and Immigration Canada (CIC) selects foreign nationals as permanent and temporary residents and offers Canada's protection to refugees. The Department develops Canada's admissibility policy, which sets the conditions for entering and remaining in Canada; it also conducts, in collaboration with its partners, the screening of potential permanent and temporary residents to protect the health, safety and security of Canadians. Fundamentally, the Department builds a stronger Canada by helping immigrants and refugees settle and integrate into Canadian society and the economy, and by encouraging and facilitating Canadian citizenship. To achieve this, CIC operates 27 in-Canada points of service and 70 points of service in 63 countries.

The Minister of Citizenship and Immigration is responsible for this organization.

Highlights

CIC's budgetary Main Estimates for 2014–15 of \$1,385.4 million, represent a net decrease of \$270 million from the previous year.

The following are the highlights of this change:

- An increase of \$45.5 million for new funding to keep up with increased volume demands in the Citizenship and Temporary Resident programs;
- An increase of \$35.5 million to the Grant for the Canada-Quebec Accord on immigration;
- An increase of \$13.1 million for new funding to develop and implement the Electronic Travel Authorization (eTA) program commitment under the Perimeter Security and Economic Competitiveness Action Plan;
- An increase of \$4.2 million in new funding for language training for newcomers and official language minority communities under the Roadmap for Canada's Official Languages;
- An increase of \$3.1 million for new funding to implement the Entry/Exit project and Radio Frequency Identification technology as set out in the Perimeter Security and Economic Competitiveness Action Plan;
- An increase of \$3.0 million for contribution funding under the Global Assistance for Irregular Migrants Program to support Canada's Migrant Smuggling Prevention Strategy;
- A decrease of \$254.2 million due to statutory adjustments related to the Passport Canada revolving fund;
- A decrease of \$48.3 million in statutory funding to return fees for certain Federal Skilled Worker applications;
- A decrease of \$29.7 million in funding to implement the use of biometrics in the temporary visa program;
- A decrease of \$13.9 million due to the impact of Budget 2012 measures;
- A decrease of \$6.5 million in funding to modernize the immigration system and manage the backlog;
- A decrease of \$5.5 million in funding for visa implementation in Mexico;
- A decrease of \$5.2 million related to funding transferred to Foreign Affairs, Trade and Development related to the International Experience Canada program which provides opportunities for Canadians and non-Canadians, aged 18-35, to travel and gain work experience in each other's countries for up to two years;

- A decrease of \$4.6 million in funding the sharing of immigration information with the United States;
- A decrease of \$4.0 million due to employee benefit plan costs and other minor funding adjustments;
- A decrease of \$2.5 million related to funding transferred to Shared Services Canada for workplace technology device software.

Highlights

The FJA Canada is estimating budgetary expenditures of \$511.7 million in 2014–15. Of this amount, \$10.2 million requires approval by Parliament. The remaining \$501.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The total spending for the department shows a continual increase over the planning period.

A net increase of \$14.0 million from 2013–14 Main Estimates is due mainly to \$13.3 million for an increase in the number of judicial appointments, an increase in the overall average in the amounts of pensions being paid to pensioners in accordance with the *Judges Act*, as well as a provision for a salary increase to federally appointed judges. The remaining \$0.7 million represents an increase to FJA's operating budget for legal obligations.

Please refer to the 2014–15 Report on Plans and Priorities for additional information.

Communications Security Establishment

Raison d'être

As mandated by the *National Defence Act*, the Communications Security Establishment's (CSE) Signals Intelligence program provides foreign intelligence that addresses the Government of Canada's vital interests in defence, security, and international affairs through the collection, processing, analysis and reporting of intelligence. The Signals Intelligence program also helps protect the electronic information and information infrastructures of importance to the Government of Canada, and provides technical and operational assistance to federal law enforcement and security agencies.

CSE's Information Technology Security program provides advice, guidance, and services to help ensure the protection of electronic information and information systems of importance to the Government of Canada.

The Minister of National Defence is responsible for CSE.

Highlights

CSE is estimating budgetary expenditures of \$829.1 million in 2014-15. Of this amount, \$796.8 million requires approval by Parliament. The remaining \$32.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Main Estimates for the department are \$829.1 million, which includes:

- A one-time increase of \$300.0 million for a contract payment related to delivery of CSE's new facility in 2014;
- An increase of \$100.8 million for contract payments in 2014-15 which includes maintenance of CSE's new facility, built through a public-private partnership; and
- An increase of \$6.1 million in support of CSE's mandate.

Copyright Board

Raison d'être

The Copyright Board is an economic regulatory body empowered to establish, either mandatorily or at the request of an interested party, the royalties to be paid for the use of copyrighted works, when the administration of such copyright is entrusted to a collective-administration society. The Board also has the right to supervise agreements between users and licensing bodies and issues licences when the copyright owner cannot be located.

The Minister of Industry is responsible for this organization.

Highlights

The Copyright Board of Canada is estimating budgetary expenditures of \$3.1 million in 2014-15. Of this amount, \$2.8 million requires approval by Parliament and the remaining \$286.3 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Copyright Board of Canada will continue to ensure balanced decision-making and provide proper incentive for the creation and use of copyrighted works. The Board will also examine possible avenues to improve its practices and procedures, with the aim of streamlining them and reduce uncertainty, while safeguarding fairness of process.

Correctional Service of Canada

Raison d'être

The Minister of Public Safety and Emergency Preparedness is responsible for the Correctional Service of Canada.

The purpose of the federal correctional system, as defined by law, is to contribute to the maintenance of a just, peaceful and safe society by carrying out sentences imposed by courts through the safe and humane custody and supervision of offenders; and by assisting the rehabilitation of offenders and their reintegration into the community as law-abiding citizens through the provision of programs in penitentiaries and in the community (*Corrections and Conditional Release Act*, s.3).

The Correctional Service of Canada, as part of the criminal justice system and respecting the rule of law, contributes to public safety by actively encouraging and assisting offenders to become law-abiding citizens, while exercising reasonable, safe, secure and humane control.

Additional information can be found in the organization's Report on Plans and Priorities.

Highlights

The Correctional Service of Canada is estimating budgetary expenditures of \$2,334.7 million in 2014–15. Of this amount, \$2,097.3 million requires approval by Parliament. The remaining \$237.4 million represents statutory forecasts that do not require additional approval and are provided for information purposes. This represents a net decrease of \$262.9 million from 2013–14 Main Estimates.

The forecast for the next few years is decreasing. This trend is largely attributed to projected inmate population growth which has not materialized with respect to the implementation of the *Tackling Violent Crime Act* and the *Truth in Sentencing Act* and the savings identified as part of the Budget 2012 Spending Review.

The major changes are as follows:

- An increase of \$1.6 million for signed collective agreements;
- A net decrease of \$121.8 million associated with the *Tackling Violent Crime Act* and the *Truth in Sentencing Act* (composed of a decrease of \$122.1 million in capital and an increase of \$0.3 million in operating funds);
- A decrease of \$111.5 million related to savings identified as part of the Budget 2012 Spending Review;
- A net decrease of \$26.7 million related to the department's allocation of the employer's share of Employee Benefit Plan;
- A decrease of \$2.4 million for a transfer to Shared Services Canada related to procurement of workplace technology device software;
- A decrease of \$0.9 million related to Government Wide Travel Reduction; and
- A net decrease of \$1.2 million related to other adjustments.

Courts Administration Service

Raison d'être

The Courts Administration Service (CAS) was established in 2003 with the coming into force of the *Courts Administration Service Act*. The role of CAS is to provide effective and efficient judicial registry and corporate services to four superior courts of record – the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada. The Act enhances judicial independence by placing administrative services at arm's length from the Government of Canada and enhances greater accountability for the use of public money.

The Minister of Justice is responsible for this organization.

Highlights

The CAS is estimating budgetary expenditures of \$68.0 million in 2014-15. Of this amount, \$61.2 million requires approval by Parliament. The remaining \$6.8 million represents the statutory funding forecast that does not require additional approval and is provided for information purposes.

The core programs of the CAS have remained relatively constant over the years. Nevertheless, CAS' reference levels have been impacted by legislative changes affecting the workload of the federal courts as well as various government initiatives. The activities that have caused the majority of the variations in reference levels include:

- Renewal of the Division 9 proceedings of the *Immigration and Refugee Protection Act* (IRPA) aimed at addressing challenges in the management of security inadmissibility cases, protecting classified information in immigration proceedings, and obtaining diplomatic assurances of safety for inadmissible individuals facing a risk of torture;
- Introduction of changes to the refugee determination process established in Bill C-11 in 2010, *An Act to amend the Immigration and Refugee Protection Act and the Federal Courts Act*;

- A reprofile of funding from future fiscal years approved in 2011–12, to be repaid over five years, which enabled CAS to construct a new data centre and address information technology infrastructure rust-out;
- Savings identified as part of the Budget 2012 Spending Review; and
- Collective bargaining settlements negotiated by the Government of Canada for the whole of the Public Service.

The decrease in the 2014–15 Main Estimates compared to 2013–14 is mainly related to the Budget 2012 Spending Review, offset by compensation in related to collective agreements.

The main variance from 2012–13 expenditures to 2014–15 Main Estimates is associated with funding for the implementation of *An Act to amend the Immigration and Refugee Protection Act and the Federal Courts Act*. This funding is available within the Main Estimates, but related expenditures are contingent upon the appointment of judges. There were no judicial appointments in 2012–13. The remaining impact of the Budget 2012 Spending Review is applied to CAS reference levels in 2014–15.

More details on important trends and variances can be found in the CAS 2014–15 Report on Plans and Priorities, as well as the Financial Statements Discussion and Analysis and the Quarterly Financial Reports.

Economic Development Agency of Canada for the Regions of Quebec

Raison d'être

Under its Act, the Economic Development Agency of Canada for the Regions of Quebec's (the Agency) mission is to "promote the long-term economic development of the regions of Quebec by giving special attention to those where slow economic growth is prevalent or opportunities for productive employment are inadequate".

The Agency contributes to the growth of Quebec regions' economy by promoting start-ups and business development. It also supports the efforts of regional engagement and attraction of investments intended to increase the prosperity of Quebec's economy.

Through its business offices, the Agency's presence is well-rooted in all Quebec regions. It provides financial support to enterprises, predominantly small and medium-sized enterprises, as well as non-profit organizations.

The Minister of the Economic Development Agency of Canada for the Regions of Quebec is responsible for this organization.

Highlights

The budgetary expenditures of the Agency amount to \$247.8 million for 2014–15. These expenditures will support business development, regional economic development and the strengthening of community economies including internal services.

Planned expenditures reflect a decline of \$7.1 million (or 3%) compared to the previous year.

The decrease mainly stems from the termination of funding for several temporary initiatives such as the Community Infrastructure Improvement Fund and the Program to Fund Construction of a Gas Pipeline Between Vallée-Jonction and Thetford Mines.

On the other hand, the Agency has received additional funding for the implementation of the Canadian Economic Diversification Initiative for Communities reliant on Chrysotile and for the Linguistic Duality Economic Development Initiative.

Business Development: The Agency will continue to foster the development of businesses by supporting entrepreneurship and business performance. To contribute to Quebec's economic growth, one of the Agency's priorities consists of maintaining and supporting businesses' evolution. More specifically, the Agency will support entrepreneurship by nurturing enterprise creation and start-up. It will also support the competitiveness of businesses by focusing on their productivity and expansion, innovation and technology transfer, commercialization and exports projects.

Regional Economic Development: The Agency will also continue to support regional economic development by fostering regional engagement in economic development and stimulating investment in various regions of Quebec. To this end, the Agency will continue to encourage the regions' efforts in obtaining collective facilities to exploit or enhance their assets. It will also promote regional assets with a view to increase tourist spending and attract investment.

Strengthening Community Economies: To strengthen communities' economy, the Agency will continue its support through the Community Futures Program. It will continue to act as an operational partner with Infrastructure Canada in managing various programs in Quebec. Through temporary initiatives, the Agency will continue to support economic activity in Quebec communities in order to stabilize or strengthen their economy. Furthermore, major interventions of the Agency in 2014–15 consist in strengthening the economies of the regions and communities with targeted temporary support through the Canadian Economic Diversification Initiative for Communities reliant on Chrysotile and through the economic recovery of the city of Lac-Mégantic following the rail tragedy.

Internal Services: Internal Services, which include Governance and Management Support, Resource Management Services, and Asset Management Services, will continue to support program implementation in the Agency. In connection with Internal Services, one of the Agency's priorities is to continue its modernization and transformation to increase its efficiency through: (i) the simplification and modernization of processes and tools to provide more accessible programs delivery to its clients; (ii) the continuation of the implementation of departmental initiatives and government-wide transformation; and (iii) the implementation of concrete measures to build the public service of tomorrow.

Additional information regarding the authorities, mandate and programs of the Agency are available in the Report on Plans and Priorities.

Employment and Social Development

Raison d'être

The Minister of Employment and Social Development and Minister of Labour are responsible for this organization.

The mission of Employment and Social Development (ESDC) is to build a stronger and more competitive Canada, to support Canadians in making choices that help them live productive and rewarding lives, and to improve Canadians' quality of life. The Department delivers a range of programs and services that affect Canadians throughout their lives through three business lines: programs that support employment and social development, the Labour Program, and Service Canada.

ESDC provides seniors with basic income security, supports unemployed workers, helps students finance their post-secondary education, and assists parents who are raising young children. The Labour Program is responsible for labour laws and policies in federally regulated workplaces. Service Canada helps citizens access ESDC's programs, as well as other Government of Canada programs and services, at close to 600 points of service across the country. Additional information can be found in the organization's Report on Plan and Priorities.

Highlights

ESDC is planning budgetary expenditures on programs and services totaling \$51.7 billion in 2014–15, of which \$49.9 billion, or more than 96%, will directly benefit Canadians through the Old Age Security Program, the Universal Child Care Benefit and other statutory transfer payment programs.

Of the total amount of planned expenditures, \$1.8 billion requires approval from Parliament. The remaining \$49.9 billion represents statutory forecasts that do not require additional approval and are provided for information purposes.

The 2014–15 planned spending represents an increase of \$3.3 billion, or 7%, when compared to the 2012–13 actual budgetary expenditures of \$48.4 billion. This increase is mostly explained by an increase to Old Age Security and Guaranteed Income Supplement payments resulting from the aging population and the planned increase in the average monthly benefit amount.

When compared to the 2013–14 budgetary Main Estimates of \$50.5 billion, the 2014–15 planned expenditures represent a net increase of \$1.2 billion. This increase is primarily associated with statutory items. In particular, the forecasted Old Age Security and Guaranteed Income Supplement payments are \$43.7 billion and represent an increase of \$1.2 billion and \$387 million respectively, explained by changes in the average rates of payment and in the number of beneficiaries. Other factors contributing to the increase include:

- An increase of \$77.3 million in the Canada Student Grants to qualifying full and part-time students pursuant to the Canada Student *Financial Assistance Act* attributed to the growth rate assumption from the Office of Chief Actuary;
- An increase of \$31.0 million to the Universal Child Care Benefit based on an increased number of children entitled to the benefit;
- An increase of \$19.0 million in Canada Education Savings Grant payments due to more families saving for their children's post-secondary education;
- An increase of \$14.5 million in the payments related to the direct financing arrangement under the Canada Student *Financial Assistance Act* mainly due to an increase to repayment assistance costs that consider the latest Office of Chief Actuary projections for borrowers in repayment; and
- A \$14.5 million increase to the Canada Disability Savings Grants and Bonds which is due to a steady increase in total registered plans and participation in the program.

These increases are offset by decreases in Vote 1 and Vote 5. In terms of Vote 1 – Operating expenditures, the department plans to spend \$571.1 million in 2014–15. This represents a decrease of \$55.4 million from 2013–14 Main Estimates of \$626.5 million. The decrease is mainly attributable to the Department's savings initiatives as announced in Budget 2012, which are focused on making government operations leaner and more efficient while preserving fundamental programs, services and transfers for Canadian individuals and families.

As for Vote 5 – Grants and Contributions, the 2014–15 Main Estimates is \$1,228 million. This funding level includes the Homelessness Partnering Strategy, as confirmed in the Economic Action Plan (Budget 2013). However, the overall decrease of \$534 million from the 2013–14 Main Estimates is mainly attributable to the expiry of the Labour Market Agreements program. Economic Action Plan 2013 announced that the Government would transform skills training in Canada through the introduction of the Canada Job Grant, as part of the renewal of the Labour Market Agreements in 2014–15. Negotiations are currently under way to renew and transform the program consistent with this commitment.

Enterprise Cape Breton Corporation

Raison d'être

Enterprise Cape Breton Corporation (ECBC) is a federal Crown corporation that promotes and coordinates economic development throughout Cape Breton Island and a portion of mainland Nova Scotia in and around the town of Mulgrave.

In addition to its own programs, ECBC is also responsible for the delivery of programs of the Atlantic Canada Opportunities Agency on Cape Breton Island and the programs of the former Cape Breton Development Corporation.

ECBC is the principal federal entity for commercial and community economic development on Cape Breton Island and in Mulgrave.

The Minister of State (Atlantic Canada Opportunities Agency) is responsible for this organization.

Total budgetary	60,667,000	51,763,000	52,848,000	49,536,000

Highlights

ECBC is estimating budgetary expenditures of \$49.5 million in 2014-15 which requires approval by Parliament.

A decrease of \$3.3 million from total 2013-14 Estimates based on the following:

- There are over 395 former employees participating in a number of Early Retirement Incentive Plans which were negotiated in the past through the collective bargaining process in response to downsizing and mine closures. The cost for these plans will decrease annually over the next 8 years as recipients reach age 65. The Early Retirement Incentive Plans are scheduled to expire in 2022.

Environment

Raison d'être

The Minister of the Environment is responsible for this organization.

Environment Canada is the lead federal department for a wide range of environmental issues affecting Canadians. The Department also plays a stewardship role in achieving and maintaining a clean, safe and sustainable environment. Environment Canada addresses issues through monitoring, research, policy development, service delivery to Canadians, regulations, enforcement of environmental laws, advancement of clean technologies and strategic partnerships. The Department's programs focus on a clean environment by minimizing threats to Canadians and their environment from pollution; a safe environment by equipping Canadians to make informed decisions on weather, water and climate conditions; and a sustainable environment by conserving and restoring Canada's natural environment. The Department's program focus reflects the increasingly evident interdependence between environmental sustainability and economic well-being.

Highlights

The significant variances between Environment Canada's 2012-13 actual expenditures and the 2013-14 Main Estimates are mainly due to adjustments and transfers during the fiscal year. These include the operating and capital carry forwards, the reimbursement of payroll expenditures and the statutory payment to Nature Conservancy of Canada. These in-year changes will also be reflected in the 2013-14 actual expenditures.

Compared with the 2013-14 Main Estimates, Environment Canada's 2014-15 Main Estimates show a planned spending decrease of \$27.2 million or 2.8% of which \$14.1 million is in Operating, \$10.1 million is in Grants and

Contributions and \$3.9 million in the Employee Benefit Plan. These decreases are offset by an increase of \$0.9 million in Capital.

The major decreases are:

- A decrease in funding of \$22.3 million related to savings from Budget 2012 spending review;
- A decrease in funding for Sustainable Development Technology Canada (SDTC) – Next Generation Biofuels Fund of \$25.0 million, offset by new funding for SDTC – Sustainable Development Technology Fund of \$12.5 million;
- A decrease of \$12.6 million related to a transfer to Shared Services Canada;
- A decrease in funding of \$7.4 million for the Clean Air Regulatory Agenda;
- A decrease in funding of \$5.1 million related to the adjustment of rates for the Employee Benefit Plan; and
- A decrease in funding of \$2.7 million for the Federal Contaminated Sites Action Plan.

These decreases are offset by an increase of \$35.4 million related to three programs:

- An increase of \$19.1 million for the clean-up of the Great Lakes, including Randle Reef in Hamilton Harbour;
- An increase of \$8.5 million for parts one and two of the first phase of a strategy to implement a world class prevention, preparedness and response regime for oil spills from ships;
- An increase of \$7.6 million to renew the Lake Simcoe/South-eastern Georgian Bay Clean-Up Fund announced in Budget 2012;
- Other small increases totalling a net amount of \$0.2 million.

For information related to 2013–14 Estimates to date, please refer to the 2013–14 Supplementary Estimates (B) and (C).

For further details on trends, please refer to the Report on Plans and Priorities.

