2012-13 Estimates

Parts I and II
The Government Expenditure Plan
and Main Estimates

Canada

The Estimates Documents

Each year, the government prepares Estimates in support of its request to Parliament for authority to spend public funds. This request is formalized through the introduction of appropriation bills in Parliament. The Estimates, which are tabled in the House of Commons by the President of the Treasury Board, consist of the following:

Part I – The Government Expenditure Plan provides an overview of federal spending and summarizes the key elements of the Main Estimates.

Part II – The Main Estimates directly support the Appropriation Act. The Main Estimates identify the spending authorities (Votes) and amounts to be included in subsequent appropriation bills. Parliament will be asked to approve these Votes to enable the government to proceed with its spending plans. Parts I and II of the Estimates are tabled on or before March 1.

Part III – Departmental Expenditure Plans are divided into two components:

- 1) **Reports on Plans and Priorities (RPP)** are individual expenditure plans for each department and agency (excluding Crown corporations). These reports provide increased levels of detail over a three-year period on an organization's main priorities by strategic outcome(s), program activity(ies) and planned/expected results, including links to related resource requirements. The RPPs also provide additional details on risk management, operational and management priorities, transformational projects and grants and contributions, etc. They are tabled in Parliament by the President of the Treasury Board on behalf of the ministers who preside over the appropriation-dependent departments and agencies identified in Schedules I, I.1 and II of the *Financial Administration Act*. These documents are typically tabled on or before March 31 and referred to committees, which may then report to the House of Commons pursuant to Standing Order 81(7).
- 2) **Departmental Performance Reports (DPR)** are individual department and agency accounts of results achieved against planned performance expectations as set out in respective RPPs. These Performance Reports, which cover the most recently completed fiscal year, are tabled in Parliament in the fall by the President of the Treasury Board on behalf of the ministers who preside over the appropriation-dependent departments and agencies identified in Schedules I, I.1 and II of the *Financial Administration Act*.

Supplementary Estimates directly support an Appropriation Act. The Supplementary Estimates identify the spending authorities (Votes) and amounts to be included in the subsequent appropriation bill. Parliamentary approval is required to enable the government to proceed with its spending plans. Supplementary Estimates are normally tabled three times a year, the first document in May, the second in late October and the final in late February. Each Supplementary Estimates document is identified alphabetically A, B, C, etc. In special circumstances, more than three Supplementary Estimates documents can be published in any given year.

The Estimates, along with the Minister of Finance's Budget, reflect the government's annual budget planning and resource allocation priorities. In combination with the subsequent reporting of financial results in the Public Accounts and of accomplishments achieved in DPRs, this material helps Parliament hold the government to account for the allocation and management of public funds.

2012–13 Estimates

Part I

The Government Expenditure Plan

Introduction

Purpose Expenditures made by government require the authority of parliament. That authority is provided in two ways: annual Appropriation Acts, or Supply Bills, that specify the amounts and broad purposes for which funds can be spent; and other specific statutes that authorize payments and set out the amounts and time periods for those payments. The amounts approved in appropriation acts are referred to as voted amounts, and the expenditure authorities provided through other statutes are called statutory authorities.

Estimates documents are prepared to support Appropriation Acts. As such, the Estimates provide additional information on voted amounts included in the Appropriation Act. Forecasts of statutory amounts are also presented to give a more complete picture of total parliamentary authorities to be used during the fiscal year.

Links with the Budget The Budget Plan is a key policy document of the Government, announcing tax changes, new or enhanced programs and anticipated revenues. It also provides an economic forecast. While the Budget, like a Supply Bill, is also a confidence measure, the budget does not provide parliamentary expenditure authority.

Given the differences in timing of the preparation of the Main Estimates and the Budget, it is not always possible to include emerging priorities and items announced in the Government's Budget in the Main Estimates. For 2012–13, the Main Estimates do not include deficit reduction action plan measures. Additional requirements for initiatives included in the 2012 Budget are presented through Supplementary Estimates.

The Estimates and Budget use different accounting methodologies. Estimates, with the focus on authority for payments in a fiscal year, are prepared on a near-cash basis. The Budget's economic forecast is prepared on a full accrual basis. A more complete explanation of the differences in methodology and a reconciliation between the annual results and amounts included in Estimates are presented in the Notes to the Financial Statements of the Government of Canada included in the Public Accounts.

The Estimates Documents

The Estimates are comprised of three parts:

Part I – The Government Expenditure Plan provides an overview of the Government's requirements and presents changes in planned expenditures from the previous year.

Part II – The Main Estimates directly supports the Appropriation Act. It contains detailed information on the spending plans and authorities being sought by each department and agency.

Parts I and II are included in this volume and, in accordance with Standing Orders of the House of Commons, must be tabled on or before March 1.

Part III – Departmental Expenditure Plans consist of two components:

1. **Reports on Plans and Priorities (RPP)** are individual expenditure plans for each department and agency. Crown Corporations present annual plans. These reports provide increased levels of detail over a three-year period on an organization's main priorities by strategic outcomes, program activities and planned/expected results, including links to related resource requirements presented in the Main Estimates.

The RPPs are typically tabled on or before March 31 by the President of the Treasury Board on behalf of the ministers who preside over the departments and agencies included in the Main Estimates.

2. **Departmental Performance Reports (DPR)** are individual department and agency accounts of results achieved against planned performance expectations as set out in the respective RPPs.

The Departmental Performance Reports for the most recently completed fiscal year are tabled in the fall by the President of the Treasury Board.

Supplementary Estimates support Appropriation Acts presented later in the fiscal year. Supplementary Estimates present information on spending requirements that were either not sufficiently developed in time for inclusion in the Main Estimates or have subsequently been refined to account for developments in particular programs and services. Supplementary Estimates also provide information on changes to expenditure forecasts of major statutory items as well as on such items as: transfers of funds between votes; debt deletion; loan guarantees; and new or increased grants.

The Estimates, along with the Budget, reflect the Government’s financial plans and resource allocation priorities. In combination with the subsequent reporting of financial results in the Public Accounts and of accomplishments achieved in DPRs, this material helps Parliament hold the Government to account for the allocation and management of public funds.

Summary of Main Estimates

The following table shows a breakdown of net voted and statutory expenditures as compared to previous Main Estimates, showing budgetary expenditures and authorities for non-budgetary activity.

	Budgetary Expenditures				Non-Budgetary Authorities			
	2012–13	2011–12	Change		2012–13	2011–12	Change	
			\$	%			\$	%
	<i>(billions of dollars)</i>				<i>(billions of dollars)</i>			
Voted	91.9	91.8	0.1	0.2	0.1	0.1	(20.0)
Statutory forecasts	160.0	159.0	1.0	0.6	(2.0)	(0.7)	(1.3)	191.1
Total	251.9	250.8	1.1	0.4	(1.9)	(0.6)	(1.3)	226.7

Note: Totals may not add and may not agree with details presented later in this document due to rounding.

These Estimates support the government’s request to Parliament for authority to expend through annual appropriations:

- \$91.9 billion for budgetary expenditures – operating and capital expenditures; transfer payments to other levels of government, organizations or individuals; and payments to Crown corporations; and
- \$0.1 billion for non-budgetary expenditures – net outlays and receipts related to loans, investments and advances, which change the composition of the financial assets of the Government of Canada.

Voted Amounts

These voted expenditures require annual approval from Parliament which is sought through an appropriation bill. The bill provides the specific wording that governs the purpose and conditions under which expenditures can be made and the funds subject to these terms and conditions.

Statutory forecasts represent payments to be made under legislation previously approved by Parliament. Statutory forecasts are included in these Estimates to provide a more complete picture of total estimated expenditures. Of these forecasts, \$160.0 billion is for budgetary expenditures including the cost of servicing the public debt. Recoveries on loans, investments and advances are expected to exceed expenditures by \$2.0 billion.

Statutory Forecasts

Non-budgetary amounts are comprised of payments for new or increased loans, investments and advances, less expected receipts of revenue from the investments and repayments of principal and interest on loans and advances.

Non-budgetary authorities: *Activities related to loans, investments and advances*

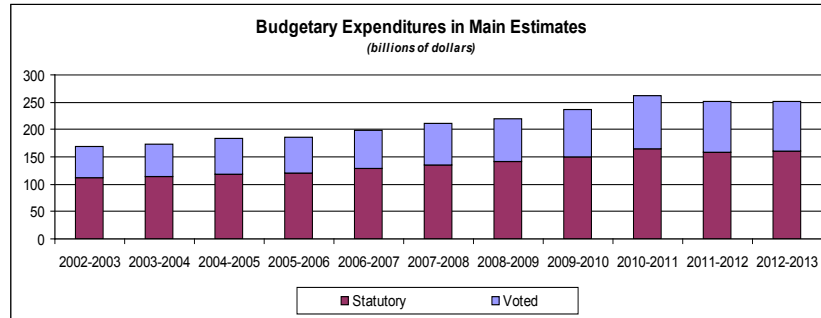

Net receipts related to loans, investments and advances are expected to be \$1.9 billion in 2012–13, an increase of \$1.3 billion from the \$0.6 billion presented in the 2011–12 Main Estimates. The voted amount to be included in the appropriation bill remains

virtually the same at \$0.1 billion. The net amount of receipts from loans, investments and advances issued under separate legislation is expected to increase by \$1.3 billion to \$2.0 billion.

Budgetary expenditures:
*Operating and capital;
transfer payments; and
public debt charges*

Total spending of \$251.9 billion in the 2012–13 Main Estimates for operating and capital, transfer payments and public debt charges is an increase of \$1.1 billion or 0.4% from the 2011–12 Main Estimates. There are increases in both the statutory and voted components of budgetary spending: an increase of \$0.1 billion or 0.2% in voted amounts and \$1.0 billion or 0.6% in forecasted statutory spending.

The following graph presents the voted and statutory components of budgetary expenditures and a comparison of budgetary expenditures included in the last ten years of Main Estimates.

Supplementary Estimates

Changes to statutory forecasts and additional voted expenditure authorities may be presented in Supplementary Estimates. As shown in the next table, budgetary expenditures in these Main Estimates are \$7.7 billion or 3.0% less than the total of 2011–12 Main and Supplementary Estimates. The amount by which recoveries on loans, investments and advances exceeds expenditures is expected to decrease by \$0.1 billion or 5.9%.

Estimates compared to previous total Estimates

	2011–12					2012–13	Change	
	Main	A	B	C	Total		\$	%
<i>(billions of dollars)</i>								
Budgetary expenditures								
Voted	91.8	2.0	4.3	1.2	99.4	91.9	(7.4)	(7.5)
Statutory forecasts	159.0	2.3	(1.6)	159.7	160.0	0.3	0.2
Sub-total	250.8	2.0	6.6	(0.4)	259.0	251.9	(7.1)	(2.8)
Multi-year appropriations ¹	0.6	(0.6)	(100.0)
Total budgetary expenditures	250.8	2.0	6.6	(0.4)	259.6	251.9	(7.7)	(3.0)
Non-budgetary authorities								
Voted	0.1	0.1	0.1	1.0
Statutory forecasts	(0.7)	(1.4)	0.2	(1.9)	(2.0)	(0.1)	5.7
Total non-budgetary authorities	(0.6)	(1.4)	0.2	(1.8)	(1.9)	(0.1)	5.9

Note: Totals may not add and may not agree with details presented later in this document due to rounding.

1. This adjustment includes amounts for the Canada Revenue Agency, the Parks Canada Agency and the Canada Border Services Agency who have been given multi-year appropriation authority.

The majority of expenditures in 2012–13 will be transfer payments – payments made to other levels of government, individuals and other organizations. Transfer payments make up approximately 61% of expenditures or \$154.7 billion, a projected increase of \$3.1 billion or 2.1% from previous Main Estimates.

Transfer Payments
\$154.7 billion

Operating and capital expenditures account for approximately 27% of expenditures or \$68.4 billion, a projected decrease of \$0.6 billion or 0.9% from previous Main Estimates.

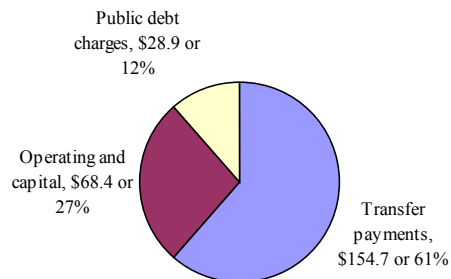

Operating and Capital
\$68.4 billion

Total public debt charges are approximately 12% of expenditures or \$28.9 billion, a projected decrease of \$1.4 billion or 4.6% from previous Main Estimates. The estimate has been adjusted to reflect the downward revision of forecasted interest rates by private sector economists. Public debt charges are comprised of interest on unmatured debt at \$19.7 billion and other interest charges at \$9.2 billion. Interest on unmatured debt is the interest resulting from certificates of indebtedness issued by the Government of Canada that have not yet become due. Other interest costs include interest on liabilities for federal public service pension plans and for deposit and trust accounts.

Public Debt Charges
\$28.9 billion

The following figure and table shows the composition of Estimates by budgetary expenditure type.

Composition of Estimates by Budgetary Expenditure Type
(billions of dollars)

Composition of the Estimates

	2012–13	2011–12	Change	
			\$	%
<i>(billions of dollars)</i>				
Net expenditures				
Transfer payments	154.7	151.6	3.1	2.1
Operating and capital	68.4	69.0	(0.6)	(0.9)
Public debt charges	28.9	30.3	(1.4)	(4.6)
Total net expenditures	251.9	250.8	1.1	0.5

Note: Totals may not add and may not agree with details presented later in this document due to rounding.

Major Transfer Payments

Major transfer payments – significant transfers to other levels of government and transfers to persons – are expected to be \$117.0 billion, 75.6% of total estimated transfer payment expenditures.

Transfers to other levels of government
\$55.6 billion

As presented in the following table, transfers to other levels of government are projected to increase by \$1.2 billion or 2.2% for a total of \$55.6 billion in 2012–13.

The Canada Health Transfer (CHT) is a federal transfer provided to provinces and territories in support of health care. CHT support is provided through cash payments and tax point transfers and is subject to the five conditions of the *Canada Health Act* and the prohibitions against extra-billing and user fees. The cash transfer levels of the CHT will increase by \$1.6 billion between 2011–12 and 2012–13, to \$28.6 billion, as a result of the 6% escalator announced in the September 2004 10-Year Plan to Strengthen Health Care. The cash transfer of the CHT will continue to grow by 6% per year until the end of the legislated period in 2013–14. On December 19, 2011, the Government committed to maintain growth in the CHT at 6% through 2016–17, and announced that, starting in 2017–18, the CHT will grow based on a 3-year moving average of nominal gross domestic product, with funding guaranteed to increase by at least 3% per year.

Major Transfer Payments

	2012–13	2011–12	Change	
			\$	%
<i>(billions of dollars)</i>				
Major Transfer Payments				
Transfers to other levels of government

Total transfers to persons	61.4	60.2	1.2	2.0
Total major transfer payments	117.0	114.6	2.4	2.1

Note: Totals may not add and may not agree with details presented later in this document due to rounding.

Fiscal Equalization refers to unconditional transfer payments to provinces so that they can provide their residents with public services that are reasonably comparable to those in other provinces, at reasonably comparable levels of taxation. These payments will be \$15.4 billion in 2012–13, an increase of \$0.8 billion or 5.2% from the Main Estimates 2011–12. Not included in the amount for 2012–13 are the payments for Total Transfer Protection (TTP) totalling \$679.7 million announced in December 2011 since these payments have not yet been legislated. As well, not included in the amount

for 2011–12 are the July 2011 payments of \$952.1 million for TTP, since the amount was included in Supplementary Estimates (B) 2011–12. TTP protects individual provinces against year-over-year declines in their total major cash transfers, including prior year TTP amounts.

The Canada Social Transfer (CST) is a federal transfer to provinces and territories in support of social assistance and social services, post-secondary education, and programs for children. For 2012–13, the increase of \$345.4 million or 3.0%, to \$11.9 billion, represents the legislated increase announced in Budget 2007. As announced in December 2011, the growth rate of 3% per year will be legislated for 2014–15 and subsequent years.

Territorial Financing payments, provided through the Territorial Formula Financing Program, are unconditional federal transfers provided to the three territorial governments that give territorial residents access to a range of public services comparable to those offered by provincial governments, at comparable levels of taxation. The transfers are based on a formula that fills the gap between the expenditure requirements and revenue-raising capacity of the territories. These payments of \$3.1 billion are \$234.6 million higher than in Main Estimates 2011–12 as a result of an increase in the Provincial/Territorial-Local Expenditure index that is used in the formula.

Transitional assistance payments of \$1.9 billion were presented in Main Estimates 2011–12 for the implementation of the harmonized sales tax in Ontario and British Columbia. These payments included a payment of \$1.3 billion to Ontario and of \$580 million to British Columbia.

Additional Fiscal Equalization Payments to Nova Scotia are payments related to its 2005 Offshore Accord. Following the introduction of a new formula for Equalization in 2007, Nova Scotia was guaranteed that, on a cumulative basis beginning in 2008–09 over the lifetime of the Accord, the new formula would not reduce its Equalization payments and 2005 Offshore Accord payments when compared with what the province would have received under the formula that was in place when it signed its 2005 Offshore Accord. Based on the first calculation of 2012–13, Nova Scotia is entitled to an advance payment of \$325.8 million in 2012–13.

Wait Times Reduction Funding is part of the 2004 10-Year Plan to Strengthen Health Care in which First Ministers committed to achieving reductions in wait times in priority areas such as cancer, heart, diagnostic imaging, joint replacements and sight restoration. Budget 2005 committed to a transfer of \$5.5 billion for wait times reduction. Of this amount, \$4.25 billion was provided to provinces and territories by way of third-party trusts. The remaining \$1.25 billion is being paid in bi-monthly instalments totalling \$250.0 million per year between 2009–10 and 2013–14.

The Additional Fiscal Equalization Offset Payment to Nova Scotia is a payment related to its 2005 Offshore Accord. This Accord guaranteed the province that its Equalization payments would not be reduced due to offshore oil and gas revenues that entered the Equalization formula. This is derived by applying the Equalization formula with and without offshore oil and gas revenues and comparing the resulting Equalization payments. For the 2004–05 to 2011–12 period, an upfront payment of \$830 million was provided to Nova Scotia in July 2005. This ensured that the province would receive at least that much in Accord compensation over the period. Offset amounts are calculated each year providing 100 percent protection from the inclusion of offshore revenues. In 2011–12, the cumulative draw down exceeded the advance payment and \$33.7 million will be paid to that province in March 2012. For 2012–13, this amount is \$146.1 million.

The Youth Allowance Recovery relates to tax points transferred to the province of Quebec for the Youth Allowance program, which has since expired. The equivalent value of the tax point reduction is recovered each year from the province of Quebec. The change in recoveries for the Youth Allowances Recovery Program is entirely due to year-over-year changes to the value of federal personal income taxes, the recovery being a percentage of these taxes. For 2012–13, the forecast recovery of \$746.2 million is \$60.5 million higher than the previous year due to higher forecast levels of federal personal income taxes.

Alternative Payments for Standing Programs represent recoveries from Quebec of an additional tax point transfer above and beyond the tax point transfer under the Canada Health Transfer (CHT), the Canada Social Transfer (CST) and the Youth

Allowances Recovery. The change in recoveries to the Alternative Payments for Standing Programs is entirely due to year-over-year changes to the value of federal personal income taxes, the recovery being a percentage of these taxes. For 2012–13, the forecast recovery of \$3.4 billion is \$275.7 million higher than the previous year due to higher forecast levels of federal personal income taxes.

Transfers to persons
\$61.4 billion

Transfers to persons are projected to increase by \$1.2 billion or 2.0% for 2012–13.

Elderly benefits include Old Age Security, Guaranteed Income Supplement and Allowance Payments, and earnings-related pension and insurance benefits provided under the Canada and Quebec Pension Plans. Elderly benefit payments are expected to increase by \$2.0 billion or 5.3%.

Employment Insurance benefits provides temporary financial assistance for unemployed Canadians while they look for work or upgrade their skills. Employment insurance benefit payments are forecast to decrease by \$0.9 billion or 4.6%.

Universal Child Care benefits provides families with resources to support childcare choices, and is paid to families in monthly instalments of \$100 per child under the age of six. Universal child care benefit payments are forecast to increase by \$87 million or 3.3%.

The following documents are available on the Treasury Board Secretariat website (www.tbs-sct.gc.ca):

- Statutory Forecasts
- Budgetary Expenditures by Standard Object
- Strategic Outcome and Program Activity Descriptions

Introduction

Structure of the Main Estimates

The purpose of these Estimates is to present to Parliament information in support of budgetary and non-budgetary spending authorities that will be sought through Appropriation bills. These authorities are divided into two categories – Voted and Statutory. Voted authorities are those for which the government must seek Parliament’s approval annually through an Appropriation Act. The wording and expenditure authority attributable to each Vote appears in a schedule attached to the Appropriation Act. Once approved, the Vote wording and approved amounts become the governing conditions under which these expenditures may be made; it does not create a commitment to spend the entire amount. Individual expenditure proposals included in Votes seek authority to make expenditures necessary to deliver various mandates that are under the administration of a Minister and are contained in legislation approved by Parliament. Statutory authorities are those that Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is included in the Estimates for information only.

The basic structural units of Part II are the Votes and Statutory items that, in total, comprise the proposed expenditures under each department or agency.

The following kinds of Votes appear in the Estimates:

Program Expenditures	<i>A program expenditures</i> vote is used when there is no requirement for either a separate “capital expenditures” vote or a “grants and contributions” vote because neither equals or exceeds \$5 million. In this case, all expenditures are charged to the one vote.
Operating Expenditures	<i>An operating expenditures</i> vote is used when there is also a requirement for either a “capital expenditures” vote or a “grants and contributions” vote or both; that is, when expenditures of either type equal or exceed \$5 million. Where they do not, the appropriate expenditures are included in the “program expenditures” vote.
Capital Expenditures	<i>A capital expenditures</i> vote is used when capital expenditures equal or exceed \$5 million. Expenditure items in a “capital expenditures” vote would include items expected to exceed \$10,000 for the acquisition of land, buildings and works (standard object 8), as well as the acquisition of machinery and equipment (standard object 9), or for purposes of constructing or creating assets, where a department expects to draw upon its own labour and materials, or employs consultants or other services or goods (standard objects 1 to 9). Different threshold limits may be applied for different capital expenditure classes at the departmental level.
Grants and Contributions	<i>A grants and contributions</i> vote is used when grants and/or contributions expenditures equal or exceed \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in the Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the vote wording, the meaning of the word “contributions” is considered to include “other transfer payments” because of the similar characteristics of each.
Non-Budgetary Authorities	<i>A non-budgetary</i> vote, identified by the letter “L”, provides authority for spending in the form of loans or advances to, and investments in, Crown corporations; and loans or advances for specific purposes to other governments, international organizations or persons or corporations in the private sector.
Crown Corporation and Separate Legal Entities	Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity that is part of a larger program, a separate vote is established. Where this is the case, a separate vote structure is established for each. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and responsible directly to a Minister.

**Treasury Board
Centrally Financed
Votes**

To support the Treasury Board in performing its statutory responsibilities for managing the government's financial, human and materiel resources, a number of special authorities are required and these are outlined below.

The *Government Contingencies* vote serves to supplement other appropriations and to provide for miscellaneous, urgent or unforeseen expenditures not otherwise provided for, including grants and contributions not listed in the Estimates and the increase of the amount of grants listed in these Estimates, where those expenditures are within the legal mandate of a government organization, and authority to re-use any sums allotted and repaid to this appropriation from other appropriations.

The *Government-Wide Initiatives* vote supplements other appropriations in support of the implementation of strategic management initiatives in the Public Service of Canada.

The *Public Service Insurance* vote provides for the payment of the employer's share of health, income maintenance and life insurance premiums; for payments to or in respect of provincial health insurance plans; provincial payroll taxes; pension, benefit and insurance plans for employees engaged locally outside Canada; and to return to certain employees their share of the unemployment insurance premium reduction.

The *Operating Budget Carry Forward* vote supplements other appropriations for the operating budget carry forward from the previous fiscal year.

The *Paylist Requirements* vote supplements other appropriations for requirements related to parental and maternity allowances, entitlements on cessation of service or employment and adjustments made to terms and conditions of service or employment of the public service including members of the Royal Canadian Mounted Police and the Canadian Forces, where these have not been provided from the Compensation Adjustments Vote.

The *Capital Budget Carry Forward* vote supplements other appropriations for the capital budget carry forward from the previous fiscal year.

Presentation by Ministry, Department, Agency and Crown corporation

The activities for the departments, agencies and Crown Corporations for which a Minister is responsible, or reports to Parliament, are grouped together to provide a total ministry presentation. The ministries are then arranged alphabetically to make up the complete Main Estimates. Ministries of State, which may be formed under authority of the *Government Organization Act, 1970*, involve a more restrictive meaning of the term Ministry than that used here. Ministries of State are treated as departments for presentation purposes in these Estimates.

Each ministry presentation begins with a Ministry Summary table that shows, by Vote or Statutory item, the amount included in the Main Estimates for all organizations comprising that ministry. Abbreviated wordings are used in this table.

All Estimates data shown for the previous year are taken from the Main Estimates of that year. This ensures that all financial information is displayed on a consistent year-over-year basis. Where necessary, adjustments are made to the previous year amounts to reflect changes in organizational structure including changes in ministerial responsibility, to provide a more relevant basis for comparison.

In general, the individual organizational presentation is made up of various sections, as explained below. Where a section is not appropriate, it does not appear in the presentation.

- **Raison d'être**

This section provides a brief explanation of why the organization exists and the benefits it provides to the Canadians.

- **Highlights**
In this section, the department, agency or Crown Corporation provides an explanation of the major item or items that give rise to a year-over-year financial change in Main Estimates, or, where there has not been a material year-over-year change, the department or agency may reference priorities in the Report on Plans and Priorities or Corporate Plan.
- **Program by Activities Tables**
These tables show the total financial resources proposed by program activity for budgetary expenditures and, where applicable, non-budgetary authorities. The amounts of the Voted and Statutory authorities are combined and distributed across each program activity. Budgetary expenditures for each activity are presented under the headings of Operating; Capital; and Transfer payments. Revenues credited to the Vote, for those departments and agencies authorized to do so, and revenues associated with revolving funds are also included in the budgetary expenditure table.
- **Transfer Payments**
If applicable, this table provides a listing of transfer payments.
A transfer payment is a grant, contribution or other payment made for the purpose of furthering program objectives but for which no goods or services are received.
Grants, contributions and other transfer payments differ in several respects:
 - Contributions are transfer payments where the recipients must meet performance conditions and may be subject to audit;
 - Grants are transfer payments made on the basis of established eligibility and not normally subject to audit;
 - Grants and their total values have a legislative character and specific descriptions that govern their use; and
 - Other transfer payments are transfer payments, other than grants and contributions, based on legislation or an arrangement which may include a formula to determine the annual amounts.

Explanation of Summary Tables

There are four government-wide summary tables.

- **Summary of Estimates by Organization** (located in the front of the publication) – This table identifies budgetary and non-budgetary Main Estimates by department, agency and Crown corporation and by type of Parliamentary authority (annually voted or statutory). Budgetary expenditures encompass the cost of servicing the public debt; operating and capital expenditures; transfer payments and subsidies to other levels of government, organizations and individuals; and payments to Crown corporations and separate legal entities. Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.
This table also includes the forecast of total expenditures associated with the Employment Insurance Operating Account. The transactions associated with this account are reported as part of budgetary expenditures in the Public Accounts of Canada.
- **Items for inclusion in the Proposed Schedules to the Appropriation Bill** (located in the Annex) – This table shows the Vote number, wording and Main Estimates amounts for all Votes that will be proposed to Parliament for approval.
- **Statutory Forecasts** – This table provides the current expenditure forecast for each statutory authority within a department or agency, for which a financial requirement has been identified. This table is posted on the Treasury Board Secretariat website.
- **Budgetary Expenditures by Standard Object of Expenditure** – This table shows the forecast of total expenditures by Standard Object, which includes the types of goods or services to be acquired, or the transfer payments to be made and the revenues to be credited to the vote. This table is posted on the Treasury Board Secretariat website.

Changes in 2012–13 Main Estimates

The purpose of this section is to provide a reconciliation of the 2012–13 Main Estimates with the 2011–12 Main Estimates in the following three areas:

- Changes to government organization and structure;
- Changes in authorities (Votes and Statutory items); and
- Changes to program activity architectures (strategic outcomes and program activity descriptions).

Changes to Government Organization and Structure

Following the tabling of the 2011–12 Main Estimates on June 3, 2011, pursuant to the *Public Service Rearrangement and Transfer of Duties Act*, there were no changes to the structure of Government reflected in Supplementary Estimates (A), 2011–12.

The following structure changes were reflected in Supplementary Estimates (B), 2011–12:

In June 2011, section 31.1 (below) was added to the *Financial Administration Act* through the passage of the *Supporting Vulnerable Seniors and Strengthening Canada's Economy Act*.

31.1 If an order is made under section 2 of the *Public Service Rearrangement and Transfer of Duties Act*, all of the unexpended money authorized by an Act of Parliament to be paid and applied for the purposes of any power, duty or function or control or supervision of a portion of the federal public administration that is transferred as a result of the operation of sections 2 and 3 of that Act is deemed to have been appropriated for the purposes of the power, duty, function, control or supervision to the department in, or portion of, the federal public administration to which it was transferred.

Under section 31.1, a transfer of responsibilities under the *Public Service Rearrangement and Transfer of Duties Act* is accompanied by the movement of the associated spending authority.

1. **Public Service Commission** – Order in Council P.C. 2011-0796 transfers the Internal Electronic Staffing Process from Human Resources and Skills Development to the Public Service Commission, effective July 1, 2011.
2. **National Capital Commission** – Order in Council P.C. 2011-0583 designates the Minister of Foreign Affairs, a member of the Queen's Privy Council for Canada, as the Minister for the purposes of the *National Capital Act*, effective May 18, 2011.
3. **Canadian Northern Economic Development Agency** – Order in Council P.C. 2011-0586 designates the Minister of Health as the appropriate Minister for the Canadian Northern Economic Development Agency for the purposes of the *Financial Administration Act*, effective May 18, 2011.
4. **Office of the Co-ordinator, Status of Women** – Order in Council P.C. 2011-0588 designates the Minister of Human Resources and Skills Development as the appropriate Minister for the Office of the Co-ordinator, Status of Women for the purposes of the *Financial Administration Act*, effective May 18, 2011.

Changes in 2012–13 Main Estimates

- 5. Old Port of Montreal Corporation Inc.** – Order in Council P.C. 2011-0585 designates the Minister of Public Works and Government Services, a member of the Queen’s Privy Council for Canada, as the appropriate Minister for the Canada Lands Company Limited for the purposes of the *Financial Administration Act*, effective May 18, 2011.

