# Highlights of 2012-2013 Budget Measures Update

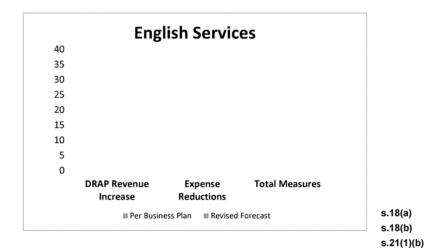

| 1) | English Services' expected expense reductions are in line with 2012-2013 plans,   |
|----|---|
| 2) | French Services' expected expense reductions are in line with 2012-2013 plans.  |
| 3) | Non-Media Services' expected expenditure reductions are in line with 2012-2013 plans, now mostly forecast to be realized in 2013-2014, and fully implemented by 2015-2016.      |
| 4) | Additional contingency planning was approved by the Board of Directors to offset the elimination of LPIF funding over three years and other potential budget pressures.         |
| 5) | 2012-2013 net FTE reductions are estimated at 465 as of December 2012 and are still in progress.  |
| 6) | As detailed in the December 31, 2012 Quarterly Budgetary Management Report, we are currently forecasting a net budgetary position of by the end of 2012-2013, higher than plan. |
|    | This takes into account the impact of the NHL lockout and the measures put in place to mitigate this impact.  |

#### 2012-2013 to 2014-2015 Reduction Plan – Q3 Update – French Services

#### 2012–2013 Reduction Plan (see table on following page for details)

We cannot see any significant risk associated with reaching our \$22.1 million reduction target for 2012–2013. The main steps have already been taken, either in Q1 or at the end of fiscal year 2011–2012. We are on track to meet the targets.

#### 2013–2014 and 2014–2015 Reduction Plans (see Appendix A for details)

s.18(a)

s.18(b) s.21(1)(b)

We foresee no major changes to the initial plan, and several initiatives are already under way:

- Transformation of RCI: The new model was implemented in late June.
- MIH: A committee has been created to review rights management at French Services. The first progress report has been presented to management in December 2012. Phase 2 is underway. Web sales for the Toronto market are currently being centralized.
- Production methods: The transformation unit is active. A new automated control room has been operational at the CDI since May 12. A strategy to expand the use of automated control rooms has been developed and presented to the management committee, unions and employees in October. Deployment of the strategy will be initiated in 2013-2014.
- Sponsorship and advertising on Espace Musique: This issue was reviewed at the license renewal hearing on November 19, 2012.

### Contingency Plan (see Appendix A for details)

Please note the contingency plan (per the 2012-2013 approved Business plan) has been triggered for the loss of the LPIF.

### Making It Happen - Q3 Update

The following is an update of key MIH initiatives including several projects that make up the Organizational Review (which are not included in the \$200M reduction target).

#### Phase 1

<u>The initial phase</u> of the Organizational Review included the analysis of CBC/Radio-Canada's spans of control, layers of management, and costs per FTE. The review indicated that the Corporation compared favourably overall to external benchmarks. The following observations were made and related actions taken:

- The average span of control for the organization overall is 9.8. According to best in class companies have average spans of 10 -15.
  - A number of reviews of organizational structures were conducted following the identification of managers with
    one or two direct reports, which led to more streamlined reporting lines and the identification of a limited
    number of positions for efficiencies. As of December 31, 2012, there were 8% fewer managers with one or two
    direct reports than in May 2012, mostly due to consolidation of structures and some instances of FTE reductions
    through attrition and redundancy.
- The Corporation had up to six layers of management below the President, with five being the norm throughout CBC/Radio-Canada. indicates that a typical organization has eight to nine levels between the top leadership and the frontline employee.
  - o 14 cases of a 6<sup>th</sup> layer of management were identified and subsequent action was taken to review affected areas. As a result of this review, all 14 cases of a 6<sup>th</sup> layer of management were eliminated either through re-organization or people leaving the Corporation.

s.18(b) s.20(1)(b) s.21(1)(b)

#### Phase 2

<u>The second phase</u> of the Organizational Review includes the review of Corporate and Cross-Component Functions and a review of the Regions. An in-depth data gathering and analysis phase has been completed and senior management is reviewing the results to:

- Identify organizational structure improvements and eliminate potential duplication in Corporate and Cross-Component Function areas.
- Identify potential synergies that can be achieved across similar functions conducted in both French and English Services.
- Rationalize staffing and resource allocations across Regions and increase collaboration between English and French Services (several examples already exist), especially with the phased elimination of LPIF funding.

A review of the Shared Services Centre's (SSC) mandate was completed by and recommendations were provided to enhance the current operations in order to facilitate the adoption of improved processes to achieve operational efficiencies.

• Top management of the SSC has been replaced, and new management is in process of implementing recommendations stemming from the review.

s.18(b)

<u>Phase 3</u> s.20(1)(b)

s.21(1)(b)

<u>A third phase</u> of the Organizational Review is scheduled in start in early 2013, which will review the organizational structures and level of staffing in the Program Production areas within English and French Services.

### **Other Cost Savings Opportunities**

Other cost-saving opportunities identified through the horizontal reviews initiated in Q3 of last year are continuing to be developed and implemented. For on-going monitoring and assessment purposes, opportunities have been included in 2012-2013 objectives for VPs and cascaded down to team members.

### Capital Update - Q3 Update

• Capital plan is being delivered as per the plan approved by the BOD in March 2012.

No material risks to the plan have arisen so far in fiscal 2012-2013.

• An asset review was conducted as per the March 2012 Board discussion and the findings will be presented at the February 2013 Board meeting.