Federal Economic Development Agency for Southern Ontario

Raison d'être

As Canada's most populous region – home to more than 12 million residents living in 288 communities – southern Ontario is a key contributor to the Canadian economy. In 2009, the Government of Canada created the Federal Economic Development Agency for Southern Ontario (FedDev Ontario). To fulfill its mandate, FedDev Ontario supports the competitiveness, innovation, and diversification of southern Ontario's economy by: delivering strategic investments to businesses, not-for-profit organizations and communities; establishing and strengthening collaborative partnerships with key economic stakeholders; and representing the region's interests at the national level.

FedDev Ontario's mandate was renewed in Budget 2013 for another five years with an investment of \$920 million between 2014-2019 allowing the Agency to continue to apply its various roles (co-investor, convener, champion and delivery agent) to support jobs, growth and long-term prosperity in southern Ontario.

The Minister of State for the Federal Economic Development Agency for Southern Ontario is responsible for this organization.

Highlights

FedDev Ontario is estimating budgetary expenditures of \$206.8 million in 2014-15. Of this amount, \$203.7 million requires voted approval by Parliament. The remaining \$3.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

FedDev Ontario's planned spending in 2014-15 will be dedicated to the delivery of programs and support through internal services to help achieve the Agency's strategic outcome. For 2014-15, the Agency anticipates spending

\$177.6 million in grants and contributions while requiring \$29.1 million in operating costs to support program delivery and internal service areas. These totals are net of the changes to funding levels announced in Budget 2012, which includes reductions to operating and transfer payment funds in 2014–15 and future years.

FedDev Ontario will deliver its core contribution budget for 2014–15 through the Southern Ontario Prosperity Initiatives (four initiatives designed to support innovation, business growth and productivity, and regional diversification). In addition, FedDev Ontario will also administer the Advanced Manufacturing Fund, the Community Futures Program, the Eastern Ontario Development Program and the Economic Development Initiative.

In total, FedDev Ontario is estimating a decrease of \$16 million or 7% from its 2013–14 Main Estimates.

Significant year-over-year changes in funding:

A net decrease of \$17.3 million in transfer payments, which includes:

- No further funding for the Community Infrastructure Improvement Fund, which represents a drop of \$24.8 million; and
- A decrease of \$1.5 million in grants to the Corporation of the City of Brantford; and
- Increased funding of \$8 million to support the restoration and revitalization of Massey Hall and \$972 thousand for the Economic Development Initiative.

A net increase of \$1.3 million in operating funds, which includes:

- \$1.8 million increase for the transfer of Canada Business Ontario to FedDev Ontario;
- \$0.1 million increase for the delivery of the Economic Development Initiative;
- Offset by \$0.6 million decrease due to Budget 2012 spending review.

Finance

Raison d'être

The Department of Finance Canada contributes to a strong economy and sound public finances for Canadians. It does so by monitoring developments in Canada and around the world to provide first-rate analysis and advice to the Government of Canada and by developing and implementing fiscal and economic policies that support the economic and social goals of Canada and its people. The Department also plays a central role in ensuring that government spending is focused on results and delivers value for taxpayer dollars. The Department interacts extensively with other federal organizations and acts as an effective conduit for the views of participants in the economy from all parts of Canada.

The Minister of Finance is responsible for this organization.

Highlights

Finance is estimating budgetary expenditures of \$87.6 billion in 2014–15. Of this amount, \$120 million requires approval by Parliament. The remaining \$87.5 billion represents statutory forecasts that do not require additional approval and are provided for information only.

A spending increase of \$3.9 million from the 2013–14 Main Estimates to 2014–15 Main Estimates is due mainly to the following increases and decreases. A net increase of \$0.1 million in statutory votes is mainly attributable to:

- Canada Health Transfer – The increase of \$1.831 billion reflects the 6% annual increased funding commitment in the *Jobs, Growth and Long-term Prosperity Act, 2012*. This program will increase by 6% per year until 2016–17, after which it will grow based on a 3-year moving average of nominal gross domestic product, with funding guaranteed to increase by at least 3% per year;
- Fiscal Equalization – The increase of \$564.1 million reflects the increase due to the 3.5% gross domestic product-based escalator applied to the 2013–14 level;
- Canada Social Transfer – The increase of \$366.5 million reflects the 3% annual increased funding commitment in the *Jobs, Growth and Long-term Prosperity Act, 2012*;
- Territorial Financing – The increase of \$180.9 million is a result of new and updated data entering the formula for Territorial Formula Financing;
- Canadian Securities Regulation Regime Transition Office (CSTO) – The increase of \$9.1 million reflects the anticipated transfer to the CSTO in 2014–15 to fulfill its mandate of assisting in the establishment of a Canadian securities regulation regime and a Canadian regulatory authority;
- Additional Fiscal Equalization Offset Payment to Nova Scotia – The decrease of \$25 million is due to the decline in offshore revenues received by Nova Scotia;
- Youth Allowance Recovery – The increase in recovery of \$45.6 million results from an increase in the estimated value of personal income tax points;
- Additional Fiscal Equalization to Nova Scotia – The reduction of \$107.5 million in this program, which ensures that there is no reduction in Equalization and 2005 Offshore Accord Offset Payments due to the new formula for Equalization (2007), is due to higher growth of combined Equalization and 2005 Offshore Accord payments in the new formula compared to the formula which was in place prior to 2007;
- Alternative Payments for Standing Programs – The increase in recoveries in the amount of \$203 million results from an increase in the value of personal income tax points;
- Wait Times Reduction Transfer – The reduction of \$250 million relates to the sun setting of this program in 2013–14;
- Interest on Unmatured Debt – The reduction of \$254 million is largely due to assets maturing under the Insured Mortgage Purchase Program in 2013–14;
- Other Interest Costs – The reduction of \$583 million is due to a decrease in the average Government of Canada long-term bond rate, which is used to calculate interest on the public sector pension obligations pertaining to service

pre-April 1, 2000; and

- Payments to Provinces Regarding Sales Tax Harmonization – The decrease of \$1.481 billion reflects the completion of scheduled payments to Quebec and Prince Edward Island under the Comprehensive Integrated Tax Coordination Agreements.

A net increase of \$3.8 million in Vote 1, Operating expenditures is mainly attributable to:

- Government initiatives – temporary increase of \$6.6 million (the transition to a Common Securities Regulator (\$3.0 million); the development of a Comprehensive Legislative Financial Consumer Code (\$1.7 million); supporting the G-20 Framework Working Group (\$0.6 million); implementing the Venture Capital Action Plan (\$0.5 million); maintaining the strength of Canada's financial system (\$0.4 million); and the Corporate Asset Management Review (\$0.4 million);
- Transfer to Shared Services Canada – permanent decrease of \$1.3 million for workplace technology device software and corporate information management/information technology;
- Toronto Waterfront Revitalization Initiative (TWRI) – decrease of \$587 thousand corresponding to the sunsetting of the TWRI program;
- Budget 2011 sunsetting initiatives – decrease of \$436 thousand related to Goods and Services Tax (GST) Technical issues and legislative and regulatory drafting and printing activities; and
- Savings identified as part of the Budget 2012 Spending Review – permanent decrease of \$428 thousand.

Financial Transactions and Reports Analysis Centre of Canada

Raison d'être

The Financial Transactions and Reports Analysis Centre of Canada (FINTRAC) is Canada's financial intelligence unit. The Centre exists to assist in the detection, prevention and deterrence of money laundering and the financing of terrorist activities. FINTRAC's "value-added" financial intelligence products and compliance functions are a unique contribution to the public safety of Canadians and to the protection of the integrity of Canada's financial system.

FINTRAC is an independent agency that operates at arm's length from the law enforcement agencies and other entities to which it is authorized to disclose financial intelligence. It reports to the Minister of Finance, who is in turn accountable to Parliament for the activities of the Centre. FINTRAC was established by, and operates within, the ambit of the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act (PCMLTFA)* and its regulations.

Highlights

FINTRAC is one of several domestic partners in Canada's Anti-Money Laundering and Anti-Terrorist Financing Regime, which also includes the Department of Finance as the policy lead, the Royal Canadian Mounted Police, the Canadian Security Intelligence Service, the Canada Revenue Agency, the Canada Border Services Agency, the Office of the Superintendent of Financial Institutions, the Public Prosecution Service of Canada, the Department of Justice, and Public Safety Canada. FINTRAC is also part of the Egmont Group, an international network of financial intelligence units that collaborate and exchange information to combat money laundering and terrorist activity financing.

FINTRAC's role is to facilitate the detection, prevention and deterrence of money laundering and terrorist activity financing by engaging in the following activities:

- Receiving financial transaction reports and voluntary information on money laundering and terrorist activity financing in accordance with the legislation and regulations;

- Safeguarding personal information under its control;
- Ensuring compliance of reporting entities with the legislation and regulations;
- Maintaining a registry of money services businesses in Canada;
- Producing financial intelligence relevant to investigations of money laundering, terrorist activity financing and threats to the security of Canada;
- Researching and analyzing data from a variety of information sources that shed light on trends and patterns in money laundering and terrorist activity financing; and
- Enhancing public awareness and understanding of money laundering and terrorist activity financing.

In order to enhance FINTRAC's ability to ensure compliance with PCMLTFA and to meet its responsibilities related to tax evasion becoming a predicate offence to money laundering, the Centre received funding via Budget 2010. In 2012–13, this funding was \$10.5 million. In 2013–14, funding decreased to \$10.0 million and will stabilize at \$8.0 million in 2014–15 and ongoing. In fiscal year 2013–14 and ongoing, FINTRAC's financial resources fully reflect the saving measures announced in Budget 2012.

FINTRAC's headquarters are located in Ottawa, with three regional offices in Montreal, Toronto and Vancouver having specific mandates related to compliance with the PCMLTFA.

For further details regarding FINTRAC, its operations and its use of funds, please refer to the 2014–15 Reports on Plans and Priorities.

Fisheries and Oceans

Raison d'être

Fisheries and Oceans Canada supports strong economic growth in our marine and fisheries sectors and contributes to a prosperous economy through global commerce by supporting exports and advancing safe maritime trade. The department supports the innovation needed for a knowledge-based economy through research in expanding sectors such as aquaculture and biotechnology. The department contributes to a clean and healthy environment and sustainable aquatic ecosystems for Canadians through habitat protection, oceans management, and ecosystems research. A safe and secure Canada relies on the maritime security, safe navigation, a presence in our waters, and the effective search and rescue services that the Canadian Coast Guard provides. The Minister of Fisheries and Oceans is responsible for this organization.

Highlights

Fisheries and Oceans Canada has three mandated strategic outcomes, which are:

- Economically prosperous maritime sectors and fisheries;
- Sustainable aquatic ecosystems; and,
- Safe and secure waters.

Fisheries and Oceans Canada is estimating budgetary expenditures of \$1.6 billion in 2014-15. Compared to 2013-14, Main Estimates have decreased by \$63.6 million. Major changes include:

- An increase of \$32.0 million for the procurement of Canadian Coast Guard offshore science vessels;
- An increase of \$24.3 million to strengthen the prevention, preparedness and response regime to oil spills from ships (phase 1, parts 1 and 2);

- An increase of \$10.5 million for the renewal of the Sustainable Aquaculture Program;
- A decrease of \$45.2 million related to savings measures as part of Budget 2012 spending review;
- A decrease of \$36.8 million related to the acquisition of mid-shore patrol vessels;
- A decrease of \$30.2 million related to Canadian Coast Guard vessel life extensions and mid-life modernizations;
- A decrease of \$5.4 million related to Targeted Review measures, as announced in Budget 2013; and,
- A decrease of \$5.0 million related to completion of the initiative to support Quebec and Atlantic Canada lobster harvesters as well as the Quebec and Atlantic Canada lobster fishery.

For additional information, please see the Report on Plans and Priorities.

Foreign Affairs, Trade and Development

Raison d'être

Under the leadership of the Minister of Foreign Affairs, the Minister for International Trade, and the Minister for International Development, the Department of Foreign Affairs, Trade and Development (DFATD) is responsible for the conduct of Canada's international relations, including foreign affairs, international trade and commerce, and international development. DFATD advances Canada's values and interests internationally, delivers international programs, and administers Canada's international aid program to alleviate poverty in the developing world and provide humanitarian assistance. The department provides commercial and consular services to Canadians at home and abroad, and manages the government of Canada's global network of missions.

Highlights

DFATD is estimating budgetary expenditures of \$5.3 billion in 2014–15. Of this amount, \$5 billion requires approval by Parliament. The remaining \$341.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Factors contributing to the net increase include:

- A transfer of \$3.04 billion from the former Canadian International Development Agency following its amalgamation with the renamed Department of Foreign Affairs, Trade and Development;
- An increase of \$120 million for the crisis pool quick release mechanism to allow Canada to respond quickly to major international crises and disasters involving a multilateral response;
- An increase of \$19.3 million in the cost of assessed contributions, mainly due to currency fluctuations resulting from the payment in the prescribed foreign currency of these contributions which represent Canada's treaty obligations and legal commitments to international organizations such as United Nations and World Health Organization;
- A decrease of \$70.4 million resulting from the Budget 2013 decision to transfer the primary responsibility for Passport Canada to Citizenship and Immigration Canada; and
- A decrease of \$52.3 million related to services identified as part of the Budget 2012 Spending Review; this decrease in DFATD's reference levels is for 2014–15 and thereafter.

For additional information, please refer to the department's Report on Plans and Priorities.

Governor General

Raison d'être

The Office of the Secretary to the Governor General (Office) provides support and advice to the Governor General of Canada in his/her unique role as the representative of The Queen in Canada as well as Commander-in-Chief. The Office assists the Governor General in carrying out constitutional responsibilities, in representing Canada internationally, and in encouraging excellence and achievement through the administration of the Canadian Honours System and in the granting of armorial bearings.

The Office also supports the Governor General in bringing Canadians together. It manages a visitor services program at both of the Governor General's official residences and oversees the day-to-day operations of these residences. The Office also provides support to former Governors General.

Highlights

The Office is estimating budgetary expenditures of \$20.0 million in 2014-15. Of this amount, \$17.2 million requires approval by Parliament. The remaining \$2.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes only.

The decrease from the previous year is the result of an adjustment to the Employee benefit plan contributions.

Health

Raison d'être

Health Canada regulates specific products and controlled substances, works with partners to support improved health outcomes for First Nations and Inuit, supports innovation and information sharing in Canada's health system to help Canadians maintain and improve their health, and contributes to strengthening Canada's record as a country with one of the healthiest populations in the world.

The Minister of Health is responsible for this organization.

Highlights

With authorities of \$3.7 billion anticipated through the Main Estimates, Health Canada will continue improving the lives of all Canadians making this country's population among the healthiest in the world as measured by longevity, lifestyle and effective use of the public health care system. Health Canada's total authorities for 2014-15 have a net increase of \$365.1 million from the previous year's Main Estimates.

Some important changes to note are the following:

- First Nations Inuit Health programming funding has been stabilized as per Budget 2013. This initiative will stabilize, renew, and/or expand important health programs and services for First Nations and Inuit individuals, families and communities. These programs include: Clinical and Client Care – Primary Care Nursing Services, eHealth Infostructure, Health Services Accreditation, Mental Health Services, and Supplementary Health Benefits – Non-Insured Health Benefits Program (increase of \$311.7 million);

- A \$63.1 million increase in funding related to the implementation of the BC Tripartite Framework agreement on the First Nation Health Governance for the transfer of the responsibility for First Nations health programming in British Columbia to the First Nations Health Authority;
- A \$51.5 million increase in statutory revenues as a result of the Shared Services Partnership agreement between Health Canada and the Public Health Agency of Canada to support the internal services provided by Health Canada to the Public Health Agency of Canada; and
- A decrease of \$59.1 million due to the completion of the three year implementation plan related to the Budget 2012 spending review.

Once tabled in the House of Commons, additional information will be available in the departmental Report on Plans and Priorities.

House of Commons

Raison d'être

The House of Commons is the elected assembly of the Parliament of Canada. The House has 308 Members who work on behalf of Canadians in four main areas – the Chamber, committees, caucus and their constituencies – and as representatives of Canada. Proudly supporting the House of Commons and its Members, the House Administration provides Members with the services, infrastructure and advice they need to carry out their work as legislators and representatives. The Speaker of the House of Commons is responsible for this organization.

Immigration and Refugee Board

Raison d'être

The Immigration and Refugee Board (IRB) is an independent, accountable administrative tribunal established by Parliament on January 1, 1989 to resolve immigration and refugee cases fairly, efficiently and in accordance with the law. The IRB ensures continued benefits to Canadians: by only accepting refugee claimants needing protection in accordance with international obligations and Canadian law; by contributing to the integrity of the immigration system, the safety and security of Canadians and upholding Canada's reputation of justice and fairness for individuals; and promoting family reunification. The IRB also contributes to the quality of life of Canada's communities by strengthening our country's social fabric and by reflecting and reinforcing core values that are important to Canadians. These include respect for human rights, peace, security and the rule of law.

The Minister of Citizenship and Immigration is responsible for this organization.

Highlights

The IRB is estimating budgetary expenditures of \$121.1 million in 2014–15. Of this amount, \$107.9 million requires approval by Parliament. The remaining \$13.2 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The net decrease of \$1.9 million from 2013–14 is due mainly to the following:

- A decrease of \$6.8 million related to savings identified as part of Budget 2012 spending review;
 - A decrease of \$0.7 million in employee benefit plan costs;
 - A decrease of \$0.4 million related to a transfer of funds for the procurement of workplace technology device software;
- and

- An increase of \$6.0 million related to the reprofiling of funds due to legislative changes to enable the implementation of remaining activities associated with the new refugee determination system.

Higher expenditures during 2012–13 were attributable to sunset funding related to activities to implement the new refugee determination system.

Further information on IRB's operations is provided in the 2014–15 Report on Plans and Priorities.

Indian Affairs and Northern Development

Raison d'être

Aboriginal Affairs and Northern Development Canada supports Aboriginal people (First Nations, Inuit and Métis) and Northerners in their efforts to:

- improve social well-being and economic prosperity;
- develop healthier, more sustainable communities; and
- participate more fully in Canada's political, social and economic development – to the benefit of all Canadians.

Note: Until the establishing legislation is amended, the legal name of the department for the purposes of Appropriation Acts remains Indian Affairs and Northern Development.

Highlights

Estimates to date for 2013–14

The total Estimates to date of \$8.7 billion (budgetary and non-budgetary) for 2013–14 includes \$8.0 billion in Main Estimates plus additional funding of about \$0.8 billion accessed through Supplementary Estimates. Major items in the \$0.8 billion include:

- \$472.2 million for the continuation of the implementation of Justice at Last: Specific Claims Action Plan (Economic Action Plan 2013);
- \$167.0 million for specific claims settlements;
- \$62.0 million for out-of-court settlements;
- \$36.1 million to meet the Government of Canada's obligations under the Northwest Territories Lands and Resources Devolution Agreement;
- \$33.2 million for on-reserve costs incurred by provincial/territorial and other emergency management organizations as required under the Emergency Management Assistance Program; and
- \$20.6 million for case-management systems and training for on-reserve Income Assistance clients.

Main Estimates: 2013–14 compared to 2014–15

Indian Affairs and Northern Development is estimating budgetary expenditures of \$8.1 billion in 2014–15. Of this amount, \$7.9 billion requires approval by Parliament. The remaining \$0.2 billion represents statutory forecasts that do not require additional approval and are provided for information purposes. Note that the 2014-15 Main Estimates do not include any adjustments that may be announced as part of Budget 2014.

The net increase in budgetary and non-budgetary spending of approximately \$104.6 million or 1.3% over the 2013–14 Main Estimates, primarily reflects changes in the resource profile for targeted initiatives including:

- A net increase of \$386.4 million in the cash flow for the negotiation, settlement and implementation of specific and comprehensive claims (primarily for the continued implementation of Justice at Last: Specific Claims Action Plan; offset by the sunset of targeted funding to support comprehensive claims and self-government negotiations across Canada);
- An increase of \$102.9 million to meet increased demand for ongoing Indian and Inuit programs which reflects a 2% allowance for inflation and population growth and provides access to basic services such as education, housing, community infrastructure (water and sewage systems), and social support services;
- An increase of \$33.0 million pursuant to funding approved in Economic Action Plan 2012 to support the construction and/or renovation of schools on reserves;
- An increase of \$26.7 million for the renewal of Gas Tax Funding;
- A decrease of \$147.9 million for the assessment, management and remediation of federal contaminated sites;
- A decrease of \$137.4 million reflecting the sunset of targeted funding provided pursuant to Economic Action Plan 2012 for the First Nations Water and Wastewater Action Plan;
- A decrease of \$105.5 million reflecting the savings identified as part of the Economic Action Plan 2012 Spending Review; and
- A decrease of \$52.2 million for the Indian Residential Schools Settlement Agreement including funding for awards to claimants resulting from the Independent Assessment Process and Alternative Dispute Resolution as well as funding for the administration and research required to support the federal government's obligations under the agreement.