There were changes to the structure of Government reflected in Supplementary Estimates (C), 2011–12:

- 6. Shared Services Canada** – Order in Council P.C. 2011-0881 established Shared Services Canada as a department, effective August 4, 2011. Subsequent Orders in Council P.C. 2011-0877 and P.C. 2011-1297 transferred the control and supervision of certain portions of the federal public administration related to information technology infrastructure services.
- 7. Canadian Northern Economic Development Agency** – Order in Council P.C. 2011-1290 transfers the control and supervision of the Canadian Northern Economic Development Agency from the Minister of Indian Affairs and Northern Development to the Minister of Health for the purposes of the *Public Service Rearrangement and Transfer of Duties Act*, effective November 15, 2011.

The following structure change was made through these Main Estimates:

- 8. Communications Security Establishment** – Order in Council P.C. 2011-1301 established Communications Security Establishment as a department under Schedule 1.I of the *Financial Administration Act*, effective November 15, 2011.

Changes in Authorities (Votes and Statutory Items)

The “Changes in Authorities” sub-section details those Votes which contain specific authorities that differ from those included in the previous year’s Main Estimates as well as new expenditure authorities appearing for the first time. In light of the House of Commons Speaker’s rulings in 1981, the government has made a commitment that the only legislation that will be enacted through the Estimates process, other than cases specifically authorized by Statute, will be previous Appropriation Acts. Proposed changes to existing wording are underlined for ease of reference.

On June 26, 2011, section 29.2(1) of the *Financial Administration Act* came into force authorizing departments to provide administrative services to other organizations or collaborate on the provision of internal support services. Organizations that do not have authority to respend revenues must seek authority through an Appropriation Act as required by paragraph 29.1(2)(a) of the *Financial Administration Act*. The following organizations sought such authority:

- Agriculture and Agri-Food – *Department* – Vote 1
- Canadian Heritage – *Department* – Vote 1
- Canadian Heritage – *Public Service Commission* – Vote 95
- Canadian Heritage – *Public Service Labour Relations Board* – Vote 100
- Environment – *Department* – Vote 1
- Finance – *Department* – Vote 1
- Fisheries and Oceans – Vote 1
- Health – *Department* – Vote 1
- Health – *Public Health Agency of Canada* – Vote 50
- Indian Affairs and Northern Development – *Department* – Vote 1

Changes in 2012–13 Main Estimates

- Industry – *Department* – Vote 1
- Justice – *Department* – Vote 1
- Justice – *Canadian Human Rights Commission* – Vote 10
- Justice – *Office of the Director of Public Prosecutions* – Vote 35
- National Defence – *Department* – Vote 1
- National Defence – *Communications Security Establishment* – Vote 20
- Natural Resources – *Department* – Vote 1
- Privy Council – *Department* – Vote 1
- Public Safety and Emergency Preparedness – *Department* – Vote 1
- Public Safety and Emergency Preparedness – *Royal Canadian Mounted Police* – Vote 45
- Public Works and Government Services – *Department* – Vote 1
- Transport – *Department* – Vote 1
- Treasury Board – *Secretariat* – Vote 1

Atlantic Canada Opportunities Agency – *Department* – A new Statutory item was added “(S) Minister of State (Atlantic Canada Opportunities Agency) (La Francophonie) – Motor car allowance”.

Canadian Heritage – *Canadian Museum of Immigration at Pier 21* – This new organization has Vote 40 “Payments to the Canadian Museum of Immigration at Pier 21 for operating and capital expenditures”.

Environment – *Department* – Vote 10 wording was modified by changing “... cash payments ...” to “... monetary payments ...”.

Finance – *Department* – Non-budgetary votes wording were modified. Vote L10 “Pursuant to subsection 8(2) of the *Bretton Woods and Related Agreements Act*, the amount of financial assistance provided by the Minister of Finance for the purchase of shares of the International Bank for Reconstruction and Development shall not exceed an amount of \$98,141,398 in United States dollars over the period 2011–12 to 2015–16” and Vote L15 “In accordance with the *Bretton Woods and Related Agreements Act*, the issuance and payment of non-interest bearing, non-negotiable demand notes in an amount not to exceed \$441,620,000 to the International Development Association”. New Statutory items were added, “(S) Minister of State – Motor car allowance”; “(S) Additional Fiscal Equalization Payment – Total Transfer Protection (Part I – *Federal-Provincial Fiscal Arrangements Act*)”; “(S) Transitional Payment to Newfoundland and Labrador (*Nova Scotia and Newfoundland and Labrador Additional Fiscal Equalization Offset Payments Act*)”; “(S) Incentive for Provinces to Eliminate Taxes on Capital (Part IV – *Federal-Provincial Fiscal Arrangements Act*)”; “(S) Additional Fiscal Equalization Offset Payment to Nova Scotia (*Nova Scotia and Newfoundland and Labrador Additional Fiscal Equalization Offset Payments Act*)”; “(S) Fiscal Equalization to Nova Scotia (Part I – *Federal-Provincial Fiscal Arrangements Act*)”; “(S) Payments to Ontario and Prince Edward Island (Part I.01 – *Federal-Provincial Fiscal Arrangements Act*)”; “(S) International Bank for Reconstruction and Development for the Agriculture Advance Market Commitment (*Bretton Woods and Related Agreements Act*, Section 8)”; “(S) Payment to International Bank for Reconstruction and Development”.

Foreign Affairs and International Trade – *Department* – Vote 10 wording was modified with the following “The grants listed in the Estimates and contributions, which may include: with respect to Canada’s Global Partnership Program (under the G8 Global Partnership), Canada’s Counter-Terrorism Capacity Building Program, the Anti-Crime Capacity Building Program, the Afghanistan Counter-Narcotics Program, the Global Peace and Security Program, Global Peace Operations Program

Changes in 2012–13 Main Estimates

and Glyn Berry Program, in the form of monetary payments or the provision of goods or services; authority to make commitments for the current fiscal year not exceeding \$30,000,000, in respect of contributions to persons, groups of persons, councils and associations to promote the development of Canadian export sales; and, authority to pay assessments in the amounts and in the currencies in which they are levied as well as the authority to pay other amounts specified in the currencies of the countries indicated, notwithstanding that the total of such payments may exceed the equivalent in Canadian dollars, estimated as of September 2011” and a new vote was added, Vote 15 “Payments, in respect of pension, insurance and social security programs or other arrangements for employees locally engaged outside of Canada, or in respect of the administration of such programs or arrangements, including premiums, contributions, benefit payments, fees and other expenditures made in respect of employees locally engaged outside Canada and for such other persons, as Treasury Board determines”.

Foreign Affairs and International Trade – *Canadian International Development Agency* – Vote 30 wording was modified with the following text “The grants listed in the Estimates and contributions for international development assistance, international humanitarian assistance and other specified purposes, in the form of monetary payments or the provision of goods or services”; the non-budgetary Vote L35 wording was amended by changing the amount “ ... in an amount not to exceed \$246,114,000 ... ” and the non-budgetary Vote L40 wording was amended by changing the dates and the amounts “ ... commencing on April 1, 2012 and ending on March 31, 2013, an amount of \$82,176,248 US which amount is estimated in Canadian dollars at \$83,307,437”.

Foreign Affairs and International Trade – *National Capital Commission* – Resulting from the change in government structure (P.C. 2011-0583), two new votes were added, Vote 55 “Payments to the National Capital Commission for operating expenditures” and Vote 60 “Payments to the National Capital Commission for capital expenditures”.

Health – *Canadian Northern Economic Development Agency* – Resulting from the change in government structure, P.C. 2011-0586, two new votes were added, Vote 30 “Operating expenditures” and Vote 35 “Contributions”.

Human Resources and Skills Development – *Office of the Co-ordinator, Status of Women* – Resulting from the change in government structure (P.C. 2011-0588), two new votes and a Statutory item were added, Vote 30 “Operating expenditures and the payment to each member of the Queen’s Privy Council for Canada who is a Minister without Portfolio or a Minister of State who does not preside over a Ministry of State of a salary not to exceed the salary paid to Ministers of State who preside over Ministries of State under the *Salaries Act*, as adjusted pursuant to the *Parliament of Canada Act* and pro rata for any period less than a year”; Vote 35 “The grants listed in the Estimates and contributions” and “(S) Contributions to employee benefit plans”.

Indian Affairs and Northern Development – *Department* – Vote 5 wording was modified by changing “ ... Minister of Aboriginal Affairs and Northern Development, ... ”.

Changes in 2012–13 Main Estimates

Industry – Department – A new Statutory item was added, “(S) Contributions to the Canadian Youth Business Foundation”.

National Defence – Department – Vote 1 wording was modified by adding the following text “... and authority to make payments, in respect of pension, insurance and social security programs or other arrangements for employees locally engaged outside of Canada, or in respect of the administration of such programs or arrangements, including premiums, contributions, benefits, fees, and other expenditures, made in respect of employees locally engaged outside of Canada and for such other persons, as Treasury Board determines, ...”; Vote 10 wording was modified by changing “... cash payments ...” to “... monetary payments ...” and a new Statutory item was added “(S) Associate Minister of National Defence – salary and motor car Allowance”.

National Defence – Communications Security Establishment – This new organization has a new vote and a Statutory item: Vote 20 “Program expenditures and pursuant to paragraph 29.1(2)(a) of the *Financial Administration Act*, authority to expend revenues received during the fiscal year arising from the operations of the department” and “(S) Contribution to employee benefit plans”.

Natural Resources – Department – A new Statutory item was added, “(S) Grant to the Canada Foundation for Sustainable Development Technology”.

Natural Resources – Atomic Energy of Canada Limited – A new Statutory item was added, “(S) Pursuant to section 2146 of the *Jobs and Economic Growth Act*, for the divestiture of Atomic Energy of Canada Limited”.

Public Works and Government Services – Old Port of Montreal Corporation Inc. – Resulting from the change in government structure (P.C. 2011-0585), a new vote was added, Vote 15 “Payments to the Old Port of Montreal Corporation Inc. for operating and capital expenditures”.

Public Works and Government Services – Shared Services Canada – This new organization has two votes and a Statutory item: Vote 20 “Operating expenditures and, pursuant to paragraph 29.1(2)(a) of the *Financial Administration Act*, authority to expend revenues received in a fiscal year to offset expenditures incurred in that fiscal year arising from the provision of information technology services”; Vote 25 “Capital expenditures” and “(S) Contribution to employee benefit plans”.

Transport – Office of Infrastructure of Canada – A new Statutory item was added “(S) Infrastructure Stimulus Fund”.

Changes in 2012–13 Main Estimates

Changes to Program Activity Architectures (Strategic Outcomes, Program Activities and Program Activity Descriptions)

Each organization listed in the Main Estimates is described in terms of its strategic outcomes, program activities and program activity descriptions. This sub-section provides a listing of those departments, agencies and Crown corporations with changes to their strategic outcomes, program activities, or program activity descriptions. Unless otherwise noted, when a department undergoes a major change, the old and new structures will be displayed in the Program by Activities table. Where applicable, the 2012–13 Report on Plans and Priorities, to be tabled later, will provide a detailed crosswalk of major changes between the old and the new structure plus an explanation as to why the changes were made.

Canadian Air Transport Security Authority

Summary of Estimates by Organization

The Summary of Estimates by Organization identifies budgetary and non-budgetary Main Estimates by department, agency and Crown corporation and by type of Parliamentary authority (annually voted or statutory). Budgetary expenditures encompass the cost of servicing the public debt; operating and capital expenditures; transfer payments and subsidies to other levels of government, organizations and individuals; and payments to Crown corporations and separate legal entities. Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada.

This table also includes the forecast of total expenditures associated with the Employment Insurance Operating Account. The transactions associated with this account are reported as part of budgetary expenditures in the Public Accounts of Canada.

Agriculture and Agri-Food

Agriculture and Agri-Food

Raison d'être

The Department of Agriculture and Agri-Food Canada was created in 1868 – one year after Confederation – because of the importance of agriculture to the economic, social and cultural development of Canada. Today, the Department helps ensure the agriculture, agri-food and agri-based products industries can compete in domestic and international markets, deriving economic returns to the sector and the Canadian economy as a whole. Through its work, the Department strives to help the sector maximize its long-term profitability and competitiveness, while respecting the environment and the safety and security of Canada's food supply.

Highlights

Agriculture and Agri-Food Canada is estimating budgetary expenditures of \$2.4 billion in 2012–13. Of this amount, \$1.1 billion requires approval by Parliament. The remaining \$1.3 billion represents statutory forecasts that do not require additional approval and are provided for information purposes.

A decrease in Main Estimates of \$152.9 million is due to a decrease in operating of \$105.7 million, a decrease in capital of \$1.4 million, a decrease in grants of \$12.8 million, and a decrease in contributions of \$33.0 million. Factors contributing to the changes are the following:

- \$38.4 million increase for the Agricultural Innovation program, announced in Budget 2011, to help increase the competitiveness of the sector through support for innovation;
- \$29.0 million increase in funding for Non-Business Risk Management programming under Growing Forward;
- \$26.5 million increase for the extension of the ecoAgriculture Biofuels Capital Initiative in order to enable more producers and biofuels projects to get funding under the initiative, which ensures that agricultural producers have an opportunity to invest and participate in the emerging renewable fuels industry;
- \$8.9 million increase for the extension of the control of diseases in the hog industry, which contributes to the prosperity and stability of the sector through biosecurity and best management practices, research and long term risk management solutions, as announced in Budget 2011;
- \$107.9 million reduction related to the sunseting of administrative funding and reduced forecasted statutory grant and contribution requirements under Business Risk Management programs;
- \$74.5 million reduction related to the Agricultural Flexibility Fund, to help the agriculture sector adapt to pressures and improve its competitiveness, to align with requirements of approved projects as well as a reallocation of funding to support the Agricultural Innovation program;
- \$29.6 million reduction related to the sunseting of the Slaughter Improvement program (to strengthen the competitiveness of Canada's red meat packing and processing industry); and
- \$22.6 million reduction related to the transfer to Shared Services Canada to consolidate and transform IT infrastructure across government.

Agriculture and Agri-Food

Canadian Dairy Commission

Raison d'être

The Canadian Dairy Commission (CDC) is a federal Crown corporation created in 1966 through the *Canadian Dairy Commission Act*. It reports to Parliament through the Minister of Agriculture and Agri-Food Canada. Its legislated objectives are twofold: to provide efficient producers of milk and cream with the opportunity of obtaining a fair return for their labour and investment; and to provide consumers of dairy products with a continuous and adequate supply of dairy products of high quality.

The CDC plays a central facilitating role for the multi-billion dollar Canadian dairy industry. Federal-provincial agreements now provide the authority for many of the programs and activities that the CDC employees administer and facilitate on a day-to-day basis. The CDC strives to balance and serve the interests of all dairy stakeholders — producers, processors, further processors, exporters, consumers and governments.

Highlights

The Canadian Dairy Commission is estimating budgetary expenditures of \$3.9 million in 2012–13. Of this amount, \$3.9 million requires approval by Parliament.

The Canadian Dairy Commission uses appropriations to pay for salaries, benefits, office expenses and material such as computers and software. These resources are used by the CDC to fulfill its mandate. Main activities include the establishment of support prices, the calculation of demand for dairy products and the setting of milk quotas, as well as various internal services.

Agriculture and Agri-Food

Canadian Food Inspection Agency

Raison d'être

The Canadian Food Inspection Agency (CFIA) is Canada's largest science-based regulatory agency. It operates across Canada in the National Capital Region (NCR) and in four operational areas (Atlantic, Quebec, Ontario and Western).

The CFIA is dedicated to safeguarding food, animals and plants, and contributing to a safe and accessible food supply and plant and animal resource base — thereby enhancing the health and well-being of Canada's people, environment, and economy.

The CFIA's activities contribute to protecting Canadian and international consumers, Canadian agricultural production (including forestry) and our environment. In turn, these activities benefit Canadian farmers, fishers, foresters, processors and distributors (including importers and exporters), as well as consumers.

In an international context, the CFIA strives to ensure that the international regulatory framework (as it relates to the Agency's mandate) is strong, coherent, and science-based.

Highlights

The Canadian Food Inspection Agency is estimating budgetary expenditures of \$685.5 million in 2012–13. Of this amount, \$551.5 million requires approval by Parliament. The remaining \$134.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The 2012–13 Main Estimates for the CFIA total \$685.5 million, a decrease of \$33.5 million from the 2011–12 Main Estimates of \$719.0 million. Factors contributing to the net decrease include:

- An increase of \$5.0 million due to the completion of repayment of the funding received from the Treasury Board's Management Reserve in 2007–08;
- An increase of \$3.7 million to continue to strengthen and modernize Canada's safety systems for health, consumer and food products to protect the health of Canadians, through program investments and legislative amendments;
- A decrease of \$17.4 million due to sunseting resources for Listeriosis which enhanced the Agency's ability to prevent, detect and respond to outbreaks of food-borne illness, pursuant to recommendations from the report of the 2008 Listeriosis outbreak;
- A decrease of \$12.6 million due to the sunseting of resources that supported increasing the frequency of food inspections in meat processing establishments; and
- A decrease of \$11.2 million for the transfer to Shared Services Canada to consolidate and transform the information technology infrastructure for the Government of Canada.

Agriculture and Agri-Food

Canadian Grain Commission

Raison d'être

The Canadian Grain Commission (CGC) is a federal government agency that administers the provisions of the *Canada Grain Act* (CGA). The CGC's mandate as set out in the CGA is to, in the interests of the grain producers, establish and maintain standards of quality for Canadian grain and regulate grain handling in Canada, to ensure a dependable commodity for domestic and export markets. CGC's vision is to be "A leader in delivering excellence and innovation in grain quality and quantity assurance, research, and producer protection". The CGC reports to Parliament through the Minister of Agriculture and Agri-Food.

Highlights

The Canadian Grain Commission is estimating budgetary expenditures of \$5.5 million in 2012–13. Of this amount, \$4.8 million requires approval by Parliament. The remaining \$622.2 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The decrease in net authority of \$30.1 million is due to the sunsetting of ad hoc funding as identified in Budget 2010. Ad hoc funding will be sought through the 2012–13 Supplementary Estimates process.

Atlantic Canada Opportunities Agency

Atlantic Canada Opportunities Agency

Raison d’être

Established in 1987 (Part I of the *Government Organization Act, Atlantic Canada 1987*, R.S.C., 1985, c.41, also known as the *Atlantic Canada Opportunities Agency Act*), the Atlantic Canada Opportunities Agency (ACOA) is the federal department responsible for the Government of Canada’s economic development efforts in the provinces of New Brunswick, Prince Edward Island, Nova Scotia, and Newfoundland and Labrador.

ACOA works to create opportunities for economic growth in Atlantic Canada by helping businesses become more competitive, innovative and productive, by working with diverse communities to develop and diversify local economies, and by championing the strengths of Atlantic Canada. Together, with Atlantic Canadians, we are building a stronger economy.

Highlights

The Atlantic Canada Opportunities Agency is estimating budgetary expenditures of \$307.5 million in 2012–13. Of this amount, \$299.6 million requires approval by Parliament. The remaining \$7.9 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Atlantic Canada Opportunities Agency’s decrease in net spending of \$10.5 million is due to a decrease in transfer payments of \$1.6 million, and a decrease in operating costs of \$8.9 million. Factors contributing to the net decrease include:

- \$10.8 million decrease resulting from savings identified as a result of strategic review, comprised of decreases of \$6.1 million in operating expenditures and \$4.7 million in contributions under the Business Development Program;
- \$3.2 million decrease in operating expenditures transferred to Shared Services Canada in support of the consolidation and transformation of IT infrastructure;
- \$1.9 million decrease in contributions under the Business Development Program and a \$0.1 million decrease in operating expenditures for the sunseting of funding for the Official Languages Action Plan;
- \$0.1 million decrease in operating expenditures for the sunseting of funding under the Canada Strategic Infrastructure Fund;
- offset by, \$5.0 million increase in contributions for the Innovative Communities Fund resulting from funding in support of community economic development priorities in New Brunswick for community projects such as the establishment of multifunctional facilities and new recreational infrastructures; and
- \$0.6 million increase in operating expenditures for the delivery of large-scale and community-based infrastructure projects under the Building Canada Program.

Atlantic Canada Opportunities Agency

Enterprise Cape Breton Corporation

Raison d’être

The Enterprise Cape Breton Corporation (ECBC) is a federal Crown corporation that promotes and coordinates economic development throughout Cape Breton Island and a portion of mainland Nova Scotia in and around the town of Mulgrave.

In addition to its own programs, ECBC is also responsible for the delivery of programs of the Atlantic Canada Opportunities Agency on Cape Breton Island and the programs of the former Cape Breton Development Corporation.

ECBC is the principal federal entity for commercial and community economic development on Cape Breton Island and in Mulgrave.

Highlights

The Enterprise Cape Breton Corporation is estimating budgetary expenditures of \$57.3 million in 2012–13. Of this amount, \$57.3 million requires approval by Parliament.

A decrease of \$7,758,000 to the total spending authority is based on the following:

- The projection of long-term liability provisions confirms that the overall cost for environmental obligations is declining over each planning period as construction and engineering is completed on various sites; and
- In addition, there are over 570 former employees participating in a number of Early Retirement Incentive Plans (ERIPs) which were negotiated in the past through the collective bargaining process in response to downsizing and mine closures. The cost for these plans will decrease annually over the next ten years as recipients reach age 65. The ERIPs are scheduled to expire in 2022.

Canada Revenue Agency

Canada Revenue Agency

Raison d'être

The Canada Revenue Agency (CRA) is responsible for administering, assessing, and collecting hundreds of billions of dollars in taxes annually. The tax revenue it collects is used by federal, provincial, territorial and First Nations governments to fund the programs and services that contribute to the quality of life of Canadians. The CRA also uses its federal infrastructure to deliver billions of dollars in benefits, tax credits, and other services that support the economic and social well-being of Canadian families, children and persons with disabilities.

In carrying out its mandate the CRA strives to ensure that Canadians:

- pay their required share of taxes;
- receive their rightful share of entitlements; and
- are provided with an impartial and responsive review of contested decisions.

Highlights

The Canada Revenue Agency is estimating budgetary expenditures of \$4.4 billion in 2012–13. Of this amount, \$3.2 billion requires approval by Parliament. The remaining \$1.2 billion represents statutory forecasts that do not require additional approval and are provided for information purposes.

In total the Agency is expecting an increase of \$81.9 million or 1.9% from previous Main Estimates.

This change is due to an increase in other transfer payments of \$146.0 million offset by decreases in operating costs of \$54.7 million as well as higher expected recoveries of costs associated with the administration of the Canada Pension Plan (CPP) and Employment Insurance (EI) activities of \$9.4 million which serve to lower the voted appropriations.

In more detail, the increase in net spending is explained by the following factors:

- \$140.7 million related to the Softwood Lumber Agreement, including \$140 million for increased disbursements to provinces and \$0.7 million in administration costs;
- \$69.3 million related to the implementation of the Harmonized Sales Tax in Ontario and British Columbia and the Affordable Living Tax Credit in Nova Scotia;
- \$38.9 million related to 2011 Federal Budget measures that affect individuals, benefit recipients, trusts, businesses and charitable organizations;
- \$17.2 million related primarily to adjustments to accommodation and real property services provided by Public Works and Government Services Canada;
- \$9.0 million for the upgrade of the personal income tax processing system;
- \$6.0 million in payments under the *Children's Special Allowance Act* (CSA) for eligible children in the care of agencies and foster parents;
- \$5.0 million for various initiatives announced in the 2008, 2009 and 2010 Federal Budgets; and
- \$1.0 million for government advertising programs.

The above mentioned increases are offset by the following decreases:

- \$164.6 million related to the transfer to Shared Services Canada (SSC) for IT services;
- \$23.5 million in the spending of revenues received through the conduct of its operations, primarily attributable to the work performed by the CRA on behalf of the Canada Border Services Agency transferred to SSC;
- \$8.7 million for contributions to employee benefit plans;
- \$8.1 million related to the administration of corporate tax in Ontario; and
- \$0.3 million for various other initiatives.

Canadian Heritage

Canadian Heritage

Raison d'être

The Department of Canadian Heritage and Canada's major national cultural institutions play a vital role in the cultural, civic and economic life of Canadians. We work together to support culture, arts, heritage, official languages, citizenship and participation, in addition to Aboriginal, youth, and sport initiatives.

Highlights

Canadian Heritage is estimating budgetary expenditures of \$1.3 billion in 2012–13. Of this amount, \$1.3 billion requires approval by Parliament. The remaining \$23.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net increase of \$137.3 million in planned spending is mainly due to the following:

- A net increase of \$100.0 million for the Canada Media Fund;
- A net increase of \$29.9 million for the Aboriginal Peoples' Program related to the Cultural Connections for Aboriginal Youth and the Aboriginal Languages Initiative;
- A net increase of \$15.0 million for the Canada Periodical Fund; and
- A net decrease of \$12.1 million for the transfer of funds to Shared Services Canada to consolidate and transform IT infrastructure across government.

Canadian Heritage

Canada Council for the Arts

Raison d’être

The Canada Council for the Arts is a Crown corporation created in 1957 “to foster and promote the study and enjoyment of, and the production of works in, the arts.”

The Council offers a broad range of grants and services to professional Canadian artists and arts organizations in music, theatre, writing and publishing, visual arts, dance, media arts and integrated arts. It also awards prizes and fellowships. It further seeks to raise public awareness of the arts through its communications, research and arts promotion activities.

The Canadian Commission for UNESCO and the Public Lending Right Commission operate within the Council. The Canada Council Art Bank rents works of contemporary Canadian art to the public and private sectors.

Highlights

The Canada Council for the Arts is estimating budgetary expenditures of \$181.8 million in 2012–13. Of this amount, \$181.8 million requires approval by Parliament.

The Canada Council for the Arts’ (CCA) planned expenditures remain the same as the previous year. Over the next five years, CCA will continue its work to further enrich and deepen the artistic and cultural experience of Canadians. CCA will focus on advancing its strategic directions outlined in its corporate plan “Strengthening Connections” which are:

- Reinforce the Council’s commitment to individual artists, working alone or collaboratively, as the core of artistic practice in Canada;
- Broaden the Council’s commitment to arts organizations to strengthen their capacity to underpin artistic practices in all parts of the country;
- Enhance the Council’s leadership role in promoting equity as a critical priority in fulfilling Canada’s artistic aspirations;
- Make partnerships with other organizations a key element in the Council’s approach to advancing its mandate; and
- Enhance the Council’s capacity to support the arts and implement change by strengthening its structure, staffing and services.

The new plan also addresses a very different economic climate and reflects three major environmental trends that have increasingly significant effects on the arts and the Canadian people: public engagement, synergy and new technologies. Along with the economic reality, these cross-cutting environmental trends will permeate all five directions, influence both the Council’s relationships to the arts community and other stakeholders and its internal operations and activities, and be reflected in the Council’s objectives and strategies.

Canadian Heritage

Canadian Broadcasting Corporation

Raison d'être

As defined by the 1991 *Broadcasting Act*, the Canadian Broadcasting Corporation, as the national public broadcaster, should provide radio and television services incorporating a wide range of programming that informs, enlightens and entertains. The programming provided by the Corporation should:

- Be predominantly and distinctively Canadian;
- Reflect Canada and its regions to national and regional audiences, while serving the special needs of those regions;
- Actively contribute to the flow and exchange of cultural expression;
- Be in English and in French, reflecting the different needs and circumstances of each official language community, including the particular needs and circumstances of English and French linguistic minorities;
- Strive to be of equivalent quality in English and French;
- Contribute to shared national consciousness and identity;
- Be made available throughout Canada by the most appropriate and efficient means and as resources become available for the purpose; and
- Reflect the multicultural and multiracial nature of Canada.

Highlights

The Canadian Broadcasting Corporation is estimating budgetary expenditures of \$1.1 billion in 2012–13. Of this amount, \$1.1 billion requires approval by Parliament.

There are no year-over-year changes since the 2012–13 Main Estimates are exactly the same as the 2011–12 Main Estimates, at \$1,074,319,060.

Canadian Museum for Human Rights

Raison d’être

The Canadian Museum for Human Rights was created in 2008 through an amendment to the *Museums Act*, which established the Museum as the first national museum to be created since 1967 and the first to be located outside of the National Capital Region. The Museum's mandate is “to explore the subject of human rights, with special but not exclusive reference to Canada, in order to enhance the public's understanding of human rights, to promote respect for others and to encourage reflection and dialogue.”

Highlights

The Canadian Museum for Human Rights is estimating budgetary expenditures of \$10.0 million in 2012–13. Of this amount, \$10.0 million requires approval by Parliament.

In 2011–12, the Government of Canada made its last \$10 million payment under the Definitive Agreement for the construction project, for a total of \$100 million. Operating funding for the Canadian Museum of Human Rights is being adjusted to match the project schedule.

Canadian Heritage

Canadian Museum of Civilization

Raison d’être

The Canadian Museum of Civilization is a Crown Corporation established by the *Museums Act* (Statutes of Canada 1990, Chapter 3) which came into force on July 1, 1990. The Act states that the role of the corporation is “to increase, throughout Canada and internationally, interest in, knowledge and critical understanding of and appreciation and respect for human cultural achievements and human behaviour by establishing, maintaining and developing for research and posterity a collection of objects of historical or cultural interest, with special but not exclusive reference to Canada, and by demonstrating those achievements and behaviour, the knowledge derived from them and the understanding they represent.”

Highlights

Canadian Museum of Civilization is estimating budgetary expenditures of \$62.5 million in 2012–13. Of this amount, \$62.5 million requires approval by Parliament.

The appropriation request for 2012–13 of \$62.454 million is a reduction of \$0.925 million from the previous year’s approval. The reduction is due to:

- A reduction of \$970,000 due to the change in the yearly funding provided by Budget 2008 for operating and infrastructure pressures;
- A reduction of \$70,000 in funding for the Maa-nulth First Nations Final Agreement; and
- An increase of \$115,000 for costs associated with the bicentennial commemoration of the War of 1812.

Canadian Heritage

***Canadian Museum of Immigration at
Pier 21***

Raison d’être

The Canadian Museum of Immigration at Pier 21 was established in 2010 through an amendment to the *Museums Act*. The mandate of the Canadian Museum of Immigration at Pier 21 is “to explore the theme of immigration to Canada in order to enhance public understanding of the experiences of immigrants as they arrived in Canada, of the vital role immigration has played in the building of Canada and of the contributions of immigrants to Canada’s culture, economy and way of life.”

Highlights

The Canadian Museum of Immigration at Pier 21 is estimating budgetary expenditures of \$10.0 million in 2012–13. Of this amount, \$10.0 million requires approval by Parliament.

Activities of the Canadian Museum of Immigration at Pier 21 designed to meet strategic outcomes are:

- Giving the Museum’s audience access to rich content and programming that reflects the diverse experiences and contributions of immigrants throughout Canada’s history and engaging Canadians extensively in building and exploring these key themes by encouraging them to share their stories and to research their own family’s immigration story;
- Ensuring that the Museum’s facilities support the realization of the Museum’s mandate; contribute to a rich, welcoming and engaging visitor experience; and are safe, secure and accessible; and
- Administering resources established to support the needs of programs and other corporate obligations of the Museum.