For further details on the department's plans and priorities, please see the 2014–15 Report on Plan and Priorities.

Indian Residential Schools Truth and Reconciliation Commission

Raison d'être

The Minister of Aboriginal Affairs and Northern Development is responsible for implementing Canada's legal obligation pursuant to the Indian Residential Schools Settlement Agreement which include the Truth and Reconciliation Commission (TRC). The goals are to:

- acknowledge and record the experiences, impacts and consequences of the Indian Residential School (IRS) system on former students, their families, communities, former school employees;
- witness, support, promote and facilitate truth and reconciliation events at both the national and community levels;
- promote awareness and educate Canadians about the IRS system and its impacts;
- identify sources and create a historical record of the IRS system and legacy, by conducting research and establishing a National Research Centre. The record shall be preserved and made accessible to the public for future study and use; and
- produce a report, including any recommendations to government.

Highlights

Due to an extension of TRC's mandate for an additional year, Indian Affairs and Northern Development will request, at a later date, an additional amount to provide to TRC.

On November 14, 2013, the Minister announced that the Government of Canada will work with the TRC, the parties to the Indian Residential Schools Settlement Agreement, as well as the Ontario Superior Court to provide TRC with a one-year extension to its operating mandate from June 30, 2014 to June 30, 2015.

The additional funding and one-year extension will allow TRC sufficient time to complete its mandate, including receiving and analyzing Canada's documents held at Library and Archives Canada and writing a final report.

Industry

Raison d'être

Industry Canada's mission is to foster a growing, competitive, knowledge-based Canadian economy. The Department works with Canadians throughout the economy, and in all parts of the country, to improve conditions for investment, improve Canada's innovation performance, increase Canada's share of global trade, and build an efficient and competitive marketplace. Industry Canada's mandate is to help make Canadian industry more productive and competitive in the global economy, thus improving the economic and social well-being of Canadians.

Highlights

Industry Canada has three mandated strategic outcomes:

- The Canadian marketplace is efficient and competitive;
- Advancements in science and technology, knowledge, and innovation strengthen the Canadian Economy; and
- Canadian businesses and communities are competitive.

In 2014–15, the Department will be focusing on a number of key priorities in support of the outcomes noted above. For additional information, please refer to the 2014–15 Report on Plans and Priorities.

Industry Canada is estimating budgetary expenditures of \$1.1 billion in 2014–15. Of this amount, \$872 million requires approval by Parliament. The remaining \$205 million represents statutory forecasts that do not require additional approval and are provided for information purposes only.

The 2014–15 Main Estimates present an overall decrease of \$82.4 million compared to 2013–14. Major changes are:

- The sunset of four Grants and Contributions programs: Bombardier C Series (\$55.4 million); Institute of Quantum Computing (\$6 million); Ivey Center for Health and Innovation (\$1.2 million); and the Structured Financing Facility Program (\$1.7 million);
- The reduction of contributions funding under the Strategic Aerospace Defence Initiative (\$41.6 million) and Technology Partnerships Canada (\$4.5 million) due to the end of temporary resources approved as part of Budget 2009 for the aerospace industry;
- Additional savings identified as part of Budget 2012 spending review (\$14.3 million);
- A decrease of \$12.8 million for adjustments to projected claims by lenders for loans made under the *Canada Small Business Financing Act*; and
- A decrease of \$8.8 million in the Canadian Intellectual Property Office's requirements due primarily to an expected increase in revenues as well as lower employee termination liabilities.

These decreases are partially offset by the following increases:

- New contribution funding stemming from Budgets 2012 and 2013 for the Automotive Innovation Fund (\$19.4 million), Mitacs Inc. (\$14 million), Technology Demonstration Program (\$10.2 million), Canadian Youth Business Foundation (\$9 million), Genome Canada (\$7.9 million) and CANARIE Inc. (\$3.4 million).

Explanation of Estimates to Date for 2013–14

Industry Canada showed a significant increase to its Estimates to date for 2013–14. This is a recurring occurrence for the department, for the following reasons:

- Industry Canada is partly funded from royalty payments it collected in the previous year. These can only be accessed through Supplementary Estimates, once amounts collected have been officially validated; and
- Every year, Industry Canada accesses new funding stemming from Budget announcements through Supplementary Estimates. In 2013–14, the Department accessed new funding for the Automotive Innovation Fund, the Youth Employment Strategy, the Canadian Youth Business Foundation, and Mitacs Inc. Additionally in 2013–14, Industry Canada requested to advance funding from 2014–15 to finalize the Bombardier C Series project.

International Development Research Centre

Raison d'être

The International Development Research Centre (IDRC) is a Crown corporation created in 1970 by the Parliament of Canada to help developing countries use science and technology to find practical, long-term solutions to the social, economic, and environmental problems they face. IDRC's support is directed toward creating a local research community whose work will build healthier, more equitable, and more prosperous societies. IDRC often joins forces with Canadian and international funders to increase the resources going toward research that addresses the needs of developing countries. It also teams up with other Canadian agencies to create opportunities for researchers from Canada and the developing world to collaborate on research of common interest and global importance.

The Minister of Foreign Affairs is responsible for this organization.

Total budgetary	156,223,043	225,390,066	225,631,734	188,019,646

Highlights

IDRC is estimating budgetary expenditures of \$188 million in 2014-15, which requires approval by Parliament.

IDRC's year-over-year decrease of \$37.4 million from the 2013-14 Main Estimates includes:

- Realignment of the Development Innovation Fund appropriation profile, as confirmed in the economic Action Plan 2013. The Development Innovation Fund brings together Canadian and developing-country scientists, and the private sector, to tackle persistent health challenges facing poor countries;
- Savings identified as part of the Government of Canada's Budget 2012 reductions; and
- A transfer from the Canadian Institutes of Health Research to support maternal, newborn and child health research.

International Joint Commission (Canadian Section)

Raison d'être

The International Joint Commission's mandate is prompt and effective prevention and/or resolution of potential disputes under the Boundary Water Treaty and Great Lakes Water Quality Agreement to ensure they have no negative impact on Canada-U.S. relations.

The Minister of Foreign Affairs is responsible for this organization.

Highlights

Under the International Watersheds Initiative, there are a number of strategic efforts underway, including:

- Hydrographic data harmonization in trans-boundary basins;
- Binational water quality modelling in the Red-Souris basins; and
- An adaptive management strategy for the Great Lakes-St. Lawrence system.

In addition to these major initiatives, there are numerous smaller projects that are being completed that are helping to anticipate, prevent and resolve water-related issues at the local level before they develop into international issues.

The International Joint Commission is also implementing a Plan of Study for Review of the Orders for the Rainy River and Namakan Reservoir system. There are six projects being led on the Canadian side that address a range of issues and involve:

- Developing hydrologic, hydraulic and habit modelling in the system;
- Evaluating ice development and jams; and
- Assessing flooding potential.

Justice

Raison d'être

The Department of Justice has the mandate to support the dual roles of the Minister of Justice and the Attorney General of Canada. Under Canada's federal system, the administration of justice is an area of shared jurisdiction between the federal government and the provinces and territories. The Department supports the Minister of Justice in his responsibilities for 50 statutes and areas of federal law by ensuring a bilingual and bijural national legal framework principally within the following domains: criminal justice (including youth criminal justice), family justice, access to justice, Aboriginal justice, public law and private international law. The Department also supports the Attorney General as the chief law officer of the Crown, both in terms of the ongoing operations of government and of the development of new policies, programs and services for Canadians. The Department provides legal advice to the Government and federal government departments and agencies; represents the Crown in civil litigation and before administrative tribunals; drafts legislation; and responds to the legal needs of the federal departments and agencies.

Highlights

The Department of Justice is estimating net budgetary expenditures of \$630.6 million in 2014-15, of which \$317.5 million is for expenditures linked to Grants and Contributions; \$236.9 million is for the departmental operating expenditures; and \$76.2 million associated to the Statutory expenditures. An additional \$296.2 million in operating expenditures is planned for 2014-15, associated to the department's Net Vote Authority (NVA). As the primary legal services provider to other government departments and agencies, the Department of Justice collects and spends revenue generated as part of its Vote 1 authority. These revenues are netted against departmental expenditures and authorities.

With the funds anticipated with these Main Estimates the Department of Justice will fulfill three distinctive roles within the Government of Canada. It acts as:

- A policy department with broad responsibilities for overseeing all matters relating to the administration of justice that fall within the federal domain—in this capacity, it helps to ensure a fair, relevant and accessible justice system for all Canadians;
- A provider of a range of legal advisory, litigation and legislative services to government departments and agencies; and
- A central agency responsible for supporting the Minister in advising Cabinet on all legal matters.

For more detailed information consult the Department of Justice 2014–15 Report on Plans and Priorities.

The Department of Justice's net spending will decrease by \$26.9 million from the 2013–14 Main Estimates. The primary changes include:

- A decrease of \$23.9 million due to the sunsetting of Supporting Families Experiencing Separation in Divorce initiative;
- A decrease of \$14.4 million due to sunsetting of the funding for the renewal of Legal Aid contribution funding to the provinces and territories for the delivery of Immigration and Refugee legal aid and for the management of Court-Ordered Counsel in Federal Prosecutions;
- A decrease of \$7.3 million for the third reduction following the Deficit Reduction Action Plan as announced in Budget 2012;
- A decrease of \$4.2 million to reflect a reduction in the employee benefit plan rate (from 17.4% to 16.5%);
- A decrease of \$3.0 million for the sunsetting of Comprehensive land claims and self-government negotiations in British Columbia policy;
- A decrease of \$1.4 million for the transfer to Shared Services Canada for the Procurement – Workplace Technology Device software;
- An increase of \$1.2 million for a correction to Budget 2012 spending review;
- An increase of \$1.4 million in funding to enhance the Victims Fund to expand the reach of the Federal Victims Strategy;
- An increase of \$3.8 million in funding under the new Roadmap for Canada's Linguistic Duality 2013-2018 for Access to Justice in Both Official Languages; and
- An increase of \$22.0 million in funding for various collective agreements.

In 2012–13, the Department of Justice had total net spending of \$734.0 million. These included expenditures linked to funding received from Treasury Board Central Votes of \$52.7 million for Paylist Requirements, Operating Budget Carry Forward and Compensation Adjustments. These are excluded from the 2013–14 Estimates to date and the 2014–15 Main Estimates.

In support of the Government's Economic Action Plan, the Department of Justice has committed to achieving savings of \$67.5 million over a three-year implementation period. 2014–15 is the last year of implementation.

As demand for legal services continues to increase, the profile of its Total Authorities has changed in recent years. The 2009–10 total authority available to use equaled \$835.8 million versus the planned 2014–15 Main Estimates of \$630.6 million. For the same period, the trend shows a decrease of 24.5 percent in voted authorities while the Net Vote Authority increased from \$229.4 million to \$296.2 million or 29.1 percent. While the Department's voted resources related to the costs of legal services were reduced as Justice underwent its Strategic Review in 2008 and Budget 2012 spending review, the NVA has grown largely due to the increase in demand for legal services and the increase in the salary cost related to the implementation of collective agreements.

Library and Archives of Canada

Raison d'être

The Minister of Canadian Heritage and Official Languages is responsible for Library and Archives Canada.

The mandate of Library and Archives Canada under the *Library and Archives of Canada Act* is to:

- Preserve the documentary heritage of Canada for the benefit of present and future generations;
- Serve as a source of enduring knowledge accessible to all, contributing to the cultural, social, and economic advancement of Canada as a free and democratic society;
- Facilitate cooperation among Canadian communities involved in the acquisition, preservation, and diffusion of knowledge; and
- Serve as the continuing memory of the Government of Canada and its institutions.

Highlights

Library and Archives Canada is estimating net budgetary expenditures of \$95.9 million in 2014–15. Of this amount, \$86.4 million requires approval by Parliament. The remaining \$9.4 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

An overall decrease of \$2.5 million between the 2013–14 and 2014–15 Main Estimates is mainly due to the following:

- A decrease of \$3.0 million due to savings identified as part of the Budget 2012 Spending Review;
- A decrease of \$2.6 million for the conversion of a facility in Gatineau, Quebec to a high density shelving Collection Storage Facility;
- A decrease of \$0.4 million to Shared Services Canada as part of the Workplace Technology Devices Initiative;
- An increase of \$1.9 million from Public Works and Government Services Canada as a result of Library and Archives Canada program space consolidation and rationalization efforts;

- An increase of \$0.9 million for compensation adjustments to fund increased personnel costs of collective agreements and employee benefit plans (statutory); and
- An increase of \$0.7 million from Public Works and Government Services Canada for reimbursement as a result of a reduction in accommodation requirements.

Library of Parliament

Raison d'être

Formally established under the *Parliament of Canada Act*, the Library of Parliament's efforts in support of an informed and accessible Parliament pre-date Confederation.

The Library provides Senators, MPs, and parliamentary committees with the independent, non-partisan information they need to examine the issues of the day, consider legislation and hold the government accountable. It preserves Parliament's rich documentary heritage while optimizing access to its important collections. It also welcomes hundreds of thousands of visitors to Parliament each year, and offers interpretive tours and educational programs and products to help the public understand Parliament's role in our democratic system and the important work parliamentarians do.

The Speakers of the Senate and the House of Commons are vested with the direction and control of the Library of Parliament in accordance with the *Parliament of Canada Act*.

Highlights

The Library of Parliament is estimating budgetary expenditures of \$42.0 million in 2014–15. Of this amount, \$37.1 million requires approval by Parliament. The remaining \$4.9 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Library of Parliament's operating budget has been adjusted to include the economic increases that came into effect in 2013–14. In addition, the operating budget includes a 2.5% cut as a result of the Strategic and Operating Review. Furthermore, the employee benefit plans contribution rate has been adjusted to 16.5% (from 17.4%), as determined by the Treasury Board.

The Library continues to build on the tradition of service while responding to the challenges of a 21st century Parliament. The Library's professional staff is committed to meeting the evolving needs of parliamentarians for timely and authoritative information, research and analysis.

This information should be read in conjunction with the Library's Strategic Outlook 2012-2017.

Marine Atlantic Inc.

Raison d'être

Marine Atlantic Inc. (MAI) is a parent Crown Corporation created through the *Marine Atlantic Acquisition Authorization Act*, 1986 and replaced Canadian National Marine in providing a year-round constitutionally mandated ferry service between North Sydney, Nova Scotia and Port aux Basques, Newfoundland and Labrador (NL). This is the only constitutionally mandated ferry service in Canada. The Corporation also operates a non-mandated, seasonal service between North Sydney and Argentia, NL. MAI carries over 25 percent of all non-resident visitors to NL, as well as 66 percent of freight and 90 percent of perishables and time sensitive goods. The service is considered vital as infrastructure for businesses across Canada that are involved in the regional economy and for the movement of people on and off the island of Newfoundland. The Minister of Transport is responsible for this organization.

Organizational Estimates

	2012-13	2013-14		2014-15
	Expenditures	Main Estimates	Estimates To Date	Main Estimates
		<i>(dollars)</i>		
Budgetary Voted				
1 Payments to Marine Atlantic Inc.	184,876,000	154,430,000	154,430,000	127,484,000
Total voted	184,876,000	154,430,000	154,430,000	127,484,000
Total budgetary	184,876,000	154,430,000	154,430,000	127,484,000

Highlights

MAI is estimating budgetary expenditures of \$127.5 million in 2014-15 which require approval by Parliament.

A net decrease of \$26.9 million is due to a decrease of \$8.0 million in operating funds and a decrease of \$18.9 million in capital funding. The major changes are:

- A decrease of \$8.0 million in operating costs stemming from Budget 2012 savings commitments; and
- A decrease of \$18.9 million in capital as many of the projects of MAI's multi-year shore-based infrastructure renewal program have been completed.

Military Grievances External Review Committee

Raison d'être

The raison d'être of the Military Grievances External Review Committee (the Committee or MGERC), formerly known as the Canadian Forces Grievance Board, is to provide an independent and external review of military grievances. Section 29 of the *National Defence Act* provides a statutory right for an officer or a non-commissioned member who has been aggrieved, to grieve a decision, an act or an omission in the administration of the affairs of the Canadian Armed Forces. The importance of this broad right cannot be overstated since it is, with certain narrow exceptions, the only formal complaint process available to Canadian Armed Forces members. The Minister of National Defence is responsible for this organization.

Military Police Complaints Commission

Raison d'être

On behalf of all Canadians, the Military Police Complaints Commission (The Commission) exists to provide greater public accountability by the military police and the chain of command in relation to military police activities. The Commission derives its mandate from Part IV of Canada's *National Defence Act*. The Minister of National Defence is responsible for this organization.

National Arts Centre Corporation

Raison d'être

The Minister of Canadian Heritage and Official Languages is responsible for this organization.

The National Arts Centre Corporation was established in 1966 pursuant to the *National Arts Centre Act* with the mandate to operate and maintain the National Arts Centre, develop the performing arts in the national capital region, and assist the Canada Council for the Arts in the development of the performing arts elsewhere in Canada. The Corporation arranges and sponsors performing arts activities; encourages and assists the development of performing arts companies; arranges or sponsors web, radio and television broadcasts; provides accommodations for national and local organizations who develop the performing arts in Canada; arranges for performances elsewhere in Canada by resident or non-resident performing arts companies; and arranges for performances outside Canada by resident performing arts companies.

Total budgetary	35,601,174	33,796,174	34,121,175	34,219,186

Highlights

The National Arts Centre Corporation is estimating budgetary expenditures of \$34.2 million in 2014-15 which require approval by Parliament.

The National Arts Centre (NAC) raised its curtains for the first time in 1969. Created by the Parliament of Canada as a Centennial project during the 1960s, the NAC has become Canada's foremost showcase for the performing arts.

Today the NAC works with thousands of artists from across Canada and around the world and collaborates with dozens of arts organizations across the country. The NAC is strongly committed to being a leader and innovator in each of the performing arts fields in which it works: classical music, English theatre, French theatre, dance, and variety and community programming.

It is also at the forefront of youth and education activities, supporting programs for young and emerging artists, presenting programs for young audiences and producing resources and study materials for teachers and students. The NAC is the only multidisciplinary, bilingual performing arts centre in North America and one of the largest in the world.

National Battlefields Commission

Raison d'être

The National Battlefields Commission (NBC), as manager of Battlefields Park, enables Canadians to enjoy the first national historic park in Canada and one of the most prestigious urban parks in the world.

The NBC is responsible for the administration, management, conservation and promotion of National Battlefields Park (located in the city of Québec) and manages funds allocated for this purpose.

The NBC takes its mandate from the *Act respecting the National Battlefields at Quebec*, 7–8 Edward VII, c. 57, passed on March 17, 1908, and its amendments.

The Minister of Canadian Heritage and Official Languages is responsible for this organization.

Additional information can be found in the NBC's Report on Plans and Priorities.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

Actual spending for the NBC amounted to \$9,623,141 in 2012–13. To date, planned spending for 2013–14 is \$9,658,838, an increase of \$35,697 compared to 2012–13. This difference is due to the following:

- A decrease of \$152,229 for the employee benefit plan;
- A decrease in revenue of \$283,594;
- A salary increase of \$53,192 following the negotiations of the collective agreement;
- An operating budget carry forward of \$357,323 from 2012–13 to 2013–14;
- An operating budget decrease of \$599,000 related to Budget 2012 Spending Review; and

- The approval of a \$660,000 budget which was included in Supplementary Estimates (B) for the funding of the redevelopment of Gilmour Hill to permit its year-round opening and the creation of a multi-purpose interpretive trail.

The redevelopment of Gilmour Hill will allow year-round usage of the vehicular route through the park, and a new multi-purpose interpretive trail will provide a safe path for pedestrians and cyclists.

The Gilmour Hill redevelopment project is expected to begin in Spring 2014, with the trail construction scheduled to begin in Spring 2015. The year-round opening of Gilmour Hill is scheduled for late 2014, and the trail is scheduled to open in 2015.

The Main Estimates for 2014–15 will be \$14,151,109 which is an increase of \$5,562,786 compared to the 2013–14 Main Estimates. This difference is due to:

- \$5,470,000 in funding for the Gilmour Hill project;
- A salary increase of \$53,192 following the negotiations of the collective agreement;
- An increase in revenue of \$50,000; and
- A decrease of \$10,406 for the employee benefit plan.

National Capital Commission

Raison d'être

The Minister of Foreign Affairs is responsible for this organization.

The National Capital Commission was created by Parliament in 1959 and pursues the following mandate:

- To prepare plans for and assist in the development, conservation and improvement of the National Capital Region to ensure that the nature and character of the seat of government reflect its national significance; and
- To approve building design and the use of federal lands in the Region.

Additional information can be found in the National Capital Commission's Corporate Plan.

Total budgetary	108,833,873	116,457,834	116,457,834	88,366,659

Highlights

The National Capital Commission is estimating budgetary expenditures of \$88.4 million in 2014-15.

The net decrease of \$28.1 million in planned spending from the 2013-14 Main Estimates is mainly due to the following:

- A net decrease of \$13.3 million in operating expenditures as well as \$1.0 million in capital expenditures related to activities transferred to Canadian Heritage, for the organization, sponsorship and promotion of public activities and events in the National Capital Region;
- A net decrease of \$10.9 million in capital expenditures funded from the Federal Contaminated Sites Action Plan; and
- A net decrease of \$2.4 million related to capital funding received for the Official Residences rehabilitation program.

National Defence

Raison d'être

On behalf of the people of Canada, the Canadian Armed Forces (CAF) and the Department of National Defence (DND) stand ready to perform three key roles:

- Defend Canada – by delivering excellence at home;
- Defend North America – by being a strong and reliable partner with the United States in the defence of the continent; and
- Contribute to International Peace and Security – by projecting leadership abroad.

The *National Defence Act* establishes DND and the CAF as separate entities, operating within an integrated National Defence Headquarters, as they pursue their primary responsibility of providing defence for Canada and Canadians.

Highlights

DND is estimating budgetary expenditures of \$18.7 billion in 2014–15. Of this amount, \$17.42 billion requires approval by Parliament. The remaining \$1.24 billion represents statutory forecasts that do not require approval, but are listed for information.

DND's increase in net authority of \$676.2 million, or approximately 4%, from the 2013–14 Main Estimates to the 2014–15 Main Estimates, is due to a decrease in operating costs of \$325.2 million, an increase in capital costs of \$1,106.6 million, a decrease in grants, contributions and other transfer payments of \$6.5 million, and a decrease in statutory payments of \$98.7 million.

Major factors contributing to the net increase in authorities include:

- An increase in the annual escalator on defence spending as announced in Budget 2008 to provide long-term and predictable funding; and
- A net increase in adjustments to spending on major capital equipment and infrastructure projects to align financial resources with current project acquisition timelines. This funding includes investments in major capital projects such as Land Combat Vehicles, Arctic Offshore Patrol Ships, Light Armoured Vehicle Reconnaissance Surveillance System Upgrade, and Canadian Armed Forces Health Services Centres.

These increases are offset by the following decreases:

- A decrease in requirements to support Canada's international security operations in Afghanistan;
- A decrease in funding related to measures announced by the government in Budget 2012 and Budget 2013 to make government more efficient and return to a balanced budget; and
- A decrease in statutory funding primarily related to lower Employee Benefit Plan forecasts.

In 2014–15, DND and the CAF will continue to be good stewards of public resources, and maintain a focus on the three enduring roles for the CAF: protecting Canada; defending the continent; and contributing to international peace and security.

In fiscal year 2014–15, DND has implemented a new Program Alignment Architecture (PAA) composed of five programs plus Internal Services. While the business of Defence remains unchanged, the articulation of that business is fundamentally altered in the new PAA. Internal Services in the new PAA is reduced in scope as the activities directly linked to specific military programs were aligned to the appropriate program.

More information can be found in the department's 2014–15 Report on Plans and Priorities.

National Energy Board

Raison d'être

The National Energy Board is an independent federal quasi-judicial regulatory tribunal established in 1959 to promote safety and security, environmental protection, and economic efficiency in the Canadian public interest within the mandate set by Parliament for the regulation of pipelines, energy development and trade.

The National Energy Board is accountable to Parliament through the Minister of Natural Resources.

Highlights

The National Energy Board is estimating budgetary expenditures of \$71.3 million in 2014–15. Of this amount, \$64.6 million requires approval by Parliament. The remaining \$6.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The increase in planned spending in comparison to the 2013–14 Main Estimates is primarily due to an increase of \$8.3 million for relocation of the Board's Calgary office.

National Film Board

Raison d'être

The National Film Board of Canada (NFB) was created by an Act of Parliament in 1939 and is a federal agency within the Canadian Heritage portfolio. The NFB's mandate is to produce and distribute original and innovative audiovisual works that add to our understanding of the issues facing Canadians and raise awareness of Canadian values and viewpoints across the country and around the world. Over the decades, it has become the standard for audiovisual innovation in Canada.

As a producer and distributor of audiovisual works, the NFB provides a unique perspective on Canada's cultural wealth and diversity. The NFB explores contemporary social issues through point-of-view documentaries, auteur animation and new-media content. Over the years, the NFB has played an important role in marking the major changes and events taking place in Canadian society.

Highlights

The National Film Board (NFB) is estimating budgetary expenditures of \$59.9 million in 2014-15, which requires approval by Parliament. In comparison with 2013-14 planned spending of the NFB for 2014-15 has decreased as a result of:

- Savings identified as part of the Budget 2012 Spending Review for an amount of \$3,409,000;
- The adjustment of rates of the Employees Benefit Plan (EBP) from 25.7% to 24.8% for a total of \$591,000;
- The transfer of funding for the payroll administration transformation initiative for an amount of \$30,000;
- The compensation adjustment for 2013-14 collective agreement of \$652,000; and
- Financing (1st loan) of \$400,000 for the relocation NFB headquarter. The debt repayment will start in 2017-18. Note that this amount is presented under “Internal Services” category, which explains the temporary increase in 2014-15.

The 2013–2018 Strategic plan continues to guide us as we adapt to ongoing changes in the media landscape and create works that stretch the imaginative limits of both artist and audience.

In 2014–15, the NFB plans to push the artistic envelope further, producing distinctive and immersive audiovisual experiences that respond to public need and interest.

National Gallery of Canada

Raison d'être

The National Gallery of Canada's mandate is to develop, maintain, and make known, throughout Canada and internationally, a collection of works of art, both historic and contemporary, with special, but not exclusive, reference to Canada, and to further knowledge, understanding, and enjoyment of art in general among all Canadians. The National Gallery of Canada is one of the world's most respected art institutions, renowned for its exceptional collections, revered for its scholarship, and applauded for its unique ability to engage audiences of all ages and all levels of artistic knowledge. Created in 1880, the National Gallery of Canada is among the oldest of Canada's national cultural institutions.

The Minister of Canadian Heritage and Official Languages is responsible for the Gallery.

Organizational Estimates

Budgetary

	2012-13	2013-14		2014-15
	Expenditures	Main Estimates	Estimates To Date	Main Estimates
		<i>(dollars)</i>		
Budgetary Voted				
1 Payments to the National Gallery of Canada for operating and capital expenditures	40,830,762	35,426,120	35,426,120	35,770,723
5 Payment to the National Gallery of Canada for the acquisition of objects for the Collection and other costs attributable to this activity	8,000,000	8,000,000	8,000,000	8,000,000
Total voted	48,830,762	43,426,120	43,426,120	43,770,723
Total budgetary	48,830,762	43,426,120	43,426,120	43,770,723

Highlights

Planned budgetary expenditures for the National Gallery of Canada are \$43.8 million in 2014-15, consisting of \$34.8 million in operating expenditures, \$1 million in capital expenditures and \$8 million for acquisition of objects for the Collection.

Since 2013-14, after the sunset of special capital funding, the base appropriations for capital reverted to an annual level of \$1 million, a decrease of \$3.8 million compared to 2012-13. The limited capital resources are allocated on a risk-basis to address emerging issues related to an aging building and code-compliance requirements for the real property infrastructure.

At the end of 2012–13, the Gallery began the Great Hall skylight and roof replacement project, the most significant and costly capital project since the construction of the building. The majority of the work was performed in 2013–14 with some work to be completed in 2014–15. Capital funding was earmarked in previous years to fund this project.

The Gallery continues to face escalating non-discretionary costs associated with maintaining its facilities, protecting the Collection, art transportation and installation. The Gallery is currently examining ways to diversify revenue sources that contribute to the institution's financial sustainability and growth.

National Museum of Science and Technology

Raison d'être

The National Museum of Science and Technology is a Crown corporation that was established by the *Museums Act* on July 1, 1990.

The mandate of the Corporation is to foster scientific and technological literacy throughout Canada by establishing, maintaining and developing a collection of scientific and technical objects, with special but not exclusive reference to Canada, and by demonstrating the products and processes of science and technology and their economic, social and cultural relationships with society.

The Corporation operates as the Canada Science and Technology Museums Corporation (CSTMC). It manages three museum sites: the Canada Science and Technology Museum, the Canada Aviation and Space Museum and the Canada Agriculture and Food Museum. Additional information can be found in the Corporation's Corporate Plan Summary.

The Minister of Canadian Heritage and Official Languages is responsible for this organization.

Organizational Estimates

Budgetary

	2012-13	2013-14		2014-15
	Expenditures	Main Estimates	Estimates To Date	Main Estimates
		<i>(dollars)</i>		
Budgetary Voted				
1 Payments to the National Museum of Science and Technology for operating and capital expenditures	31,517,304	26,491,340	26,491,340	26,862,194
Total voted	31,517,304	26,491,340	26,491,340	26,862,194
Total budgetary	31,517,304	26,491,340	26,491,340	26,862,194

Highlights

The National Museum of Science and Technology (NMST) net increase of \$0.4 million in planned expenditures from the 2013-14 Main Estimates is a result of funding allocated to cover a 2013-14 fiscal year economic increase to salaries.

In 2014-15, the NMST will continue to focus its efforts on creating a national presence and sharing knowledge as detailed in its Corporate Plan. Activities which the NMST will undertake in order to achieve the strategic directions outlined in the Corporate Plan include:

- In anticipation of the Canada's 150th anniversary in 2017, working to create exhibitions and programming in its

Museums to commemorate the contribution of science, technology and innovation to the transformation our country, using its collection and the Canadian Science and Engineering Hall of Fame;

- Pursuing the Pan Canadian energy initiative. Over the next two years, NMST will continue to bring Canadians into meaningful discussions hopefully raising awareness on alternative resources and altering behaviors in the area of energy use;
- Embarking on a new initiative: Food Science. The Corporation will seek to engage Canadians on the science, technology, engineering and mathematics that are involved in agriculture and food production;
- Continuing the development of the collection through the Collection Rationalization Project (CRP). The CRP informs recommendations for accessions and deaccessions. Deaccessioning has become an important priority for the development of the collection. With the collection reserve space well over capacity, deaccessioning is the main solution to gain space required to acquire important artifacts to complete the collection and better tell the story of Canada; and
- Solidifying the NMST financial base, stabilizing the capital infrastructure and ensuring sustainability.

National Research Council of Canada

Raison d'être

The Minister of Industry is responsible for the National Research Council of Canada (NRC). The NRC bridges the innovation gap between early stage research and development (R&D) and commercialization, focusing on socio-economic benefits for Canada and increasing national performance in business-led R&D and innovation. A federal leader in technology development, NRC supports Canadian industry to enhance their innovation capabilities and capacity and become more productive in the development and deployment of innovative products, processes and services for markets of national priority and importance. With a presence in every province, NRC combines its strong national foundation with international linkages to help Canada grow in productivity and remain globally competitive. NRC works in collaboration with industry, governments and academia to maximize Canada's overall R&D investment.

Highlights

In 2014-15, NRC will continue to re-focus into a unified, industry-driven organization to effectively address the Government of Canada's innovation priorities that will drive Canada's economic growth. To achieve this, NRC will focus on aligning its business activities and processes to be more market-driven and more in tune with the innovation needs of industry clients. For further information, please refer to NRC's Report on Plans and Priorities.

The NRC is estimating budgetary expenditures of \$896.4 million in 2014-15. Of this amount, \$655.2 million requires approval by Parliament. The remaining \$241.2 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Significant changes from 2013–14 Main Estimates to 2014–15 Main Estimates

- An increase of \$59.6 million for the realignment to industry focused research from Budget 2013;
- An increase of \$55.3 million in spending of statutory revenues pursuant to paragraph 5(1)(e) of the *National Research Council Act* (R.S.C., 1985, c. N-15);
- A decrease of \$37.5 million associated with the close of the Digital Technologies Adoption Pilot Program launched in 2011;
- An increase of \$14.5 million to help outstanding and high-potential incubator and accelerator organizations expand their services to entrepreneurs as announced in Budget 2013; and
- A decrease of \$8.8 million related with the Genomics Research and Development Initiative.

Natural Resources

Raison d'être

The Minister of Natural Resources is responsible for this organization.

The vision of Natural Resources Canada (NRCan) is to improve the quality of life of Canadians by creating a sustainable resource advantage. It seeks to achieve this vision by working to improve the competitiveness of the natural resource sectors and to grow their contribution to Canada's economy; by supporting the sustainable development of Canada's resources in a manner that advances the country's global standing as a leader on the environment; and by using its knowledge and expertise of Canada's landmass to support the safety and security of citizens.

Additional information such as NRCan's authority, mandate and program activities can be found in NRCan's Report on Plans and Priorities.

Highlights

NRCan had total authorities for fiscal year 2012–13 of \$2.39 billion. NRCan's total actual spending for 2012–13 was \$1.97 billion. The two amounts included \$0.68 billion for the statutory programs for the Atlantic Offshore Accords.

NRCan has planned budgetary spending for fiscal year 2014–15 of \$2.53 billion. Of this amount, \$1.11 billion requires approval by Parliament. The remaining \$1.43 billion represents statutory forecasts that do not require additional approval and are provided for information purposes.

A decrease in Main Estimates of \$232.4 million or 8.4% from \$2,767 million in fiscal year 2013–14 to \$2,534.6 million in fiscal year 2014–15 is due to net decreases of \$142.3 million in operating, \$12.8 million in capital, and \$77.3 million in transfer payments. Factors contributing to the net decrease include:

- An increase of \$79.3 million for the statutory grant to Sustainable Development Technology Canada for the Next Generation Biofuels Fund;
- An increase of \$57.4 million for the statutory payments to the Newfoundland Offshore Petroleum Resource Revenue Fund;
- An increase of \$33.2 million in support of the Port Hope Area Initiative;
- An increase of \$20.9 million for the Stakeholder Engagement and Outreach Campaign to Build Prosperity for Canada;
- An increase of \$12.9 million to implement Phase 2 of the Geo-mapping for Energy and Minerals program;
- An increase of \$12.5 million for the appropriated Grant to Sustainable Development Technology Canada for the Sustainable Development Technology Fund; and
- An increase of \$10.0 million to implement the restructuring of Atomic Energy of Canada Limited's nuclear laboratories;

The increases are offset by:

- A decrease of \$172.1 million for the Nuclear Legacy Liabilities Program;
- A decrease of \$115.5 million for the Clean Energy Fund;
- A decrease of \$37.5 million for the Investments in Forest Industry Transformation Program;
- A decrease of \$31.2 million for the ecoENERGY for Biofuels program;
- A decrease of \$25 million for the appropriated Grant to Sustainable Development Technology Canada for the Next Generation Biofuels Fund;
- A decrease of \$16 million for the Budget 2012 Savings Measures that are not included in any specific programs mentioned in these highlights;
- A decrease of \$11.1 million for the statutory payments to the Nova Scotia Offshore Revenue Account;
- A decrease of \$9.2 million for the revitalization of NRCan's satellite station facilities across Canada;
- A decrease of \$8.1 million for the Statutory Nova Scotia Crown Share Adjustment Payments;
- A decrease of \$5.2 million for the CANMET Materials Technology Laboratory;
- A decrease of \$5 million for the Isotope Technology Acceleration Program;
- A decrease of \$4.5 million for Government Advertising Programs;
- A decrease of \$3.6 million for the Targeted Geoscience Initiative;
- A decrease of \$3.4 million for the Program of Energy Research and Development;
- A decrease of \$3 million to support the Canadian forestry sector by expanding market opportunities and promoting innovation; and
- A decrease of \$8.2 million on all other programs.

Natural Sciences and Engineering Research Council

Raison d'être

The Minister of Industry is responsible for this organization.

The Natural Sciences and Engineering Research Council of Canada (NSERC) is a key actor in making Canada a leading country of discovery and innovation. NSERC aims to maximize the value of public investments in research and development (R&D) and to advance the prosperity and quality of life of all Canadians. In today's highly competitive global economy, NSERC plays a key role in supporting Canada's innovation ecosystem. NSERC supports research that benefits all Canadians. By connecting this innovative research to industry through its partnership initiatives, NSERC also makes it easier for the private sector to collaborate with academia and access the wealth of resources Canada's first-rate academic system has to offer. NSERC develops the next generation of talented scientists and engineers through scholarships and research stipends, and increases the visibility of Canadian research.

Highlights

The 2014-15 Main Estimates include a number of adjustments in comparison to the 2013-14 Main Estimates. NSERC is estimating budgetary expenditures of \$1.1 billion in 2014-15 which require approval by Parliament. There is also \$4.9 million representing statutory forecasts that do not require additional approval and are provided for information purposes.

The variance between the 2014-15 Main Estimates and the 2013-14 Main Estimates demonstrates a net increase of \$18.3 million or 1.7% in planned spending. The primary changes include:

- An increase of \$15.0 million to the NSERC, including \$12 million to enhance the College and Community Innovation Program (Budget 2013);

- An increase of \$3.2 million for the Centres of Excellence for Commercialization and Research program, a tri-agency initiative, to create a more effective and efficient way to identify commercialization opportunities (Budget 2007);
- An increase of \$2.3 million from National Research Council for the Canadian Light Source initiative;
- An increase of \$0.1 million will be spent in 2014–15, associated with the Council's Net Vote Authority;
- A decrease of \$1.7 million in the Business-Led Networks of Centres of Excellence program, a tri-agency initiative, to the Canadian Institutes of Health Research and Social Sciences and Humanities Research Council to distribute the funding in order to spend the funds according to the mandate of each agency based on the selected projects;
- A decrease of \$0.1 million in the Industrial Research Chairs for Colleges program, a tri-agency initiative, to support a research project that falls under the health research mandate.

Other variances of less than \$0.5 million include the reduction in the Council's operating budget from government's cost-effectiveness initiatives. These items include the reduction in the travel budget and a transfer to Shared Services Canada for the streamlining of the procurement of end user device software.

More detailed information of the agency's spending plans can be found in the Report on Plans and Priorities.

Northern Pipeline Agency

Raison d'être

The Northern Pipeline Agency (NPA) was established by the *Northern Pipeline Act* in 1978 and, in the context of the 1977 Agreement Between Canada and the United States of America on Principles Applicable to a Northern Natural Gas Pipeline, has a mandate to carry out federal responsibilities in respect of the planning and construction of the Canadian portion of the Alaska Natural Gas Pipeline. The NPA plays a key role in supporting efficient and expeditious regulatory approval while ensuring environmental protection and social and economic benefits for Canada.

The Minister of Natural Resources is responsible for this organization.

Highlights

The NPA is estimating budgetary expenditures of \$750.0. Of this amount, \$701.3 thousand requires approval by Parliament. The remaining \$48.7 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

A decrease in planned spending of \$2.4 million or 76% from fiscal year 2013-14 to fiscal year 2014-15 is due to a decrease in program expenditures of \$2.3 million and a decrease in contributions to employee benefit plans of \$72 thousand.

The factor contributing to the net decrease is as a result of the TransCanada PipeLines Ltd. (TransCanada) announcement on March 30, 2012 that they are now working to assess a liquefied natural gas export project within Alaska as an alternative to a natural gas pipeline through Canada. However, TransCanada continues to maintain its Alaska Highway Gas Pipeline (AHGP) assets in Canada while reducing project activities. In 2014-15, and to align with

reduced AHGP project activities in the foreseeable future, the NPA will scale down its operations while continuing to fulfil Canada's obligations as set out in the *Northern Pipeline Act* (the Act) and the Agreement under the Act.

For additional information, please refer to the Northern Pipeline Agency's Report on Plans and Priorities.

Office of Infrastructure of Canada

Raison d'être

Strong, modern, world-class public infrastructure is a key factor in achieving the Government of Canada's priorities of a stronger economy, a cleaner environment and more prosperous, safer communities. Infrastructure Canada leads the Government of Canada's efforts in addressing Canada's public infrastructure challenges.

The Minister of Infrastructure, Communities and Intergovernmental Affairs and Minister of the Economic Development Agency of Canada for the Regions of Quebec is responsible for this organization.

Highlights

Infrastructure Canada is estimating budgetary expenditures of \$3.3 billion in 2014–15. Of this amount, approximately \$1,348.0 million requires approval by Parliament. The remaining \$1,973.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Infrastructure Canada has supported thousands of provincial, territorial and municipal infrastructure projects under its programs, including the Building Canada plan, the Green Infrastructure Fund and sunseting programs.