Canadian Heritage

Canadian Museum of Nature

Raison d'être

The Canadian Museum of Nature became a Crown Corporation on July 1, 1990 through the *Museums Act* with the mandate to increase, throughout Canada and internationally, interest in, knowledge of and appreciation and respect for the natural world by establishing, maintaining and developing for research and posterity, a collection of natural history objects, with special but not exclusive reference to Canada, and by demonstrating the natural world, the knowledge derived from it and the understanding it represents.

Highlights

The Canadian Museum of Nature is estimating budgetary expenditures of \$33.1 million in 2012–13. Of this amount, \$33.1 million requires approval by Parliament.

An increase of \$4.58 million, or 16% from the previous Main Estimates, is due to the funding included in Budget 2008 to address operating and infrastructure pressures.

Canadian Heritage

Canadian Radio-television and Telecommunications Commission

Raison d'être

The Canadian Radio-television and Telecommunications Commission (CRTC) is an independent public authority that regulates and supervises the Canadian broadcasting and telecommunications systems in the public interest, according to the policy objectives established in the *Broadcasting Act* of 1991 and the *Telecommunications Act* of 1993.

The CRTC seeks to balance the needs of Canadians and those of the communications industry. Through its regulatory function, the CRTC addresses various economic, social and cultural issues related to the communications industry. Some examples include fostering:

- A competitive marketplace in which Canadian communications enterprises create jobs and value for Canadians;
- Canada's linguistic duality and cultural diversity;
- Enhanced accessibility for people with disabilities, such as closed captioning for the hearing impaired and described video for the visually impaired;
- The development of mechanisms to address concerns, such as abusive comments or violence in the broadcast media, or excessive rates for telephone services; and
- Protecting Canadians from unsolicited communications and contributing to a more secure online environment for consumers and businesses.

Highlights

The Canadian Radio-television and Telecommunications Commission is estimating budgetary expenditures of \$10.6 million in 2012–13. Of this amount, \$4.3 million requires approval by Parliament. The remaining \$6.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

In total, the CRTC is estimating a decrease of \$0.55 million, or 5% from previous Main Estimates.

The decrease in net spending of \$0.55 million is the result of decrease in operating and statutory costs. Factors contributing to the net decrease include:

- A decrease of \$0.39 million in funding for activities related to Canada's anti-spam legislation; and
- A decrease of \$0.16 million for statutory budgetary expenditures resulting from a modification of the employee benefit plans rate.

Library and Archives of Canada

Raison d'être

The *Library and Archives of Canada Act* came into force in 2004 and created Library and Archives Canada with a mandate to:

- Preserve the documentary heritage of Canada for the benefit of present and future generations;
- Serve as a source of enduring knowledge accessible to all, contributing to the cultural, social, and economic advancement of Canada as a free and democratic society;
- Facilitate in Canada cooperation among the communities involved in the acquisition, preservation, and diffusion of knowledge; and
- Serve as the continuing memory of the government of Canada and its institutions.

Highlights

The Library and Archives of Canada is estimating budgetary expenditures of \$117.7 million in 2012–13. Of this amount, \$106.5 million requires approval by Parliament. The remaining \$11.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

An overall increase of \$4.8 million is due mainly to the following:

- An increase of \$9.0 million for the conversion of the property in Gatineau, Quebec, as a collection storage facility with a high density shelving system; and
- A decrease of \$3.6 million for the transfer to Shared Services Canada for information technology services including e-mail, data centre and network services.

National Arts Centre Corporation

Raison d’être

The National Arts Centre Corporation was established in 1966 pursuant to the *National Arts Centre Act* with the mandate to operate and maintain the National Arts Centre, develop the performing arts in the national capital region, and assist the Canada Council for the Arts in the development of the performing arts elsewhere in Canada.

The Corporation arranges and sponsors performing arts activities; encourages and assists the development of performing arts companies; arranges or sponsors web, radio and television broadcasts; provides accommodations for national and local organizations who develop the performing arts in Canada; arranges for performances elsewhere in Canada by resident or non-resident performing arts companies; and arranges for performances outside Canada by resident performing arts companies.

Highlights

The National Arts Centre Corporation is estimating budgetary expenditures of \$35.6 million in 2012–13. Of this amount, \$35.6 million requires approval by Parliament.

The National Arts Centre (NAC) raised its curtains for the first time in 1969. Created by the Parliament of Canada as a Centennial project during the 1960s, the NAC has become Canada’s foremost showcase for the performing arts.

Today the NAC works with thousands of artists from across Canada and around the world and collaborates with dozens of arts organizations across the country. The NAC is strongly committed to being a leader and innovator in each of the performing arts fields in which it works: classical music, English theatre, French theatre, dance, and variety and community programming.

It is also at the forefront of youth and education activities, supporting programs for young and emerging artists, presenting programs for young audiences and producing resources and study materials for teachers and students. The NAC is the only multidisciplinary, bilingual performing arts centre in North America and one of the largest in the world.

Canadian Heritage

National Battlefields Commission

Raison d’être

The National Battlefields Commission (NBC), as manager of Battlefields Park, enables Canadians to enjoy the first national historic park in Canada and one of the most prestigious urban parks in the world.

The NBC is responsible for the administration, management, conservation and promotion of National Battlefields Park (located in Quebec City) and manages funds allocated for this purpose.

The Commission takes its mandate from the *Act respecting the National Battlefields at Quebec*, (s.c., 1908, c.57) passed on March 17, 1908, and its amendments. It reports to Parliament through the Minister of Canadian Heritage and Official Languages.

Highlights

The National Battlefields Commission is estimating budgetary expenditures of \$9.2 million in 2012–13. Of this amount, \$7.1 million requires approval by Parliament. The remaining \$2.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The National Battlefields Commission’s planned expenditures remain approximately the same as the previous year. The difference between the 2012–13 and 2011–12 Main Estimates is a decrease of \$9,046. This decrease is due to the adjustment of employee benefit plans from 18% to 17.6%.

Canadian Heritage

National Film Board

Raison d’être

The National Film Board (NFB) was created by an Act of Parliament in 1939 and is a federal agency within the Canadian Heritage portfolio. The NFB's mandate is to produce and distribute original and innovative audiovisual works that add to our understanding of the issues facing Canadians and raise awareness of Canadian values and viewpoints across the country and around the world. Throughout the decades, the NFB has also played an important role in marking the major changes and events taking place in Canadian society, and has become Canada's best-known cinematic brand.

As a producer and distributor of audiovisual works, the NFB provides a unique perspective on Canada's cultural wealth and diversity. The NFB explores contemporary social issues through point-of-view documentaries, auteur animation and new-media content. Over the years, the NFB has played an important role in marking the major changes and events taking place in Canadian society. The NFB has set the benchmark for audiovisual innovation in cinema.

Highlights

The National Film Board is estimating budgetary expenditures of \$66.8 million in 2012–13. Of this amount, \$66.8 million requires approval by Parliament.

The National Film Board's planned expenditures remain the same as 2011–12 and provide funds to support its mandate and continue the implementation of directions outlined in the 2009–13 Strategic Plan such as:

- Pursue investments in its digital shift and propose new avenues for point-of-view documentaries, auteur animation and new media content;
- Enrich the means of cinematic expression in the 21st century and explore new formats for creating and distributing audiovisual works;
- Provide to artists an environment that allows them to take creative and technological risks in making cultural content that could not easily be produced in the private sector;
- Invest in its production and distribution activities, to remain a dynamic, necessary and relevant cultural institution vital to all Canadians in promoting Canadian content that encourages participation in cultural and community life and fosters active citizenship, helping support and strength the ties that connect Canadians.

Canadian Heritage

National Gallery of Canada

Raison d'être

The National Gallery of Canada's mandate is to develop, maintain, and make known, throughout Canada and internationally, a collection of works of art, both historic and contemporary, with special, but not exclusive, reference to Canada, and to further knowledge, understanding, and enjoyment of art in general among all Canadians.

The National Gallery of Canada is one of the world's most respected art institutions, renowned for its exceptional collections, revered for its scholarship, and applauded for its unique ability to engage audiences of all ages and all levels of artistic knowledge. Created in 1880, the National Gallery of Canada is among the oldest of Canada's national cultural institutions.

Highlights

The National Gallery of Canada is estimating budgetary expenditures of \$48.2 million in 2012–13. Of this amount, \$48.2 million requires approval by Parliament.

In total, the organization is estimating a decrease of \$400,000, or 0.8% from the previous Main Estimates.

Canadian Heritage

National Museum of Science and Technology

Raison d'être

The National Museum of Science and Technology is a Crown corporation that was established by the *Museums Act* on July 1, 1990.

The mandate of the Corporation is to foster scientific and technological literacy throughout Canada by establishing, maintaining and developing a collection of scientific and technical objects, with special but not exclusive reference to Canada, and by demonstrating the products and processes of science and technology and their economic, social and cultural relationships with society.

The Corporation operates as the Canada Science and Technology Museum Corporation. It manages three museum sites: the Canada Science and Technology Museum, the Canada Aviation and Space Museum and the Canada Agriculture Museum.

Additional information can be found in the Corporation's Corporate Plan Summary.

Highlights

The National Museum of Science and Technology is estimating budgetary expenditures of \$28.9 million in 2012–13. Of this amount, \$28.9 million requires approval by Parliament.

The National Museum of Science and Technology (NMST) planned expenditures remain approximately the same as last year. A net spending decrease of \$0.1 million is due to a reduction in funds allocated through Budget 2008 to address the Museum's operational and capital pressures.

In 2012–13, NMST will continue to implement the projects funded through the Federal Budget 2008 to address operational and capital pressures. The NMST will also continue to focus its efforts on creating a national presence and sharing knowledge. Activities which the NMST will undertake in order to achieve the strategic directions include:

- Developing a corporate branding strategy. NMST will work on defining and building up a strong common brand for its three museums;
- Pursuing Year 2 of the Pan-Canadian energy initiative. Over the next four years, NMST will continue to bring Canadians into meaningful discussions, hopefully raising awareness on alternative resources and altering behaviours in the area of energy use;
- Developing new exhibitions in partnership with other institutions and industries. NMST will work to secure partners and sponsors in order to present new exhibitions; and
- Solidifying the NMST financial base and ensuring sustainability.

Canadian Heritage

Public Service Commission

Raison d'être

The Public Service Commission (PSC) is dedicated to building a public service that strives for excellence by protecting merit, non-partisanship and the use of both official languages while ensuring respect for the values of access, fairness, transparency and representativeness. The PSC recruits talented Canadians from across the country to the public service and continually renews its recruitment services to meet the needs of a modern and innovative public service.

Highlights

The Public Service Commission is estimating budgetary expenditures of \$92.7 million in 2012–13. Of this amount, \$79.1 million requires approval by Parliament. The remaining \$13.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net decrease of \$4.6 million in planned spending is mainly due to the following:

- A net increase of \$0.8 million for the transfer from the Department of Human Resources and Skills Development Canada for the Internal E-staffing Unit, known as Publiservice; and
- A net decrease of \$4.7 million resulting from the transfer to Shared Services Canada of the Email, Data Centre and Network Services Unit.

Raison d’être

The Public Service Labour Relations Board (PSLRB) is an independent quasi-judicial tribunal mandated by the *Public Service Labour Relations Act* to administer the collective bargaining and grievance adjudication systems in the federal public service. It is also mandated by the *Parliamentary Employment and Staff Relations Act* to perform the same role for the institutions of Parliament.

Through its role in adjudicating grievances and complaints, mediating disputes, supporting the collective bargaining process, and performing compensation analysis and research, the PSLRB helps in the resolution of labour relations issues in the federal public service and in Parliament in an impartial manner. This benefits Canadians by supporting a productive and effective workplace that delivers government programs in the public interest.

Highlights

The Public Service Labour Relations Board is estimating budgetary expenditures of \$13.7 million in 2012–13. Of this amount, \$12.4 million requires approval by Parliament. The remaining \$1.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Main Estimates for the Public Service Labour Relations Board are \$13.7 million, approximately the same amount as the 2011–12 Main Estimates.

Budgetary Expenditures by Strategic Outcome and Program Activity

Canadian Heritage

Public Service Staffing Tribunal

Raison d'être

The Public Service Staffing Tribunal is an independent, quasi-judicial body established under the *Public Service Employment Act* to deal with complaints related to internal appointments and lay-offs in the federal public service. The Tribunal conducts hearings and provides mediation services in order to resolve complaints.

By providing transparent, impartial and sound decision-making for complaints as well as the support necessary to help parties resolve staffing disputes as informally as possible, the Tribunal is both accessible and responsive to its stakeholders and contributes to the effective management of human resources to the benefit of federal public service departments and agencies, managers, employees and Canadians at large.

Highlights

The Public Service Staffing Tribunal is estimating budgetary expenditures of \$5.4 million in 2012–13. Of this amount, \$4.8 million requires approval by Parliament. The remaining \$614.4 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Main Estimates for the Public Service Staffing Tribunal are \$5.4 million, a net decrease of \$55.7 thousand, or 1.0% from previous Main Estimates. The decrease of \$55.7 thousand reflects the net result of the approval from the Treasury Board of an adjustment to a previous funding transfer enabling it to more effectively fulfill its mandate requirements. For your information, details on our priorities will be made available in our 2012–13 Report on Plans and Priorities.

Canadian Heritage

***Registry of the Public Servants
Disclosure Protection Tribunal***

Raison d’être

The mandate of the Registry of the Public Servants Disclosure Protection Tribunal is to protect public servants who disclose wrongdoing from reprisals.

The Tribunal is an independent quasi-judicial body established pursuant to the *Public Servants Disclosure Protection Act*. It deals with reprisal complaints referred by the Office of the Public Sector Integrity Commissioner. The Tribunal is supported by a Registry which is located in Ottawa.

Highlights

The Registry of the Public Servants Disclosure Protection Tribunal is estimating budgetary expenditures of \$1.8 million in 2012–13. Of this amount, \$1.6 million requires approval by Parliament. The remaining \$190.1 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The budget remains approximately the same as the previous fiscal year. However, the Registry of the Public Servants Disclosure Protection Tribunal expects to spend a larger percentage of its budget than in previous years. The Tribunal began receiving cases from the Office of the Public Sector Integrity Commissioner for the first time in its history, last year. Several more are expected to be referred to the Tribunal this year. As a result, the Registry will be spending a larger portion of its budget on case-related costs such as travel, court administration services and translation. Personnel costs are also expected to increase since additional legal and registry staff were hired in the second half of last fiscal year.

Finally, the Registry’s rental charges will increase as a result of the occupation of additional office space. The Registry has signed a memorandum of understanding with a tenant in the building where it is currently located in order to secure the space when it becomes permanently available in a year or two.

Canadian Heritage

Telefilm Canada

Raison d’être

Telefilm Canada was established in 1967 by the *Telefilm Canada Act*. The mandate of the Corporation is to foster and promote the development of the audiovisual industry in Canada.

A strong and vibrant audiovisual industry

Telefilm’s corporate vision embraces both building production capacity and stimulating demand for Canadian screen-based content. To this end, Telefilm aims to ensure that Canadian screen-based content is accessible to the audiences anywhere, anytime and on any platform.

Telefilm’s orientations are built around four strategic pillars:

- Maintain and expand our core role of funder;
- Develop our role as promoter;
- Provide thought leadership by developing and sharing industry intelligence; and
- Reinforce our organizational excellence.

Additional information can be found in our corporate plan: *Fostering Cultural Success*.

Highlights

Telefilm Canada is estimating budgetary expenditures of \$105.7 million in 2012–13. Of this amount, \$105.7 million requires approval by Parliament.

There are no changes to Telefilm’s overall level of budgetary expenditures. Furthermore, the organization reviewed all of its activities in order to ensure that the new strategic orientations defined in our corporate plan are aligned with our program activity architecture (PAA). As a result of this review, Telefilm’s programs and activities are now being deployed in a new way, that is, around three areas of activity:

- Investment in the development of the Canadian audiovisual industry;
- National and international Canadian content promotion support; and
- Management of other audiovisual industry programs.

Citizenship and Immigration

Citizenship and Immigration

Raison d'être

In the first years after Confederation, Canada's leaders had a powerful vision: to connect Canada by rail and make the West the world's breadbasket as a foundation for the country's economic prosperity. This vision meant quickly populating the Prairies, leading the Government of Canada to establish its first national immigration policies. Immigrants have been a driving force in Canada's nationhood and its economic prosperity – as farmers settling lands, as workers in factories fuelling industrial growth, as entrepreneurs and as innovators helping Canada to compete in the global, knowledge-based economy.

Highlights

Citizenship and Immigration is estimating budgetary expenditures of \$1.55 billion in 2012–13. Of this amount, \$1.49 billion requires approval by Parliament. The remaining \$56.9 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Citizenship and Immigration Canada's budgetary Main Estimates for 2012–13 are \$ 1,545.4 million, an increase of \$54.7 million from the previous year.

The net increase of \$54.7 million is due to the following:

- An increase of \$51.8 million to continue work on the inclusion of biometrics in the temporary visa stream;
- An increase of \$25.1 million to modernize the immigration system and manage backlogs;
- An increase of \$24.7 million to the Grant for the Canada-Quebec Accord on immigration;
- An increase of \$3.0 million due to funding transferred from Foreign Affairs and International Trade for processing of applications under the International Experience Canada program;
- An increase of \$1.9 million for Canada's Program on Crimes Against Humanity and War Crimes Program;
- A decrease of \$25.2 million due to funding transferred to Shared Services Canada for the consolidation of information technology services;
- A decrease of \$8.3 million due to additional savings identified as part of the government's Strategic Review of departmental spending;
- A decrease of \$5.8 million in funding for the reform of Canada's refugee system;
- A decrease of \$3.8 million related to the lifting of visa requirements on Taiwan;
- A decrease of \$3.6 million due to sunsetting of funding to manage immigration cases involving classified information (Security Certificates);
- A decrease of \$2.0 million due to employee benefit plan costs and other minor funding adjustments;
- A decrease of \$1.7 million in funding for the visa imposition on Mexico; and
- A decrease of \$1.4 million in funding for the Community Historical Recognition Program.

Citizenship and Immigration

Immigration and Refugee Board

Raison d'être

The Immigration and Refugee Board (IRB) is an independent, accountable administrative tribunal established by Parliament on January 1, 1989 to resolve immigration and refugee cases fairly, efficiently and in accordance with the law. The IRB ensures continued benefits to Canadians: by only accepting refugee claimants needing protection in accordance with international obligations and Canadian law; by contributing to the integrity of the immigration system, the safety and security of Canadians and upholding Canada's reputation of justice and fairness for individuals; and, promoting family reunification. The IRB also contributes to the quality of life of Canada's communities by strengthening our country's social fabric and by reflecting and reinforcing core values that are important to Canadians. These include respect for human rights, peace, security and the rule of law.

Highlights

The Immigration and Refugee Board is estimating budgetary expenditures of \$145.7 million in 2012–13. Of this amount, \$129.2 million requires approval by Parliament. The remaining \$16.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The net decrease of \$7.3M from last year is due to the following:

- A decrease of \$2.2 million in funding transferred to Shared Services Canada to consolidate and transform information technology infrastructure for the Government of Canada;
- A decrease of \$2.1 million in sunset funding to support the reform of Canada's Refugee System;
- A decrease of \$1.5 million related to savings identified a part of the 2009 Strategic Review of departmental spending;
- A decrease of \$1.1 million related to sunset funding to manage immigration cases involving classified information under Division 9 of the *Immigration and Refugee Protection Act*; and
- A decrease of \$0.4 million related to a rate adjustment applicable for the employee benefit plan.

**Economic Development Agency of Canada for
the Regions of Quebec**

***Economic Development Agency of
Canada for the Regions of Quebec***

Raison d’être

The mandate of Economic Development Agency of Canada for the Regions of Quebec (CED) is to promote long-term economic development with a special attention to regions where slow economic growth is prevalent or where opportunities for productive employment are inadequate. Its economic role positions CED at the forefront of the government’s priorities relating to the economy and jobs. CED has a physical presence in every region of Quebec and works in co-operation with community organizations. It supports communities and small and medium-sized enterprises to enable them to participate in the economy of the future and realize their full potential by building on their own strengths, and thereby helping to improve their performance, productivity and innovative capabilities. CED also supports regions facing major crises, helping to diversify their economic bases to improve their long-term viability.

Highlights

The Economic Development Agency of Canada for the Regions of Quebec is estimating budgetary expenditures of \$300.8 million in 2012–13. Of this amount, \$295.2 million requires approval by Parliament. The remaining \$5.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The increase of \$ 4.2 million or 1.4% of Main Estimates for the Economic Development Agency of Canada for the Regions of Quebec is due to a decrease of \$0.8 million in the operating budget and an increase of \$ 5.0 million in the grants and contributions budget.

The factors contributing to these changes in the budget include:

- An increase of \$14.5 million to fund the construction of a gas pipeline between Vallée-Jonction and Thetford Mines;
- An increase of \$2.3 million in the reinvestment of income provided by reimbursement of repayable contributions;
- An increase of \$1.4 million due to the implementation of the Building Canada Fund program;
- A \$10 million decrease, \$0.4 million in the operating budget and \$9.6 million in the grants and contributions budget, to reduce the Agency’s budget as prescribed by the 2010 Strategic Review;
- A decrease of \$2.2 million due to variations in the financing of: the Initiative to Support International Cruise Ship Development on the St. Lawrence and Saguenay Rivers, the funding to support the relocation of the Montreal Planetarium, the Partnership for the United Nations Convention on Biodiversity and official languages strategies;
- A decrease of \$1.7 million in the operating budget due to the transfer of part of the resources of the Agency to Shared Services Canada.

Environment

Environment

Raison d’être

Environment Canada is the federal lead department for a wide range of environmental issues facing Canadians, and plays a stewardship role in achieving and maintaining a clean, safe and sustainable environment. Primarily a science-based department, Environment Canada addresses issues through monitoring, research, policy development, service delivery to Canadians, regulation, enforcement of environmental laws, and strategic partnerships. The Department’s programs focus on a clean environment by minimizing threats to Canadians and their environment from pollution; a safe environment by equipping Canadians to make informed decisions on weather, water and climate conditions; and a sustainable environment by conserving and restoring Canada’s natural environment. The Department’s program focus reflects the increasingly evident interdependence between environmental sustainability and economic well-being.

Highlights

Environment is estimating budgetary expenditures of \$972.7 million in 2012–13. Of this amount, \$884.0 million requires approval by Parliament. The remaining \$88.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Environment Canada has a planned spending increase of \$100.6 million or 12% of which \$61.1 million is in planned Operating spending, \$8.6 million is in planned Capital spending, \$26.8 million is in planned grants and contributions spending and \$4.1 million is in planned spending for the Employee Benefits Plan.

The major changes are:

- A \$90.3 million increase in funding related to the renewal of the Clean Air Agenda. This funding will help us achieve real emissions reductions by informing Canada’s domestic regulatory approach to greenhouse gas emissions, providing a platform to deepen engagement with the United States on climate change issues and enhancing Canada’s visibility as an international leader in clean energy technology;
- A \$27.8 million increase in funding for the renewal of Canada’s Chemical Management Plan initiative. This funding will help us address health and environmental risks posed by harmful chemicals by accelerating the pace of the risk assessment to address the legacy of un-assessed substances under the *Canadian Environmental Protection Act, 1999*, by 2020;
- A \$19.4 million increase in funding to improve Canada’s weather services by ensuring the integrity of Government of Canada’s weather and environmental monitoring and supercomputing infrastructure; and
- A \$7.6 million increase in funding for the renewal of the accelerated contaminated sites action plan initiative. These funding will allow us to continue assessing and remediating contaminated sites through the Federal Contaminated Sites Action Plan.

These increases are offset by a decrease of \$48.7 million due to the transfer to Shared Services Canada of the control and supervision of the Email, Data Centre, Network Services Unit and Services Support Unit following the Order in Council P.C. 2011-1297 dated November 15, 2011.

Environment

Canadian Environmental Assessment Agency

Raison d'être

Environmental assessment contributes to informed decision making in support of sustainable development.

The Canadian Environmental Assessment Agency delivers high-quality environmental assessments and serves as the centre of expertise within the federal government on environmental assessment.

Highlights

The Canadian Environmental Assessment Agency is estimating budgetary expenditures of \$17.0 million in 2012–13. Of this amount, \$15.2 million requires approval by Parliament. The remaining \$1.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Agency's decrease in net spending of \$13 million is due to a decrease in operating costs of \$10.8 million and a decrease in contributions of \$2.2 million.

Factors contributing to the net decrease include:

- A decrease of \$10.2 million due to the sunsetting of the Budget 2007 initiative to improve Canada's regulatory framework for major resources projects;
- A decrease of \$1.1 million for the reprofile of the Participant Funding Program funds;
- A decrease of \$1.1 million due to the sunsetting funding to proactively lead Aboriginal consultations during environmental assessments; and
- A decrease of \$0.5 million related to environmental assessment litigation costs.

National Round Table on the Environment and the Economy

Raison d'être

The purpose of the National Round Table on the Environment and the Economy (NRTEE) is to play the role of catalyst in identifying, explaining, and promoting, in all sectors of Canadian society and in all regions of Canada, principles and practices of sustainable development. The NRTEE interprets this broad mandate through a strategic focus on issues of national interest at the intersection of the environment and the economy. Through its work, the NRTEE strives to influence policy development and decisions on issues pertaining to the environment and economy. These promote economic prosperity for all Canadians while striving to preserve the environment for current and future generations.

Highlights

The National Round Table on the Environment and the Economy is estimating budgetary expenditures of \$5.2 million in 2012–13. Of this amount, \$4.8 million requires approval by Parliament. The remaining \$429.6 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The National Round Table on the Environment and the Economy's planned expenditures remain approximately the same as the previous year. For more information, details on NRTEE priorities will be made available in its 2012–13 Report on Plans and Priorities.

Environment

Parks Canada Agency

Raison d'être

The Parks Canada Agency protects and presents nationally significant examples of Canada's natural and cultural heritage, and fosters public understanding, appreciation and enjoyment in ways that ensure the ecological and commemorative integrity of these places for present and future generations. National parks, national historic sites and national marine conservation areas, of which Parks Canada is the proud steward, offer to Canadians the opportunity to live meaningful experiences and to personally connect with these heritage places. In carrying out its responsibilities, Parks Canada works in collaboration with Aboriginal Peoples, stakeholders and neighbouring communities.

Highlights

The Parks Canada Agency is estimating budgetary expenditures of \$648.2 million in 2012–13. Of this amount, \$485.5 million requires approval by Parliament. The remaining \$162.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Parks Canada Agency's net decrease in planned spending of \$42.3 million is mainly due to:

- An increase of \$7.5 million for emergency response to natural disasters and unanticipated health and safety-related recapitalization;
- An increase of \$5.9 million for the assessment, management and remediation of federal contaminated sites;
- An increase of \$4.5 million to support building the Trans-Canada Trail;
- A decrease of \$45 million for the planned completion of a section of the Trans-Canada Highway in Banff National Park; and
- A decrease of \$15.7 million due to the transfer of e-mail, data centre and network services to Shared Services Canada.

Finance

Finance

Raison d'être

The Department of Finance contributes to a strong economy and sound public finances for Canadians. It does so by monitoring developments in Canada and around the world to provide first-rate analysis and advice to the Government of Canada and by developing and implementing fiscal and economic policies that support the economic and social goals of Canada and its people. Finance Canada also plays a central role in ensuring that government spending is focused on results and delivers value for taxpayer dollars. The Department interacts extensively with other federal organizations and acts as an effective conduit for the views of participants in the economy from all parts of Canada.

Highlights

Finance is estimating budgetary expenditures of \$85.4 billion in 2012–13. Of this amount, \$316.8 million requires approval by Parliament. The remaining \$85.1 billion represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net decrease of \$0.3 billion in statutory expenditures are mainly attributable to:

- Canada Health Transfer – The increase of \$1.617 billion reflects the 6% increased funding commitment in the September 2004 Ten-Year Plan to Strengthen Health Care;
- Fiscal Equalization – The increase of \$763.9 million reflects the increase due to the 5.2% GDP-based escalator applied to the 2011–12 level;
- Canada Social Transfer – The increase of \$345.4 million represents the legislated increase of 3% announced in Budget 2007;
- Additional Fiscal Equalization to Nova Scotia – The payment of \$325.8 million ensures that there is no reduction in Equalization and 2005 Offshore Accord Offset Payments due to the new formula for Equalization (2007);
- Territorial Financing – The increase of \$234.6 million is a result of new and updated data entering the formula for Territorial Formula Financing;
- Additional Fiscal Equalization Offset Payment to Nova Scotia – The payment of \$146.1 million under the 2005 Offshore Accord ensures that there is no reduction in Equalization as a result of offshore revenues entering the Equalization formula;
- Other Interest Costs – Decrease of \$386 million. The estimate for other interest costs has been revised to reflect the decrease in the average long-term bond rate, which is used to calculate interest on the public sector pension obligations pertaining to service before April 1, 2000;
- Interest on Unmatured Debt – Decrease of \$1.0 billion. The estimate for interest on unmatured debt has been revised to reflect the downward revision of forecasted interest rates by private sector economists; and
- Payments for the Implementation of the Harmonized Sales Tax – The decrease of \$1.9 billion represents the fact that the final transitional assistance payments provided for under the Comprehensive Integrated Tax Coordination Agreements with each of Ontario and British Columbia (\$1.3 billion and \$580 million respectively) were completed in 2011–12.

An increase of \$33.6 million in Vote 5, Grants and contributions, is due to an increase in bilateral debt relief and an increase in contributions to the Harbourfront Centre, offset by a decrease in contributions related to the Toronto Waterfront Revitalization Initiative.

Auditor General

Raison d’être

The Auditor General is an Officer of Parliament, who is independent from the government and reports directly to Parliament. The Office of the Auditor General is the legislative audit office of the federal government and of the three northern territories. The main legislative auditing duties are financial audits, performance audits, special examinations, sustainable development monitoring activities and environmental petitions, and assessments of agency annual performance reports. Our audits and studies provide objective information, advice, and assurance to Parliament, territorial legislatures, governments, and Canadians. With our reports and testimony, we assist parliamentarians and territorial legislators in their work on the authorization and oversight of government spending and operations.

Highlights

The Auditor General is estimating budgetary expenditures of \$84.3 million in 2012–13. Of this amount, \$74.0 million requires approval by Parliament. The remaining \$10.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

In total, the Office is estimating a decrease of \$625 thousand, or 0.7% from previous Main Estimates. For your information, details on our priorities will be made available in our 2012–13 Report on Plans and Priorities.

Finance

Canadian International Trade Tribunal

Raison d'être

The Canadian International Trade Tribunal provides Canadian and international businesses with access to fair, transparent and timely processes for the investigation of trade remedy cases and complaints concerning federal government procurement and for the adjudication of appeals on customs and excise matters. At the request of the Government, the Tribunal provides advice in tariff, trade, commercial and economic matters.