The Department will continue to make significant investments in 2014–15, with forecasted spending of \$3.3 billion toward construction of public infrastructure across the country. In 2014–15, Infrastructure Canada will continue to work with funding partners to implement existing programs, ensure timely completion of projects and provide stewardship and oversight as we process and pay thousands of claims for projects. While delivering on this program mandate and on organizational priorities, the Department will ensure ongoing value for Canadians; we will pursue

further cost efficiencies by looking for ways to better administer and deliver programs. The Building Canada plan, Green Infrastructure Fund and sunseting programs will continue to deliver results for communities well beyond 2014.

Another Infrastructure Canada program, the Gas Tax Fund, helps municipalities build and revitalize public infrastructure from coast to coast. Included in the New Building Canada Plan is the renewed Gas Tax Fund, which will continue to support the infrastructure priorities of Canadian communities. On November 5, 2013, Infrastructure Canada launched formal discussions with provinces and territories in order to sign and implement the new Gas Tax Fund agreements by March 31, 2014. Over the next 10 years, the Gas Tax Fund will provide \$2 billion in annual funding, indexed at 2 per cent, resulting in \$21.8 billion in infrastructure investments. The renewed Gas Tax Fund will preserve the program's current fundamentals while implementing the Economic Action Plan 2013 commitments. It will remain a permanent, predictable and flexible source of funding for public infrastructure, allowing all municipalities to plan for their long-term infrastructure priorities.

In 2014–15, Infrastructure Canada will also work in co-operation with provinces, territories, municipalities and private stakeholders to begin the implementation of the New Building Canada Fund, another key component of the New Building Canada Plan.

While implementing these new and renewed transfer-payment programs, Infrastructure Canada will continue to work with its partners to ensure the timely completion of projects under the Building Canada Fund–Major Infrastructure Component, the Building Canada Fund–Communities Component, the Green Infrastructure Fund and other sunseting funds.

A net decrease of \$603.1 million in spending is mainly due to the following:

- A net decrease of \$281.9 million in contribution funds based on recipients projected cash flow requirements for approved projects under the Building Canada Fund;
- A net decrease of \$209.8 million in other transfer payments under the Provincial-Territorial Base Fund based on projected cash flow requirements for approved plans;
- A net decrease of \$77.9 million in contribution funds under the Municipal Rural Infrastructure Fund due to the end of the program in 2013–14;
- A net decrease of \$44.8 million in operating funds (Infrastructure Canada does not have ongoing administrative funding. It is expected that the Department's operating funds for 2014–15 will be confirmed after the Main Estimates, through the Supplementary Estimates process);
- A net decrease of \$36.3 million in contribution funds under the Canada Strategic Infrastructure Fund based on recipients projected cash flow requirements for approved projects; and
- A net increase of \$52.5 million in contribution funds under the new Inuvik to Tuktoyaktuk Highway Program.

Office of the Commissioner of Lobbying

Raison d'être

The Office of the Commissioner of Lobbying (OCL) supports the Commissioner of Lobbying, the Agent of Parliament responsible for the administration of the *Lobbying Act* (the Act). The legislation seeks to improve transparency and accountability regarding communications between lobbyists and federal public office holders and increase the confidence of Canadians in the integrity of government decision-making. To that end, the mandate of the OCL is to establish and maintain the Registry of Lobbyists, develop and implement educational programs to foster awareness about the Act; and, ensure compliance with the Act and the *Lobbyists' Code of Conduct*. The President of Treasury Board is the minister responsible for tabling in Parliament the Office of the Commissioner of Lobbying's Report on Plans and Priorities and Departmental Performance Report.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

OCL is estimating budgetary expenditures of \$4.4 million in 2014–15. Of this amount, \$4.0 million requires approval by Parliament. The remaining \$416.7 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

There are no significant budget variances between fiscal years.

In 2014–15, OCL will prepare and publish a report on the results of the consultation regarding the review of the *Lobbyists' Code of Conduct*. The OCL will aim to increase lobbyists' awareness of the timelines prescribed in the Act for filing monthly communication reports.

The OCL will maintain the Registry of Lobbyists to ensure that lobbyists can comply with the requirements of the *Lobbying Act*. The Commissioner and her staff will continue to refine and implement the education and outreach

program to foster a better understanding of the requirements of the *Lobbying Act* and the *Lobbyists' Code of Conduct*. The OCL will continue to deal with alleged breaches of the *Lobbying Act* and the *Lobbyists' Code of Conduct*.

Additional information can be found in the Office of the Commissioner of Lobbying's Report on Plans and Priorities.

Office of the Commissioner of Official Languages

Raison d'être

The mandate of the Commissioner of Official Languages is to oversee the full implementation of the *Official Languages Act*, protect the language rights of Canadians, and promote linguistic duality and bilingualism in Canada.

Section 56 of the *Official Languages Act* states: "It is the duty of the Commissioner to take all actions and measures within the authority of the Commissioner with a view to ensuring recognition of the status of each of the official languages and compliance with the spirit and intent of this Act in the administration of the affairs of federal institutions, including any of their activities relating to the advancement of English and French in Canadian society."

Under the Act, therefore, the Commissioner is required to take every measure within his power to ensure that the three main objectives of the *Official Languages Act* are met:

- the equality of the status and use of English and French in Parliament, the Government of Canada, the federal administration and the institutions subject to the Act;
- the development of official language communities in Canada; and
- the advancement of the equality of English and French in Canadian society.

The Commissioner of Official Languages is appointed by commission under the Great Seal, after approval by resolution of the House of Commons and the Senate. The Commissioner of Official Languages, reports directly to Parliament.

The President of the Queen's Privy Council for Canada is responsible for tabling in Parliament the Office of the Commissioner of Official Languages' administrative reports, including the Report on Plans and Priorities and the Departmental Performance Report.

Highlights

The Office of the Commissioner of Official Languages is estimating budgetary expenditures of \$20.8 million for 2014–15. Of this amount, \$18.6 million requires approval by Parliament. The remaining \$2.2 million represents statutory authorities that do not require additional approval and are provided for information purposes.

Compared to 2013–14, the Main Estimates for 2014–15 have decreased by \$3.1 million. This decrease is related to the amount received to pay for the costs of the Headquarters' office move to Gatineau in 2013–14.

The funding will be used to address the following priorities:

- Intervene with key actors to increase the recognition and awareness of linguistic duality;
- Make targeted interventions to protect linguistic rights in a context of budget cuts and service modernization;
- Intervene with key actors in the areas of immigration, access to justice and early childhood; and
- Manage a period of transition while fostering a healthy and productive work environment.

Office of the Communications Security Establishment Commissioner

Raison d'être

The position of Communications Security Establishment Commissioner was created to review the activities of Communications Security Establishment (CSE) to determine whether it performs its duties and functions in accordance with the laws of Canada. This includes having due regard for the privacy of Canadians. The Commissioner's office exists to support the Commissioner in the effective discharge of his mandate. Additional information can be found in the Report on Plans and Priorities of the Office of the Communications Security Establishment Commissioner.

Under the *Financial Administration Act*, the Minister of National Defence is responsible for the Office of the Communications Security Establishment Commissioner.

Highlights

The Office of the Communications Security Establishment Commissioner is estimating budgetary expenditures of \$2.0 million in 2014–15. Of this amount, \$1.8 million requires approval by Parliament. The remaining \$177 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The planned expenditures of the Office of the Communications Security Establishment Commissioner remain approximately the same as the previous year. The Office will continue to conduct rigorous reviews to determine whether activities conducted by CSE under ministerial authorization are those authorized by the Minister of National Defence; to determine whether CSE complies with the law and only directs its activities at foreign entities located outside Canada; to assess the extent that, in all the activities CSE undertakes, it effectively applies satisfactory measures to protect the privacy of Canadians; and to report the results of these reviews to the Minister of National Defence, who is responsible for CSE.

Although the planned expenditures have not increased, what has changed is the allocation of costs between operations and personnel. As a result of additional staff being engaged in 2013–14 to provide further support to the Commissioner in the delivery of his mandate, costs were realigned in 2014–15 between operations and personnel, primarily to reflect a reduction in professional services and an increase in personnel costs to reflect the permanent increase in personnel.

Office of the Conflict of Interest and Ethics Commissioner

Raison d'être

The Conflict of Interest and Ethics Commissioner administers the *Conflict of Interest Act* (Act) and the *Conflict of Interest Code for Members of the House of Commons* (Code). These two regimes seek to ensure that public officials, whether appointed as public office holders or elected as Members, are not in a conflict of interest. The Act and the Code establish conflict of interest rules for public office holders and Members, and hold them to standards that place the public interest above their private interests when the two come into conflict. The Commissioner is also mandated to provide confidential advice to the Prime Minister about conflict of interest and ethics issues.

The Speaker of the House of Commons is the appropriate Minister for this organization.

Highlights

The operating budget of the Office of the Conflict of Interest and Ethics Commissioner is used to support the delivery of the legislative mandate of the Commissioner. Through the implementation of internal measures, the Office has been successful in reducing its non-salary expenditures. As a result, the 2013-14 Main Estimates reflected a 3% reduction applied to the operating budget of the Office. An additional 1% decrease is being applied to the 2014-15 Main Estimates. Adjustments were made to the salary budget to include economic increases that came into effect in 2013-14. Finally, the employee benefit plans contribution rate is adjusted every year to reflect the rate determined by the Treasury Board.

More details on the operations of the Office can be found in the Commissioner's annual reports which are available on her website at www.ciec-ccie.gc.ca.

Office of the Co-ordinator, Status of Women

Raison d'être

The Office of the Co-ordinator, Status of Women, known as Status of Women Canada (SWC), is a federal government agency that promotes equality between women and men in all aspects of Canadian life. The mandate of SWC is “to coordinate policy with respect to the status of women and administer related programs” (1976).

SWC is responsible for exercising leadership and working in partnership to promote and advance equality by: supporting community-based action and innovation that will lead to equality by helping to create conditions for success for women and girls in Canada; providing expert advice on gender equality and gender-based analysis in the development of effective programs, policies and legislation for all Canadians; promoting commemorative dates relating to women and girls in Canada; and supporting Canada's efforts to meet international obligations.

SWC works to promote and advance equality for women and girls, focusing its efforts in three areas: improving women's and girls' economic security and prosperity; ending violence against women and girls; and supporting the advancement and increased representation of women and girls in leadership and decision-making roles.

While SWC focuses on these three areas, the agency is able to address specific issues such as engaging men and boys in ending violence, increasing women's participation in non-traditional industries or assisting women in rural and remote communities.

The Minister of Labour and Minister of Status of Women is responsible for this organisation.

Office of the Correctional Investigator

Raison d'être

As the ombudsman for federally sentenced offenders, the Office of the Correctional Investigator serves Canadians and contributes to safe, lawful and humane corrections through independent oversight of the Correctional Service of Canada by providing accessible, impartial and timely investigation of individual and systemic concerns.

While an independent organization, the Office of the Correctional Investigator is part of the Public Safety and Emergency Preparedness portfolio.

Highlights

The Office of the Correctional Investigator is estimating budgetary expenditures of \$4.7 million in 2014–15. Of this amount, approximately \$4.1 million requires approval from Parliament. The remaining \$539.4 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

Historically, operating expenditures have been relatively stable as the organization's Main Estimates does not fluctuate significantly from year to year. The organization's investigative priorities in 2014–15 will include: access to physical and mental health services; preventing deaths in custody; conditions of confinement; issues facing Aboriginal offenders; access to correctional programming; and issues affecting federally sentenced women.

Office of the Director of Public Prosecutions

Raison d'être

The Office of the Director of Public Prosecutions (ODPP) is an independent prosecution service mandated to prosecute offences under federal jurisdiction.

The Minister of Justice and Attorney General of Canada is responsible for this organization.

Its sole strategic outcome is the prosecution of criminal and regulatory offences under federal law in a manner that is independent, impartial and fair. The ODPP was created on December 12, 2006 with the coming into force of the *Director of Public Prosecutions Act*, it:

- provides legal advice to federal investigative agencies and government departments on the criminal law implications of investigations and prosecutions;
- ensures the appropriate enforcement of federal laws through principled and independent decisions by prosecutors; and
- maintains confidence in the administration of justice through professionally conducted prosecutions that result in a judicial determination on the merits of the evidence.

Additional information can be found in the Public Prosecution Service of Canada Report on Plans and Priorities.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

The 2014-15 budgetary authorities equal \$167.8 million and include \$149.6 million for program expenditures and \$18.2 million for statutory expenditures to contribute to employees benefit plans.

- The increase of \$3.8 million from the 2013-14 Main Estimates (\$162.4 million) to the 2013-14 Estimates to date (\$166.2 million) is mainly for the relocation of offices;

- The variance of \$1.6 million between the 2013–14 Estimates to date (\$166.2 million) and the 2014–15 Main Estimates (\$167.8 million) is mostly due to funding received for collective agreements; and
- The variance of \$2.8 million from the 2012–13 Expenditures (\$163.4 million) to the 2013–14 Estimates to date (\$166.2 million) is mainly for the relocation of offices.

Budgetary authorities will be used for the following key duties:

The ODPP undertakes key duties on behalf of the Attorney General of Canada. These key duties, to be carried out in an objective and non-partisan manner, are:

- The duty to act independently in making decisions related to criminal prosecutions – This constitutional principle recognizes that decisions to prosecute, stay proceedings, withdraw charges or launch an appeal must be made solely in accordance with legal criteria. The public interest must be taken into account, but not considerations of a partisan political nature; and
- The duty to act independently in providing prosecution-related legal advice – While prosecution-related advice to law enforcement and other federal investigative agencies will take into account the agency's legal and policy setting, prosecutors cannot be drawn into the agency's policy making and program administration such that their ability to provide impartial and effective legal advice is undermined.

Areas of Prosecution

The ODPP prosecutes cases under federal statutes that are referred to it by the Royal Canadian Mounted Police (RCMP), other federal investigative agencies, as well as provincial and municipal police forces.

It is responsible for the prosecution of all drug offences under the *Controlled Drugs and Substances Act*, regardless of whether a federal, provincial, or municipal police agency lays the charges, in all provinces except Quebec and New Brunswick. In the latter two provinces, the ODPP is responsible for drug charges laid by the RCMP only.

In all provinces and territories, the ODPP prosecutes offences under federal statutes aimed at protecting the environment and natural resources as well as the country's economic and social health (e.g., *Fisheries Act*, *Income Tax Act*, *Copyright Act*, *Canada Elections Act*, *Canadian Environmental Protection Act*, *Competition Act*, *Customs Act*, *Excise Act*, and *Excise Tax Act*), offences involving fraud against the government, capital market fraud offences, along with conspiracies and attempts to violate any of these statutes. The ODPP routinely provides advice in relation to, and prosecutes offences under, approximately 40 of these statutes.

In the three territories, the ODPP prosecutes all *Criminal Code* offences as well as offences under all other federal legislation and certain territorial statutes. In the provinces, the ODPP has jurisdiction to prosecute a limited number of *Criminal Code* offences, including those related to terrorism, criminal organizations, money laundering, proceeds of crime, and fraud. Under arrangements with the provinces, the ODPP may prosecute *Criminal Code* offences that are otherwise within provincial jurisdiction when the accused also faces charges within federal jurisdiction.

Where required, the ODPP also provides prosecution-related advice to investigators for all types of prosecutions. Such advice continues to be crucial to ensure that investigative techniques and procedures are consistent with evolving rules of evidence and protections under the *Canadian Charter of Rights and Freedoms*. The advantage of early prosecutorial advice is that it reduces the risk that operational decisions, such as those about methods of obtaining evidence, will detrimentally affect the admissibility of evidence at trial or the constitutional rights of Canadians.

Additional information can be found in the Public Prosecution Service of Canada Report on Plans and Priorities.

Office of the Public Sector Integrity Commissioner

Raison d'être

The Office of the Public Sector Integrity Commissioner of Canada (the Office) was set up to administer the *Public Servants Disclosure Protection Act*, which came into force in April 2007. The Office is mandated to establish a safe, independent, and confidential process for public servants and members of the public to disclose potential wrongdoing in the federal public sector. The Office also helps to protect public servants who have filed disclosures or participated in related investigations from reprisal.

The disclosure regime is an element of the framework which strengthens accountability and management oversight in government operations.

The Commissioner reports directly to Parliament, and the President of the Treasury Board is responsible for the Report on Plans and Priorities and the Departmental Performance Report of the Office.

Organizational Estimates

Budgetary

	2012-13	2013-14		2014-15

Total budgetary	5,542,996	5,674,899	5,674,899	5,426,234

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

The Office is estimating budgetary expenditures of \$5.4 million in 2014–15. Of this amount, \$4.9 million requires approval by Parliament. The remaining \$0.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes. The 2014–15 level of expenditures is slightly lower, by \$0.1 million, than the actual spending in 2012–13, and is \$0.2 million lower than 2013–14 Main Estimates largely as a result of savings identified during the 2012 Budget Spending Review. The main use of funds is to pay for salaries, benefits, and professional services which provide and support a disclosure and reprisal function that is timely, rigorous, independent and accessible. Further information on the use of funds can be found in the Report on Plans and Priorities.

The level of spending is fairly constant, and in 2013–14 the number of new cases and the number of investigations has stabilized. There is a risk that increases in the number of new cases or the complexity of cases received may impact the timeliness in which the Office can respond to disclosures of wrongdoing and complaints of reprisal.

Office of the Superintendent of Financial Institutions

Raison d'être

The Office of the Superintendent of Financial Institutions (OSFI) was established in 1987 by an Act of Parliament: the *Office of the Superintendent of Financial Institutions Act* (OSFI Act). It is an independent agency of the Government of Canada and reports to Parliament through the Minister of Finance.

OSFI supervises and regulates all banks in Canada and all federally incorporated or registered trust and loan companies, insurance companies, cooperative credit associations, fraternal benefit societies and private pension plans. OSFI's mandate does not include consumer-related issues or the securities industry.

The Office of the Chief Actuary, which is an independent unit within OSFI, provides actuarial valuation and advisory services for the Canada Pension Plan, the Old Age Security program, the Canada Student Loans and Employment Insurance Programs and other public sector pension and benefit plans.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

OSFI is estimating budgetary expenditures of \$142.8 million in 2014–15. Of this amount, \$0.9 million requires approval by Parliament. The remaining \$141.9 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

OSFI's \$0.9 million appropriation is used to partially fund the activities of the Office of the Chief Actuary. All other expenditures are fully recovered through assessments and user fees billed on the accrual basis of accounting. Historically, OSFI's spendable revenue was presented in the Main Estimates and Public Accounts as an offset to OSFI's expenditures, resulting in net in-year spending on a cash basis. Starting in 2014–15, all expenditures will be presented in order to provide a more meaningful representation of OSFI's costs.

In 2014–15, OSFI will continue to focus on contributing to public confidence in the Canadian financial system.

Specifically, OSFI will:

- Supervise federally regulated financial institutions and pension plans to determine whether they are in sound financial condition and meeting minimum plan funding requirements respectively, and are complying with their governing law and supervisory requirements;
- Promptly advise institutions and plans in the event there are material deficiencies and take or require management, boards or plan administrators to take necessary corrective measures expeditiously;
- Advance and administer a regulatory framework that promotes the adoption of policies and procedures designed to control and manage risk; and
- Monitor and evaluate system-wide or sectoral issues that may impact institutions negatively.

Please refer to OSFI's 2014–15 Report on Plans and Priorities for further details.

Offices of the Information and Privacy Commissioners of Canada

Raison d'être

Office of the Privacy Commissioner of Canada

As an Agent of Parliament, the Privacy Commissioner of Canada reports directly to the House of Commons and the Senate. The mandate of the Office of the Privacy Commissioner of Canada (OPC) is to oversee compliance with both the *Privacy Act*, which covers the personal information-handling practices of federal government departments and agencies, and the *Personal Information Protection and Electronic Documents Act* (PIPEDA), Canada's private-sector privacy law, along with some aspects of Canada's anti-spam law. The OPC's mission is to protect and promote the privacy rights of individuals.

Office of the Information Commissioner of Canada

As an Agent of Parliament, the Information Commissioner of Canada (OIC) reports directly to the House of Commons and the Senate. The OIC of Canada ensures that the rights conferred to information requesters by the *Access to Information Act* are respected, which ultimately enhances transparency and accountability across the federal government.

For administrative purposes, the Minister of Justice is responsible for submitting these organizations' Reports on Plans and Priorities and Departmental Performance Reports.

Highlights**OFFICE OF THE PRIVACY COMMISSIONER OF CANADA**

OPC is estimating budgetary expenditures of \$24.3 million in 2014–15. Of this amount, \$21.9 million requires approval by Parliament. The remaining \$2.4 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The OPC's budgetary Main Estimates for 2014–15 are \$24.3 million, a decrease of \$4.8 million from the previous year. Major factors contributing to the net decrease include:

- One time funding of \$4.1 million received in 2013–14 to cover the costs of the relocation of OPC headquarters' costs to Gatineau, Québec in winter 2014. This one time funding is used for the office set up and equipment as well as the new technology infrastructure. This amount was reflected under Internal Services Program in 2013–14;
- The funding received for the move will be offset by future reductions to the OPC reference levels for an annual amount of \$0.3 million for a period of 15 years;
- The spending plans starting in 2014–15 reflects also the savings related to Budget 2012 spending review of \$0.4 million resulting from the OPC's efforts to find efficiencies within its operations and use of resources;
- The adjustment to the employee benefit plans of \$0.1 million;
- An increase in salary of \$0.1 million due to recently signed collective agreements.

The OPC permanent funding in 2014–15 and ongoing will remain stable and will be used to carry out OPC efforts and activities towards achieving the organization's single Strategic Outcome, the protection of individuals' privacy rights and also the Office priorities for 2014–15:

- Effectively manage the organization through a period of transition and,
- Continually enhance service to Canadians.

OFFICE OF THE INFORMATION COMMISSIONER OF CANADA

OIC is estimating budgetary expenditures of \$11.2 million in 2014–15. Of this amount, \$9.9 million requires approval by Parliament. The remaining \$1.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The OIC's budgetary Main Estimates for 2014–15 are \$11.2 million, a decrease of \$3.3 million from the previous year. Major factors contributing to the net decrease include:

- A decrease of \$2.8 million due to the one-time \$2.6 million loan received in 2013–14 for the OIC office relocation and the associated 2014–15 \$0.2 million loan repayment reimbursed over a period of 15 years;
- A decrease of \$0.3 million due to the sunsetting of the five year IT/IM Strategy;
- A decrease of \$0.2 million as part of the Budget 2012 Spending Review (DRAP);
- A decrease of \$0.1 million due to the transfer to Public Works and Government Services Real Property related to year to year change related to resources associated with accommodation efficiencies; and
- An increase in salary of \$0.1 million due to recently signed collective agreements.

In 2014–15, the funding will be used first and foremost to carry out efficient, fair and confidential investigations of complaints and issues of concern on how federal institutions handle access to information requests from the public. Other activities will be conducted in support of the Commissioner's advisory role to Parliament on all access to information matters. Where required, OIC staff will also assist the Commissioner in bringing issues of interpretation and enforcement of the law before the courts.

Parks Canada Agency

Raison d'être

The Minister of the Environment is responsible for the Parks Canada Agency. Parks Canada protects and presents nationally significant examples of Canada's natural and cultural heritage, and fosters public understanding, appreciation and enjoyment in ways that ensure the ecological and commemorative integrity of these places for present and future generations. National parks, national historic sites and national marine conservation areas, of which Parks Canada is the proud steward, offer to Canadians the opportunity to live meaningful experiences and to personally connect with these heritage places. In carrying out its responsibilities, Parks Canada works in collaboration with Aboriginal peoples, stakeholders and neighbouring communities.

Highlights

Parks Canada Agency will continue to present, protect and manage national parks, national historic sites and national marine conservation areas for the benefit and enjoyment of Canadians. Parks Canada Agency Main Estimates have slightly increased when compared to last fiscal year primarily due to:

- Efforts to develop and support the Rouge National Urban Park;
- Increased investments in dams and locks along the Trent-Severn Waterway and in historic canals; and
- Providing support to the Trans-Canada Trail Foundation.

For more information, details on the Agency's priorities will be made available in its 2014-15 Report on Plans and Priorities.

Parole Board of Canada

Raison d'être

The Parole Board of Canada (the Board) is an agency within the Public Safety and Portfolio.

The Board is an independent administrative tribunal that has exclusive jurisdiction and absolute discretion under the *Corrections and Conditional Release Act* to grant, cancel, terminate or revoke day parole and full parole. The Board can also terminate or revoke the statutory release.

The Board has exclusive jurisdiction and absolute discretion to order, refuse to order or revoke a record suspension under the *Criminal Records Act*. The Board also makes recommendations for the exercise of clemency through the Royal Prerogative of Mercy.

Additional information can be found in the organization's Report on Plans and Priorities.

Highlights

The Board is estimating expenditures of \$47.1 million in 2014-15. Of this amount \$41.3 million requires annual approval by Parliament. The remaining \$5.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

In total, the Board is estimating a net decrease of \$1.6 million, or 3.2% from previous Main Estimates due primarily to:

- A decrease of \$2.1 million due to savings identified as part of Budget 2012 Spending Review;
- A decrease of \$0.3 million related to the Employee Benefit Plan;
- A decrease of \$0.1 million due to savings identified as part of Budget 2013 Spending Review;
- A decrease of \$0.1 million related to the transfer to Public Works and Government Services to consolidate all federal

government pay administration services into one centre of expertise in Miramichi, New Brunswick;

- An increase of \$0.9 million, the last of six annual increases related to the Government's *Truth in Sentencing Act* (Bill C-25); and,
- An increase of \$0.1 million related to signed collective agreements.

Patented Medicine Prices Review Board

Raison d'être

The Patented Medicine Prices Review Board (PMPRB) is an independent, quasi-judicial body created by Parliament in 1987. Its mandate is two-fold:

- Regulatory — to ensure that prices charged by patentees for patented medicines sold in Canada are not excessive; and
- Reporting — to report on pharmaceutical trends of all medicines and on R&D spending by pharmaceutical patentees.

In carrying out its mandate, the PMPRB ensures that Canadians are protected from excessive prices for patented medicines sold in Canada and that stakeholders are informed on pharmaceutical trends.

The Minister of Health is responsible for this organization.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

The PMPRB is estimating budgetary expenditures of \$10.9 million in 2014–15. Of this amount, \$9.9 million requires approval by Parliament. The remaining \$1.0 million represents statutory forecasts that do not require further approval and are provided for information purposes.

The PMPRB's planned expenditures have decreased by approximately \$17.0 thousand from the previous year in keeping with the government-wide deficit reduction action plan.

The major changes are:

- An increase of \$42.5 thousand for newly signed collective agreements; and
- A decrease of \$62.5 thousand due to savings as part of the Budget 2012 Spending Review.

In 2014–15, the focus of the PMPRB will be to:

- Assess the impact of recent and pending changes to foreign and domestic pharmaceutical regulatory systems on the work of the PMPRB;
- Continue the implementation of the Management Action Plan in response to the PMPRB Program Evaluation Report;
- Decrease regulatory burden and make effective use of Board Staff resources; and
- Align internal operational framework of the PMPRB with Central Agency requirements.

Once tabled in the House of Commons, additional information will be available in the PMPRB's Report on Plans and Priorities.

PPP Canada Inc.

Raison d'être

PPP Canada is a Crown Corporation established in 2008 to support the development of public-private partnerships (P3). The Minister of Finance is responsible for this organization.

P3s are an alternative method for procuring large and complex public infrastructure projects. Through long-term P3 contracts that have design, build, finance, operate and maintain components, governments can access private sector expertise, technology and capital.

PPP Canada acts as a leading source on P3 matters through knowledge development and sharing. In addition, the Corporation provides expertise and advice in assessing and executing P3 opportunities at the federal level as well as leveraging greater value for money from federal investments in provincial, territorial, municipal and First Nations infrastructure through the P3 Canada Fund.

	Expenditures	Main Estimates	Estimates To Date	Main Estimates
		<i>(dollars)</i>		
Budgetary Voted				
1 Payments to PPP Canada Inc. for operations and program delivery	12,450,000	12,300,000	12,300,000	9,500,000
- Payments to PPP Canada Inc. for P3 Canada Fund investments	275,000,000	252,900,000	252,900,000
Total voted	287,450,000	265,200,000	265,200,000	9,500,000
Total budgetary	287,450,000	265,200,000	265,200,000	9,500,000

Highlights

PPP Canada is presenting \$9.5 million of budgetary expenditures in the 2014-15 Main Estimates which require approval by Parliament.

The \$9.5 million in operating funds will cover costs related to pay and benefits; office space/equipment; activities related to continued efforts to develop internal expertise and increased knowledge of PPP Canada staff through the development of relevant tools, studies and products; activities developed to support efforts in providing advice on the execution of projects for the federal government including the development and production of a suite of federal guidance tools; and activities related to the P3 Canada Fund, including outreach and awareness activities.

Economic Action Plan 2013 proposed to provide \$1.25 billion over five years on a cash basis to renew the P3 Canada Fund. The funding profile for the renewed P3 Canada Fund and associated operating funds is expected to be presented in the 2014–15 Supplementary Estimates. The P3 Canada Fund will continue to focus on supporting innovative P3 projects that deliver value for money for all Canadians and develop the Canadian P3 market. This new investment will focus, in particular, on jurisdictions inexperienced with P3 procurement.

Economic Action Plan 2013 also proposed to implement a P3 screen on projects with capital costs of more than \$100 million submitted by provinces, territories and municipalities for funding under the Building Canada Fund. The screening will determine whether better value for money can be achieved through P3 procurement. PPP Canada is the Government of Canada's centre of expertise on P3s and will play a key role in supporting the application of the P3 screen.

Privy Council

Raison d'être

The mandate of the Privy Council Office (PCO) is to serve Canada and Canadians by providing professional, non-partisan advice and support to the Prime Minister, the ministers within the Prime Minister's portfolio and Cabinet. The Prime Minister is responsible for this organization.

PCO supports the development of the Government of Canada's policy and legislative agendas, coordinates responses to issues facing the Government and the country, and supports the effective operation of Cabinet. PCO is led by the Clerk of the Privy Council. In addition to serving as the Deputy Head for PCO, the Clerk also acts as Secretary to the Cabinet and the Head of the Public Service.

Additional information can be found in PCO's Report on Plans and Priorities.

Highlights

PCO is estimating budgetary expenditures of \$118.8 million in 2014–15. Of this amount, \$105.8 million requires approval by Parliament. The remaining \$13.0 million represents statutory authorities that do not require additional approval and are provided for information purposes.

A net decrease of \$4.6 million in spending, when comparing the 2014–15 to the 2013–14 Main Estimates, is mainly due to the following:

- An increase of \$1.1 million in funding for the Office of the Special Advisor on Human Smuggling and Illegal Migration;
- An increase of \$0.4 million for the ratification of specific collective agreements;
- A decrease of \$4.4 million in savings identified as part of the Budget 2012 Spending Review;
- A decrease of \$1.4 million related to statutory authorities; and

- A decrease of \$0.3 million related to efficiencies exercises, such as the consolidation of pay services, and measures announced in Canada's Economic Action Plan 2013 for the consolidation of the procurement of Workplace Technology Devices as well as a reduction of travel costs.

Public Health Agency of Canada

Raison d'être

Public health involves the organized efforts of society to keep people healthy and to prevent injury, illness and premature death. The Agency has put in place programs, services and policies that protect and promote the health of all Canadians which form part of “public health”. In Canada, public health is a responsibility that is shared by all three levels of government in collaboration with the private sector, non-governmental organizations, health professionals and the public.

In September 2004, the Public Health Agency of Canada was created within the federal Health Portfolio to deliver on the Government of Canada's commitment to increase its focus on public health in order to help protect and improve the health and safety of all Canadians and to contribute to strengthening the health care system.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

The Public Health Agency of Canada is estimating budgetary expenditures of \$614.7 million in 2014–15. Of this amount, \$571.6 million requires approval by Parliament. The remaining \$43.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

An increase in the Main Estimates of \$35.5 million is due to an increase in transfer payments of \$42.7 million and \$10.9 million in statutory items and is partially offset by a decrease in operating expenditures of \$17 million and in capital expenditures of \$1.1 million. Factors contributing to the net increase include:

- A one-time increase of \$49.7 million in 2014–15 as the Agency makes the final payment under the Hepatitis C Health Care Services Program to improve access to health care services to persons infected with hepatitis C through the blood system;

- A decrease of \$32.3 million due to Budget 2012 Spending Review savings to be achieved through efficiency measures and program reductions that align resources to the Agency's core mandate, scaling back where there is a need; transforming how the Agency works internally; and by consolidating and streamlining; and
- An increase of \$6.2 million of funding to continue enhancing the ability to prevent, detect and respond to food-borne illness outbreaks through improved technology and outbreak response.

Public Safety and Emergency Preparedness

Raison d'être

The Department of Public Safety and Emergency Preparedness (PSEP) plays a key role in discharging the Government's fundamental responsibility for the safety and security of its citizens. The Minister of Public Safety and Emergency Preparedness is responsible for the Department. Legislation governing the Department sets out two essential roles: (i) support the Minister's responsibility for all matters, except those assigned to another federal minister, related to public safety and emergency management including national leadership and (ii) coordinate the efforts of Public Safety's Portfolio agencies as well as provide guidance on their strategic priorities.

PSEP provides strategic policy advice on: national security; border strategies; countering crime; and emergency management. It also delivers a number of grant and contribution programs related to emergency management, national security and community safety.

Additional information can be found in the Department's Report on Plans and Priorities.

Highlights

PSEP is estimating budgetary expenditures of \$1,122.8 million in 2014-15 which include \$14.6 million in statutory forecasts.

The net spending increase of \$681.9 million or 154.6% from previous Main Estimates is the net result of various increases offset by certain planned decreases.

Major factors contributing to the net increase of \$681.9 million include:

- An increase of \$662.0 million for the Disaster Financial Assistance Arrangements (DFAA) contribution program for anticipated payments to Provinces and Territories (P/Ts) for natural disasters approved up to March 31, 2013, as well as for financial assistance for approved disasters since April 2013, which includes the preliminary cost estimates for the recent severe flooding in southern Alberta;
- An increase of \$16.5 million for the First Nations Policing Program, the majority of which is to maintain funding for policing agreements with First Nation and Inuit communities;
- A net increase of \$12.8 million to provide financial support to P/Ts for the 2011 Flood Mitigation Investments;
- A decrease of \$8.0 million as a result of the savings measures announced in Budget 2012;
- A decrease of \$1.5 million for funding previously required to implement the regional offices that provide operational capacity to implement the Department's role in emergency response; and
- A decrease of \$1.3 million in Employee Benefit Plans costs.

National Security

PSEP will coordinate the release of the second Annual Public Report on the Terrorist Threat to Canada, and continue to advance key national security policy issues. The Department will also continue to administer the national security review provisions under the *Investment Canada Act*. It will pursue the implementation of the Action Plan 2010-2015 for Canada's Cyber Security Strategy and the implementation of the Cyber Security Cooperation Program. Finally, PSEP will implement the renewed Action Plan for Critical Infrastructure, with a focus on sustained and enhanced partnerships, the sharing and protection of information, and the implementation of an all-hazards risk management approach.

Border Strategies

PSEP will continue to work with the U.S. to advance the implementation of the Canada-U.S. Perimeter Action Plan, *Beyond the Border: A Shared Vision for Perimeter Security and Economic Competitiveness*. For instance, PSEP will work with partners to implement the Considerations for United States-Canada Border Traffic Disruption Management Guide and will also complete negotiations towards a comprehensive approach to preclearance between Canada and the U.S. to cover all modes of trade and travel. Finally, the Department will work with partners towards a bilateral process to prioritize coverage gaps at the border, and initiate planning for the procurement and deployment of enhanced technology to strengthen border integrity.

Countering Crime

PSEP will advance the crime and safety agenda by working with the provinces, territories and police stakeholders to improve the efficiency and effectiveness of policing and public safety in Canada through the Economics of Policing combatting the trafficking and cross-border smuggling of contraband tobacco; continuing to work on human trafficking and child sexual exploitation; advancing the long-term sustainability of the National Police Services; and supporting the government in its implementation of the *Safer Witnesses Act*. PS will also focus on enhancing support for victims of crime, and on an evidence-informed approach to crime prevention in order to reduce pressures on police services and the criminal justice system.

Emergency Management

PSEP will continue to build community capacity to reduce the occurrence of disasters and their negative impacts through the development of a National Resilience Strategy and the development of a National Disaster Mitigation Program in consultation with P/Ts. The Department will also review the DFAA to ensure program sustainability over time, and continue to host the Annual National Roundtable on Disaster Risk Reduction. PSEP will improve the federal government's capabilities to respond to emergencies, be prepared for events of national interest, and shift the focus to proactive mitigative approaches to reduce future liabilities and will focus on achieving a more integrated whole-of-government approach to emergency management.

Internal Services

PSEP will continue to work towards the accountable and prudent stewardship of public funds; the safeguard of public assets; and an effective and efficient use of public resources. The Department will continue to transform and modernize its human resources function; participate in the Federal Sustainable Development Strategy; and implement an updated Departmental Security Plan. PSEP will remain focused on ensuring that the Department has the necessary infrastructure to meet Canada's obligations in relation to cyber security, as well as for the Government Operations Centre and regional offices. Finally, PSEP will be undergoing a realignment of departmental functions to align programs and authorities to departmental priorities.

Public Service Commission

Raison d'être

The Minister of Canadian Heritage and Official Languages is responsible for the Public Service Commission (PSC) for the purpose of the *Financial Administration Act* and to table the PSC Annual Report under the *Public Service Employment Act* (PSEA). The PSC reports independently on its mandate to Parliament.

The mandate of the PSC is to promote and safeguard merit-based appointments and, in collaboration with other stakeholders, to protect the non-partisan nature of the public service. Under the delegated staffing system set out in the PSEA, the PSC fulfills its mandate by providing policy guidance and expertise, as well as by conducting effective oversight. In addition, the PSC delivers innovative staffing and assessment services.

Additional information can be found in the PSC's Annual Report, available on the PSC web site.

Highlights

PSC is estimating budgetary expenditures of \$83.7 million in 2014–15. Of this amount, \$71.7 million requires approval by Parliament. The remaining \$12.0 million represents statutory forecasts that do not require additional approval and are provided for information purposes only.

From the previous year, a net decrease of \$6.3 million in planned spending is primarily due to the following:

- An additional decrease of \$4.5 million resulting from Spending Review 2012; and
- A decrease of \$1.3 million from a reprofile of funds to support the relocation of PSC's Headquarters offices from Ottawa to Gatineau towards the end of 2013.

For 2014-2015, the PSC's resources will be dedicated to achieve the following priorities:

- To provide ongoing, independent oversight on the performance of the staffing system under the PSEA;
- To safeguard the non-partisan nature of the public service in collaboration with other stakeholders; and
- To focus the PSC's management agenda on supporting employees and ensuring business continuity through a number of transitions during the year.

For further details please refer to the PSC's Report on Plans and Priorities, found on the PSC Web site

Public Service Labour Relations Board

Raison d'être

The Public Service Labour Relations Board (PSLRB) is an independent quasi-judicial tribunal mandated by the *Public Service Labour Relations Act* to administer the collective bargaining and grievance adjudication systems in the federal public service. It is also mandated by the *Parliamentary Employment and Staff Relations Act* to perform the same role for the institutions of Parliament.

The PSLRB is unique in that it is one of the few bodies of its type in Canada that combine both adjudication functions and responsibilities as an impartial third party in the collective bargaining process. By resolving labour relations issues in an impartial manner, the PSLRB contributes to a productive and efficient workplace that ultimately benefits Canadians through the smooth delivery of government programs and services.

Given its independent status, the PSLRB is responsible to Parliament through a designated minister who is not a member of the Treasury Board. The designated minister is currently the Minister of Canadian Heritage and Official Languages, who is responsible under the *Public Service Labour Relations Act* for tabling the PSLRB's annual report to Parliament each year and for signing documents required under the *Financial Administration Act*.

Public Service Staffing Tribunal

Raison d'être

The Public Service Staffing Tribunal is an independent, quasi-judicial body established under the *Public Service Employment Act* to address complaints related to internal appointments and lay-offs in the federal public service. The Tribunal conducts hearings, settlement conferences and mediation sessions in order to resolve complaints. In fulfilling its mandate, the Tribunal fosters fair and transparent staffing practices, contributes to a public service that is based on merit, embodies linguistic duality and human rights, and strives for excellence. The Minister of Canadian Heritage and Official Languages is responsible for the Tribunal.

Public Works and Government Services

Raison d'être

Public Works and Government Services Canada (PWGSC) plays an important role in the daily operations of the Government of Canada. The department is its principal treasurer, accountant, central purchasing agent, linguistic authority and real property manager.