Highlights

The Canadian International Trade Tribunal is estimating budgetary expenditures of \$9.9 million in 2012–13. Of this amount, \$8.7 million requires approval by Parliament. The remaining \$1.2 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canadian International Trade Tribunal's planned expenditures decreased by more than 13.75 percent compared to the previous year. A net decrease of \$1.6 million in planned expenditures is due mainly to the end of the funding received to alleviate a short-term operating budget shortfall due to an expected increase in trade remedy cases.

Finance

Financial Transactions and Reports Analysis Centre of Canada

Raison d'être

The Financial Transactions and Reports Analysis Centre of Canada (FINTRAC), Canada's financial intelligence unit, exists to detect and deter money laundering and terrorist financing. The end result is a unique contribution to the public safety of Canadians and to the protection of the integrity of Canada's financial system. FINTRAC is an independent agency that was created in 2000. It reports to the Minister of Finance, who is in turn accountable to Parliament for the activities of the Centre. FINTRAC was established and operates within the ambit of the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act* and its Regulations.

Highlights

The Financial Transactions and Reports Analysis Centre of Canada is estimating budgetary expenditures of \$52.2 million in 2012–13. Of this amount, \$46.5 million requires approval by Parliament. The remaining \$5.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net increase of \$12.0 million in planned spending is mainly due to the following:

- An increase of \$16.2 million related to the renewal of the National Initiative to Combat Money Laundering;
- An increase of \$2.5 million related to the Budget 2010 funding profile which will be used to enhance the Centre's ability to ensure compliance with the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act*; and help meet new responsibilities related to tax evasion becoming a predicate offense to money laundering under Canada's tax statutes;
- A decrease of \$5.6 million related to the transfer of functions and authorities to Shared Services Canada;
- A decrease of \$0.7 million related to the sunset of funding for the National Anti-Drug Strategy; and
- A decrease of \$0.3 million related to the adjustment of contributions to employee benefit plans.

Office of the Superintendent of Financial Institutions

Raison d'être

The Office of the Superintendent of Financial Institutions (OSFI) supervises and regulates all federally incorporated or registered deposit-taking institutions (e.g., banks), life insurance companies, property and casualty insurance companies, and federally regulated private pension plans.

OSFI safeguards depositors, policyholders and private pension plan members by enhancing the safety and soundness of federally regulated financial institutions and private pension plans.

The Office of the Chief Actuary (OCA) is a separate unit within OSFI and provides expert actuarial services and advice on the state of various public pension plans and on the financial implications of options being considered by policy makers. In conducting its work, the OCA plays a vital and independent role towards a financially sound and sustainable Canadian public retirement income system.

Highlights

The Office of the Superintendent of Financial Institutions is estimating budgetary expenditures of \$909.4 thousand in 2012–13. Of this amount, \$909.4 thousand requires approval by Parliament.

The Office of the Chief Actuary (OCA) is funded by fees charged for its actuarial valuation and advisory services and by an annual parliamentary appropriation.

The federal government and the provinces, through the Canada Pension Plan (CPP), public sector pension arrangements and other social programs have made commitments to Canadians and have taken on responsibility for the financing of these commitments. Some are long-term, and it is important that decision-makers, Parliamentarians and the public understand these and the inherent risks. This program plays a vital and independent role in this process. It provides checks and balances on the future costs of the different pension plans under its responsibilities.

This program provides a range of actuarial services, under legislation, to the CPP and some federal government departments. It conducts statutory actuarial valuations of the CPP, Old Age Security and Canada Student Loans programs, and pension and benefits plans covering the Federal Public Service, the Canadian Forces, the Royal Canadian Mounted Police, federally appointed judges, and Members of Parliament.

Finance

PPP Canada Inc.

Raison d'être

PPP Canada is a Crown Corporation established in 2008 to support the development of public-private partnerships (P3) and facilitate the development of the Canadian P3 market. P3s are an alternative method for governments to meet the public's infrastructure needs. Through long-term P3 contracts that have design, build, finance, operate and maintain components, governments can access private sector expertise, technology and capital. The \$1.2 billion P3 Canada Fund managed by PPP Canada is a merit-based program with the objective of supporting P3 infrastructure projects that achieve value for the Canadian public, develop the Canadian P3 market and generate significant public benefits.

Highlights

PPP Canada Inc. is estimating budgetary expenditures of \$287.7 million in 2012–13. Of this amount, \$287.7 million requires approval by Parliament.

The \$275.0 million in program funding for the P3 Canada Fund will focus on committing to projects that demonstrate leadership in P3 procurement. This includes potentially 8-12 new projects in the 2012–13 fiscal year including projects in new sectors, new jurisdictions or new P3 models.

The \$12.7 million in operating funds will, in addition to covering the costs of pay and benefits, and office space/equipment, be used for additional activities such as the development of an appropriate outreach strategy under the P3 Canada Fund; to continually update the set of P3 modules and documentation to assist the development of P3s for the federal government; to network both domestically and internationally with leading P3 practitioners, industry participants and academics; and to continue to build working relationships/partnerships with other organizations.

Fisheries and Oceans

Fisheries and Oceans

Raison d'être

Fisheries and Oceans Canada supports strong economic growth in our marine and fisheries sectors and contributes to a prosperous economy through global commerce by supporting exports and advancing safe maritime trade. The department supports the innovation needed for a knowledge-based economy through research in expanding sectors such as aquaculture and biotechnology. The department contributes to a clean and healthy environment and sustainable aquatic ecosystems for Canadians through habitat protection, oceans management, and ecosystems research. A safe and secure Canada relies on the maritime security, safe navigation, a presence in our waters, and the effective search and rescue services that the Canadian Coast Guard provides.

Highlights

Fisheries and Oceans is estimating budgetary expenditures of \$1.7 billion in 2012–13. Of this amount, \$1.5 billion requires approval by Parliament. The remaining \$132.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net decrease of \$156.9 million is due to a decrease in operating funds of \$76.5 million, a decrease in capital funding of \$14.5 million and a decrease in grants, contributions and other transfer payments of \$65.9 million.

The major changes are:

- An increase of \$14.3 million for repairs related to extraordinary storm events in Atlantic Canada, Quebec and Manitoba during 2010;
- An increase of \$8.2 million related to the Federal Contaminated Sites Action Plan;
- An increase of \$5.1 million to help Canadians adapt to the impacts of climate change under Canada's Clean Air Agenda;
- A decrease of \$40.1 million related to the completion of the Pacific Integrated Commercial Fisheries Initiative;
- A decrease of \$23.4 million for the transfer of resources to fund Shared Services Canada;
- A decrease of \$19.9 million related to the completion of the Divestiture of Non-Core Harbours program;
- A decrease of \$18.9 million related to Strategic Review measures, as announced in Budget 2011;
- A decrease of \$14.3 million related to the completion of the Atlantic Integrated Commercial Fisheries Initiative;
- A decrease of \$13.1 million in resources which support Quebec and Atlantic Canada lobster harvesters and support for the economic viability and long-term sustainability of the Quebec and Atlantic Canada lobster fishery;
- A decrease of \$11.9 million in activities to support science and sustainable fisheries in order to strengthen fisheries management and resource conservation;
- A decrease of \$10.2 million for the implementation of the *Species at Risk Act* to continue the stabilization and recovery of wildlife species at risk in Canada;
- A decrease of \$9.2 million for the acquisition of Offshore Science Vessels; and
- A decrease of \$6.7 million related to the completion of improvements to the performance of the regulatory system for major natural resource projects under the *Canadian Environmental Assessment Act*.

Foreign Affairs and International Trade

Foreign Affairs and International Trade

Raison d'être

The department of Foreign Affairs and International Trade's (DFAIT) specific areas of responsibility include international peace and security, global trade and commerce, diplomatic and consular relations, administration of the Foreign Service and Canada's network of missions abroad, and development of international law and its application to Canada. DFAIT promotes Canada's interests and the security and prosperity of Canadians, and advances the Canadian values of democracy, human rights, the rule of law and environmental stewardship. The department's founding legislation is the *Department of Foreign Affairs and International Trade Act*, (R.S.C., 1985, c. E-22), which lists its legislated responsibilities.

Highlights

Foreign Affairs and International Trade is estimating budgetary expenditures of \$2.6 billion in 2012–13. Of this amount, \$2.4 billion requires approval by Parliament. The remaining \$151.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Foreign Affairs and International Trade's decrease of \$32.9 million or 1% in net spending is due to a decrease of \$40.0 million in operating costs, a decrease of \$12.1 million in capital, a combined decrease of \$31.6 million in grants and contributions and other transfer payments, and an increase of \$50.8 million in payments in respect of pension insurance and social security programs for employees locally engaged outside of Canada. Factors contributing to the net decrease include:

- An increase of \$50.8 million for the transfer of funds from the Treasury Board Secretariat to cover payments for pension, insurance and social security programs for employees locally engaged outside of Canada;
- An increase of \$35.5 million for the strengthening of security at missions abroad through risk-based initiatives to reinforce and professionalize mission security teams and strengthen physical infrastructure;
- A decrease of \$55.2 million in the cost of assessed contributions, mainly due to currency fluctuations resulting from the payment in the prescribed foreign currency of these contributions which represent Canada's treaty obligations and legal commitments to international organizations such as United Nations and World Health Organization; and
- A decrease of \$61.7 million for the transfer to Shared Services Canada in order to pool resources from across government to consolidate and transform IT infrastructure for the Government of Canada.

Canadian Commercial Corporation

Raison d'être

The Canadian Commercial Corporation (CCC) is governed by its enacting legislation, the 1946 *Canadian Commercial Corporation Act*. The Act outlines CCC's broad mandate, which is to assist in the development of trade by helping Canadian exporters access markets abroad and by helping foreign buyers obtain goods from Canada. The legislation also provides CCC with a range of powers, including the ability to export goods from Canada either as principal or as agent in such a manner and to such an extent as it deems appropriate. As a result, CCC negotiates and executes bilateral government-to-government procurement arrangements, facilitating export transactions on behalf of Canadian exporters.

Highlights

The Canadian Commercial Corporation is estimating budgetary expenditures of \$15.5 million in 2012–13. Of this amount, \$15.5 million requires approval by Parliament.

CCC uses its funding to facilitate sales of goods and services from Canadian exporters to the U.S. Department of Defence in support of the North American Defence Industrial Base.

Raison d’être

The mission of Canadian International Development Agency (CIDA) is to lead Canada's international efforts to help people in poverty. CIDA's mandate is to manage Canada's support and resources effectively and accountably to achieve meaningful, sustainable development results and engage in policy development in Canada and internationally enabling Canada's effort to realize its development objectives.

Canada recognizes that achieving significant political, economic, social, and environmental progress in the developing world will have a positive impact on the prosperity and long-term security of Canadians, sustain a reduction in poverty for billions of people in recipient countries, and contribute to a better and safer world.

Highlights

The Canadian International Development Agency is estimating budgetary expenditures of \$3.4 billion in 2012–13. Of this amount, \$3.1 billion requires approval by Parliament. The remaining \$273.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canadian International Development Agency's planned expenditures remain approximately the same as the previous year. Factors contributing to the net decrease of \$22.9 million include:

- A transfer of \$9.2 million to Shared Services Canada to pool existing resources from across government to consolidate and transform IT infrastructure;
- A decrease of \$6.0 million to reflect the end of additional funding received in 2010–11 and 2011–12 to cover the operating costs of a secured presence in Afghanistan; and
- A net reduction of \$4.5 million in the grants and contributions budget.

***International Development Research
Centre***

Raison d’être

The International Development Research Centre (IDRC) is a Crown corporation created in 1970 by the Parliament of Canada to help developing countries use science and technology to find practical, long-term solutions to the social, economic, and environmental problems they face. IDRC's support is directed toward creating a local research community whose work will build healthier, more equitable, and more prosperous societies. IDRC often joins forces with Canadian and international funders to increase the resources going toward research that addresses the needs of developing countries. It also teams up with other Canadian agencies to create opportunities for researchers from Canada and the developing world to collaborate on research of common interest and global importance.

Highlights

The International Development Research Centre is estimating budgetary expenditures of \$241.4 million in 2012–13. Of this amount, \$241.4 million requires approval by Parliament.

International Development Research Centre’s increase in appropriations of \$34.1 million is due to the following:

- An increase of \$32.0 million to implement the Development Innovation Fund, which aims to support leading-edge global health research that improves the lives of the poor in developing countries by mobilizing the scientific community to address priority areas for health research, and by the use of research findings to address development challenges;
- An increase of \$1.4 million as a result of a transfer agreement for the funding of the International Research Initiative on Adaptation to Climate Change;
- An increase of \$0.9 million to establish a Special Envoy for Haiti in support of efforts to rebuild the national education system and assets of Haitian heritage, including museums, libraries and cultural industries; and
- A decrease of \$0.2 million as a result of having reached the end of a transfer agreement for the funding of the Global Health Research Initiative.

***International Joint Commission
(Canadian Section)***

Raison d’être

The International Joint Commission's mandate is prompt and effective prevention and/or resolution of potential disputes under the Boundary Water Treaty and Great Lakes Water Quality Agreement to ensure they have no negative impact on Canada-US relations.

Highlights

The International Joint Commission (Canadian Section) is estimating budgetary expenditures of \$6.7 million in 2012–13. Of this amount, \$6.0 million requires approval by Parliament. The remaining \$631.7 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net decrease of \$1.6 million in planned spending is mainly due to the completion of the International Upper Great Lakes Study.

National Capital Commission

Raison d'être

The National Capital Commission was created by Parliament in 1959 and pursues the following mandate:

- To prepare plans for and assist in the development, conservation and improvement of the National Capital Region to ensure that the nature and character of the seat of government reflect its national significance;
- To organize, sponsor or promote public activities and events in the Region that enrich the cultural and social fabric of Canada, and reflect Canada's federal character and official languages, as well as the heritage of its people;
- To coordinate policies and programs related to the organization, sponsorship or promotion of public activities and events by federal departments; and
- To approve building design and the use of federal lands in the Region.

Additional information can be found in the National Capital Commission's Corporate Plan.

Highlights

The National Capital Commission is estimating budgetary expenditures of \$124.9 million in 2012–13. Of this amount, \$124.9 million requires approval by Parliament.

A net increase of \$18 million in planned spending is mainly due to the following:

- An increase of \$14.7 million related to funding received from the Federal Contaminated Sites Action Plan; and
- A net increase of \$4.4 million in funds reprofiled from previous years for the Official Residences rehabilitation program based on projected spending.

Governor General

Governor General

Raison d'être

The Office of the Secretary to the Governor General (OSGG) provides support and advice to the Governor General of Canada in his/her unique role as the representative of The Queen in Canada as well as commander-in-chief. OSGG assists the Governor General in carrying out constitutional responsibilities, in representing Canada at home and abroad, in bringing Canadians together, and in granting armorial bearings. OSGG also supports the Governor General in encouraging excellence through the administration of the Canadian Honours System and by organizing the presentations of national honours, decorations, medals and awards. OSGG manages a visitor services program at both of the Governor General's official residences and oversees the day-to-day operations of these residences. OSGG also provides support to former Governors General, including pensions to former Governors General and their spouses.

Highlights

The Office of the Secretary to the Governor General is estimating budgetary expenditures of \$19.8 million in 2012–13. Of this amount, \$17.0 million requires approval by Parliament. The remaining \$2.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The decrease from the previous year is the result of the continuation of the 2010 budget containment measures, the removal of the Grants to surviving spouses of former Governors General for expenses for Crown-related activities and an adjustment to the employee benefit plans.

Health

Health

Raison d'être

Health Canada helps Canadians maintain and improve their health. The Department is committed to making this country's population among the healthiest in the world as measured by longevity, lifestyle and effective use of the public health care system.

Highlights

Health is estimating budgetary expenditures of \$3.3 billion in 2012–13. Of this amount, \$3.2 billion requires approval by Parliament. The remaining \$135.0 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Health Canada's net growth of \$4.0 million in planned spending is due to an increase in operating costs of \$7.6 million, a decrease in capital of \$1.9 million, a decrease in contributions and other transfer payments of \$2.5 million, and an increase in statutory items of \$0.8 million. Major factors contributing to the net increase include:

- An increase of \$67.4 million to protect Canadians' health and the environment through a renewed Chemicals Management Plan;
- An increase of \$46.6 million due to the 3% Indian Envelope Growth;
- An increase of \$27.5 million for the renewal of the Clean Air Regulatory Agenda;
- A decrease of \$52.3 million due to the transfer to Shared Services Canada to provide ongoing support of government-wide initiative for consolidation and transformation of IT infrastructure;
- A decrease of \$32.9 million relating to the sunsetting of the two-year funding identified in Budget 2010 for the continued implementation of the Indian Residential Schools Settlement Agreement;
- A decrease of \$26.7 million relating to the sunsetting of the Extension of the First Nations Water and Wastewater Action Plan; and
- A decrease of \$11.3 million relating to the sunsetting of two components of the Prevention and Treatment Action Plans of the National Anti-Drug Strategy.

Health

Assisted Human Reproduction Agency of Canada

Raison d'être

Assisted Human Reproduction Canada (AHRC) was created in response to a 1993 recommendation from the Royal Commission on New Reproductive Technologies, which called for the Government of Canada to establish a national agency to provide a safe and ethical framework for assisted human reproduction (AHR) activities and related research. Legally established under the *Assisted Human Reproduction Act* in 2006 and opening its doors in 2007, AHRC is mandated to administer and enforce the AHR Act and related regulations in order to protect and promote the health, safety, dignity and rights of Canadians who use or are born of assisted reproductive technologies.

Highlights

Assisted Human Reproduction Agency of Canada is estimating budgetary expenditures of \$10.5 million in 2012–13. Of this amount, \$9.9 million requires approval by Parliament. The remaining \$614.6 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

Assisted Human Reproduction Canada's planned expenditures remain approximately the same as the previous year. In 2012–13, AHRC will continue in accordance with the *Assisted Human Reproduction Act* to:

- Promote compliance and enforce the *Assisted Human Reproduction Act* related to the prohibitions;
- Provide advice to the Minister on assisted human reproduction and related matters;
- Monitor and evaluate developments within Canada and internationally in assisted human reproduction and related matters;
- Consult persons and organizations within Canada and internationally; and
- Provide information to the public and to the professions respecting assisted human reproduction and related matters, and respecting risk factors associated with infertility.

Health

Canadian Institutes of Health Research

Raison d’être

Canadian Institutes of Health Research (CIHR) is the Government of Canada’s health research funding agency. It was created in June 2000 by the *Canadian Institutes of Health Research Act* (Bill C-13) with a mandate “to excel, according to internationally accepted standards of scientific excellence, in the creation of new knowledge and its translation into improved health for Canadians, more effective health services and products and a strengthened Canadian health care system.”

CIHR's mandate seeks to transform health research in Canada by:

- Funding research on targeted priority areas, in addition to investigator-initiated research;
- Placing a greater emphasis on the strength of the research community by building research capacity in under-developed areas and training the next generation of health researchers; and
- Focusing on knowledge translation that facilitates the application of the results of research and their transformation into new policies, practices, procedures, products and services.

Highlights

Canadian Institutes of Health Research is estimating budgetary expenditures of \$977.9 million in 2012–13. Of this amount, \$971.3 million requires approval by Parliament. The remaining \$6.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The CIHR’s 2012–13 Main Estimates have decreased by approximately \$5.4 million in comparison to its 2011–12 Main Estimates. While incremental funding for CIHR was announced in the 2011 Federal Budget, the net decrease is primarily due to the sunsetting of several programs outlined below.

The 2011 Federal budget allocated CIHR a \$15 million permanent base budget increase to sustain research excellence through its Open Operating Grant Program, as well as to support advanced health-related research that addresses the health priorities of all Canadians, such as the Strategy on Patient Oriented Research.

However, CIHR’s 2012–13 Main Estimates also reflect planned reduction in spending due to temporary funding expansion and programs that came to an end in 2011–12. For example, the 2012–13 Main Estimates include an \$7.0 million planned spending reduction for CIHR’s Canada Graduate Scholarships program (as funding announced in Budget 2009 to temporarily expand the program came to an end in 2011–12).

Funding for specific programs has also sunsetted in 2011–12, including the Isotope Supply Initiative (\$4.9 million) and the Business-Led Centres of Excellence (\$1.7 million). There is also a \$2.5 million decrease in the Network of Centres of Excellence.

CIHR’s 2012–13 Main Estimates also include an \$3.6 million planned spending reduction due to a four-year funding transfer from the Public Health Agency of Canada for the Influenza Research Network that ended in 2011–12.

The remaining decrease of \$0.7 million is due to various other program funding adjustments.

Health

Canadian Northern Economic Development Agency

Raison d'être

The Canadian Northern Economic Development Agency (CanNor) has a mandate to advance economic development in Canada's northern territories. The Agency does this by delivering a suite of economic development programs, developing policy and conducting research with a strong focus on aligning the efforts of partners and stakeholders, particularly among federal organizations. At times, the Agency will coordinate and serve as the regional delivery agent for certain national economic initiatives. The Northern Projects Management Office is part of CanNor and provides single window service for major project proponents, while also coordinating the regulatory work of federal departments and agencies on these projects in the territories.

Highlights

The Canadian Northern Economic Development Agency is estimating budgetary expenditures of \$51.2 million in 2012–13. Of this amount, \$50.0 million requires approval by Parliament. The remaining \$1.2 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

With significant ongoing activity in the mining sector, priorities for fiscal year 2012–13 include the ongoing efforts of the Northern Projects Management Office to facilitate timely regulatory assessments and to support businesses in understanding operating in the North. Other priorities include the delivery of the Agency's core programs: Strategic Investments in Northern Economic Development; Aboriginal business and economic development programs; as well as a newly established Northern Adult Basic Education (NABE) program. The NABE program targets adults in the North who will benefit from enhancing their basic education skills to prepare them for further vocational training or the job market. The Agency has also now assumed responsibility for the Canada Business Network (CBN) in the North. The CBN supports entrepreneurs in the North by providing easy and convenient access to information on various federal government programs and services, as well as related information and services from territorial governments and other business development partners.

A net increase of \$6.9 million is mainly due to the following:

- The establishment of NABE which resulted in an increase of \$6.6 million in Grants and Contribution and \$0.4 million in Operating and Maintenance for 2012–13;
- Assuming responsibility for the CBN in the three territories resulting in an increase of \$0.3 million in Operating and Maintenance for 2012–13; and
- The transfer to Shared Services Canada for Information Technology services resulting in a \$0.28 million decrease in Operating and Maintenance for 2012–13.

Hazardous Materials Information Review Commission

Raison d'être

The Hazardous Materials Information Review Commission provides a single mechanism under federal, provincial and territorial legislation to protect the trade secrets of companies that supply or use hazardous materials, and to ensure that Canadian workers who handle such materials have all the information they need to do so safely.

Highlights

The Hazardous Materials Information Review Commission is estimating budgetary expenditures of \$4.5 million in 2012–13. Of this amount, \$3.9 million requires approval by Parliament. The remaining \$596.6 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Hazardous Materials Information Review Commission's Main Estimates remain approximately the same as the previous year. Details on our priorities will be made available in our 2012–13 Report on Plans and Priorities.

Patented Medicine Prices Review Board

Raison d’être

The Patented Medicine Prices Review Board (PMPRB) is an independent, quasi-judicial body created by Parliament in 1987. Its mandate is two-fold:

- Regulatory — to ensure that prices charged by patentees for patented medicines sold in Canada are not excessive; and
- Reporting — to report on pharmaceutical trends of all medicines and on research and development spending by pharmaceutical patentees.

In carrying out its mandate, the PMPRB endeavours to ensure that Canadians are protected from excessive prices for patented medicines sold in Canada, and stakeholders are informed on pharmaceutical trends.

Highlights

The Patented Medicine Prices Review Board is estimating budgetary expenditures of \$11.8 million in 2012–13. Of this amount, \$10.8 million requires approval by Parliament. The remaining \$1.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The PMPRB’s planned expenditures remain approximately the same as the previous year. In 2012–13, the PMPRB will focus on:

- Enhancing compliance with the Board’s Excessive Price Guidelines. The PMPRB will continue to assess the application and impact of the major changes made to the Guidelines through its Monitoring and Evaluation Plan for Major Changes in the Guideline (Plan). It will adjust the Guidelines, as appropriate, to address issues identified through the Guidelines Monitoring Program and/or the PMPRB Program Evaluation conducted in 2011–12;
- Decreasing regulatory burden and making effective use of Board Staff resources. The PMPRB will examine its price review process with a view to decreasing the regulatory burden placed on patentees. The results of this initiative may have the added benefit of reducing Board Staff’s workload, thus freeing up valuable human resources. The PMPRB will also continue to implement the cost containment measures introduced throughout the federal government; and
- Transparency and Communications: The PMPRB will continue implementation of the non-industry stakeholder engagement policy.

Health

Public Health Agency of Canada

Raison d'être

Public health involves the organized efforts of society to keep people healthy and to prevent injury, illness and premature death. It includes programs, services and policies that protect and promote the health of all Canadians. In Canada, public health is a responsibility that is shared by the three levels of government in collaboration with the private sector, non-government organizations, health professionals and the public.

In September 2004, the Public Health Agency of Canada (the Agency) was created within the federal Health Portfolio to deliver on the Government of Canada's commitment to increase its focus on public health in order to help protect and improve the health and safety of all Canadians and to contribute to strengthening the health care system.

Highlights

Public Health Agency of Canada is estimating budgetary expenditures of \$616.5 million in 2012–13. Of this amount, \$583.6 million requires approval by Parliament. The remaining \$32.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A decrease in Main Estimates of \$6.2 million is mainly due to decreases in operating expenditures of \$3.3 million, statutory contributions to employee benefit plans of \$1.4 million and \$5.8 million in capital. This is partially offset by an increase in transfer payments of \$4.2 million. Factors contributing to the net decrease include:

- An increase of \$14.7 million for the short-term replenishment of the National Antiviral Stockpile to ensure that antivirals are held domestically and are readily available for timely distribution and use during a pandemic;
- An increase of \$8.5 million to secure Canada's pandemic influenza vaccine supply through a contract with Canada's primary domestic pandemic influenza vaccine supplier and for payment of pandemic influenza vaccine readiness fees guaranteeing priority access to pandemic influenza vaccines manufactured in Canada;
- An increase of \$4.0 million to address sport and recreation injuries among Canadian children and youth through coordinated preventive action in the area of sport and recreation injuries;
- A decrease of \$20.7 million in incremental funding to support the installation of a new influenza fill line at ID Biomedical Corporation in Ste-Foy, Quebec, to secure, protect and improve ongoing domestic vaccine capacity in Canada for seasonal and pandemic influenza;
- A decrease of \$7.6 million to reflect the scheduled sunseting of Listeriosis funding which aimed to enhance the ability to prevent, detect and respond to outbreaks of food-borne illness; and
- A decrease of \$5.9 million to reflect the transfer of authority to Shared Services Canada to streamline and modernize IT services, telecommunication and reduce administration costs.

Human Resources and Skills Development

Human Resources and Skills Development

Raison d'être

The mission of Human Resources and Skills Development (HRSD) is to build a stronger and more competitive Canada, to support Canadians in making choices that help them live productive and rewarding lives, and to improve Canadians' quality of life. The Department delivers a range of programs and services that affect Canadians throughout their lives through three business lines: programs that support human resources and skills development, the Labour Program, and Service Canada.

HRSD provides seniors with basic income security, supports unemployed workers, helps students finance their post-secondary education, and assists parents who are raising young children. The Labour Program is responsible for labour laws and policies in federally regulated workplaces. Service Canada helps citizens access HRSD's programs, as well as other Government of Canada programs and services, at more than 600 points of service across the country.

Highlights

Human Resources and Skills Development is estimating budgetary expenditures of \$47.6 billion in 2012–13. Of this amount, \$2.4 billion requires approval by Parliament. The remaining \$45.3 billion represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Human Resources and Skills Development budgetary Main Estimates for 2012–13 are \$47.6 billion, a net increase of \$2.2 billion over the 2011–12 budgetary Main Estimates of \$45.5 billion.

This increase is primarily associated with statutory items. In particular, the forecasted Old Age Security and Guaranteed Income Supplement payments represent an increase of \$1.4 billion and \$574 million respectively, explained by changes in the average rates of payment and in the number of beneficiaries. Other factors contributing to the increase include:

- An increase of \$87.0 million to the Universal Child Care Benefit based on the demographics and the growth rate of children entitled to the benefit;
- An increase of \$70.0 million in Canada Education Savings Grant payments as more families are saving for their children's post-secondary education;
- An increase of \$58.7 million in the payments related to the direct financing arrangement under the *Canada Student Financial Assistance Act* mainly due to increases to the Alternative Payments to non-participating Provinces and Territories, which reflect increases in disbursements under the Canada Student Grants Program and increases in other Canada Student Loan costs;
- An increase of \$37.0 million in the Canada Student Grants to qualifying full and part-time students pursuant to the *Canada Student Financial Assistance Act* due to an increase to the income threshold used to determine grant eligibility for part-time students announced in Budget 2011, and reflecting the latest growth rates forecast by the Chief Actuary;
- An increase of \$26.1 million in the Canada Disability Savings Grant and \$6.3 million in Canada Disability Savings Bond payments mainly due to the performance of the Canada Disability Savings Program which surpassed original projections; and
- An increase of \$15.0 million in Canada Learning Bond payments to Registered Education Saving Plans (RESP) is attributed to the normal growth of the Program as the population eligible to receive this incentive increases each year. In addition, the Government of Canada has undertaken targeted communications and outreach activities to increase take-up.

These increases in statutory items are partially offset by decreases in Vote 1 – Operating expenditures – and Vote 5 – Grants and contributions. The net decrease of \$21.5 million in Vote 1 and \$100.3 million in Vote 5 are mainly attributable to Department's Strategic Review and for the transfer to Shared Services Canada to consolidate and transform IT infrastructure.

Human Resources and Skills Development

Canada Industrial Relations Board

Raison d'être

The Canada Industrial Relations Board (CIRB) contributes to and promotes a harmonious industrial relations climate in the federally regulated sectors and seeks to provide effective and appropriate dispute resolution services for its client community in a fair and timely manner. Established in 1999 to replace the previous Canada Labour Relations Board, the CIRB is an independent, representative, quasi-judicial tribunal, responsible for the interpretation and application of Part I of the *Canada Labour Code* (the Code) which establishes the framework for collective bargaining, the acquisition and termination of bargaining rights, unfair labour practices and protection of public health and safety in the event of work stoppages affecting essential services. The Board also has responsibility for certain provisions of Part II of the Code related to Occupational Health and Safety.

Highlights

The Canada Industrial Relations Board is estimating budgetary expenditures of \$13.0 million in 2012–13. Of this amount, \$11.4 million requires approval by Parliament. The remaining \$1.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canada Industrial Relations Board's planned spending will remain relatively the same as last year. In 2012–13, the CIRB will continue its efforts to reduce the average processing time of cases and will continue its review of the *Canada Industrial Relations Board Regulations, 2001*. The CIRB does not anticipate any significant change to its program or personnel management.