PWGSC's vision is to excel in government operations, and its mission is to deliver high quality services and programs that meet the needs of federal organizations and ensure sound stewardship on behalf of Canadians.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

PWGSC is estimating budgetary expenditures of \$2,664.1 million in 2014-15. Of this amount, \$2,546.0 million requires approval by Parliament. The remaining \$118.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A decrease in net spending of \$196.8 million from \$2,860.9 million of Estimates To Date in fiscal year 2013–14 to \$2,664.1 million in 2014-15 Main Estimates is due primarily to the following:

- A decrease of \$102.8 million due to sunset of funding for completed office buildings fit-up mainly in the National Capital Area;
- A decrease of \$71.2 million due to the completion of the remediation and future land use of the Sydney Tar Ponds and Coke Ovens Remediation Project;
- A decrease of \$57.2 million due to savings identified as part of the Budget 2012 spending review generated from operating efficiencies and improving productivity;
- A decrease of \$49.9 million due to the completion of the purchase of Les Terrasses de la Chaudière complex in the National Capital Area in 2013–14; and,
- An increase of \$91.9 million to cover the planned program of work to be undertaken for the rehabilitation of the Parliament Buildings.

PWGSC has an additional statutory item entitled “Defense Production Revolving Fund” which is not presented in the Main Estimates as there is no activity forecasted against this fund.

Accommodation and Real Property Services program administers the statutory grant, “Payments in lieu of taxes to Municipalities and other taxing authorities”, which amounts to \$561.5 million and is recovered by PWGSC from custodian departments.

Registry of the Competition Tribunal

Raison d'être

The Minister of Industry is responsible for this organization. The Competition Tribunal, established in 1986, is an independent, quasi-judicial tribunal established under the *Competition Tribunal Act* to hear applications brought by the Commissioner of Competition or a private party, depending on the circumstances, under various parts of the *Competition Act*. The purpose of the *Competition Act* is to maintain and encourage competition in Canada. The Tribunal hears applications related to deceptive marketing practices, such as misleading advertising, under Part VII.1 of the *Competition Act*. The Tribunal also has jurisdiction to hear references as well as applications brought pursuant to Part VIII, which sets out restrictive trade practices such as exclusive dealings.

Registry of the Public Servants Disclosure Protection Tribunal

Raison d'être

The mandate of the Registry of the Public Servants Disclosure Protection Tribunal is to protect public servants who disclose wrongdoing from reprisals. The Tribunal is an independent quasi-judicial body established pursuant to the *Public Servants Disclosure Protection Act*. It deals with reprisal complaints referred by the Office of the Public Sector Integrity Commissioner. The Tribunal is supported by a Registry which is located in Ottawa.

The Registry reports to Parliament through the Minister of Canadian Heritage and Official Languages.

Highlights

The funding level for the Registry of the Public Servants Disclosure Protection Tribunal will be the same as for the 2012-13 and 2013-14 fiscal years. The Registry expects to spend approximately 80% of its budget in 2014-15. The Registry expects to receive more cases from the Office of the Public Sector Integrity Commissioner in fiscal year 2014-15. Personnel costs are also expected to remain at the same level as the 2013-14 fiscal year.

The Registry will continue to rent office space from another tenant in the building where it is currently located until such time that space becomes available in the building, likely in 2015-16.

Registry of the Specific Claims Tribunal

Raison d'être

The Minister of Aboriginal Affairs and Northern Development is responsible for this organization.

The Registry of the Specific Claims Tribunal is constituted under the *Specific Claims Tribunal Act* (which came into force on October 16, 2008) to manage the administrative affairs of the Specific Claims Tribunal. The Tribunal is an adjudicative body with the express mandate of deciding First Nations' specific claims including claims related to non-fulfillment of treaties, fraud, illegal leases and dispositions or inadequate compensation for reserve lands or other assets.

Highlights

The Registry of the Specific Claims Tribunal is estimating budgetary expenditures of \$2.9 million in 2014–15. Of this amount, \$2.7 million requires approval by Parliament. The remaining \$0.2 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Registry's 2014–15 Main Estimates amount is similar to its 2013–14 total Estimates. The Registry's primary source of funding sunsetted on March 31, 2013. Funding was renewed, and requirements for 2013–14 were presented in the 2013–14 Supplementary Estimates (B).

For your information, details on our priorities will be made available in our 2014–15 Report on Plans and Priorities.

Royal Canadian Mounted Police

Raison d'être

The Minister of Public Safety and Emergency Preparedness is responsible for this organization.

As Canada's national police service, the Royal Canadian Mounted Police (RCMP) is a critical element of the Government of Canada's commitment to providing for the safety and security of Canadians. By tackling crime at the municipal, provincial/territorial, federal and international levels, the RCMP provides integrated approaches to safety and security and a consistent federal role and presence from coast to coast to coast.

The RCMP's mandate, as outlined in section 18 of the *Royal Canadian Mounted Police Act*, is multi-faceted. It includes preventing and investigating crime; maintaining peace and order; enforcing laws; contributing to national security; ensuring the safety of state officials, visiting dignitaries and foreign missions; and providing vital operational support services to other police and law enforcement agencies within Canada and abroad.

Highlights

The RCMP is estimating budgetary expenditures of \$2.6 billion in 2014-15. Of this \$2.2 billion requires approval by Parliament. The remaining \$0.4 billion represents statutory forecasts that do not require additional approval and are provided for information purposes.

2014-15 Main Estimates represents a \$132.1 million decrease or 4.8% from the federal appropriations presented in the 2013-14 Main Estimates. The change is comprised of decreases of \$100.8 million for operating costs, \$21.1 million in

capital costs, \$28.8 million in statutory program, and an increase of \$18.7 million for grants and contributions funding requirements.

2014–15 marks the third and final year of the savings announced in the Economic Action Plan 2012, where the RCMP will reach its on-going target of \$195.2 million. The key initiatives for 2014–15 include:

- Health Care Modernization – The RCMP is modernizing its Health Services program through an amendment to the definition of an “insured person” under *the Canada Health Act* (received Royal Assent on June 29, 2012). Beginning April 1, 2013, basic health care coverage for regular members transitioned to provincial/territorial regimes. Full savings associated to the initiative will be realized in 2014–15 and ongoing. The initiative also includes changes to the RCMP’s Supplemental Health Care, Sick Leave, and Disability Management regimes;
- Internal Services and Expenditure Efficiencies – A series of initiatives are aimed at reengineering how the main Internal Services functions are provided at the RCMP and identifying opportunities to reduce discretionary costs. Impacted areas include corporate accounting, fleet, financial management, material management, project management, information management, information technology, human resources, real property management, communications, procurement, and management and oversight functions;
- Forensic Lab Consolidation – Through this initiative, savings will be generated from administrative efficiencies, the rationalization of labour requirements and reducing infrastructure costs resulting from geographic consolidation to three labs within the current six site model. The final lab closure will be in 2014–15;
- Civilianization – This initiative involves the conversion of police officer positions, in administrative or operational support functions, to non-police officer classifications in the areas of strategic planning, information management, information technology, and human resource management across the organization with a particular emphasis on positions at National Headquarters. The remainder of the savings will be achieved in 2014–15 as Regular Members continue to be transitioned out of those identified positions;
- Return of previously approved funding for authorized growth in Federal Policing – The unallocated portion of these funds, intended for future resource increases to support Federal Policing, were reallocated in recent years to mitigate increasing resource requirements within the RCMP’s National Police Services (NPS). The capacity issues within NPS are currently being addressed separately as part of its sustainability initiative; and
- Operational support initiatives are also being undertaken to enhance service delivery models within Criminal Intelligence, Technical Operations, the Canadian Police College, and the Canadian Firearms Program, while reducing costs.

Other noteworthy factors contributing to the changes in year-over-year funding levels include:

- The Economic Action Plan 2013 provided \$5 million in 2014–15 to continue Canada’s Migrant Smuggling Prevention Strategy, however, this increase was offset by the reduction to travel costs of \$1.7 million by implementing modern alternatives, and reduction of duplication by standardization and consolidation for the procurement of end-user devices of \$6.0 million under a common services approach; and
- The Grant to compensate members injured in the performance of their duties has increased by \$18.5 million resulting from an increase in the number of members receiving disability pension awards and the annual increases due to indexation of disability pension benefits.

The spending authorities in the 2014–15 Main Estimates are integral to achieving the Department’s plans and priorities. Further details can be obtained from the RCMP’s 2014–15 Report on Plans and Priorities.

Royal Canadian Mounted Police External Review Committee

Raison d'être

The Royal Canadian Mounted Police External Review Committee (ERC) is an independent and impartial agency that aims to promote fair and equitable labour relations within the Royal Canadian Mounted Police (RCMP), in accordance with applicable principles of law. To this end, the ERC conducts an independent review of appeals in disciplinary, and discharge and demotion matters, as well as certain categories of grievances that are referred to it pursuant to s. 33 of the *Royal Canadian Mounted Police Act* and s. 36 of the *Royal Canadian Mounted Police Regulations*. The ERC reports directly to Parliament through the Minister of Public Safety and Emergency Preparedness. The ERC's jurisdiction is restricted to employment and labour matters that relate to regular members and civilian members of the RCMP only. In carrying out its mandate, the ERC ensures that its recommendations are solidly grounded in law and that members of the RCMP are treated in a fair and equitable manner, in keeping with the public interest. Additional information can be found in the ERC's Report on Plans and Priorities.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

The ERC is estimating budgetary expenditures of \$961.4 thousand in 2014-15. Of this amount, \$858.6 thousand requires approval by Parliament. The remaining \$102.8 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net increase of \$27 thousand in planned spending from the 2013-14 Main Estimates is due to collective bargaining adjustments.

Additional information can be found in the ERC's Report on Plans and Priorities.

Royal Canadian Mounted Police Public Complaints Commission

Raison d'être

The Royal Canadian Mounted Police Public Complaints Commission is an independent agency created by Parliament and is not part of the Royal Canadian Mounted Police (RCMP). The Commission's fundamental role is to provide civilian review of the conduct of the RCMP members in carrying out their policing duties, thereby holding the RCMP accountable to the public. The Commission ensures that complaints about the conduct of RCMP members are examined fairly and impartially. Its findings and recommendations help identify and remedy policing problems which stem from the conduct of individual RCMP members or from deficiencies in RCMP policies or practices. The Commission has the authority to make findings and recommendations, but cannot impose discipline or make monetary awards to complainants.

The Minister of Public Safety and Emergency Preparedness is responsible for this organization.

Highlights

The Royal Canadian Mounted Police Public Complaints Commission is estimating budgetary expenditures of \$10 million in 2014-15. Of this amount, \$9 million requires approval by Parliament. The remaining \$961 thousand represents statutory authorities that do not require additional approval and are provided for information purposes.

The Royal Canadian Mounted Police Public Complaints Commission's expenditures have increased from the previous year to meet new mandate requirements introduced with the establishment of the Civilian Review and Complaints Commission for the Royal Canadian Mounted Police.

In 2014-15, the Commission will continue to identify and address the policing issues of daily concern to Canadians. The Commission will examine the conduct of RCMP members in relation to specific complaints and monitor wider

trends and developments in RCMP policy and practices. The Commission will provide recommendations that enhance the accountability of the RCMP and contribute to the public's trust and confidence in the RCMP and its members. As the Commission transitions into the new Civilian Review and Complaints Commission for the Royal Canadian Mounted Police and assumes its new responsibilities, it will ensure it has the capacity to deliver new functions outlined in the *Enhancing Royal Canadian Mounted Police Accountability Act*, which include conducting reviews of specified RCMP activities, providing enhanced reporting to provinces which contract for RCMP services and conducting research and outreach. Details on our priorities will be made available in our 2014–15 Report on Plans and Priorities.

Security Intelligence Review Committee

Raison d'être

The Security Intelligence Review Committee (SIRC) is an independent, external review body which reports to Parliament of Canada on the operations of the Canadian Security Intelligence Service (CSIS). The Prime Minister is responsible for this organization.

Parliament has given CSIS powers to enhance the security of Canadians. SIRC ensures that these powers are used legally and appropriately, in order to protect Canadians' rights and freedoms. To do this, SIRC examines past operations of the Service and investigates complaints. It has absolute authority to examine all information concerning CSIS activities, no matter how sensitive and highly classified that information may be. The result of this work, edited to protect national security and personal privacy, are summarized in its Annual Report to Parliament.

Highlights

The SIRC is estimating budgetary expenditures of \$2.8 million in 2014–15. Of this amount, \$2.5 million requires approval by Parliament. The remaining \$0.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

SIRC's work is designed to provide expert advice to policymakers and lawmakers on CSIS's performance. It also serves to reassure Canadians that CSIS investigates threats to national security in a manner that respects Canada's core democratic values. The *Canadian Security Intelligence Service Act (CSIS Act)* continues to guide SIRC's work in assessing CSIS's performance against the mandate and authorities conferred upon it by Parliament.

For additional details, please see SIRC's 2014–15 Report on Plans and Priorities.

Senate Ethics Officer

Raison d'être

The main responsibilities of the Senate Ethics Officer are to:

- Advise individual senators on a confidential and ongoing basis concerning their obligations under the Conflict of Interest Code for Senators and to assist them in remaining in compliance with the requirements of the Code;
- Oversee the ongoing annual disclosure process in which senators are required to disclose their financial and other interests;
- Conduct inquiries in order to determine whether a senator has complied with his or her obligations under the Code;
- Maintain a registry, available to the public, containing information concerning the financial and other interests of senators that are required to be publicly disclosed under the Code; and
- Submit an annual report of the Office's activities to the Speaker of the Senate for tabling in the Senate.

Shared Services Canada

Raison d'être

Shared Services Canada (SSC) is a federal department created on August 4, 2011, to transform how the Government of Canada manages its information technology (IT) infrastructure. SSC reports to Parliament through the Minister of Public Works and Government Services and is responsible for delivering mandated email, data centre and network services to partner departments in a consolidated and standardized manner to support the delivery of Government of Canada programs and services. SSC also provides certain optional technology related services to government organizations on a cost-recovery basis. With a whole-of-government approach to IT, SSC is creating economies of scale to deliver more efficient, reliable and secure IT infrastructure services to Government of Canada departments. SSC's mandate was reinforced on June 29, 2012 with the passage of the *Shared Services Canada Act* by Parliament.

Highlights

SSC is estimating budgetary expenditures of \$1.5 billion in 2014–15. Of this amount, \$1.4 billion requires approval by Parliament. The remaining \$80.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes. Compared to the 2013–14 Main Estimates, the 2014–15 Main Estimates have increased by \$75.2 million. This variance is mainly attributed to:

- As per Budget 2013, SSC was mandated to consolidate and standardize the procurement of software for workplace technology devices. The permanent funding of this initiative, \$95.6 million, is included in the Main Estimates of 2014–15 and it also reflects the annual forecasted savings of \$8.7 million;
- Additional savings of \$45.5 million related to Budget 2012.

SSC will continue to consolidate IT infrastructure, including email, data centres and networks, across partner departments and agencies, and it will continue to generate savings for Canadians as it carries out this mandate.

For additional information, please see the department's 2014–15 Report on Plans and Priorities.

Social Sciences and Humanities Research Council

Raison d'être

The Minister of Industry is responsible for this organization.

The Social Sciences and Humanities Research Council (SSHRC) funds research and research training that builds knowledge about people, past and present, with a view toward creating a better future. From questions of family and culture to concerns about jobs and employment, research about people—how we live, what we think, how we act—informs new knowledge and insights on the issues that matter most to Canadians.

SSHRC plays a unique role within Canada's science, technology and innovation system by awarding grants and scholarships to researchers, students and fellows who work as individuals, in small groups and in formal partnerships to develop talent, generate insights and build connections that address the needs of all sectors of society.

Highlights

The 2014-15 Main Estimates include a number of adjustments in reference levels over the 2013-14 Main Estimates. SSHRC is estimating budgetary expenditures of \$691.8 million in 2014-15. Of this amount, \$689.3 million requires approval by Parliament. The remaining \$2.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The variance between the 2014-15 Main Estimates and the 2013-14 Main Estimates demonstrates a net increase of \$9.1 million or 1.3% in planned spending. The primary changes include:

- An increase of \$7.0 million in the Grants and Scholarships program to strengthen research partnerships between post-secondary institutions and industry (Budget 2013);

- An increase of \$1.8 million for the Centres of Excellence for Commercialization and Research program, a tri-agency initiative, to create a more effective and efficient way to identify commercialization opportunities (Budget 2007);
- An increase of \$0.4 million in the Business-Led Networks of Centres of Excellence program, a tri-agency initiative, from the Natural Sciences and Engineering Research Council to distribute the funding according to the SSHRC's mandate based on the selected projects;
- An increase of \$0.1 million will be spent in 2014–15, associated with the SSHRC's Net Vote Authority.

Other variances of less than \$0.2 million include the reduction in the SSHRC's operating budget from government's cost-effectiveness initiatives. These items include the reduction in the travel budget and a transfer to Shared Services Canada for the streamlining of the procurement of end user device software.

More detailed information of the agency's spending plans can be found in the Report on Plans and Priorities.

Standards Council of Canada

Raison d'être

The Standards Council of Canada (SCC) is a federal Crown corporation with a mandate to promote efficient and effective standardization in Canada. The SCC coordinates and oversees the work of Canada's standardization network. This includes Canadian organizations and individuals involved in voluntary standards development and conformity assessment activities. Some 12,500 Canadian volunteers contribute to the work of committees that develop national and international standards. Standards and conformity assessment practices are a key component of Canadians' economic and social well-being — they provide business and industry with key building blocks to success and facilitate the flow of goods and services both nationally and internationally.

The Minister of Industry is responsible for this organization.

Statistics Canada

Raison d'être

The minister responsible for Statistics Canada is the Minister of Industry.

Statistics Canada was established to ensure that Canadians have access to a trusted source of statistics on Canada meeting their highest priority needs.

The Agency's mandate derives primarily from the *Statistics Act*. The Act requires that Statistics Canada collect, compile, analyse and publish statistical information on the economic, social and general conditions of the country and its people. It requires Statistics Canada to conduct a Census of Population and a Census of Agriculture every fifth year and that the Agency protect the confidentiality of the information with which it is entrusted.

Highlights

In 2014-15, Statistics Canada will continue to deliver relevant, timely and high-quality information to Canadians in the most efficient and effective manner possible.

The priorities of Statistics Canada will include:

- A comprehensive review of the potential for administrative and other alternative data sources to replace, complement or supplement further the Agency's census and survey programs;
- Final planning and initial implementation of the 2016 Census of Population and Census of Agriculture programs;
- Completion of the Consumer Price Index enhancement project;
- Completion of the environment statistics framework, evaluation of the existing program against the framework, and identification and prioritization of program gaps;
- Delivery of major elements of the Corporate Business Architecture transformation projects, including the conversion

of 60 business surveys to the new Integrated Business Statistics Program in 2014, followed by additional surveys in the following two years;

- Significant investments in the redesign of major survey programs to ensure their continued relevance and effectiveness;
- Continued development and testing of the Agency's New Dissemination Model;
- Operation of the Open Data Portal on behalf of the Government of Canada; and
- Investments to facilitate Statistics Canada's integration into government-wide networks, shared data centres, telecommunications infrastructure and email solutions.

The Agency continues to exploit emerging opportunities with imagination and energy in order to deliver the greatest possible value to Canadians.

Main Estimates planned expenditures (net of revenue) were \$400.6 million in 2013–14 and are \$379.6 million for 2014–15. The decrease of \$21.0 million is mainly explained by the following:

- A decrease of \$6.2 million for the 2011 Census of Population and National Household Survey as the program is ending in 2014–15. Applicable funding in 2014–15 will be used mostly to produce additional data outputs, complete the dissemination evaluation and conduct user support data workshops and concepts workshops;
- A decrease of \$1.8 million for the 2011 Census of Agriculture from 2013–14 to 2014–15, which reflects the end of the 2011 Census of Agriculture cycle;
- A base funding decrease resulting from savings identified as part of the Budget 2012 spending review, in the amount of \$15.6 million in 2014–15;
- An economic increase from collective agreements in the amount of \$5.0 million in 2014–15;
- A decrease of \$1.6 million to transfer funds to Shared Service Canada for the procurement of workplace technology device software; and
- A decrease of \$110,599 for travel, as a result of Budget 2013.

Additional information can be found in Statistics Canada's Report on Plans and Priorities.

Supreme Court of Canada

Raison d'être

Created by an Act of Parliament in 1875, the Supreme Court of Canada (SCC) is Canada's final court of appeal. It serves Canadians by deciding legal issues of public importance, thereby contributing to the development of all branches of law applicable within Canada. The independence of the Court, the quality of its work and the esteem in which it is held both in Canada and abroad contribute significantly as foundations for a secure, strong and democratic country founded on the Rule of Law. The Supreme Court of Canada consists of the Chief Justice and eight puisne judges.

The Office of the Registrar of the Supreme Court of Canada provides all necessary services and support for the Court to process, hear and decide cases. It also serves as the interface between litigants and the Court. The Minister of Justice is responsible for this institution.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

SCC is estimating budgetary expenditures of \$31.4 million in 2014–15. Of that amount, \$22.3 million requires approval by Parliament. The remaining \$9.1 million represents the statutory funding forecast that does not require additional approval and is provided for information purposes.

The net increase of \$733,583 in the 2014–15 Estimates is attributable to:

- An increase of \$404,916 in operating funding for various collective agreement settlements;
- An increase of \$326,816 in statutory personnel funding for Judges' salaries and annuities;
- An increase of \$58,250 in statutory operating funding; and
- A net decrease of \$56,399 for an adjustment to the contributions to employee benefit plans.

The increases in the Statutory Authorities of the SCC are due to increased costs for salaries and annuities arising from the retirement of SCC Judges. This trend will continue over at least the next couple of years with various Judges reaching the mandatory retirement age of 75.

With the funds anticipated through these Main Estimates, the Office of the Registrar of the Supreme Court of Canada (“Office”) will continue to focus its efforts on the processing of cases without delay while maintaining stakeholder satisfaction and high standards of service. This is achieved through its single strategic outcome, namely that the “administration of Canada’s final court of appeal is effective and independent”.

In 2014–15, the Office will pursue its Business Transformation initiative which will enable the Court to strive towards more efficient and effective processes by improving electronic access to the Court’s case files and information. The Office will also continue to work on enhancing the Court’s physical and IT security program. More robust security measures are needed in response to an increase in both the complexity and sensitivity of cases being heard. In addition, the Office – in partnership with Public Works and Government Services Canada – continues to move forward on the planning of a proposed major rehabilitation project to address the aging infrastructure of the SCC Building.

Once tabled in the House of Commons, additional information will be available in the departmental Report on Plans and Priorities.

Telefilm Canada

Raison d'être

The Minister of Canadian Heritage and Official Languages is responsible for this organization.

Telefilm Canada was established in 1967 by the *Telefilm Canada Act*. The mandate of the Corporation is to foster and promote the development of the audiovisual industry in Canada.

A strong and vibrant audiovisual industry

Telefilm's corporate vision embraces both building production capacity and stimulating demand for Canadian screen-based content. To this end, Telefilm aims to ensure that Canadian screen-based content is accessible to audiences anywhere, anytime and on any platform.

Telefilm's strategic orientations are built around four strategic pillars:

- Maintain and expand its core role of funder;
- Develop its role as promoter;
- Provide thought leadership by developing and sharing industry intelligence; and
- Reinforce its organizational excellence.

Additional information can be found in Telefilm's corporate plan: *Fostering Cultural Success*.

Organizational Estimates

Budgetary

	2012-13	2013-14		2014-15
	Expenditures	Main Estimates	Estimates To Date	Main Estimates
		<i>(dollars)</i>		
Budgetary Voted				
1 Payments to Telefilm Canada to be used for the purposes set out in the <i>Telefilm Canada Act</i>	102,968,394	99,622,354	99,622,354	95,363,072
Total voted	102,968,394	99,622,354	99,622,354	95,363,072
Total budgetary	102,968,394	99,622,354	99,622,354	95,363,072

Highlights

Telefilm is estimating budgetary expenditures of \$95.4 million in fiscal 2014-15. These expenditures decreased by \$4.3 million in comparison to the 2013-14 Main Estimates representing a decrease in Telefilm's parliamentary appropriation of more than 4%.

The decrease in expenditures is attributable to savings as part of the Budget 2012 spending review which is in its third and final year.

Telefilm's funding programs are essential to the Canadian audiovisual industry; they provide financial support to Canadian Production and Distribution companies that deliver content to audiences.

As a consequence of the rationalization exercise, the investment in the development of and support to the Canadian audiovisual industry program and the promotional support for Canadian content program both present significant funding reductions.

Telefilm has undertaken concrete actions to offset the decrease in parliamentary appropriation and to optimize the results of the funding provided:

- Telefilm has completed the redesign of its funding programs. These programs offer greater autonomy and flexibility for clients, improve the quality of customer service and provide better alignment to Telefilm's Success Index;
- The new decision-making process applicable to feature films favours the growth of private-sector funding;
- The use of partnerships is now the cornerstone in Telefilm's promotional strategy; and, finally,
- Telefilm created the Talent Fund which draws on financial support from Canadian corporations as well as individual donors interested in supporting the production and promotion of Canadian feature films.

The Federal Bridge Corporation Limited

Raison d'être

The Federal Bridge Corporation Limited (FBCL) is a Crown corporation established in 1998 to provide the Government of Canada with oversight and accountability for specific international bridges and associated structures in Ontario, including the Canadian portions of the international bridge systems in Cornwall, Thousand Islands and Sault Ste. Marie.

FBCL is accountable to Parliament through the Minister of Transport.

Highlights

The FBCL is estimating budgetary expenditures of \$21.04 million in 2014-15. Of this amount, \$15.04 million is for the completion of construction of the new low-level North Channel Bridge, as well as works to demolish the existing bridge starting in early 2014, and \$6.0 million is for the Lansdowne Port of Entry rehabilitation project at the Thousand Islands Bridge for a total of \$21.04 million that requires approval by Parliament. This spending is \$8.04 million higher than in 2013-14 due to the ongoing North Channel Bridge project and the initiation of the Port of Entry rehabilitation project at the Thousand Islands Bridge.

The Jacques-Cartier and Champlain Bridges Inc.

Raison d'être

The Jacques-Cartier and Champlain Bridges Incorporated is a subsidiary Crown corporation of The Federal Bridge Corporation Limited established in 1978 whose mission is to own, manage, operate and maintain the Jacques-Cartier Bridge, the Champlain Bridge and its Estacade (Ice Control Structure), the Nun's Island Bridge, the Melocheville Tunnel and the federal sections of the Honoré Mercier Bridge, the Bonaventure Expressway and Highway 15, to provide safe and efficient transport system to the public.

The Minister of Transport is responsible for this organization.

Highlights

The Jacques-Cartier and Champlain Bridges Incorporated is estimating budgetary expenditures of \$146.2 million in 2014-15.

The difference between the 2013-14 and the 2014-15 Main Estimates can mainly be attributed to a decrease in funding for major repairs and maintenance.

The Senate

Raison d'être

The Senate of Canada, established by the *Constitution Act, 1867*, functions as a chamber complementary to, and independent of, the House of Commons. The Senate has 105 members appointed from the provinces and territories. Its primary purpose is to study and review all legislation passed by the House of Commons or initiated in the Senate. Both houses of Parliament must approve bills in identical form before they can become law. The Senate has the power to adopt, amend or reject any bill. In practice, it rarely defeats bills, but does frequently amend them. Through its committees, the Senate also undertakes the examination of public policy issues, often of a far-reaching and long-term nature, providing guidance to government and informing the national debate on issues of importance to Canadians.

The Speaker of the Senate is responsible for this organization.

Highlights

The Senate is estimating budgetary expenditures of \$91.5 million in 2014–15. Of this amount, \$57.5 million requires approval by Parliament. The remaining \$34 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

While the Senate was not obligated to conduct a cost-cutting exercise under the federal government's Strategic and Operating Review, the Senate undertook a very thorough strategic review of all its programs and expenditures to ensure greater fiscal responsibility and accountability. This exercise will result in reductions in the voted budget over three fiscal years.

Many of the cost-cutting measures are already implemented and were applied to the 2012–13 and 2013–14 Main Estimates, including:

- A decrease in the maximum available for expenses related to living in the National Capital Region;
- A decrease in the limit allowed under the miscellaneous expenditures account budget for Senators;
- A decrease in caucuses' budgets;
- A decrease in Committees' budgets;
- A decrease of the contribution to International and Interparliamentary Affairs budget;
- A decrease in Senators' travel budget;
- A decrease in the overall Senators' Research and Office budget;
- A decrease in the Senate Administration budget;
- A decrease in paper consumption and prudence in spending on material and supplies, and repair and maintenance;
- Restraint on travel;
- Savings in telecommunications;
- A decrease in the professional services (consulting) budget; and
- A decrease in the number of full-time equivalents through attrition

Transport

Raison d'être

Transport Canada is responsible for the Government of Canada's transportation policies and programs. The department is responsible for developing regulations, policies and services under the legislative authority of Parliament. The department is required by the *Canada Transportation Act* to report on the state of the national transportation system. While not directly responsible for all aspects or modes of transportation, the department plays a leadership role to ensure that all parts of the transportation system across Canada work together effectively.

Transport Canada leads a portfolio that includes shared governance organizations (e.g. the St. Lawrence Seaway Management Corporation), Crown corporations (e.g. the Great Lakes Pilotage Authority, Canada Post Corporation) and administrative tribunals/agencies (e.g. the Transportation Appeal Tribunal of Canada). Grouping these organizations into one portfolio allows for integrated decision making on transportation issues.

Highlights

In summary, the department is estimating budgetary expenditures of \$1.66 billion in 2014-15. Of this amount \$1.42 billion requires approval by Parliament. The remaining \$238 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Planned operating expenditures have decreased from 2012–13 and 2013–14 mostly as a result of savings measures announced in Budget 2012. However, in 2014–15 these savings were offset by new funding for the implementation of a world class prevention, preparedness and response regime for oil spills from ships to safeguard Canada's marine environment while advancing responsible resource development to facilitate long-term economic growth and job creation for the benefit of all Canadians.

Planned spending in the capital vote is expected to decrease as a result of changes in planned spending due to the timing of land acquisitions for the Detroit River International Crossing. The new crossing will facilitate the movement of people and goods between Canada and the U.S. by ensuring that there is sufficient infrastructure capacity to handle projected growth in cross border trade and traffic in the Windsor-Detroit trade corridor.

Planned spending in the grants and contributions vote is expected to increase as a result of changes in cash flows for projects related to the Gateways and Border Crossings Fund. The changes in planned spending were due to the reprofile of funds as part of the renewal of the program as announced in Budget 2012. This allowed Transport Canada to better match planned spending to project requirements.

Details on the department's priorities, core activities and related resource requirements can be found in Transport Canada's Report on Plans and Priorities.

Transportation Appeal Tribunal of Canada

Raison d'être

The mandate and the jurisdiction of the Transportation Appeal Tribunal of Canada are provided for by the *Transportation Appeal Tribunal of Canada Act*. The Tribunal's principal mandate as a multimodal review body is to hold review and appeal hearings at the request of interested parties with respect to certain administrative actions taken under various federal transportation Acts.

The objective of the Tribunal is to provide the transportation community with the opportunity to have enforcement and licensing decisions of the Minister of Transport reviewed by an independent body.

Additional information can be found in the Tribunal's Report on Plans and Priorities. The Minister of Transport is responsible for this organization.

Highlights

The Tribunal provides the national transportation community with the opportunity to have the Minister of Transport's enforcement and licensing decisions reviewed by an independent body.

The Minister's enforcement and licensing decisions may include monetary penalties or the suspension, cancellation, refusal to renew or refusal to issue or amend documents of entitlement on medical or other grounds.

These decisions are reviewed through a two-stage adjudicative process that comprises a Review Hearing and an Appeal Hearing. All Hearings are to be held expeditiously and informally, in accordance with the rules of fairness and natural justice.

At the conclusion of a Hearing, the Tribunal may confirm the Minister's decision, substitute its own decision, or refer the matter back to the Minister for reconsideration.

Treasury Board Secretariat

Raison d'être

The Treasury Board of Canada Secretariat (Secretariat) is the administrative arm of the Treasury Board, and the President of the Treasury Board is the Minister responsible for the Secretariat. This organization supports the Treasury Board by making recommendations and providing advice on program spending, regulations and management policies and directives, while respecting the primary responsibility of deputy heads in managing their organizations and their roles as accounting officers before Parliament. In this way, the Secretariat strengthens the way government is managed and helps to ensure value for money in government spending and results for Canadians.

Highlights

The Secretariat is estimating budgetary expenditures of \$7.36 billion in 2014-15, of which \$6.89 billion requires approval by Parliament. The remaining \$471 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Secretariat's net spending will increase by \$1.70 billion from the previous Main Estimates. This is comprised of government-wide Votes of \$1.24 billion, statutory items of \$442 million and Program Expenditures of \$17 million.

The major changes are:

- An increase to government-wide votes mostly composed of: an increase of \$850 million to Vote 30 for Paylist Requirements; and an increase of \$400 million to Vote 25, Operating Budget Carry Forward, to fund the eligible operating budget carry forward requested by departments and agencies;
- An increase of \$442 million for employer contributions made under the *Public Service Superannuation Act*. This funding is required to address the actuarial deficit in the Public Service Pension Fund; and
- An increase to Program expenditures of \$28.2 million for new or renewed programs including Workspace Renewal, Classification Program, Workplace Wellness and Productivity Strategy, and Joint Learning Program, offset by a decrease of \$7.6 million for Strategic Review 2010 announced in Budget 2011 and a net decrease of \$3.6 million for miscellaneous items, including the sunset of Human Resources Modernization.

Veterans Affairs

Raison d'être

Canada's development as an independent country with a unique identity stems partly from its proud military achievements. Veterans Affairs Canada exists to help those whose courageous efforts gave us this legacy and contributed to our growth as a nation.

The Minister of Veterans Affairs is responsible for this organization.

Veterans Affairs Canada's mandate is set out in the *Department of Veterans Affairs Act*. It charges the Minister of Veterans Affairs with responsibility for "the care, treatment, or re-establishment in civil life of any person who served in the Canadian Forces or Merchant Navy or in the naval, army, air forces or merchant navies of Her Majesty, of any person who has otherwise engaged in pursuits relating to war, and of any other person designated . . . and the care of the dependants or survivors of any person referred to." Veterans Affairs Canada is also responsible for keeping alive the achievements and sacrifices of those who served Canada in times of war, military conflict and peace.

Highlights

Veterans Affairs Canada's budget fluctuates each year due to the demand-driven nature of its programs which are based on Veterans' needs and entitlements. In other words, a Veteran who is entitled to a benefit is paid that benefit, whether 10 Veterans come forward or 10,000.

Total planned spending for the 2014–15 fiscal year is \$3,577 million, a net decrease of 1.7% (\$60.9 million) from the 2013–14 fiscal year. This is primarily related to a reduction in requirements for traditional Veteran programs, as well as administrative savings.

The Department continues to see an increase in the number of Canadian Armed Forces Veterans benefiting from New Veterans Charter programs. At the same time, the number of traditional war service Veterans is declining, with an average age of 88. Over 90% of the Department's budget, (\$3,257 million or 91.1%) represents payments to Veterans, their families and other program recipients.

These Estimates reflect increased funding related to the Government of Canada's decision to ensure that Veterans keep the full amount of all benefits to which they are entitled. Included is new funding to:

- Provide increased War Veterans Allowance support and other health care services to eligible Veterans and civilians;
- Simplify the Funeral and Burial Program and more than double its reimbursement rate; and
- construct a new permanent Visitor Centre at the Canadian National Vimy Memorial in France.

The Department continues to ensure that its services and benefits respond effectively to the needs of Veterans, their families and others served by Veterans Affairs Canada. Administrative efficiencies are the result of the Minister's Cutting Red Tape initiative and other efficiency measures. Veterans Affairs Canada is committed to support Veterans by maintaining the level of benefits while recognizing the need to modernize the Department and transform the way it does business.

The Departmental priorities in 2014–15 are:

- Improve service to Veterans and their families;
- Honour those who served Canada;
- Transfer the Ste. Anne's Hospital to the Government of Quebec;
- Modernize the Department; and
- Advance the Fair Treatment of the Veteran Community

For more information on Departmental planned spending and priorities, please see Veterans Affairs Canada's latest Report on Plans and Priorities.

Contributions for the Community War Memorial Program to support the building of new, or major additions to existing cenotaphs and monuments	753,989	1,250,000	750,000

Veterans Review and Appeal Board

Raison d'être

The Veterans Review and Appeal Board is an independent, administrative tribunal created in 1995. The Board provides an appeal program for service-related disability decisions made by Veterans Affairs Canada. This program gives applicants two levels of redress for disability pension and disability award decisions and the final level of appeal for War Veterans Allowance claims.

The Board's objective is to ensure that Canada's traditional Veterans, Canadian Armed Forces members and Veterans, Royal Canadian Mounted Police applicants, qualified civilians and their families receive the disability pensions, disability awards and other benefits to which they are entitled under the law.

The Minister of Veterans Affairs is responsible for this organization.

Note: Additional details by organization are available on the Treasury Board Secretariat website – <http://www.tbs-sct.gc.ca>.

Highlights

Veterans Review and Appeal Board is estimating budgetary expenditures of \$10.9 million in 2014-15. Of this amount, \$9.5 million requires approval by Parliament. The remaining \$1.4 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The planned expenditures of the Veterans Review and Appeal Board remain approximately the same as the previous year. In 2014-15, the Board will continue implementing its strategic plan. It will undertake the following activities:

Program Delivery – Ensure applicants have an avenue of redress by an independent tribunal for disability compensation and War Veterans Allowance applications.

Improved Program Delivery – Enhance program delivery through innovation and the use of technology to improve the process for applicants.

Communication – Ensure applicants and all Canadians have information on the Board’s mandate, program, and redress process, while meeting the increasing information needs of applicants.

Accountable Management – Provide an effective program for applicants and their families by focussing on management, transparency and accountability.

Please refer to the Report on Plans and Priorities for further detail. <http://www.vrab-tacra.gc.ca/Plans-eng.cfm>

VIA Rail Canada Inc.

Raison d'être

VIA Rail Canada Inc. (VIA Rail) was established as a crown corporation in 1978 to operate as the nation's passenger rail carrier. Its objective is to provide a safe, efficient, and reliable passenger service in Canada. The network includes trains that operate in the Quebec City to Windsor Corridor, and long-haul trains, between Toronto and Vancouver and between Montreal and Halifax. VIA Rail also provides passenger rail transportation to regional and remote communities, some without alternative year-round transportation access.

VIA Rail Canada is accountable to Parliament through the Minister of Transport.

Total budgetary	419,958,000	187,783,000	439,383,000	183,061,756

Highlights

VIA Rail is estimating budgetary expenditures of \$183.1 million in 2014-15 which require approval by Parliament.

VIA Rail's revenues have declined compared to 2012, due to reduced domestic demand and strong airline competition in the Quebec City to Windsor Corridor (Corridor).

In 2012, VIA Rail realigned its long haul and south-western Corridor services to meet customer demands, which will help lower its future funding needs.

In addition to rightsizing services, VIA Rail introduced new frequencies in the Corridor. VIA Rail also continues to contain costs through a series of productivity improvements focusing on traffic and revenue enhancement as well as operating and maintenance efficiencies. These improvements are made possible through the Government's more than one billion dollar capital investment in VIA Rail since 2007.

VIA Rail estimates that it will carry 4 million passengers in 2013, achieving the same level of passenger carryings before the realignment of services.

Western Economic Diversification

Raison d'être

Western Economic Diversification Canada (WD) was established in 1988 to promote the development and diversification of the economy of Western Canada and to advance the interests of the West in national economic policy, program and project development and implementation. The Minister of Health, supported by the Minister of State (Western Economic Diversification) is responsible for this organization.

As the federal economic development department for Western Canada, WD develops and supports economic policies, programs and activities to promote economic growth throughout Western Canada.

Highlights

WD is estimating budgetary expenditures of \$158.9 million in 2014–15. Of this amount, \$154.8 million requires approval by Parliament. The remaining \$4.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Factors contributing to the decrease in net spending of \$33.5 million from 2013–14 Estimates to date, are provided below:

- A \$27.4 million decrease in 2013–14 related to the termination of the funding provided in the Community Infrastructure Improvement Fund; and
- A \$7.0 million decrease resulting from savings identified as part of the Budget 2012 Spending Review including statutory costs.

There are also impacts of yearly adjustments for which authorities are sought throughout a fiscal year and which may vary in amount from year to year. These net adjustments amount to \$0.9 million increase in 2013–14.

- A \$1.5 million increase in funding to support the Rick Hansen Foundation in support of the research, programs and operations of the Rick Hansen Institute;
- A \$0.8 million increase in funding for the Economic Development Initiative of the 2013–2018 Federal Strategy for Official Languages and collective agreements; and
- A \$1.4 million decrease in reinvestment of receipts from repayable contributions.