Human Resources and Skills Development

Canada Mortgage and Housing Corporation

Raison d'être

Canada Mortgage and Housing Corporation is Canada's national housing agency. Established as a federal Crown corporation in 1946 to help address post-war housing shortages, our role has evolved as Canadians' needs have changed. Today, we work closely with provinces, territories and the private and not-for-profit sectors to help lower-income Canadians access affordable, better quality housing. We also help Aboriginal Canadians meet their distinct housing needs.

Our role in housing finance — providing mortgage loan insurance and securitization guarantee products — contributes to the health and stability of Canada's housing finance system and facilitates access to financing for housing across the country. This includes loans for housing in small and rural communities, rental housing and for nursing and retirement homes.

We also promote the efficiency of the Canadian housing system through research, market analysis, information transfer and export promotion.

Highlights

Canada Mortgage and Housing Corporation is estimating budgetary expenditures of \$2.1 billion in 2012–13. Of this amount, \$2.1 billion requires approval by Parliament.

A net budgetary increase of \$232.4 million is due to the following:

- An increase of \$232.7 million to the Investment in Affordable Housing due to the extension of the program and to reflect the revised timing of Provincial / Territorial delivery;
- An increase of \$25.0 million to reflect higher social housing project operating costs;
- An increase of \$4.0 million for additional housing construction and rehabilitation On-Reserve. This funding allows for new commitment activity to assist First Nations in the construction, purchase and rehabilitation of suitable, adequate and affordable rental housing as well as providing financial assistance to repair substandard homes to a minimum level of health and safety;
- A decrease of \$21.7 million to reflect the expiry of long term project operating agreements;
- A decrease of \$3.8 million to reflect adjustments to the funding profile requirements for the Residential Rehabilitation Assistance Program (RRAP) based on expected program delivery;
- A decrease of \$2.3 million due to the results of the 2009 Strategic Review;
- A decrease of \$1.7 million in operating expenses to reflect changes in business volumes and changes to personnel and non personnel costs.

A net non-budgetary decrease of \$818.3 million is due to the following:

- A decrease of \$522.0 million in Direct Lending Activity; and
- A decrease of \$296.3 million due to higher scheduled repayments under the Crown Borrowing Program. The changes in loan repayments occurred in the Insured Mortgage Purchase Program, the Direct Lending activity and the Municipal Infrastructure Lending Program under Canada's Economic Action Plan.

Canadian Artists and Producers Professional Relations Tribunal

Raison d'être

Parliament created the Canadian Artists and Producers Professional Relations Tribunal to administer Part II of the *Status of the Artist Act*, which sets out a structure for professional relations between self-employed artists and producers in federal jurisdiction. The Tribunal defines sectors of artistic activity for collective bargaining, certifies artists' associations to represent self-employed artists working in those sectors, and deals with complaints of unfair labour practices from artists, artists' associations and producers.

Additional information can be found in the Tribunal's Report on Plans and Priorities.

Highlights

The Canadian Artists and Producers Professional Relations Tribunal is estimating budgetary expenditures of \$2.1 million in 2012–13. Of this amount, \$1.9 million requires approval by Parliament. The remaining \$180.9 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canadian Artists and Producers Professional Relations Tribunal's planned expenditures remain approximately the same as the previous year. In 2012–13, the Tribunal will continue:

- To define the sectors of cultural activity suitable for collective bargaining between artists' associations and producers within the Tribunal's jurisdiction, and certify artists' associations to represent self-employed artists working in these sectors;
- To deal with complaints of unfair labour practices and other contraventions of Part II of the Act brought forward by artists, artists' associations or producers, and prescribe appropriate remedies;
- To provide access to useful information on its website, such as scale agreements and analyses of them, for parties engaged in or contemplating bargaining;
- To inform artists and producers about the *Status of the Artist Act*, in order to permit them to fully exercise their rights and fulfil their responsibilities under the Act;
- To encourage mediation to help parties conclude scale agreements, manage their relationships, and resolve complaints without the need for formal hearings; and
- To maintain close contact and communication with its stakeholders and partners to ensure the relevance of its services and activities.

Canadian Centre for Occupational Health and Safety

Raison d'être

The Canadian Centre for Occupational Health and Safety (CCOHS) was founded by an Act of Parliament in 1978 with a mandate to promote health and safety in the workplace and to enhance the physical and mental health of working people.

Highlights

The Canadian Centre for Occupational Health and Safety is estimating budgetary expenditures of \$5.0 million in 2012–13. Of this amount, \$3.9 million requires approval by Parliament. The remaining \$1.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canadian Centre for Occupational Health and Safety's planned expenditures remain much the same as last year. CCOHS will focus its efforts on providing a wide range of needed, relevant and practical information, resources and training that assist Canadians to improve health and safety. We will work with Canadian and global partners to develop the resources and tools that will improve health and safety and contribute to making Canada's workplaces safe and more productive.

Office of the Co-ordinator, Status of Women

Raison d'être

Office of the Co-ordinator, Status of Women, known as Status of Women Canada (SWC), is a federal government agency that promotes equality between women and men in all aspects of Canadian life. The mandate of SWC is “to coordinate policy with respect to the status of women and administer related programs” (1976).

SWC is responsible for exercising leadership and working in partnership to advance equality and increase women's participation in the economic, social and democratic life of Canada and in supporting Canada's efforts to meet international obligations; providing expert advice on how to take gender equality into account in developing the best policies and programs for all Canadians; promoting commemorative dates relating to women in Canada; and supporting action and innovation that will lead to equality in communities across Canada.

SWC works to advance equality for women, focusing its efforts in three priority areas: increasing women's economic security and prosperity; ending violence against women and girls; and encouraging women's leadership and decision-making roles.

Highlights

Office of the Co-ordinator, Status of Women is estimating budgetary expenditures of \$29.4 million in 2012–13. Of this amount, \$28.2 million requires approval by Parliament. The remaining \$1.2 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

SWC's planned expenditures remain approximately the same as the previous year. For further information, details on our priorities will be made available in our 2012–13 Report on Plans and Priorities.

Indian Affairs and Northern Development

Indian Affairs and Northern Development

Raison d'être

Aboriginal Affairs and Northern Development Canada (AANDC) supports Aboriginal people (First Nations, Inuit and Métis) and Northerners in their efforts to:

- improve social well-being and economic prosperity;
- develop healthier, more sustainable communities; and
- participate more fully in Canada's political, social and economic development - to the benefit of all Canadians.

AANDC is one of the federal government departments responsible for meeting the Government of Canada's obligations and commitments to First Nations, Inuit and Métis, and for fulfilling the federal government's constitutional responsibilities in the North. AANDC's responsibilities are largely determined by numerous statutes, negotiated agreements and relevant legal decisions. Most of the Department's programs, representing a majority of its spending - are delivered through partnerships with Aboriginal communities and federal-provincial or federal-territorial agreements. AANDC also works with urban Aboriginal people, Métis and Non-Status Indians (many of whom live in rural areas) through the Office of the Federal Interlocutor.

Note: Until the establishing legislation is amended, the legal name of the department for the purposes of Appropriation Acts remains Indian Affairs and Northern Development.

Highlights

Indian Affairs and Northern Development is estimating budgetary expenditures of \$7.7 billion in 2012–13. Of this amount, \$7.6 billion requires approval by Parliament. The remaining \$164.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The net increase in budgetary and non-budgetary spending of approximately \$428.6 million, or 5.8% primarily reflects changes in the resource profile for targeted initiatives including:

- A net increase of \$286.1 million in the cash flow for the negotiation, settlement and implementation of specific and comprehensive claims (primarily for the settlement of the Coldwater-Narrows Specific Claim);
- An increase of \$137.8 million for the assessment, management and remediation of federal contaminated sites;
- An increase of \$98.9 million to meet increased demand for ongoing Indian and Inuit programs which reflects a 2.0% allowance for inflation and population growth and provides access to basic services such as education, housing, community infrastructure (water and sewage systems), and social support services;
- An increase of \$72.7 million for awards to claimants resulting from the Independent Assessment Process and Alternative Dispute Resolution related to the Indian Residential Schools Settlement Agreement, including other settlement agreement costs that directly benefit claimants;
- An increase of \$23.1 million to support tripartite education agreements with First Nations in British Columbia and to advance readiness for education comparability in other provinces through the Education Partnerships Program;
- An increase of \$12.0 million to upgrade, repair or replace essential fuel storage tanks in First Nation communities under the Capital Facilities and Maintenance Program;
- An increase of \$10.2 million for legislative and regulatory changes to improve the northern regulatory system and to implement the Cumulative Impact Monitoring Program in the Northwest Territories and Nunavut;
- An increase of \$9.5 million for the implementation of several Yukon self-government agreements, and the implementation of the Teslin Tlingit Council Administration of Justice Agreement;
- A reduction of \$159.2 million reflecting the sunset of funding for the First Nations Water and Wastewater Action Plan;
- A reduction of \$43.0 million reflecting the approved funding for the First Nations Infrastructure Fund; and,
- A reduction of \$26.4 million reflecting the transfer of funding to Shared Services Canada for information technology services including e-mail, data centre and network services.

Indian Affairs and Northern Development

Canadian Polar Commission

Raison d'être

The Canadian Polar Commission is responsible for monitoring, promoting and disseminating knowledge of the polar regions; contributing to public awareness of the importance of polar science to Canada; enhancing Canada's international profile as a circumpolar nation; and recommending polar science policy direction to government.

Highlights

The Canadian Polar Commission is estimating budgetary expenditures of \$1.3 million in 2012–13. Of this amount, \$1.2 million requires approval by Parliament. The remaining \$76.8 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canadian Polar Commission (CPC) has an increase in planned spending due mainly to a transfer of \$241.0 thousand to establish and staff a CPC office north of 60 degrees latitude. The CPC will continue to host conferences and workshops, to publish information on subjects of relevance to polar research, and to work closely with other governmental and non-governmental agencies to promote and support Canadian study of the polar regions.

First Nations Statistical Institute

Raison d'être

The First Nations Statistical Institute's mandate is to collect, compile, analyze and publish statistical information about the society and economy of First Nations, other Aboriginal groups and other persons residing on reserve lands or lands of other Aboriginal groups.

Highlights

The First Nations Statistical Institute is estimating budgetary expenditures of \$5.0 million in 2012–13. Of this amount, \$5.0 million requires approval by Parliament.

In 2012–13, the Institute will continue to:

- Develop knowledge and relationships and define statistical needs;
- Deliver added value to existing statistics;
- Deploy innovative statistical products and services;
- Support statistical capacity development and education; and
- Sustain governance and management excellence.

Indian Residential Schools Truth and Reconciliation Commission

Raison d’être

The main goals of the Indian Residential Schools Truth and Reconciliation Commission (TRC) are to:

- Acknowledge and record the experiences, impacts and consequences of the Indian Residential School (IRS) system on former students, their families, communities, former school employees, religious entities, government and other parts of Canadian society;
- Witness, support, promote and facilitate truth and reconciliation events at both the national and community levels;
- Promote awareness and public education of Canadians about the IRS system and its impacts;
- Identify sources and create as complete a historical record as possible of the IRS system and legacy, by conducting research and establishing a National Research Centre. The record shall be preserved and made accessible to the public for future study and use; and
- Produce a report, including any recommendations to government, and submit it to the Parties to the Agreement.

Highlights

The Indian Residential Schools Truth and Reconciliation Commission is estimating budgetary expenditures of \$7.7 million in 2012–13. Of this amount, \$7.4 million requires approval by Parliament. The remaining \$264.0 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The decrease in Main Estimates can be explained by the timing of work to accomplish the Commission’s main activities. TRC received, on June 2008, a five year mandate for which it received \$66 million. The funding was based on a high level of activity in the first two years and a decrease thereafter, but 2010–12 represent the first two complete years of truth and reconciliation activities. Thus, 2012–13 will be TRC’s third complete year of program activities. An estimated \$11 million from the 2011–12 carry-forward will be added to the existing \$7.7 million budget for 2012–13.

Registry of the Specific Claims Tribunal

Raison d’être

The Registry of the Specific Claims Tribunal is constituted under the *Specific Claims Tribunal Act* (passed on October 16, 2008) to manage the administrative affairs of the Specific Claims Tribunal. The Tribunal is an adjudicative body with the express mandate of deciding First Nations’ specific claims including claims related to non-fulfillment of treaties, fraud, illegal leases and dispositions or inadequate compensation for reserve lands or other assets.

Highlights

The Registry of the Specific Claims Tribunal is estimating budgetary expenditures of \$2.8 million in 2012–13. Of this amount, \$2.6 million requires approval by Parliament. The remaining \$202.2 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Registry of the Specific Claims Tribunal’s expenditures remain approximately the same as the previous year. For your information, details on our priorities will be made available in our 2012–13 Report on Plans and Priorities.

Industry

Industry

Raison d'être

Industry Canada's mission is to foster a growing, competitive, knowledge-based Canadian economy.

The Department works with Canadians throughout the economy, and in all parts of the country, to improve conditions for investment, improve Canada's innovation performance, increase Canada's share of global trade, and build an efficient and competitive marketplace.

Industry Canada's mandate is to help make Canadian industry more productive and competitive in the global economy, thus improving the economic and social well-being of Canadians.

Highlights

Industry is estimating budgetary expenditures of \$1.3 billion in 2012–13. Of this amount, \$1.1 billion requires approval by Parliament. The remaining \$253.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net increase of \$89.8 million in planned spending is mainly due to the following:

- A net increase of \$72.0 million in contribution funds under the Canada Foundation for Innovation to support the modernization of research infrastructure at Canadian universities, colleges, research hospitals and other not-for-profit research institutions across Canada;
- A net increase of \$34.7 million in contribution funds to support strategic investments in innovation under the Strategic Aerospace and Defence Initiative;
- A net increase of \$15.6 million in contribution funds under the Automotive Innovation Fund to support innovation in the automotive sector to develop and build greener, more fuel efficient vehicles;
- A net increase of \$14.7 million in transfer payments to Genome Canada to support new genomics research in forestry and environment, and to continue operations in Science and Technology Innovation Centres;
- An increase of \$10.0 million in contribution funds to the Canadian Youth Business Foundation to support and mentor young entrepreneurs;
- An increase of \$9.0 million in contribution funds under the Structured Financing Facility to help ensure that shipyard capability exists for federal procurement and maintenance needs;
- An increase of \$2.5 million in operating funds to modernize BizPal, an online service that guides Canadian businesses in the areas of permits and licenses; and
- An increase of \$2.0 million in operating funds for the implementation of the Digital Technologies Adoption Pilot Program to assist small and medium-sized enterprises accelerate their adoption of information and communications technology.

These increases are partially offset by the following decreases:

- A reduction of \$22.7 million due to the transfer of responsibilities for e-mail systems, data centres, networks, and associated internal services to Shared Services Canada;
- A net reduction of \$18.0 million due to the completion of the Broadband Canada Program;
- A reduction of \$7.7 million due to savings identified as part of the government's ongoing strategic review of departmental spending;
- A net reduction of \$6.5 million in contributions funds related with adjustments for proposed payments to lenders in respect of claims for loans made under the *Canada Small Business Financing Act*;
- A net reduction of \$5.6 million at the Canadian Intellectual Property Office is mainly due to a decrease in expected capital expenditures, resulting from a revised strategy in upgrading the organization's IT infrastructure;
- A reduction of \$5.0 million due to the sunset of the grant to the Canadian Institute for Advanced Research; and
- A reduction of \$3.7 million due to the completion of the Knowledge Infrastructure Program.

Industry

Canadian Space Agency

Raison d'être

The mandate of the Canadian Space Agency (CSA) is to promote the peaceful use and development of space, to advance the knowledge of space through science and to ensure that space science and technology provide social and economic benefits for Canadians.

The CSA is achieving this mandate in cooperation with other government departments and agencies, industries, and universities, as well as international partners. In addition to delivering its own programs, the CSA is responsible for coordinating all federal civil space-related policies and programs pertaining to science and technology research, industrial development and international cooperation.

Highlights

The Canadian Space Agency is estimating budgetary expenditures of \$363.2 million in 2012–13. Of this amount, \$352.2 million requires approval by Parliament. The remaining \$11.0 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The variation in total votes available between the fiscal years 2011–12 and 2012–13 fiscal years represents a net decrease of \$61.4 million. This variation is mainly due to:

- An increase of \$33.7 million provided for the RADARSAT Constellation Mission following the 2010 Federal Budget announcement;
- A decrease of \$55.8 million related to the forecasted cash flow requirements for various projects and initiatives including the economic stimulus initiatives announced in Budget 2009 for the Canadian Space Agency, Contributions to the Canada/ European Space Agency Cooperation Agreement and the RADARSAT Constellation Mission. In previous years, funds for some of these activities had been reprofiled to account for more significant cash flow requirements in those years, resulting in the current year over year decrease;
- A decrease of \$30.0 million bringing an end to the funding from Canada's Economic Action Plan; and
- A decrease of \$7.1 million to finance the activities transferred to Shared Services Canada.

Industry

Canadian Tourism Commission

Raison d’être

The Canadian Tourism Commission (CTC) is Canada’s national tourism marketing organization. A Crown corporation wholly owned by the Government of Canada, we lead the Canadian tourism industry in marketing Canada as a premier four-season tourism destination. Reporting to Parliament through the Minister of Industry, our legislative requirements are outlined in the *Canadian Tourism Commission Act*. Through collaboration and partnerships with the private sector, as well as with the governments of Canada, the provinces and territories, we work with the tourism sector to maintain its competitiveness and position Canada as a destination where travellers can create “extra-ordinary” personal experiences. Additional information can be found in the CTC’s 2012–16 Corporate Plan.

Highlights

The Canadian Tourism Commission is estimating budgetary expenditures of \$72.0 million in 2012–13. Of this amount, \$72.0 million requires approval by Parliament.

The CTC’s planned expenditures will decrease by \$4 million compared to the previous year, as a result of funding for CTC programs related to the 2010 Winter Olympic and Paralympic Games coming to an end. In 2012–13, the CTC will pursue its goal of growing tourism export revenues for Canada by focusing on these strategic objectives and priorities:

- Engage in effective tourism marketing, promotions and market development activities supported by market research;
- Differentiate Canada by positioning it as a leading destination for experiential tourism where travellers create extraordinary stories all their own;
- Concentrate on those geographic markets or consumer market segments where Canada’s tourism brand leads and which hold the highest potential for return on investment;
- Convert high-yield customers by investing in optimal communication channels based on insights from customer segmentation research;
- Aim to be recognized as one of the most innovative tourism marketing organizations in the world with new tools and technology, world-class research and cutting edge multimedia marketing;
- Lead the industry in international brand alignment and consistency, to speak with a unified voice internationally;
- Work with the Canadian tourism industry to foster the development of new tourism products and business practices;
- Facilitate international marketplace access for Canadian small and medium-sized enterprises (SMEs) with export-ready travel products; and
- Be a strategy-focused organization and continue to be lean and scalable.

Copyright Board

Raison d'être

The Copyright Board is an economic regulatory body empowered to establish, either mandatorily or at the request of an interested party, the royalties to be paid for the use of copyrighted works, when the administration of such copyright is entrusted to a collective-administration society. The Board also has the right to supervise agreements between users and licensing bodies and issues licences when the copyright owner cannot be located.

Highlights

The Copyright Board is estimating budgetary expenditures of \$3.1 million in 2012–13. Of this amount, \$2.8 million requires approval by Parliament. The remaining \$302.8 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Copyright Board of Canada will continue to ensure balanced decision-making, and provide proper incentives for the creation and use of copyrighted works. The Board will also examine possible avenues to improve its practices and procedures, with the aim of streamlining them and reducing uncertainty, while safeguarding fairness of the process.

The year-over-year changes of the budget are due to a net decrease of \$6,881 to the employee benefit plans.

Industry

Federal Economic Development Agency for Southern Ontario

Raison d'être

The global economic recession had a significant impact in every region of Canada, including southern Ontario. As Canada's most populous region - home to more than 12 million residents living in 288 communities – southern Ontario's economy is a key contributor to the health of the Canadian economy as a whole. As a result, the Government of Canada created the Federal Economic Development Agency for Southern Ontario (FedDev Ontario) with a five-year mandate, in 2009, as part of Canada's Economic Action Plan.

To fulfill its mandate, FedDev Ontario supports the competitiveness, innovation, and diversification of southern Ontario's economy by: delivering strategic investments to businesses, non-profit organizations and communities; establishing and strengthening collaborative partnerships with key economic stakeholders; and representing the region's interests at the federal and national level.

Highlights

The Federal Economic Development Agency for Southern Ontario is estimating budgetary expenditures of \$218.8 million in 2012–13. Of this amount, \$215.5 million requires approval by Parliament. The remaining \$3.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

FedDev Ontario's planned spending in 2012–13 reflects the programs and internal services that will be necessary to support the achievement of its strategic outcome. For 2012–13 the Agency anticipates spending \$188.9 million in contributions while requiring \$29.9 million for operating costs to support program delivery and internal service areas. The Southern Ontario Development Program is the vehicle for delivering FedDev Ontario's core contribution budget in 2012–13 while FedDev Ontario will also administer the Community Futures Program, the Eastern Ontario Development Program and the Economic Development Initiative in 2012–13. In addition, the Agency will continue to focus on delivering infrastructure programs on behalf of Infrastructure Canada.

In total, FedDev Ontario is estimating a decrease of \$1.5 million or 0.7% from its 2011–12 Main Estimates.

Significant year-over-year changes in funding:

- A net increase of \$1.0 million in operating funds is due to an increase of \$1.6 million for the Building Canada Fund and a transfer of \$0.4 million from Human Resources and Skills Development Canada for the Regional Federal Council of Ontario, which are offset by a decrease of \$0.1 million for the Canada Strategic Infrastructure Fund and a transfer of \$0.9 million to Shared Services Canada;
- An increase of \$0.2 million in statutory expenditures for the employee benefit plan due to an increase in personnel; and
- A net decrease of \$2.7 million in transfer payments includes a reduction of \$1.2 million in grants to the Corporation of the City of Brantford and a decrease of \$1.2 million in contributions for the Economic Development Initiative.

Industry

National Research Council of Canada

Raison d’être

The National Research Council of Canada (NRC) bridges the innovation gap between early stage research and development and commercialization, focusing on socio-economic benefits for Canadians and increasing national performance in innovation. As Canada’s national research and technology organization, NRC supports the business sector in Canada to enhance innovation capabilities and capacity and become more productive in the development and deployment of innovative products, processes and services for targeted markets. With a presence in every province, NRC combines a strong national foundation with international linkages to help Canada grow in productivity and remain globally competitive. To ensure a multi-disciplinary and integrated approach, NRC works in collaboration with industry, governments, and academia.

Highlights

The National Research Council of Canada is estimating budgetary expenditures of \$700.5 million in 2012–13. Of this amount, \$528.0 million requires approval by Parliament. The remaining \$172.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net increase of \$9.7 million in planned spending is mainly due to the following:

- An increase of \$57.0 million in the estimate of statutory revenue pursuant to paragraph 5(1)(e) of the *National Research Council Act*;
- An increase of \$28.0 million for the funding of the Digital Technology Adoption Pilot Program , as announced in Budget 2011;
- An increase of \$8.8 million in the reference levels for the renewal of the funding for the Genomics Research & Development Initiative;
- An increase of \$2.5 million for the funding of the Canadian HIV Technology Development Program;
- An increase of \$1.8 million in the reference levels for the renewal of the Indoor Air Initiative in support of the Government’s Clean Air Agenda;
- A net increase of \$0.3 million for items less than \$1.0 million;
- A decrease of \$66.7 million from Budget 2010 related to NRC’s Technology Cluster Initiatives;
- A decrease of \$17.3 million related to the transfer to Shared Services Canada for information technology services including e-mail, data centre and network services; and
- A net decrease of \$4.7 million for signed collective agreements.

Industry

Natural Sciences and Engineering Research Council

Raison d'être

The Natural Sciences and Engineering Research Council of Canada (NSERC) is a leader in making Canada a country of discoverers and innovators for all Canadians. NSERC aims to maximize the value of public investments in research and development and to advance prosperity and quality of life in Canada. NSERC offers programs that support post-secondary research in the natural sciences and engineering on the basis of national, peer-reviewed competitions. NSERC supports partnerships and innovation to make it easier for industry to collaborate with academia and access the wealth of resources Canada's first-rate academic system has to offer. NSERC develops the next generation of talented scientists and engineers through its scholarships and research stipends, and increases the visibility of Canadian research.

Highlights

The Natural Sciences and Engineering Research Council is estimating budgetary expenditures of \$1.0 billion in 2012–13. Of this amount, \$1.0 billion requires approval by Parliament. The remaining \$5.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net decrease of \$3.5 million or 0.33% in planned spending is mainly due to the following:

- An increase of \$15.0 million to the Natural Sciences and Engineering Research Council budget to support outstanding research in the natural sciences and engineering. Funds will be allocated to Strategy for Partnerships and Innovation and the Discovery Grants Program (Budget 2011);
- An increase of \$7.0 million to expand the College and Community Innovation Program. Funds will be allocated to two new initiatives: Industrial Research Chairs for Colleges and College-University Idea to Innovation (Budget 2011);
- An increase of \$1.0 million in grants and scholarships due to a transfer from Natural Resources Canada to support the Generation IV Energy Technologies Program;
- An increase of \$0.4 million to in the Canada Excellence Research Chairs program to attract and retain the world's most accomplished and promising minds (Budget 2008);
- A decrease of \$8.4 million due to the sunsetting of funds of the Business-Led Networks of Centres of Excellence Program;
- A decrease of \$7.0 million related to the Canada Graduate Scholarships Program due to the phase out of the Economic action plan (Budget 2009);
- A decrease of \$6.9 million due to the sunsetting of funds of the Industrial Research and Development Internship Program. The funding of projects under this Program was extended for one year using Grant and Scholarships Program funds;
- A decrease of \$2.1 million in operating funds mainly due to the phase-out of Business-Led Networks of Centres of Excellence Program, Industrial Research and Development Internship Program and Centres of Excellence for Commercialization and Research;
- A decrease of \$2.0 million in Networks of Centres of Excellence Program due to the sunsetting of funding from Budget 2004; and
- A decrease of \$0.5 million in Grants and Scholarships program due to a transfer to the International Development Research Centre for the International Research Initiative on Adaptation to Climate Change.

Registry of the Competition Tribunal

Raison d’être

The Competition Tribunal, established in 1986, is an independent, quasi-judicial tribunal established under the *Competition Tribunal Act* to hear applications brought by the Commissioner of Competition or a private party, depending on the circumstances, under various parts of the *Competition Act*. The purpose of the *Competition Act* is to maintain and encourage competition in Canada. The Tribunal hears applications related to deceptive marketing practices, such as misleading advertising, under Part VII.1 of the *Competition Act*. The Tribunal also has jurisdiction to hear references as well as applications brought pursuant to Part VIII, which sets out restrictive trade practices such as exclusive dealings.

Highlights

The Registry of the Competition Tribunal is estimating budgetary expenditures of \$2.3 million in 2012–13. Of this amount, \$2.2 million requires approval by Parliament. The remaining \$165.2 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Registry of the Competition Tribunal’s expenditures remain approximately the same as the previous year. For your information, details on our priorities will be made available in our 2012–13 Report on Plans and Priorities.

Industry

Social Sciences and Humanities Research Council

Raison d'être

The Social Sciences and Humanities Research Council (SSHRC) funds research and research training that builds knowledge about people, past and present, with a view toward creating a better future. From questions of family and culture to concerns about jobs and employment, research about people—how we live, what we think, how we act—informs new knowledge and insights on the issues that matter most to Canadians.

SSHRC plays a unique role within Canada's science, technology and innovation system by awarding grants and scholarships to researchers, students and fellows who work as individuals, in small groups and in formal partnerships to develop talent, generate insights and build connections that address the needs of all sectors of society.

Highlights

The Social Sciences and Humanities Research Council is estimating budgetary expenditures of \$688.2 million in 2012–13. Of this amount, \$685.4 million requires approval by Parliament. The remaining \$2.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net increase of \$10.6 million or 1.6% in planned spending is mainly due to the following:

- An increase of \$10.0 million in the Indirect Costs of Research program to assist Canadian postsecondary institutions by supporting costs of federally funded research conducted on campuses across Canada. This program helps researchers concentrate on cutting-edge discoveries and research excellence (Budget 2011);
- An increase of \$7.0 million in the Grants and Scholarships program to support world-leading research in the social sciences and humanities, such as partnership activities in priority areas including the digital economy (Budget 2011);
- A decrease of \$3.5 million related to the Canada Graduate Scholarships Program due to the phase out of the Economic action plan (Budget 2009);
- A decrease of \$1.0 million due to the sunsetting of funds of the Business-Led Networks of Centres of Excellence Program;
- A decrease of \$1.0 million in Metropolis Project funded by SSHRC and a consortium of federal departments and agencies led by Citizenship and Immigration Canada.
- A decrease of \$0.5 million in Networks of Centres of Excellence Program due to the sunsetting of funding from Budget 2004; and
- A decrease of \$0.4 million in Grants and Scholarships program due to a transfer to the International Development Research Centre for the International Research Initiative on Adaptation to Climate Change.

Standards Council of Canada

Raison d'être

The Standards Council of Canada (SCC) is a federal Crown corporation with a mandate to promote efficient and effective standardization in Canada. The SCC coordinates and oversees the work of Canada's standardization network. This includes Canadian organizations and individuals involved in voluntary standards development and conformity assessment activities. Some 12,500 Canadian volunteers contribute to the work of committees that develop national and international standards. Standards and conformity assessment practices are a key component of Canadians' economic and social well-being — they provide business and industry with key building blocks to success and facilitate the flow of goods and services both nationally and internationally.

Highlights

The Standards Council of Canada is estimating budgetary expenditures of \$7.6 million in 2012–13. Of this amount, \$7.6 million requires approval by Parliament.

As part of a five-year program, Standards Council of Canada will be leading the Northern Infrastructure Standardization Initiative with support from Aboriginal Affairs and Northern Development Canada (AANDC) representing an increase in annual funding of \$500.0 thousand starting in 2011–12 to 2015–16.

Standardization practices, instruments and tools offer low risk solutions to address public policy issues. This program will benefit from SCC's expertise by integrating adaptation into codes and standards for Northern infrastructure. In partnership with AANDC, SCC will develop a framework to address issues related to adaptation and codes and standards for northern infrastructure.

Industry

Statistics Canada

Raison d'être

Statistics Canada was established to ensure that Canadians have access to a trusted source of statistics on Canada meeting their highest priority needs.

The Agency's mandate derives primarily from the *Statistics Act*. The Act requires that Statistics Canada collect, compile, analyse and publish statistical information on the economic, social and general conditions of the country and its people. It requires Statistics Canada to conduct a Census of Population and a Census of Agriculture every fifth year and that the Agency protect the confidentiality of the information with which it is entrusted. This mandate covers a broad range of statutory requirements, as well as contractual obligations. Statistics Canada is also mandated to provide co-ordination and leadership for the national statistical system, specifically to avoid duplication in the information collected by government.

Highlights

Statistics Canada is estimating budgetary expenditures of \$454.7 million in 2012–13. Of this amount, \$385.5 million requires approval by Parliament. The remaining \$69.2 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Main Estimates funding was \$741,560,516 in 2011–12 and is \$454,681,353 for 2012–13. This decrease of \$286,879,163 is mainly explained by the following:

- 2011 Census of Population & National Household Survey (NHS) and the 2011 Census of Agriculture

There is a funding decrease of \$248,645,326 for the 2011 Census of Population and NHS as the program begins to wind down. Applicable funding in 2012–13 will be used mostly to complete processing of returns, continue data quality studies, disseminate results, and to complete evaluations of the 2011 Census of Population and NHS.

There is a funding decrease of \$13,267,842 for the 2011 Census of Agriculture which reflects the end of the major period of collection and processing in 2011–12. The decreased funds in 2012–13 will be used to disseminate the data, conduct evaluation studies, explore the possibility of replacing detailed expense questions with tax data in the future, and to link the 2011 Census of Agriculture and the 2011 NHS to produce a database of socio-economic information on farm operators and their families.

- Shared Services Canada (SSC)

There is a funding decrease of \$36,223,140 to transfer funds to SSC to pool existing resources from across government to consolidate and transform IT infrastructure for the Government of Canada.

- Consumer Price Index Enhancement Initiative (CPI) and the establishment of a Harmonized Sales Tax (HST) Secretariat.

There is a funding increase of \$10,423,214 to support the CPI Enhancement Initiative to update one of Canada's most important economic indicators to ensure its ongoing relevance and quality and to ensure that it is produced efficiently.

There is a funding increase of \$911,324 to establish an HST Secretariat at Statistics Canada to support anticipated work pressures on the department due to the expansion of the HST Program and the heightened importance of the data inputs to HST revenue allocation.

Justice

Justice

Raison d'être

The Department of Justice has the mandate to support the dual roles of the Minister of Justice and the Attorney General of Canada. Under Canada's federal system, the administration of Justice is an area of shared jurisdiction between the federal government and the provinces. The Department supports the Minister of Justice in his responsibilities for 51 statutes and areas of federal law by ensuring a bilingual and bijural national legal framework principally within the following domains: criminal justice (including youth criminal justice); family justice; access to justice; and, Aboriginal justice. The Department also supports the Attorney General as the chief law officer of the Crown both in terms of the ongoing operations of government, as well as the development of new policies, programs and services for Canadians to support the Government's priorities. Specifically, the Department provides legal advice to the government and all federal government departments and agencies, represents the Crown in civil litigation and before administrative tribunals, drafts legislation, and responds to the other legal needs of federal departments and agencies.

Highlights

Justice is estimating budgetary expenditures of \$694.6 million in 2012–13. Of this amount, \$614.4 million requires approval by Parliament. The remaining \$80.2 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Justice's decrease in net authority of \$42.99 million is mainly due to the following items:

- An increase of \$7.98 million in funding for the renewal of the Federal Victims Strategy;
- An increase of \$5.3 million in funding for the renewal of the Canada's War Crimes Programs;
- An increase of \$2.5 million in funding for the renewal of the Anti-gang, Gun and Drug activities for youth in conflict with the law;
- An increase of \$0.31 million that reflects a corrective entry in the calculation of the reduction in the reference level for the collective agreements as per Budget 2010 (\$0.22 million) and funding for other collective agreements (\$0.09 million);
- A decrease of \$19.78 million that represents the transfer, as established by Orders in Council, for the establishment of Shared Services Canada;
- A decrease of \$14.42 million in funding for activities related to legal aid;
- A decrease of \$12.30 million in funding for the Aboriginal Justice Strategy program;
- A decrease of \$9.74 million in funding related to the management of immigration cases involving classified information under Division 9 of the *Immigration and Refugee Protection Act*; and
- A decrease of \$1.72 million to reflect the decrease of Employee Benefit Premium costs.

Justice

Canadian Human Rights Commission

Raison d'être

The Canadian Human Rights Commission was established in 1977 under Schedule II of the *Financial Administration Act* in accordance with the *Canadian Human Rights Act* (CHRA).

The Commission leads the administration of the CHRA and ensures compliance with the *Employment Equity Act* (EEA). The CHRA prohibits discrimination and the EEA promotes equality in the workplace. Both laws apply the principles of equal opportunity and non-discrimination to federal government departments and agencies, Crown corporations, and federally regulated private sector organizations.

Highlights

The Canadian Human Rights Commission is estimating budgetary expenditures of \$23.1 million in 2012–13. Of this amount, \$20.4 million requires approval by Parliament. The remaining \$2.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Commission's planned expenditures remain approximately the same as the previous year.

In 2012–13, the Commission will continue its activities regarding the processing of complaints related to the repeal of section 67 of the *Canadian Human Rights Act* in force since June 2011. For the first time, members from First Nation communities are able to file complaints on actions resulting from the administration of the *Indian Act*. This is in addition to human rights complaints received on a regular basis, relating to the Commission's mandate. The Commission also:

- Audits federally regulated employers, under the *Employment Equity Act*, to ensure that they are providing equal opportunities for employment;
- Develops and disseminates regulations, policies and knowledge;
- Undertakes initiatives to prevent discrimination;
- Offers dispute resolution services to help address inquiries and complaints;
- Develops and implements information programs to foster public understanding of the CHRA and of the role and activities of the Commission; and
- Undertakes and sponsors research programs related to its duties and functions under the CHRA.

Justice

Canadian Human Rights Tribunal

Raison d'être

The Canadian Human Rights Tribunal is a quasi-judicial body that hears complaints of discrimination referred by the Canadian Human Rights Commission and determines whether the activities complained of violate the *Canadian Human Rights Act* (CHRA). The purpose of the CHRA is to protect individuals from discrimination and to promote equal opportunity. The Tribunal also decides cases brought under the *Employment Equity Act* and, pursuant to section 11 of the CHRA, determines allegations of wage disparity between men and women doing work of equal value in the same establishment.

Highlights

The Canadian Human Rights Tribunal is estimating budgetary expenditures of \$4.5 million in 2012–13. Of this amount, \$4.1 million requires approval by Parliament. The remaining \$406.0 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canadian Human Rights Tribunal's planned expenditures remain approximately the same as the previous year. In 2012–13, CHRT will continue to ensure that individuals have equal access, to fair and equitable adjudication of human rights and employment equity cases that are brought before the Tribunal. Specifically, the CHRT will:

- continue to hear complaints of discrimination referred by the Canadian Human Rights Commission and determine whether the activities complained of violate the *Canadian Human Rights Act*;
- decide cases brought under the *Employment Equity Act* and, pursuant to section 11 of the CHRA, will determine allegations of wage disparity between men and women doing work of equal value in the same establishment;
- will pursue shared service opportunities for its back office activities in support of the government's efficiency agenda.

Justice

***Commissioner for Federal Judicial
Affairs***

Raison d’être

To be recognized for our contribution in preserving Canada’s reputation as leader in the field of judicial independence.

Highlights

The Commissioner for Federal Judicial Affairs is estimating budgetary expenditures of \$485.0 million in 2012–13. Of this amount, \$9.3 million requires approval by Parliament. The remaining \$475.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net increase of \$22.4 million is mainly due to:

- \$22.9 million of funding to allow for an increase in the number of judicial appointments as well as an increase in the overall average in the amounts of pensions being paid to pensioners in accordance with the *Judges Act* as well as a provision for a salary increase to federally appointed judges contained in the *Judges Act*;
- A decrease of \$0.3 million due to an end to the funding provided for the operation of the Judicial Compensation and Benefits Commission; and
- A decrease of \$0.2 million due to the end of funding for the departmental Innovation Project.

Justice

Courts Administration Service

Raison d'être

The Courts Administration Service (CAS) was established in 2003 with the coming into force of the *Courts Administration Service Act*.

The role of CAS is to provide effective and efficient registry, judicial and corporate services to four superior Courts of record – the Federal Court of Appeal, the Federal Court, the Court Martial Appeal Court of Canada and the Tax Court of Canada. Judicial independence is enhanced through the Act by placing the judiciary at arm's length from the federal government while ensuring greater accountability for the use of public money.

Highlights

The Courts Administration Service is estimating budgetary expenditures of \$64.8 million in 2012–13. Of this amount, \$57.9 million requires approval by Parliament. The remaining \$7.0 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The net decrease of \$0.5 million in planned spending is mainly due to the following:

- An increase of \$2.9 million in program integrity funding for existing judicial appointments and to provide essential security measures for the federal courts;
- An increase of \$0.2 million related to funding to implement Bill C-11, an *Act to amend the Immigration and Refugee Protection Act (Balanced Refugee Reform Act) and the Federal Courts Act*;
- A reduction of \$3.0 million relating to funding to manage immigration cases involving classified information under Division 9 of the *Immigration and Refugee Protection Act* that sunset in 2011–12;
- A reduction of \$0.5 million for the repayment of funding provided in 2011–12 to enable Courts Administration Service's corporate functions to be relocated to the designated Federal Judicial Building for the National Capital Region and investment in information technology equipment; and
- A net decrease of \$0.1 million for other adjustments.

Justice

Office of the Director of Public Prosecutions

Raison d'être

The Office of the Director of Public Prosecutions (ODPP) is an independent prosecution service mandated to prosecute offences under federal jurisdiction. Its sole strategic outcome is the prosecution of criminal and regulatory offences under federal law in a manner that is independent, impartial and fair. ODPP was created on December 12, 2006 with the coming into force of the *Director of Public Prosecutions Act*, it:

- Provides legal advice to federal investigative agencies and departments on the criminal law implications of investigations and prosecutions;
- Ensures the appropriate enforcement of federal laws through principled and independent decisions by prosecutors; and
- Promotes confidence in the administration of justice through professionally conducted prosecutions that result in a judicial determination on the merits of the evidence.

Additional information can be found in the Departmental Report on Plans and Priorities.

Highlights

Office of the Director of Public Prosecutions is estimating budgetary expenditures of \$174.3 million in 2012–13. Of this amount, \$155.5 million requires approval by Parliament. The remaining \$18.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The overall net increase of \$2.1 million from the 2011–12 Main Estimates to the 2012–13 Main Estimates is mostly due to:

Total increases of \$4.9 million comprised of the following:

- An increase in the Drug Prosecution fund of \$1.8 million, to ensure the program integrity of the Office of the Director of Public Prosecutions in relation to drug prosecution and to establish a revised fee schedule for Crown agents.
- An increase of \$1.1 million to bolster the combat against the laundering of proceeds of crime and the financing of terrorist activities in accordance with the *Proceeds of Crime (Money Laundering) and Terrorist Financing Act*. This initiative was renewed in 2011–12, and funding was received through Supplementary Estimates in 2011–12.
- An increase of \$1.0 million for the hiring of additional prosecutors to ensure timely access to justice for the inhabitants of Nunavut.
- An increase of \$0.9 million to support the Crown Witness Coordinators under the Victims of Crime Initiatives to provide court-based victim/witness support in the Territories. This initiative was renewed in 2011–12, and funding was received through Supplementary Estimates in 2011–12.
- A \$0.1 million net increase for other minor adjustments.

This increase is offset by the following \$2.8 million in decreases:

- A decrease of \$1.8 million for transition funding for the relocation of several regional offices in facilities separate and apart from those of the Department of Justice.
- A decrease of \$0.5 million for the Employee Benefit Plans adjustment.
- A decrease of \$0.5 million for the Strategic Review 2010 reallocation.

Offices of the Information and Privacy Commissioners of Canada

Raison d'être

OFFICE OF THE PRIVACY COMMISSIONER OF CANADA

The mandate of the Office of the Privacy Commissioner of Canada is to oversee compliance with both the *Privacy Act*, which covers the personal information-handling practices of federal government departments and agencies, and the *Personal Information Protection and Electronic Documents Act*, Canada's private-sector privacy law. The mission of the Office is to protect and promote the privacy rights of individuals.

OFFICE OF THE INFORMATION COMMISSIONER OF CANADA

The Office of the Information Commissioner of Canada ensures that the rights conferred to information requesters by the *Access to Information Act* are respected, which ultimately enhances transparency and accountability across the federal government.

Highlights

The Offices of the Information and Privacy Commissioners of Canada is estimating budgetary expenditures of \$36.3 million in 2012–13. Of this amount, \$32.5 million requires approval by Parliament. The remaining \$3.8 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

OFFICE OF THE PRIVACY COMMISSIONER OF CANADA

The Office of the Privacy Commissioner of Canada's (OPC) planned expenditures for 2012–13 (\$24.606 million) remain approximately the same as the previous year (\$24.659 million).

The funding will be used to carry out OPC priorities for 2012–13:

- Fully implement new service delivery models to maximize results for Canadians by establishing new processes, improving service delivery and optimizing the use of available resources namely through cooperation;
- Provide leadership to advance the four priority privacy issues (information technology, public safety, identity integrity and protection, and genetic information) for Canadians by maintaining a reliable knowledge foundation based on which to provide leadership; and
- Sustain organizational capacity through continuous improvement by maintaining high quality, consistent service levels to Canadians in an increasingly complex environment. The Office will continue to nourish its organizational capacity to manage resources horizontally and its ability to manage change seamlessly.

OFFICE OF THE INFORMATION COMMISSIONER OF CANADA

The Office of the Information Commissioner of Canada's (OIC) planned expenditures for 2012–13 (\$11,707,736) remain at approximately the same level as the previous year (\$12,004,864). The \$297,128 variance is mainly due to the following:

- A salary increase of \$1,787 called for by a recently signed collective agreement;
- A decrease in operating expenditures of \$268,000 consistent with the OIC's initiative to renew its information management and technology infrastructure; and
- A decrease in employee benefit plans of \$30,915 due to a rate change.

In 2012–13, the funding will be used first and foremost to carry out efficient, fair and confidential investigations of complaints and issues of concern on how federal institutions handle access to information requests from the public. To this end, the OIC will continue to streamline and refine its investigative process while improving its information management and technology infrastructure. Other activities will be conducted in support of the Commissioner's advisory role to Parliament on all access to information matters. Where required, OIC staff will also assist the Commissioner in bringing issues of interpretation and enforcement of the law before the courts.

Justice

Supreme Court of Canada

Raison d’être

Created by an Act of Parliament in 1875, the Supreme Court of Canada is Canada’s final court of appeal. It serves Canadians by deciding legal issues of public importance, thereby contributing to the development of all branches of law applicable within Canada. The independence of the Court, the quality of its work and the esteem in which it is held both in Canada and abroad contribute significantly as foundations for a secure, strong and democratic country founded on the Rule of Law. The Supreme Court of Canada consists of the Chief Justice and eight puisne judges.

The Office of the Registrar of the Supreme Court of Canada provides all necessary services and support for the Court to process, hear and decide cases. It also serves as the interface between litigants and the Court.

Highlights

The Supreme Court of Canada is estimating budgetary expenditures of \$29.8 million in 2012–13. Of this amount, \$21.7 million requires approval by Parliament. The remaining \$8.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Supreme Court of Canada’s expenditures remain approximately the same as the previous year.

A net increase in the statutory authorities of \$96,931 consists primarily of an increase in personnel funding of \$150,080 for the Judges’ salaries and annuities, offset by a decrease in the contributions to employee benefit plans (\$53,149).

In 2012–13, the Office of the Registrar of the Supreme Court of Canada will continue to focus its efforts on a single strategic outcome, namely that the ‘administration of Canada’s final court of appeal is effective and independent’. The core work of the Office will continue to be the processing and management of cases brought to the Court. The Office will continue to pursue efforts to enhance the Court’s overall security program to better meet the needs of the Court and will move forward with its Business Transformation initiative which is a necessary continuation of work that began in 2006 under the Court Modernization Project. In connection with this work, the Office will pursue its long term goal of improving electronic access to the Court’s case files and information, both by the public and litigants. In addition, work will continue towards the planning of a major refurbishment project to address the aging infrastructure of the Supreme Court of Canada building.

* Pursuant to Order in Council P.C. 2011-1301, Communications Security Establishment was established as a department in Schedule 1.1 of the *Financial Administration Act*, effective November 15, 2011.

National Defence

National Defence

Raison d'être

On behalf of the people of Canada, the Canadian Forces (CF) and the Department of National Defence (DND) stand ready to perform three key roles:

- Defend Canada – by delivering excellence at home;
- Defend North America – by being a strong and reliable partner with the United States in the defence of the continent; and
- Contribute to International Peace and Security – by projecting leadership abroad.

The *National Defence Act* establishes DND and the CF as separate entities, operating within an integrated National Defence Headquarters, as they pursue their primary responsibility of providing defence for Canada and Canadians. Defence continues to adapt to an evolving strategic global security environment and is prepared to meet emerging non-traditional challenges such as piracy attacks, as well as traditional ones, including global terrorism, weapons proliferation and the enduring threat of regional conflicts emerging around the world. In addition to the global financial situation, these factors will continue to occupy the international agenda and challenge Canada's security and prosperity.

Highlights

The National Defence is estimating budgetary expenditures of \$19.8 billion in 2012–13. Of this amount, \$18.4 billion requires approval by Parliament. The remaining \$1.4 billion represents statutory forecasts that do not require additional approval and are provided for information purposes.

National Defence's decrease in net authority of \$1,494.2 million or 7% is due to a decrease in operating costs of \$957.1 million, a decrease in capital costs of \$560.0 million, and an increase in grants, contributions and other transfer payments of \$22.9 million. Major factors contributing to the net decrease include:

- \$525.0 million for ongoing reviews of departmental spending as introduced in Budget 2007;
- \$388.6 million for the establishment of the Communications Security Establishment and the Communications Security Establishment Internal Services Unit as a stand-alone agency;
- \$305.7 million for the establishment of Shared Services Canada as part of the Public Works and Government Services Canada portfolio to streamline and reduce duplication in the government's IT services; and
- \$255.7 million for the Canada First Defence Strategy;
- \$232.2 million in net adjustments to the spending profile of major capital equipment and infrastructure projects to align financial resources with project acquisition timelines; and
- \$121.0 million in requirements to support Canada's international security operations in Afghanistan.

These decreases are offset by the following increase:

- \$333.6 million pursuant to the annual escalator on defence spending as announced in Budget 2008 to provide long-term and predictable funding.

National Defence

Canadian Forces Grievance Board

Raison d’être

The *raison d’être* of the Canadian Forces Grievance Board is to provide an independent and external review of military grievances. Section 29 of the *National Defence Act* provides a statutory right for an officer or a non-commissioned member who has been aggrieved, to grieve a decision, an act or an omission in the administration of the affairs of the Canadian Forces (CF). The importance of this broad right cannot be overstated since it is, with certain narrow exceptions, the only formal complaint process available to CF members.

Highlights

The Canadian Forces Grievance Board is estimating budgetary expenditures of \$6.7 million in 2012–13. Of this amount, \$6.1 million requires approval by Parliament. The remaining \$610.0 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canadian Forces Grievance Board’s expenditures remain approximately the same as the previous year. For your information, details on our priorities will be made available in our 2012–13 Report on Plans and Priorities.

National Defence

Communications Security Establishment

Raison d'être

In December 2001, the government passed omnibus bill C-36 into law as the *Anti-terrorism Act*. The new act amended portions of the *National Defence Act* and officially recognized the Communications Security Establishment Canada's (CSEC) three-part mandate:

- To acquire and use information from the global information infrastructure for the purpose of providing foreign intelligence, in accordance with Government of Canada intelligence priorities;
- To provide advice, guidance and services to help ensure the protection of electronic information and of information infrastructures of importance to the Government of Canada; and
- To provide technical and operational assistance to federal law enforcement and security agencies in the performance of their lawful duties.

The *Anti-Terrorism Act* also strengthened CSEC's capacity to engage in the war on terrorism by providing needed authorities to fulfill its mandate.

Highlights

The Communications Security Establishment Canada is estimating budgetary expenditures of \$387.0 million in 2012–13. Of this amount, \$356.3 million requires approval by Parliament. The remaining \$30.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Communications Security Establishment Canada's planned expenditures will continue to assure that Canada's defence, security and international affairs are strengthened, and that technical assistance to federal law enforcement, defence and security agencies is supported. These results will be achieved by two primary means: through providing foreign signals intelligence and technical security capabilities that advance and protect Canada's vital interests; and by assuring that the Government of Canada has access to products, services, situational awareness, and assistance that help protect its information and information systems of importance.

In doing so, CSEC will pursue its strategic plan with a view to:

- Making informed decisions within an improved governance framework;
- Promoting leadership, agility and collaborative teams that value their contributions to advancing mission objectives;
- Streamlining corporate processes and policies that will strengthen relevance in both the Canadian and allied communities;
- Making measured, strategic investments to build innovative capacities;
- Synchronizing activities and information between operational domains, developing high-end skills and promoting employee interchanges at all levels; and
- Supporting the Canadian Forces by ensuring a seamless cryptologic enterprise.

National Defence

Military Police Complaints Commission

Raison d’être

On behalf of all Canadians, the Military Police Complaints Commission exists to provide greater public accountability by the military police and the chain of command in relation to military police activities. The Commission derives its mandate from Part IV of Canada's *National Defence Act*.

Highlights

The Military Police Complaints Commission is estimating budgetary expenditures of \$4.6 million in 2012–13. Of this amount, \$4.3 million requires approval by Parliament. The remaining \$302.4 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net increase of \$1.1 million in planned spending is due to approved funding to conduct the Fynes Public Interest Hearing.

National Defence

**Office of the Communications Security
Establishment Commissioner**

Raison d’être

The position of Communications Security Establishment Commissioner was created to review the activities of Communications Security Establishment Canada (CSEC) to determine whether it performs its duties and functions in accordance with the laws of Canada. This includes having due regard for the privacy of Canadians. The Commissioner's office exists to support the Commissioner in the effective discharge of his mandate.

Additional information can be found in the Report on Plans and Priorities of the Office of the Communications Security Establishment Commissioner.

Highlights

The Office of the Communications Security Establishment Commissioner is estimating budgetary expenditures of \$2.1 million in 2012–13. Of this amount, \$2.0 million requires approval by Parliament. The remaining \$134.1 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The planned expenditures of the Office of the Communications Security Establishment Commissioner remain approximately the same as the previous year. The Office will continue to conduct rigorous reviews to ensure that activities conducted by CSEC under ministerial authorization are those authorized by the Minister of National Defence; to ensure that CSEC complies with the law and only directs its activities at foreign entities located outside Canada; to ensure that, in all the activities CSEC undertakes, it effectively applies satisfactory measures to protect the privacy of Canadians; and to report the results of these reviews to the Minister of National Defence, who is responsible for CSEC.

Natural Resources

Natural Resources

Raison d'être

Natural Resources Canada's vision is to improve the quality of life of Canadians by creating a sustainable resource advantage. It seeks to fulfill this vision by working to: improve the competitiveness of the natural resource sectors; enable the sustainable development of Canada's resources; and enhance the safety and security of citizens.

Highlights

Natural Resources is estimating budgetary expenditures of \$2.8 billion in 2012–13. Of this amount, \$1.6 billion requires approval by Parliament. The remaining \$1.3 billion represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Department of Natural Resources decrease in planned spending of \$712.2 million or 20.2% is due to an increase in operating costs of \$148.7 million, a decrease of \$7.1 million in Capital, an increase in Grants of \$98.7 million, a decrease in contributions of \$953.5 million, and an increase in contributions to employee benefit plans of \$1.0 million. Factors contributing to the net decrease include:

- An increase of \$137.6 million related to the Nuclear Legacy Liabilities program;
- An increase of \$123.0 million for the Clean Energy Fund;
- An increase of \$62.8 million for the ecoENERGY Innovation Initiative;
- An increase of \$59.3 million for the statutory grant Biofuels – Next Generation Sustainable Development Technology Canada;
- An increase of \$38.0 million for the ecoENERGY Efficiency program;
- An increase of \$37.5 million for Sustainable Development Technology Canada;
- An increase of \$20.8 million in support of the Port Hope Area Initiative;
- A decrease of \$549.8 million related to the Pulp and Paper Green Transformation program;
- A decrease of \$436.1 million for the statutory payments to the Newfoundland Offshore Petroleum Resource Revenue Fund;
- A decrease of \$48.7 million for the ecoENERGY Technology Initiative;
- A decrease of \$43.8 million for the statutory payments to the Nova Scotia Offshore Revenue Account;
- A decrease of \$31.5 million related to the transfer to Shared Services Canada (SSC) for the Administrative Service Review;
- A decrease of \$22.0 million for the ecoENERGY for Biofuels Producer Incentive;
- A decrease of \$21.9 million for the Isotopes Supply Initiative;
- A decrease of \$9.5 million for the CANMET Material Technology Laboratory Relocation;
- A decrease of \$5.9 million related to the programs under the United Nations Convention on the Law of the Sea (UNCLOS); and
- A decrease of \$22.0 million on all other programs.

Natural Resources

Atomic Energy of Canada Limited

Raison d’être

Atomic Energy Canada Limited (AECL) uses its unique scientific expertise and facilities to ensure that:

- The Canadian nuclear sector is innovative and productive;
- Canada's security and prosperity are supported by nuclear science and innovation;
- Canadians have a reliable supply of isotopes; and
- Canada's federal nuclear sites are clean and healthy environments.

The current mandate for the AECL Nuclear Laboratories flows from the powers given to the Minister of Natural Resources under the *Nuclear Energy Act*:

- To undertake research with respect to nuclear energy;
- To cause nuclear energy to be utilized; and
- To license, sell or otherwise dispose of discoveries and inventions relating to nuclear energy and collect payments for them.

Highlights

The Atomic Energy of Canada Limited is estimating budgetary expenditures of \$376.7 million in 2012–13. Of this amount, \$102.1 million requires approval by Parliament. The remaining \$274.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The reference level funding of \$102.1 million will be used to fund AECL laboratory operations and research and development at Chalk River and ensure the safe and reliable operation of its nuclear facilities and supporting infrastructure.

Laboratory operations consist of:

- **Laboratory Facilities:** The specialized facilities operated under a license issued by the Canadian Nuclear Safety Commission.
- **Site Support and Municipal Services:** Site Support Services are the facilities and teams, including engineering, procurement and maintenance that enable the industrial and scientific activities of the site; and Municipal Services are the basic services required for the campus to operate, including landlord functions and water, heat and electricity.

Consistent with the *Jobs and Economic Growth Act*, the statutory funding of \$274.6 million included in these Main Estimates under Commercial Business will be used to address pre-existing commercial commitments associated with the divestiture of AECL's CANDU Reactor Division to Candu Energy Inc.

Natural Resources

Canadian Nuclear Safety Commission

Raison d'être

In 1946, Parliament passed the *Atomic Energy Control Act*, creating the Atomic Energy Control Board and providing it with the power to regulate all nuclear activities related to the development and use of atomic energy in Canada.

Half a century later, in May 2000, the *Nuclear Safety and Control Act* came into effect and established the Canadian Nuclear Safety Commission (CNSC) as a successor to the Atomic Energy Control Board, with responsibilities and authorities to regulate an industry that spans all segments of the nuclear fuel cycle and a wide range of industrial, medical and academic uses of nuclear substances.

The CNSC is an independent regulatory agency with quasi-judicial powers, has jurisdiction over all nuclear-related activities and substances in Canada.

Highlights

The Canadian Nuclear Safety Commission is estimating budgetary expenditures of \$123.8 million in 2012–13. Of this amount, \$29.3 million requires approval by Parliament. The remaining \$94.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canadian Nuclear Safety Commission's \$5.6 million increase in total funding from 2011–12 to 2012–13 is explained by the following:

- An increase of \$5.7 million for the permanent renewal of funds used to provide assurance that international regulatory obligations on the peaceful use of nuclear energy are met;
- A decrease of \$1.5 million to pool existing resources from across government to consolidate and transfer IT infrastructure (including data centers and network services) to Shared Services Canada; and
- A decrease of \$0.8 million representing the final incremental reduction to the CNSC 2009 Strategic Review.

National Energy Board

Raison d'être

The National Energy Board is an independent federal quasi-judicial regulatory tribunal established in 1959 to promote safety and security, environmental protection, and economic efficiency in the Canadian public interest within the mandate set by Parliament for the regulation of pipelines, energy development and trade.

Highlights

The National Energy Board is estimating budgetary expenditures of \$59.1 million in 2012–13. Of this amount, \$52.6 million requires approval by Parliament. The remaining \$6.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

An overall decrease in net spending of \$0.7 million is due to the following changes:

- An increase in contribution funding to the Participant Funding Program of \$3.0 million for the Trans-Canada Pipeline;
- A decrease of \$3.1 million consisting of \$2.4 million decrease in personnel cost due to the expiration of the collective agreement on the 31st of October 2011, a \$0.1 million reduction resulting from the Strategic Review, and a decrease in statutory employee benefit expenses of \$0.6 million; and
- A \$0.6 million decrease resulting from the cessation of temporary funding for Nova Gas Transmission Limited record conversion.

Natural Resources

Northern Pipeline Agency

Raison d'être

The Northern Pipeline Agency (NPA) was established by the *Northern Pipeline Act* in 1978 and, in the context of the 1977 Agreement Between Canada and the United States of America on Principles Applicable to a Northern Natural Gas Pipeline, has a mandate to carry out federal responsibilities in respect of the planning and construction of the Canadian portion of the Alaska Natural Gas Pipeline. The NPA plays a key role in supporting efficient and expeditious regulatory approval while ensuring environmental protection and social and economic benefits for Canada.

Highlights

The Northern Pipeline Agency is estimating budgetary expenditures of \$3.2 million in 2012–13. Of this amount, \$3.1 million requires approval by Parliament. The remaining \$122.3 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Northern Pipeline Agency's increase in planned spending of \$1.9 million is due to an increase in operating of \$0.2 million and an increase in contributions of \$1.7 million. These increases are attributable to new funding under approved terms and conditions for a contribution program to conduct consultation activities, primarily with Aboriginal groups who could be affected by the Foothills Pipe Lines project.

Parliament***The Senate*****Raison d'être**

The Senate of Canada, established by the *Constitution Act, 1867*, functions as a chamber complementary to, and independent of, the House of Commons. The Senate has 105 members appointed from the provinces and territories. Its primary purpose is to study and review all legislation passed by the House of Commons or initiated in the Senate. Both houses of Parliament must approve bills in identical form before they can become law. The Senate has the power to adopt, amend or reject any bill. In practice, it rarely defeats bills, but does frequently amend them. Through its committees, the Senate also undertakes the examination of public policy issues, often of a far-reaching and long-term nature, providing guidance to government and informing the national debate on issues of importance to Canadians.

Highlights

The Senate is estimating budgetary expenditures of \$92.2 million in 2012–13. Of this amount, \$57.9 million requires approval by Parliament. The remaining \$34.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

In keeping with the spirit of the federal budget 2011 announced by the Minister of Finance, the Senate conducted a review of its expenditures and is reducing its total voted budget by 2.6% in 2012–13.

Parliament

House of Commons

Raison d'être

The House of Commons is the elected assembly of the Parliament of Canada. The House has 308 Members who work on behalf of Canadians in four main areas - the Chamber, committees, caucus and their constituencies - and as representatives of Canada. Proudly supporting the House of Commons and its Members, the House Administration provides Members with the services, infrastructure and advice they need to carry out their work as legislators and representatives.

Highlights

The House of Commons is estimating budgetary expenditures of \$445.9 million in 2012–13. Of this amount, \$290.9 million requires approval by Parliament. The remaining \$155.0 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The House of Commons' expenditures remain approximately the same as the previous year.

Parliament

Library of Parliament

Raison d'être

Formally established under the *Parliament of Canada Act*, the Library of Parliament's efforts in support of an informed and accessible Parliament pre-date Confederation. The Library provides Senators, MPs, and parliamentary committees with the independent, non-partisan information they need to examine the issues of the day, consider legislation and hold the government accountable. It preserves Parliament's rich documentary heritage while optimizing access to its important collections. It also welcomes hundreds of thousands of visitors to Parliament each year, and offers interpretive tours and educational programs and products to help the public understand Parliament's role in our democratic system and the important work parliamentarians do.

Highlights

The Library of Parliament is estimating budgetary expenditures of \$42.6 million in 2012–13. Of this amount, \$37.5 million requires approval by Parliament. The remaining \$5.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Planned expenditures for the Library of Parliament remain approximately the same as in the previous year.

In 2012–13, we will continue to focus on connecting Parliament, people and information and to look for opportunities to optimize management systems and to streamline internal procedures to better support the delivery of services to Parliamentarians.

Parliament

***Office of the Conflict of Interest and
Ethics Commissioner***

Raison d’être

The Conflict of Interest and Ethics Commissioner administers the *Conflict of Interest Act* (Act) and the *Conflict of Interest Code for Members of the House of Commons* (Code). These two regimes seek to ensure that public officials, whether appointed as public office holders or elected as Members, are not in a conflict of interest. The Act and the Code establish conflict of interest rules for public office holders and Members, and hold them to standards that place the public interest above their private interests when the two come into conflict. The Commissioner is also mandated to provide confidential advice to the Prime Minister about conflict of interest and ethics issues.

Highlights

The Office of the Conflict of Interest and Ethics Commissioner is estimating budgetary expenditures of \$7.1 million in 2012–13. Of this amount, \$6.3 million requires approval by Parliament. The remaining \$794.3 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

Planned expenditures for the Office of the Conflict of Interest and Ethics Commissioner will remain approximately the same as in the previous year. In 2012–13, the Office will continue to provide public office holders and Members of the House of Commons with advice, guidance, information and assistance to help them understand and comply with the Act and the Code. The Office will also build on its existing research and policy capabilities to monitor developments in the field of conflict of interest and ethics. It will continue to enhance internal procedures and management systems in order to improve further the efficiency of its operations and advisory services to public office holders and Members, and will continue to seek opportunities to enhance client outreach. Finally, the Commissioner will continue to investigate possible contraventions of the conflict of interest rules that she administers.

Parliament

Senate Ethics Officer

Raison d’être

The main responsibilities of the Senate Ethics Officer are to:

- Advise individual senators on a confidential and ongoing basis concerning their obligations under the *Conflict of Interest Code for Senators* and to assist them in remaining in compliance with the requirements of the Code;
- Oversee the ongoing annual disclosure process in which senators are required to disclose their financial and other interests;
- Conduct inquiries in order to determine whether a senator has complied with his or her obligations under the Code;
- Maintain a registry, available to the public, containing information concerning the financial and other interests of senators that are required to be publicly disclosed under the Code; and
- Submit an annual report of the Office’s activities to the Speaker of the Senate for tabling in the Senate.

Highlights

The Senate Ethics Officer is estimating budgetary expenditures of \$807.3 thousand in 2012–13. Of this amount, \$701.7 thousand requires approval by Parliament. The remaining \$105.6 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

In keeping with the spirit of the federal budget 2011 announced by the Minister of Finance, the Senate Ethics Officer conducted a review of its expenditures and is reducing its total voted budget by 2.47% in 2012–13.

Privy Council

Privy Council

Raison d’être

The mandate of the Privy Council Office (PCO) is to serve Canada and Canadians by providing the best professional, non-partisan advice and support to the Prime Minister, the ministers within the Prime Minister’s portfolio and the Cabinet. PCO supports the development of the Government of Canada’s policy agenda; coordinates responses to issues facing the Government and the country; and supports the effective operation of the Cabinet.

As Head of the Public Service of Canada, the Clerk of the Privy Council sets strategic direction and oversees all major issues for the Public Service. Led by the Clerk of the Privy Council, PCO helps the Government to implement its vision and respond effectively and quickly to issues facing the Government and the country.

Additional information can be found in PCO’s Report on Plans and Priorities.

Highlights

The Privy Council is estimating budgetary expenditures of \$126.8 million in 2012–13. Of this amount, \$111.8 million requires approval by Parliament. The remaining \$15.0 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net decrease of \$13.9 million in spending is mainly due to the following:

- An increase of \$1.0 million for the operation of the Office of the Special Advisor on Human Smuggling and Illegal Migration. The Office was created in September 2010, to coordinate the Government’s strategy and response to migrant smuggling by sea, in particular through engagement with key domestic and international partners and governments in transit countries and partner states to promote international cooperation;
- An increase of \$0.5 million for the operation of the Commission of Inquiry into the Decline of Sockeye Salmon in the Fraser River. The Commissioner must submit one or several final reports by June 30, 2012;
- An increase of \$0.1 million for the Canada-Australia Exchange Program;
- A reduction of \$7.4 million for a transfer to the new agency Shared Services Canada, created on August 4, 2011;
- A reduction of \$3.9 million for the completion of the Afghanistan Task Force;
- A reduction of \$2.2 million for Strategic Review;
- A reduction of \$1.1 million related to funding received to enhance security to focus exclusively on the highest priority elements directly related to the security of the Department; and
- A reduction of \$0.5 million for adjustments to employee benefit plans.

**Canadian Intergovernmental Conference
Secretariat**

Raison d’être

The Canadian Intergovernmental Conference Secretariat (CICS), established pursuant to an agreement reached at the May 1973 First Ministers’ Conference, is an agency of the federal, provincial and territorial governments. Its one program mandate is to provide administrative services for the planning and conduct of First Ministers, Ministers and Deputy Ministers level federal-provincial-territorial and provincial-territorial conferences.

These Intergovernmental conferences are a key instrument for consultation and negotiation among the different orders of governments and assist the development of national and/or provincial/territorial policies. They are a critical component of the workings of the Canadian federation and represent a core principle of our democratic society.

By skillfully executing the logistical planning and delivery of these meetings, CICS not only relieves the federal-provincial-territorial governments of the process burden but also allows them to greatly benefit from significant cost efficiencies and economies of scale, particularly relevant in the current economic environment.

Highlights

The Canadian Intergovernmental Conference Secretariat is estimating budgetary expenditures of \$6.6 million in 2012–13. Of this amount, \$6.1 million requires approval by Parliament. The remaining \$470.4 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canadian Intergovernmental Conference Secretariat’s 2012–13 expenditures remain approximately the same as the previous year. The 2012–13 funding will be utilized to address the following priorities:

- Implement the necessary initiatives to re-energize our partnerships with our clients;
- Adopt the appropriate tools to improve our delivery model so that it remains viable;
- Review and adapt our policies and procedures with a view to adopting strong and innovative management practices, ensuring cost-effectiveness and creating service-sharing opportunities;
- Invest in our employees’ well-being and training to ensure long-term continuity, develop their skills and make them more aware of the work environment specific to CICS.

Our 2012–13 Report on Plans and Priorities will contain more detail regarding our priorities.

Privy Council

**Canadian Transportation Accident
Investigation and Safety Board**

Raison d’être

The Canadian Transportation Accident Investigation and Safety Board is referred to as the Transportation Safety Board of Canada (TSB) in its day-to-day activities. The TSB is an independent agency created in 1990 by an Act of Parliament. It operates at arm’s length from other government departments and agencies to ensure that there are no real or perceived conflicts of interest. TSB’s sole objective is to advance air, marine, rail and pipeline transportation safety. This mandate is fulfilled by conducting independent investigations into selected transportation occurrences to identify the causes and contributing factors and the safety deficiencies evidenced by an occurrence. TSB then makes recommendations to reduce or eliminate any such safety deficiencies and reports publicly on its investigations.

Highlights

The Canadian Transportation Accident Investigation and Safety Board is estimating budgetary expenditures of \$30.1 million in 2012–13. Of this amount, \$26.5 million requires approval by Parliament. The remaining \$3.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Transportation Safety Board’s planned spending for 2012–13 is \$30.1 million. This planned spending is generally in line with planned spending in prior years’ Main Estimates. There is a slight decrease of \$322.0 thousand compared to the planned spending in 2010–11, which is explained by collective agreements that have expired in 2011–12 and for which a new agreement has not yet been signed. The funding for terminable allowances in these collective agreements is not included in the Main Estimates.

In 2012–13, the TSB will continue to strive to be a world leader in influencing changes that advance transportation safety. This vision statement will be achieved by focusing on four strategic objectives: responding, managing, communicating and advocating. This four-pronged approach provides a clear framework to guide investments and activities for the next four years. Details on the TSB’s priorities will be available in its 2012–13 Report on Plans and Priorities.

Budgetary Expenditures by Strategic Outcome and Program Activity

Privy Council

Chief Electoral Officer

Raison d'être

The Office of the Chief Electoral Officer (OCEO) is an independent, non-partisan agency that reports directly to Parliament. Its mandate is to be prepared at all times to conduct a federal general election, by-election or referendum; to administer the political financing provisions of the *Canada Elections Act*; and to monitor compliance with and enforce electoral legislation. The OCEO is also mandated to conduct voter education and information programs, and to provide support to the independent commissions responsible for adjusting the boundaries of federal electoral districts following each decennial census. As well, the OCEO may carry out studies on alternative voting methods and, with the approval of Parliament, test on-line voting processes for future use during electoral events.

Highlights

The Chief Electoral Officer is estimating budgetary expenditures of \$144.2 million in 2012–13. Of this amount, \$29.5 million requires approval by Parliament. The remaining \$114.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

In total, the agency is estimating an increase of \$21.8 million, or 17.8 % from the previous Main Estimates.

An increase in net spending of \$21.8 million is due to:

- An increase of \$12.7 million to consolidate Elections Canada's offices due to the decommissioning of the current main building
- An increase of \$6.9 million in costs to support and settle the accounts of the 10 independent commissions tasked with readjusting the federal electoral boundaries in accordance with the *Electoral Boundaries Readjustment Act*
- An increase of \$3.1 million in transfer payments related to quarterly allowances provided to registered political parties due to the increased voter turnout at the 41st general election and to account for the annual inflation adjustment factor in accordance with the *Canada Elections Act*.
- An increase of \$2.4 million to complete the activities related to the 41st general election held in May 2011.
- A net decrease of \$3.3 million in other statutory funding requirements.

Privy Council

Office of the Commissioner of Official Languages

Raison d’être

The mandate of the Commissioner of Official Languages (the Commissioner) is to oversee the full implementation of the *Official Languages Act* (the Act), protect the language rights of Canadians, and promote linguistic duality and bilingualism in Canada.

The mandate of the Commissioner is set out in section 56 of the *Official Languages Act*:

”To take all actions and measures within the authority of the Commissioner with a view to ensuring recognition of the status of each of the official languages and compliance with the spirit and intent of this Act in the administration of the affairs of federal institutions, including any of their activities relating to the advancement of English and French in Canadian society.”

The Commissioner therefore is required to take every measure within his power to ensure that the three main objectives of the Official Languages Act are met:

- the equality of the status and use of English and French in Parliament, the Government of Canada, the federal administration and the institutions subject to the Act;
- the development of official language minority communities in Canada; and
- the advancement of the equality of English and French in Canadian society.

The Commissioner is appointed by the commission under the Great Seal, after approval by resolution of the House of Commons and the Senate, for a seven-year term, and reports directly to Parliament.

Highlights

The Office of the Commissioner of Official Languages is estimating budgetary expenditures of \$20.6 million in 2012–13. Of this amount, \$18.4 million requires approval by Parliament. The remaining \$2.3 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

With no major change over the previous year, the 2012–13 funding will be used to address the following priorities:

- Work with federal institutions and other organizations subject to the *Official Languages Act*, so that they fully integrate linguistic duality as an important element of leadership;
- Promote to Canada’s two official language communities, the value of linguistic duality as one of the key elements of Canadian identity;
- Support official language minority communities in order to foster their development and vitality; and
- Strengthen organizational capacity by applying sound management principles and practices with respect to organizational priorities.

Office of the Commissioner of Official Languages 2012–13 Report on Plans and Priorities will contain more detail regarding these priorities.

***Public Appointments Commission
Secretariat***

Raison d’être

The mandate of the Public Appointments Commission is to oversee the process through which people are appointed to agencies, boards, commissions and Crown corporations but does not extend to making individual appointments.

The Public Appointments Commission Secretariat’s main role is to provide advice and support for the development of the Public Appointments Commission.

Additional information can be found in the Public Appointments Commission Secretariat’s Report on Plans and Priorities.

Highlights

The Public Appointments Commission Secretariat is estimating budgetary expenditures of \$1.1 million in 2012–13. Of this amount, \$945.0 thousand requires approval by Parliament. The remaining \$122.7 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Public Appointments Commission Secretariat’s expenditures remain approximately the same as the previous year. For further information, details on priorities will be made available in the 2012–13 Report on Plans and Priorities.

Privy Council

Security Intelligence Review Committee

Raison d’être

The Security Intelligence Review Committee (SIRC) is an independent, external review body which reports to Parliament of Canada on the operations of the Canadian Security Intelligence Service (CSIS).

Parliament has given CSIS extraordinary powers to intrude on the privacy of individuals. SIRC ensures that these powers are used legally and appropriately, in order to protect Canadians' rights and freedoms. To do this, SIRC examines past operations of the Service and investigates complaints. It has absolute authority to examine all information concerning CSIS activities, no matter how sensitive and highly classified that information may be. The result of this work, edited to protect national security and personal privacy, are summarized in its Annual Report to Parliament.

Highlights

The Security Intelligence Review Committee is estimating budgetary expenditures of \$2.5 million in 2012–13. Of this amount, \$2.2 million requires approval by Parliament. The remaining \$293.4 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

SIRC’s work is designed to provide expert advice to policymakers and lawmakers on CSIS’s performance. It also serves to reassure Canadians that CSIS investigates threats to national security in a manner that respects Canada’s core democratic values. The *Canadian Security Intelligence Service Act* continues to guide SIRC’s work in assessing CSIS’s performance against the mandate and authorities conferred upon it by Parliament in 1984.

SIRC’s planned expenditures, starting in 2012–13, are reduced by 16% when compared to 2010–11.

Public Safety and Emergency Preparedness

Public Safety and Emergency Preparedness

Raison d'être

The Department of Public Safety and Emergency Preparedness plays a key role in discharging the Government's fundamental responsibility for the safety and security of its citizens. Legislation governing the Department sets out two essential roles for the Department: (i) support the Minister's responsibility for all matters, except those assigned to another federal minister, related to public safety and emergency management including national leadership and (ii) coordinate the efforts of Public Safety's Portfolio agencies as well as provide guidance on their strategic priorities.

The Department provides strategic policy advice on: national security; border strategies; countering crime; and emergency management. The Department also delivers a number of grant and contribution programs related to emergency management and community safety.

Highlights

The Public Safety and Emergency Preparedness is estimating budgetary expenditures of \$432.7 million in 2012–13. Of this amount, \$417.6 million requires approval by Parliament. The remaining \$15.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The net spending increase of \$18.1 million or 4.4% is due to a decrease in operating costs of \$11.3 million (including an increase of \$0.7 million in Employee Benefit Plans costs), an increase in grants of \$8.4 million as well as an increase in contributions of \$21.0 million. Major factors contributing to the net increase include:

- An increase of \$15.0 million (contributions) for the sustainability of agreements under the First Nations Policing Program;
- An increase of \$7.9 million (grants) for the Ex Gratia payments to the families of the victims of Air India Flight 182;
- An increase of \$7.4 million (\$1.3 million in operating and \$6.1 million in contributions) for the renewal of funding to support activities related to the solicitation, development and delivery of targeted prevention interventions aimed at reducing youth violence and youth gangs among those most at risk;
- An increase of \$1.9 million (\$0.9 million in operating and \$1.0 million in grants and contributions) for the Kanishka Project Research Initiative;
- A decrease of \$8.9 million (in operating funds) for the transfer to Shared Services Canada under the Administrative Services Review;
- A decrease of \$2.5 million (in operating funds) due to the net results of reprofiling funds between various fiscal years for Emergency Management Capacity;
- A decrease of \$1.5 million (\$0.6 million in operating and \$0.9 million in contributions) as a result of the 2009 Strategic Review; and
- A decrease of \$1.4 million (in operating funds) due to the sunseting of a reprofile for Urban Transit Exercises.

Public Safety and Emergency Preparedness

Canada Border Services Agency

Raison d'être

The Canada Border Services Agency provides integrated border services that support national security priorities and facilitate the flow of people and goods, including food, plants and animals, across the border. Responsibilities include:

- Administering legislation that governs the admissibility of people and goods into and out of Canada;
- Detaining people who may pose a threat to Canada;
- Identifying and removing people who are inadmissible to Canada, including those involved in terrorism, organized crime, war crimes or crimes against humanity;
- Interdicting illegal goods entering or leaving Canada;
- Protecting food safety, plant and animal health, and Canada's resource base;
- Promoting Canadian economic benefits by administering trade legislation and agreements, including the enforcement of trade remedies that protect Canadian industry from the injurious effects of dumped and subsidized imported goods;
- Administering a fair and impartial redress mechanism; and
- Collecting applicable duties and taxes on imported goods.

Highlights

The Canada Border Services Agency is estimating budgetary expenditures of \$1.8 billion in 2012–13. Of this amount, \$1.6 billion requires approval by Parliament. The remaining \$181.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canada Border Service Agency's decrease in net spending of \$70.4 million or 4% is due to a decrease in Operating costs of \$61.8 million, a decrease in Capital costs of \$9.2 million and an increase of \$0.6 million in Statutory costs (Employee Benefit Plan). Factors contributing to the net decrease include:

Increases:

- \$37.7 million to ensure continued and secure border services;
- \$15.1 million for the construction of 3 small ports at Lyleton, Goodland and Coulter in Manitoba;
- \$7.0 million to expand the commercial processing facilities at St-Bernard-de-Lacolle;
- \$5.6 million to transfer the administration of the federal immovable property located at Rigaud, Quebec to the Minister of Public Safety for the Canada Border Services Agency;
- \$5.0 million to support the reform of Canada's refugee determination system (*Balanced Refugee Reform Act*);
- \$4.5 million for the implementation of the Harmonized Sales Tax;
- \$3.4 million for Canada's anti-money laundering initiative;
- \$2.0 million to complete the design, development and deployment of biometrics in the temporary resident stream;
- \$1.6 million for the Accounts Receivable Ledger project; and
- \$1.1 million for the implementation of the Public Security and Anti-Terrorism funding for the Marine Security Operations Centers Project.

The increases are offset by the following decreases:

- \$86.1 million transfer to Shared Services Canada to consolidate the resources and the personnel related to e-mail, data centers and data networks;

Public Safety and Emergency Preparedness

Canada Border Services Agency

- \$36.0 million for the modernization of three ports of entry in British Columbia (Kingsgate, Pacific Highway, Huntingdon) and one in Ontario (Prescott) which supports the economic recovery plan of the government;
- \$14.5 million for the E-Manifest initiative;
- \$4.7 million in contributions to the employee benefit plan due to the rate decrease from 18% to 17.6%;
- \$4.6 million to manage immigration cases involving classified information under Division 9 of the *Immigration and Refugee Act* (Security Certificates);
- \$4.3 million for the implementation of Strategic Review reallocations;
- \$2.1 million for arming the Canada Border Officers at the border and addressing work-alone situations; and
- \$1.1 million for the transfer from the National Defence for public security initiatives.

Public Safety and Emergency Preparedness

Canadian Security Intelligence Service

Raison d’être

As per the *Canadian Security Intelligence Service Act*, the mandate of the Canadian Security Intelligence Service (CSIS) is to collect, analyze and retain information and intelligence on activities suspected of constituting threats to the security of Canada, and to report to and advise the government. CSIS is responsible for the collection of national security intelligence inside and outside Canada; the collection of foreign intelligence within Canada; and for security screening assessments for federal government employees, refugees, immigration and citizenship applicants, and some other sectors such as the Canadian nuclear industry.

Highlights

The Canadian Security Intelligence Service is estimating budgetary expenditures of \$520.6 million in 2012–13. Of this amount, \$472.5 million requires approval by Parliament. The remaining \$48.1 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Main Estimates for the department are \$520.6 million, a net increase of \$11.6 million. The major changes are as follows:

- An increase of \$32.0 million in support of Canada’s national security and the safety of Canadians;
- A decrease of \$15.0 million for Strategic Review announced in 2010 Budget; and
- A decrease of \$5.4 million due to sunset of funding used to manage immigration cases involving classified information under Division 9 of the *Immigration and Refugee Protection Act*.

Raison d’être

The Correctional Service of Canada (CSC) contributes to public safety by administering court-imposed sentences for offenders sentenced to two years or more. This involves managing institutions of various security levels and supervising offenders on different forms of conditional release, while assisting them to become law-abiding citizens. CSC also administers post-sentence supervision of offenders with Long Term Supervision Orders for up to ten years.

CSC’s mission has guided the organization since 1989. It affirms the organization’s commitment to public safety and clearly states how CSC will fulfill its mandate:

The Correctional Service of Canada, as part of the criminal justice system and respecting the rule of law, contributes to public safety by actively encouraging and assisting offenders to become law-abiding citizens, while exercising reasonable, safe, secure and humane control.

Additional information can be found in the Departmental Report on Plans and Priorities.

Highlights

The Correctional Service of Canada is estimating budgetary expenditures of \$3.0 billion in 2012–13. Of this amount, \$2.8 billion requires approval by Parliament. The remaining \$262.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The budgetary Main Estimates for the Correctional Service of Canada are \$3,026.0 million, a net increase of \$44.2 million.

An increase of \$98.9 million in Operating is mainly due to:

- An increase of \$171.8 million related to the implementation of the Government's *Truth in Sentencing Act*;
- An increase of \$4.7 million related to Budget 2008 Integrity Funding reprofiled in the Operating Vote from previous years;
- An increase of \$3.8 million related to the implementation of the *Tackling Violent Crime Act*;
- An increase of \$1.6 million related to miscellaneous variances;
- A decrease of \$48.6 million related to various accommodation measures for the maintenance and housing of offenders as approved in the National Capital, Accommodation and Operations Plan;
- A decrease of \$32.8 million related to the transfer to Shared Services Canada (SSC). SSC was established by an Order in Council to pool existing resources from across government in order to consolidate and transform IT infrastructure for the Government of Canada; and
- A decrease of \$1.6 million related to the Strategic Review reallocation;

A decrease of \$61.1 million in Capital is mainly due to:

- An increase of \$2.4 million related to the implementation of the Government's *Truth in Sentencing Act* (Bill C-25);
- A decrease of \$39.7 million related to the Strategic Review Reallocation. This reallocation is allowing CSC to better realign its priorities and to ensure that the federal corrections system achieves better public safety by improving results and enhancing capacity;
- A decrease of \$13.3 million related to funds reprofiled in the Capital Vote from previous years; and
- A decrease of \$10.5 million related to the transfer to Shared Services Canada (SSC). SSC was established by Orders in Council to pool existing resources from across government to consolidate and transform IT infrastructure for the Government of Canada;

In addition, a net increase of \$5.3 million is related to the department's allocation of the employer's share of employee benefit plans.

Public Safety and Emergency Preparedness

National Parole Board

Raison d'être

The National Parole Board is an agency within the Ministry of Public Safety Canada.

The Board is an independent administrative tribunal responsible for making decisions about the timing and conditions of release of offenders to the community on various forms of conditional release. The Board also makes pardon decisions and recommendations respecting clemency through the Royal Prerogative of Mercy.

Highlights

The National Parole Board is estimating budgetary expenditures of \$51.5 million in 2012–13. Of this amount, \$45.6 million requires approval by Parliament. The remaining \$5.9 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

In total, the department is estimating an increase of \$2.3 million, or 4.5% from previous Main Estimates.

This is due to the following:

- An increase of \$1.6 million due to the net results of reprofiling funds between various fiscal years for the department's Medium to Long Term Accommodation Plan for Program Delivery;
- An increase of \$0.4 million related to the Renewal of the Federal Victims Strategy Initiative; and
- An increase of \$0.3 million, the fourth of six annual increases related to the *Government's Truth in Sentencing Act* (Bill C-25).

Public Safety and Emergency Preparedness

Office of the Correctional Investigator

Raison d’être

The Office of the Correctional Investigator (OCI) provides Canadians with timely, independent, thorough and objective monitoring of their federal correctional system to ensure that it remains safe, secure, fair, humane and effective. Essentially, its oversight role is to ensure that the Correctional Service of Canada carries out its statutory mandate in compliance with its domestic and international legal and human rights obligations.

Highlights

The Office of the Correctional Investigator is estimating budgetary expenditures of \$4.7 million in 2012–13. Of this amount, \$4.1 million requires approval by Parliament. The remaining \$570.1 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The OCI’s variance of \$345,559 between fiscal years 2011–12 and 2012–13 is primarily attributable to the following factors:

- An increase of \$172,488 from Budget 2010 to address workload pressures;
- An increase of \$60,150 from the Renewal of the Strengthening Community Safety Initiative;
- An increase of \$32,671 for contributions to employee benefit plans; and
- An increase of \$9,499 linked to a compensation adjustment.

Public Safety and Emergency Preparedness

Royal Canadian Mounted Police

Raison d'être

As Canada's national police service, the Royal Canadian Mounted Police (RCMP) is a critical element of the Government of Canada's commitment to providing for the safety and security of Canadians. By tackling crime at the municipal, provincial/territorial, federal and international levels, the RCMP provides integrated approaches to safety and security and a consistent federal role and presence from coast to coast to coast.

The RCMP's mandate, as outlined in section 18 of the *Royal Canadian Mounted Police Act*, is multi-faceted and wide-ranging. It includes preventing and investigating crime; maintaining peace and order; enforcing laws; contributing to national security; ensuring the safety of state officials, visiting dignitaries and foreign missions; and providing vital operational support services to other police and law enforcement agencies within Canada and abroad.

Highlights

The Royal Canadian Mounted Police is estimating budgetary expenditures of \$2.6 billion in 2012–13. Of this amount, \$2.1 billion requires approval by Parliament. The remaining \$433.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

This represents a \$329.0 million decrease or 11.4% from the federal appropriations requested in last year's Main Estimates. The request comprises a decrease in voted appropriations of \$289.0 million including a decrease of \$252.0 million for operating costs, a decrease of \$49.0 million in capital costs, and an increase of \$12.0 million for grants and contributions. There is an additional \$40.0 million decrease in statutory program funding requirements. There are two very notable circumstances contributing to the material decrease in these estimates.

A net decrease of \$206 million relates to expiry of the RCMP's 20 year policing services agreements with provinces, territories and municipalities on March 31, 2012. In light of this expiry date, funding for any new incremental policing services that has been requested since 2008–09 was not approved beyond the 2011–12 fiscal year, pending renewal of the agreements. At the time these estimates were prepared, negotiations were still ongoing with many jurisdictions. Consequently, approval will have to be sought through Supplementary Estimates to renew this funding and seek approval for any incremental resources required to meet the Government's obligations under the terms of the renewed policing services agreements.

Furthermore, the RCMP's Estimates reflect a transfer of \$143.0 million to fund information technology services that will now be provided by Shared Services Canada.

Other factors contributing to the changes in funding levels include:

- An increase of \$12.7 million to meet the projected costs of the grant to compensate members for injuries received in the performance of their duties; and
- Increases to implement or renew a number of important initiatives, including programs to continue work on the inclusion of biometrics in the temporary visa stream, combat human smuggling, implement enhanced security measures on Parliament Hill, and combat against the laundering of proceeds of crime and the financing of terrorist activities.

Public Safety and Emergency Preparedness *Royal Canadian Mounted Police External Review Committee*

Raison d’être

The RCMP External Review Committee (ERC) is an independent and impartial agency that aims to promote fair and equitable labour relations within the RCMP, in accordance with applicable principles of law. To this end, the ERC conducts an independent review of appeals in disciplinary, and discharge and demotion matters, as well as certain categories of grievances that are referred to it pursuant to s. 33 of the *Royal Canadian Mounted Police Act* and s. 36 of the *Royal Canadian Mounted Police Regulations*. The ERC reports directly to Parliament through the Minister of Public Safety. The ERC’s jurisdiction is restricted to employment and labour matters that relate to regular members and civilian members of the RCMP only. In carrying out its mandate, the ERC ensures that its recommendations are solidly grounded in law and that members of the RCMP are treated in a fair and equitable manner, in keeping with the public interest.

Additional information can be found in the ERC’s Report on Plans and Priorities.

Highlights

The Royal Canadian Mounted Police External Review Committee is estimating budgetary expenditures of \$938.7 thousand in 2012–13. Of this amount, \$833.6 thousand requires approval by Parliament. The remaining \$105.2 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net decrease of \$530,743 in planned spending is due to the following:

- During the past several years, the ERC received temporary operational funding to meet its program needs. This temporary funding ended in 2011–12.

Public Safety and Emergency Preparedness

**Royal Canadian Mounted Police Public
Complaints Commission**

Raison d’être

The Royal Canadian Mounted Police Public Complaints Commission is an independent agency created by Parliament and is not part of the Royal Canadian Mounted Police (RCMP). The Commission’s fundamental role is to provide civilian review of the conduct of the RCMP members in carrying out their policing duties, thereby holding the RCMP accountable to the public. The Commission ensures that complaints about the conduct of RCMP members are examined fairly and impartially. Its findings and recommendations help identify, correct and prevent the recurrence of policing problems caused by the conduct of specific RCMP members or by deficiencies in RCMP policies or practices. The Commission has the authority to make findings and recommendations, but cannot impose discipline or make monetary awards to complainants.

Highlights

The Royal Canadian Mounted Police Public Complaints Commission is estimating budgetary expenditures of \$5.4 million in 2012–13. Of this amount, \$4.8 million requires approval by Parliament. The remaining \$576.4 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Royal Canadian Mounted Police Public Complaints Commission’s expenditures remain approximately the same as the previous year. In 2012–13, the Commission will continue to meet its service standards in handling complaints and reviews involving RCMP member conduct, including high profile public interest investigations on the allegations of harassment in the workplace. It will target its outreach efforts to audiences who are not aware of the Commission as an avenue to address concerns about RCMP conduct (e.g. northern and more isolated communities) and will maintain its efforts to ensure that the RCMP follow up on the implementation of Commission recommendations that have been accepted. Details on our priorities will be made available in our 2012–13 Report on Plans and Priorities.

* Order in Council P.C. 2011-0585 designates the Minister of Public Works and Government Services, a member of the Queen's Privy Council for Canada, as the appropriate Minister for Canada Lands Company Limited for the purposes of the *Financial Administration Act*, effective May 18, 2011.

** Shared Services Canada was established pursuant to Order in Council P.C. 2011-0881, effective August 4, 2011. Subsequent Orders in Council P.C. 2011-0877 and P.C. 2011-1297 transferred to Shared Services Canada the control and supervision of certain portions of the federal public administration related to information technology infrastructure services.

Public Works and Government Services

Public Works and Government Services

Raison d’être

Public Works and Government Services Canada (PWGSC) plays an important role in the daily operations of the Government of Canada. We are its principal banker, accountant, central purchasing agent, linguistic authority, real property manager and enabler of access to government services online.

Our vision is to excel in government operations, and our mission is to deliver high-quality services and programs that meet the needs of federal organizations and ensure sound stewardship on behalf of Canadians.

Highlights

Public Works and Government Services is estimating budgetary expenditures of \$2.4 billion in 2012–13. Of this amount, \$2.3 billion requires approval by Parliament. The remaining \$110.2 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A decrease in net spending of \$217.5 million is due primarily to the following:

- An increase of \$46.0 million to continue remediation and assessment activities at federal contaminated sites under the custody of PWGSC in order to reduce human health and environmental risks and associated financial liabilities;
- A permanent reduction of \$113.4 million in funding for the transfer from PWGSC to Shared Services Canada following the creation of this new department on August 4, 2011;
- A reduction of \$75.2 million in funding for the five-year program of work under the Long Term Vision & Plan (LTVP). Continued implementation of the LTVP will ensure that the Parliament Buildings are preserved as heritage assets and national symbols of Canada;
- A reduction of \$41.9 million in funding in accordance with Budget 2011 Strategic Review exercise to ensure that government programs and services meet the priorities of Canadians and are aligned with federal responsibilities. Another saving of \$7.6 million (not reflected in Main estimates) is used internally within PWGSC’s budget, to cover legitimate annual rent increases; and
- A reduction of \$17.2 million in funding for the seven-year program of work under the Initiative to Fix the Pay System as part of the continued implementation of the pay services centralization to Miramichi, New Brunswick and the modernization of the 40 year old pay system.

Please note that Public Works and Government Services Canada has an additional statutory item entitled “Defence Production Revolving Fund” which is not in the Main Estimates as there is no activity forecasted against this fund.

Public Works and Government Services

Old Port of Montreal Corporation Inc.

Raison d’être

The Old Port of Montreal Corporation Inc. (OPMC) is a crown corporation established in 1981 as a wholly owned subsidiary of the Canada Lands Company Limited. It reports for certain purposes as if it were a parent corporation.

The OPMC promotes the development of the Old Port of Montreal, in line with a master plan approved by the Government, and it provides recreational, tourism, cultural and commercial activities. The Corporation manages the heritage properties at the Old Port on behalf of Her Majesty while ensuring public access to the waterfront. The Old Port site covers 40.7 hectares, extending for 2.2 km along the St. Lawrence River.

Highlights

The Old Port of Montreal Corporation Inc. is estimating budgetary expenditures of \$25.2 million in 2012–13. Of this amount, \$25.2 million requires approval by Parliament.

The Old Port of Montreal appropriations will decrease by \$3.2 million between 2011–12 and 2012–13 excluding the \$2.0 million requested for urgent capital expenditures in the Supplementary Estimates (C). The decrease is due to a decline in the amount transferred from Public Works and Government Services for building maintenance. The Old Port of Montreal will address this issue in the 2012–13 Corporate Plan.

Public Works and Government Services

Shared Services Canada

Raison d’être

Shared Services Canada (SSC) is a federal department created on August 4, 2011, to fundamentally transform how the Government of Canada manages its information technology (IT) infrastructure. SSC reports to Parliament through the Minister of Public Works and Government Services and will deliver mandated email, data centre and network services to its partner departments in a consolidated and standardized manner to support the delivery of Government of Canada programs and services. SSC will also provide certain optional technology related services to government organizations on a cost-recovery basis.

With a whole-of-government approach to IT, SSC will create economies of scale to deliver more efficient, reliable and secure IT infrastructure services to Government of Canada departments.

Highlights

Shared Services Canada is estimating budgetary expenditures of \$1.5 billion in 2012–13. Of this amount, \$1.4 billion requires approval by Parliament. The remaining \$101.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Shared Service Canada’s planned expenditures will support its IT consolidation and standardization goals while ensuring that current and future IT infrastructure services offered to the Government of Canada are maintained in an environment of operational excellence.

Transport

Transport

Raison d’être

Transport Canada is responsible for the Government of Canada’s transportation policies and programs. The Department is responsible for developing regulations, policies and services under the legislative authority of Parliament. The department is required by the *Canada Transportation Act* to report on the state of the national transportation system. While not directly responsible for all aspects or modes of transportation, the department plays a leadership role to ensure that all parts of the transportation system across Canada work together effectively.

Transport Canada is part of the Transport, Infrastructure and Communities Portfolio that includes Transport Canada, Infrastructure Canada, shared governance organizations (e.g. the St. Lawrence Seaway Management Corporation), Crown corporations (e.g. the Great Lakes Pilotage Authority, Canada Post Corporation) and administrative tribunals/agencies (e.g. the Transportation Appeal Tribunal of Canada). Grouping these organizations into one portfolio allows for integrated decision making on transportation issues.

Highlights

Transport is estimating budgetary expenditures of \$2.1 billion in 2012–13. Of this amount, \$1.9 billion requires approval by Parliament. The remaining \$220.9 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

Transport Canada’s total planned expenditures reflect an increase of \$542.0 million (or 35.0 %) in net spending. This is due to an increase in grants and contributions of \$515.6 million, an increase in capital of \$19.1 million, an increase in operating costs of \$2.7 million, and an increase in statutory payments of \$4.6 million. The major changes are:

- An increase of \$649.8 million in planned spending for the Gateways and Border Crossings Fund to account for changes in project cash flows;
- An increase of \$77.3 million in new funding from Budget 2011 for initiatives such as the Ferry Services Contribution Program, the Next Generation of Clean Transportation Initiatives, the Federal Contaminated Sites Action Plan, and the Northern Transportation Adaptation Initiative;
- An increase of \$8.7 million in planned spending for land acquisition for the Detroit River International Crossing;
- A decrease of \$134.5 million in planned spending for Asia Pacific Gateway and Corridor Transportation Infrastructure Fund to account for delays in project planning;
- A decrease of \$21.6 million for sunseting programs such as the Port Divestiture Fund, the Health of the Oceans Implementation Initiative, and Improving the Performance of the Regulatory System for Major Natural Resource Projects;
- A decrease of \$16.2 million in planned spending as a result of the transfer to Shared Services Canada as part of the Administrative Services Review; and
- A decrease of \$12.5 million in planned spending for the Airport Capital Assistance Program to account for delays in project planning.

Transport

Canada Post Corporation

Raison d'être

Canada Post Corporation has a mandate to provide an efficient, effective and quality-driven postal service to Canadians, to be profitable, and to maintain and increase the value of the Corporation for Canadians.

Highlights

Canada Post Corporation is estimating budgetary expenditures of \$22.2 million in 2012–13. Of this amount, \$22.2 million requires approval by Parliament.

The Government of Canada provides compensation to the Corporation to partially offset the foregone revenue from Government free-mail services and mailings of materials for the blind.

Budgetary Expenditures by Strategic Outcome and Program Activity

Transport

Canadian Air Transport Security Authority

Raison d'être

The Canadian Air Transport Security Authority (CATSA) is a Crown corporation with the mandate to protect the public by securing critical elements of the air transportation system as assigned by the Government of Canada. CATSA's goal is to provide a professional, effective, efficient and consistent level of security screening services, at or above the standards set by Transport Canada, its regulator. Fully funded by parliamentary appropriations, CATSA is accountable to Parliament through the Minister of Transport, Infrastructure and Communities. CATSA's vision is to excel as a world leader in air transportation security through its service to passengers, its people and its partnerships.

Highlights

The Canadian Air Transport Security Authority is estimating budgetary expenditures of \$576.4 million in 2012–13. Of this amount, \$576.4 million requires approval by Parliament.

Details on CATSA's priorities will be made available in the Summary of the 2012–13 to 2016–17 Corporate Plan, Capital and Operating Budgets.

Operating Highlights for 2012–13:

Operating expenditures planned for 2012–13 are in the amount of \$476.2 million compared to \$514.4 million in the Main Estimates for 2011–12. The variance primarily reflects savings from the implementation of operational efficiencies identified through CATSA Review 2010 which will lead to an increase in passenger throughput by 30%.

Capital Highlights for 2012–13:

Capital expenditures planned for 2012–13 are in the amount of \$100.2 million compared to \$68.3 million in the Main Estimates for 2011–12. The 2012–13 capital plan accommodates for the additional capital funding from the Government of Canada through Budget 2011, to allow CATSA to start addressing the lifecycle management of its Hold-Baggage Screening system through the deployment of Computed Tomography technology.

Transport

Canadian Transportation Agency

Raison d'être

The Canadian Transportation Agency is an independent administrative body of the Government of Canada. It performs two key functions within the national transportation system:

- As a quasi-judicial tribunal, the Agency, informally and through formal adjudication, resolves a range of commercial and consumer transportation-related disputes, including accessibility issues for persons with disabilities. It operates like a court when adjudicating disputes; and
- As an economic regulator, the Agency makes determinations and issues authorities, licences and permits to transportation carriers under federal jurisdiction.

By administering transportation regulations and providing dispute resolution services, the Agency ensures that transportation users, commercial shippers and individual travellers receive the protection provided for them in the legislation where market forces alone do not result in fair, reasonable service, and ensures that carriers meet basic public policy requirements before engaging in transportation activities.

Additional information can be found in the Agency's Report on Plans and Priorities.

Highlights

The Canadian Transportation Agency is estimating budgetary expenditures of \$27.3 million in 2012–13. Of this amount, \$23.8 million requires approval by Parliament. The remaining \$3.5 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Canadian Transportation Agency's (CTA) planned expenditures remain approximately the same as the previous year. In 2012–13, CTA will continue the implementation of its strategic plan and will continue to carry out the activities related to the priorities. Here is an overview of the objective of our strategic plan priorities:

- Client Service: Our dispute resolution services are high quality, and our clients are well informed and served in a responsive and timely manner.
- Regulatory Regime Renewal: Our regulatory and non-regulatory approaches and their administration are up-to-date, well understood and delivered effectively and efficiently.
- People: Our employees are engaged, knowledgeable, respected and provide excellent service.

Transport

The Federal Bridge Corporation Limited

Raison d'être

The Federal Bridge Corporation Limited is a Crown corporation established in 1998 to provide the Government of Canada with oversight and accountability for bridges under its control, including the Canadian portion of the Seaway international bridge system in Cornwall.

Highlights

The Federal Bridge Corporation Limited is estimating budgetary expenditures of \$15.0 million in 2012–13. Of this amount, \$15.0 million requires approval by Parliament.

Planned spending for The Federal Bridge Corporation Limited decreased by \$49.7 million over 2011–12 Main Estimates. This decrease is primarily related to a change in planned spending for the replacement of the North Channel Bridge.

Transport

Marine Atlantic Inc.

Raison d'être

Marine Atlantic Inc. (MAI) is a parent Crown Corporation created through the *Marine Atlantic Acquisition Authorization Act, 1986* and replaced Canadian National Marine in providing a year-round constitutionally mandated ferry service between North Sydney, Nova Scotia and Port aux Basques, Newfoundland and Labrador (NL). This is the only constitutional ferry service in Canada. The Corporation also operates a non-constitutional, seasonal service between North Sydney and Argentia, NL. MAI carries over 25 percent of all non-resident visitors to NL, as well as 50 percent of freight and 90 percent of perishables and time sensitive goods. The service is considered as vital infrastructure for businesses across Canada that are involved in the regional economy and for the movement of people on and off the island of Newfoundland.

Highlights

Marine Atlantic Inc. is estimating budgetary expenditures of \$185.4 million in 2012–13. Of this amount, \$185.4 million requires approval by Parliament.

A net decrease of \$15.2 million is due to a decrease of \$23.5 million in operating funds and an increase of \$8.3 million in capital funding. The major changes are:

- A decrease of \$17.6 million in one-time implementation costs relating to the introduction of the charter vessels MV Blue Puttees and MV Highlanders;
- A decrease of \$4.7 million in operational requirements related to cost efficiencies and revenue enhancements related to the implementation of MAI's Revitalization Strategy;
- A decrease of \$1.2 million in operating costs stemming from Strategic Review 2010; and
- An increase of \$8.3 million as a result of the rescheduling of specific capital projects following revisions to the project requirements. This includes \$5.7 million in funds reprofiled from 2011–12.

Transport

Office of Infrastructure of Canada

Raison d'être

Strong, modern, world-class public infrastructure is a key factor in achieving the Government of Canada's priorities of a stronger economy, a cleaner environment and more prosperous, safer communities. Infrastructure Canada leads the Government of Canada's efforts in addressing Canada's public infrastructure challenges.

Highlights

The Office of Infrastructure of Canada is estimating budgetary expenditures of \$5.1 billion in 2012–13. Of this amount, \$5.1 billion requires approval by Parliament. The remaining \$5.0 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net increase of \$224 million in spending is mainly due to the following:

- A net increase of \$611.5 million in contribution funds based on a projected cash flow increase in the Building Canada Fund, including a reduction of \$4.5 million in Strategic Review savings related to the Strategic Research and Partnerships sub-component;
- A net increase of \$49.1 million in contribution funds under the Municipal Rural Infrastructure Fund based on projected cash flow requirements of provinces and territories;
- A net increase of \$31.7 million in contribution funds under the Canada Strategic Infrastructure Fund based on projected cash flow requirements for approved projects;
- A net increase of \$4.9 million in operating funds when comparing 2012–13 Main Estimates to 2011–12 Main Estimates. In 2011–12, Infrastructure Canada's operating funds were augmented by \$9.7 million through Supplementary Estimates. On a full year basis, Infrastructure Canada anticipates a decrease in operating funding in line with the end of the Economic Action Plan programs;
- A net decrease of \$349.0 million in contribution funds under the Green Infrastructure Fund. Of this amount, a 269.8 million decrease is based on projected cash flow requirements for approved projects, \$58.7 million is used as a source of funds for the operating requirements of the department, \$14.5 million is a transfer to the Economic Development Agency of Canada for the Regions of Quebec for the construction of a Gas Pipeline between Vallée-Jonction and Thetford Mines and \$6.0 million is a transfer to the department of Aboriginal Affairs and Northern Development Canada for the implementation of the Beaufort Regional Environmental Assessment. To note, the 2012–13 reference level also reflects previously announced transfers of \$25.0 million to Natural Resources Canada to support the Investments in Forest Industry Transformation program and \$15.0 million to the Economic Development Agency of Canada for the Regions of Quebec to strengthen and increase economic activity in areas affected by the forestry crisis;
- A net decrease of \$114.0 million in other transfer payments under the Provincial-Territorial Infrastructure Base Funding Program based on projected cash flow requirements for approved plans; and
- A net decrease of \$9.9 million in contribution funds under the Border Infrastructure Fund based on projected cash flow requirements for approved projects and including a reduction of \$5.2 million on Strategic Review Savings.

Transport

The Jacques Cartier and Champlain Bridges Inc.

Raison d'être

The Jacques Cartier and Champlain Bridges Inc. is a Crown corporation established in 1978 whose mission is to own, manage, operate and maintain the Jacques-Cartier Bridge, the Champlain Bridge and its Estacade (Ice Structure Control), the Nun's Island Bridge, the Melocheville Tunnel and the federal sections of the Honoré Mercier Bridge, the Bonaventure Expressway and Highway 15, to provide the public with safe and efficient transport.

Highlights

The Jacques Cartier and Champlain Bridges Inc. is estimating budgetary expenditures of \$150.4 million in 2012–13. Of this amount, \$150.4 million requires approval by Parliament.

The budget for the Jacques Cartier and Champlain Bridges Inc. increased by \$51.4 million over 2011–12 Main Estimates. The increase mainly reflects the additional funding received through Budget 2011 for major maintenance and repairs to all structures.

- An increase of \$13.3 million in funding for Federal Contaminated Sites Action Plan from Budget 2011 for 2011–12 and future years;
- An increase of \$85.9 million for additional funding received through Budget 2011 for major maintenance and repairs to all structures; and
- A decrease of \$44.3 million in Capital funding for the Honoré Mercier project due to a smaller work load for 2012–13.

Transport

Transportation Appeal Tribunal of Canada

Raison d'être

The mandate and the jurisdiction of the Transportation Appeal Tribunal of Canada are provided for by the *Transportation Appeal Tribunal of Canada Act*. The Tribunal's principal mandate as a multimodal review body is to hold review and appeal hearings at the request of interested parties with respect to certain administrative actions taken under various federal transportation Acts.

The objective of the Tribunal is to provide the transportation community with the opportunity to have enforcement and licensing decisions of the Minister of Transport reviewed by an independent body.

Additional information can be found in the Tribunal's Report on Plans and Priorities.

Highlights

The Transportation Appeal Tribunal of Canada is estimating budgetary expenditures of \$1.4 million in 2012–13. Of this amount, \$1.3 million requires approval by Parliament. The remaining \$126.9 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Transportation Appeal Tribunal of Canada will continue with the implementation of priorities linked to its strategic plan, which include:

- Holding Review and Appeal Hearings expeditiously and informally; and
- Increasing awareness of the Transportation Appeal Tribunal of Canada with respect to its mission, mandate, role and results achieved.

Transport

VIA Rail Canada

Raison d'être

VIA Rail Canada was established as a crown corporation in 1978 to operate as the nation's passenger rail carrier. Its objective is to provide a safe, efficient, and reliable passenger service in Canada.

The network includes trains that operate in the Quebec City to Windsor Corridor, and long-haul trains, between Toronto and Vancouver and between Montreal and Halifax. VIA also provides passenger rail transportation to regional and remote communities, some without alternative year-round transportation access.

Highlights

VIA Rail Canada Inc. is estimating budgetary expenditures of \$306.5 million in 2012–13. Of this amount, \$306.5 million requires approval by Parliament.

VIA Rail Canada Incorporated's total expenditures planned for 2012–13 reflect a \$151.8 million decrease from 2011–12 due to the following factors:

- An increase of \$118.5 million as a result of delays in starting certain capital projects; and
- A decrease of \$270.3 million as a result of sunsetting funding for major equipment maintenance, overhaul, and capital projects introduced in Budget 2007 and Budget 2009. Significant progress has been made on capital projects which extend over several fiscal years.

In 2012–13, VIA will spend \$140.0 million on capital projects. It will complete the following projects:

- Upgrades to the infrastructure between Brockville and Toronto including over 40 miles of new third main line trackage, new signals and upgraded highway crossings;
- Rebuilding of the 53 F40 locomotive fleet and 12 sleeping and lounge cars;
- Construction of an additional platform and overhead connector to the station at Cobourg and Oshawa; and
- Upgrades to VIA computer systems.

These expenditures will bring total capital investments to \$866.4 million or 96% of the capital provided in Budgets 2007 and 2009.

During 2012–13, VIA will continue to rebuild the 98 Light Comfortable and Rapid (LRC) passenger cars. This project will be finished in 2013–14.

Treasury Board

Treasury Board Secretariat

Raison d'être

The Treasury Board of Canada Secretariat (TBS) is the administrative arm of the Treasury Board. It supports Treasury Board by making recommendations and providing Treasury Board with advice on policies, regulations, and program spending, while respecting the primary responsibility of deputy heads in managing their organizations and their roles as accounting officers to Parliament. Within the Secretariat, the Comptroller General of Canada, the Chief Human Resources Officer, and the Chief Information Officer provide government-wide leadership for financial management, people management, and information management and technology, respectively. The Secretariat's efforts help ensure that government is well-managed and accountable, and that resources are allocated to achieve results. Creative and effective government contributes to Canada's competitive advantage, providing a strong foundation for security, stability, and prosperity.

Highlights

The Treasury Board Secretariat is estimating budgetary expenditures of \$5.68 billion in 2012–13, of which \$224.0 million is for departmental activities and \$5,461 million for Central Votes. Of this amount, \$5.65 billion requires approval by Parliament. The remaining \$30.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

With the funds anticipated through these Main Estimates, the Treasury Board Secretariat will support the Treasury Board by providing advice on policies, directives, regulations, and program spending to promote sound management of government resources, with a particular focus this year on fiscal restraint. The Secretariat will also provide leadership and guidance on management functions within departments and agencies, while respecting the primary responsibility of deputy heads in managing their organizations and their role as accounting officers to Parliament.

The Treasury Board of Canada Secretariat's net spending will decrease by \$192.9 million from the previous Main Estimates.

The major changes are:

- A decrease of \$175.0 million to Vote 20, Public Service Insurance. The majority of the decrease is due to the transfer of the management of pension, insurance and social security programs for locally engaged staff to Foreign Affairs and International Trade and National Defense for \$70.0 million; and the savings from the successful introduction of a pay direct card for the Public Service Health Care Plan and lower growth in plan membership for \$105.0 million.
- A net decrease of \$11.3 million to Vote 1, Program expenditures. This includes increases of \$9.4 million for the establishment and maintenance of a Litigation Management Unit and other related litigation costs, \$3.3 million for the U.S.-Canada Regulatory Cooperation Council, \$2.0 million for a workspace renewal project, in preparation for relocation of TBS offices and \$2.4 million for the transition to a renewed departmental information technology infrastructure. These increases are offset by a \$9.9 million transfer to the newly created Shared Services Canada, Strategic Review 2010 reductions of \$8.5 million announced in Budget 2011, sunsets of Streamlining Regulations, Internal Audit Management Framework, and Financial Interoperability Stewardship Initiative totaling \$7.0 million and miscellaneous net decreases of \$3.0 million.
- A decrease of \$5.3 million to Vote 10, Government-Wide Initiatives. Funding originally set aside for the Leadership Development Framework is being returned to the Fiscal Framework.

Canada School of Public Service

Raison d'être

The Canada School of Public Service (CSPS) is the common learning service provider for the Public Service of Canada. The School has a legislative mandate to provide a range of learning activities to build individual and organizational capacity and management excellence within the Public Service.

The School has one strategic goal, to ensure public servants have the common knowledge and leadership and management competencies required to effectively serve Canada and Canadians.

Additional information can be found in the Departmental Report on Plans and Priorities.

Highlights

The Canada School of Public Service is estimating budgetary expenditures of \$101.1 million in 2012–13. Of this amount, \$44.7 million requires approval by Parliament. The remaining \$56.4 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net year-over-year decrease of \$3.9 million in planned spending is mainly due to the following:

- A decrease of \$3.04 million for the transfer of funding to Shared Services Canada under the Administrative Services Review initiative;
- The elimination of funding of \$545.0 thousand for the Official Languages University Pilot Project; and
- A reduction in employee benefit plans of \$294.0 thousand.

In 2012–13, CSPS will continue to invest in the delivery of its program in accordance with the Treasury Board's Policy on Learning, Training and Development. Specifically, the School will be supporting the accountabilities of deputy heads by designing and delivering high-quality and practical programming that addresses the key development needs of public service employees.

Office of the Commissioner of Lobbying

Raison d'être

The Office of the Commissioner of Lobbying (OCL) supports the Commissioner of Lobbying, the Agent of Parliament responsible for the administration of *the Lobbying Act* (the Act). The legislation seeks to improve transparency and accountability regarding communications between lobbyists and federal public office holders and increase the confidence of Canadians in the integrity of government decision-making. To that end, the mandate of the OCL is to establish and maintain the Registry of Lobbyists, develop and implement educational programs to foster awareness about the Act; and, ensure compliance with the Act and the *Lobbyists' Code of Conduct*.

Highlights

Office of the Commissioner of Lobbying is estimating budgetary expenditures of \$4.6 million in 2012–13. Of this amount, \$4.2 million requires approval by Parliament. The remaining \$435.3 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Office of the Commissioner of Lobbying's planned expenditures remain approximately the same as the previous year.

In 2012–13, the OCL intends to support parliamentarians responsible for reviewing the *Lobbying Act* (the Act). The review was initiated in December 2011.

The OCL will continue to invest in the Registry of Lobbyists to make the system easier to use and more dependable, both for lobbyists to report on their activities and for Canadians to search for this information.

The Commissioner and her staff will continue to deliver a broad range of education activities to reach out to key stakeholder groups, from the National Capital region and across the country, to ensure that lobbyists, their clients and public office holders are fully informed of the requirements of the Act.

The Office will continue to deal with alleged breaches to the Act and the Lobbyists' Code of Conduct.

Treasury Board

Public Sector Integrity Commission

Raison d'être

The Office of the Public Sector Integrity Commissioner of Canada (the Office) was set up to administer the *Public Servants Disclosure Protection Act*, which came into force in April 2007. The Office is mandated to establish a safe, independent, and confidential process for public servants and members of the public to disclose potential wrongdoing in the federal public sector. The Office also exists to protect from reprisal those public servants who have filed disclosures or participated in related investigations.

Highlights

Public Sector Integrity Commission is estimating budgetary expenditures of \$5.7 million in 2012–13. Of this amount, \$5.1 million requires approval by Parliament. The remaining \$523.1 thousand represents statutory forecasts that do not require additional approval and are provided for information purposes.

The Office's spending authority will reduce by \$1.2 million as it returns to its base budget. The 2012–13 planned expenditures reflect the steady state cost structure, after implementing cost containment measures to address budget pressures.

Veterans Affairs

Veterans Affairs

Raison d'être

Canada's development as an independent country with a unique identity stems in no small measure from its achievements in times of war with a good part of our modern identity also associated with pride in Canada's enviable peacekeeping record. However, Canada's contribution to global peace and security, both as ally and peacekeeping partner, has come at a heavy price in terms of lives sacrificed, health forfeited and hopes unfulfilled.

Veterans Affairs exists to repay the nation's debt of gratitude toward those whose courageous efforts have given us this legacy and have contributed to our growth as a nation.

Highlights

The Veterans Affairs is estimating budgetary expenditures of \$3.6 billion in 2012–13. Of this amount, \$3.5 billion requires approval by Parliament. The remaining \$40.7 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A net increase of \$44.8 million in planned spending is mainly due to the following:

- An increase of \$60.3 million for Disability Awards and Allowances due to increases in the number of new applications, an increase in the number of existing clients with new conditions and/or reassessments, and annual inflation;
- An increase of \$40.8 million for the Earnings Loss benefit due to more clients accessing benefits for longer periods, and with the enactment of the *Enhanced New Veterans Charter Act*;
- An increase of \$1.9 million for Vocational Rehabilitation, Rehabilitation Related Health Care, and Career Transition Services, due to clients remaining in the program for longer periods and increased treatment costs;
- An increase of \$1.6 million primarily due to an increasing number of Canadian Forces Veterans accessing the Veterans Independence Program. This increase is partially offset by a decline in War Service clients;
- An increase of \$1.5 million related to the establishment of the Community War Memorial Program;
- A net decrease of \$23.8 million in the Operating budget due to the cessation of funding for ex gratia payments related to the health effects of Agent Orange use at CFB Gagetown and the transfer of IT resources for the establishment of Shared Services Canada. These decreases are partially offset by an increase of \$10.5 million for the Department's Transformation Plan;
- A net decrease of \$20.7 million for Other Health Purchased Services primarily due to the reduction in demand for health care benefits to eligible War Service Veterans;
- A decrease of \$13.1 million in the cost of disability pensions primarily due to a decline in the number of War Service clients. This decrease is partially offset by annual inflation adjustments; and
- A decrease of \$1.7 million in War Veterans Allowance due to a decrease in the number of eligible clients.

Total contributions	359,910,000	356,810,000	3,100,000
Total	2,644,790,000	2,556,365,000	88,425,000

Veterans Affairs

Veterans Review and Appeal Board

Raison d’être

The Veterans Review and Appeal Board is an independent, quasi-judicial tribunal created in 1995. The Board provides an appeal program for service-related disability decisions made by Veterans Affairs Canada. This program gives applicants two levels of redress for disability pension and disability award decisions and the final level of appeal for War Veterans Allowance claims.

The Board’s objective is to ensure that Canada’s traditional Veterans, Canadian Forces members and Veterans, Royal Canadian Mounted Police applicants, qualified civilians and their families receive the disability pensions, disability awards and other benefits to which they are entitled under the law.

Highlights

The Veterans Review and Appeal Board is estimating budgetary expenditures of \$11.5 million in 2012–13. Of this amount, \$9.9 million requires approval by Parliament. The remaining \$1.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

The planned expenditures of the Veterans Review and Appeal Board (VRAB) remain approximately the same as the previous year. In 2012–13, VRAB will continue implementing its strategic plan. It will undertake the following activities:

- Program Delivery – It ensures applicants have an avenue of redress by an independent tribunal for disability compensation and War Veterans Allowance applications.
- Improved Program Delivery – Enhancing program delivery through innovation and the use of technology improves the process for applicants.
- Communication – It ensures applicants and all Canadians have information on the Board's mandate, program, and redress process, while meeting the increasing information needs of applicants.
- Accountable Management – To provide an effective program for applicants and their families by focussing on management, transparency and accountability.

Note: Totals may not add due to rounding.

Western Economic Diversification

Western Economic Diversification

Raison d'être

Western Economic Diversification Canada (WD) was established in 1987 and mandated to promote the development and diversification of the economy of Western Canada and to advance the interests of the West in national economic policy, program and project development and implementation.

As the federal economic development department for Western Canada, WD develops and supports economic policies, programs and activities that promote economic growth and assist Western Canada in responding to the economic challenges and opportunities it faces.

Highlights

Western Economic Diversification is estimating budgetary expenditures of \$176.3 million in 2012–13. Of this amount, \$166.7 million requires approval by Parliament. The remaining \$9.6 million represents statutory forecasts that do not require additional approval and are provided for information purposes.

A decrease in net spending of \$19.2 million is due to a decrease in operating costs of \$1.8 million and a decrease in contributions of \$17.4 million. Factors contributing to the net decrease include:

- An increase of \$2.0 million related to operating funds transferred from Infrastructure Canada to WD to deliver under the Building Canada Fund-Communities Component program in western Canada;
- A decrease of \$12.3 million related to the celebration of the 2005 Alberta and Saskatchewan Centenaries;
- A decrease of \$5.6 million resulting from the 2010 Strategic Review;
- A decrease of \$2.6 million for the transfer to Shared Services Canada; and
- A decrease of \$0.7 million related to operating funds transferred from Infrastructure Canada to WD to administer projects under the Building Canada Fund – Major Infrastructure Component and the delivery of the Municipal Rural Infrastructure Fund.
